Recognizing the exaggeration ways to get this books **1q 2017 results presentation transcription bbva colombia** is additionally useful. You have remained in right site to start getting this info. get the 1q 2017 results presentation transcription bbva colombia belong to that we give here and check out the link.

You could buy lead 1q 2017 results presentation transcription bbva colombia or get it as soon as feasible. You could speedily download this 1q 2017 results presentation transcription bbva colombia after getting deal. So, behind you require the book swiftly, you can straight acquire it. Its so entirely easy and hence fats, isnt it? You have to favor to in this spread

Science & Engineering Indicators - 2000

The Arc of Protection - T. Alexander Aleinikoff
2019-10-01

The international refugee regime is fundamentally broken. Designed in the wake of World War II to provide protection and assistance, the system is unable to address the record numbers of persons displaced by conflict and violence today. States have put up fences and adopted policies to deny, deter, and detain asylum seekers. People recognized as refugees are routinely denied rights guaranteed by international law. The results are dismal for the millions of refugees around the world who are left with slender prospects to rebuild their lives or contribute to host communities. T. Alexander Aleinikoff and Leah Zamore lay bare the underlying global crisis of responsibility. The Arc of Protection adopts a revisionist and critical perspective that examines the original premises of the international refugee regime. Aleinikoff and Zamore identify compromises at the founding of the system that attempted to balance humanitarian ideals and sovereign control of their borders by states. This book offers a way out of the current international morass through refocusing on responsibility-sharing, seeing the humanitarian-development divide in a new light, and putting refugee rights front and center.

[Foreign Direct Investment in Latin America and the Caribbean 2008](#) - United Nations 2010-01-26
The Foreign Relations of the United States

series presents the official documentary historical record of major U.S. foreign policy decisions and significant diplomatic activity. The series, which is produced by the State Department's Office of the Historian, began in 1861 and now comprises more than 350 individual volumes. The volumes published over the last two decades increasingly contain declassified records from all the foreign affairs agencies.

Studies on Multilingual Lexicography - María José Domínguez Vázquez 2019-12-16

Given the new technological advances and their influence and imprint in the design and development of dictionaries and lexicographic resources, it seems important to put together a series of publications that address this new situation, dealing in particular with multilingual and electronic lexicography in an increasingly digital, multilingual and multicultural society. This is the main objective of this volume, which is structured in two central aspects. In the first of them the concept of multilingual lexicography is discussed in regard to the influence that the Internet and the application of digital technologies have exercised and continue to exercise both in the conception and design of dictionaries and new lexicographic application tools as well as the emergence of new types of users and forms of consultation. The role of the dictionary must necessarily be related to social development and changes. In the second thematic section, different dictionaries and resources that focus on a multilingual and

electronic approach to the linguistic data for their lexicographical treatment and consultation are presented.

OECD Territorial Reviews: Japan 2016 - OECD
2016-04-11

Japan is embarked on a demographic transition without precedent in human history: the population is both declining and ageing rapidly. This raises important questions about the country's future economic geography, as public policies will need both to respond to these shifts and also to shape them.

Innovation for Sustainability - Nancy Bocken
2019-02-22

The aim of this edited book is to provide a comprehensive overview of the opportunities and challenges related to innovation for sustainability. Combining work from both emerging and established scholars in different academic fields, this book provides an integrated understanding of the topic from four perspectives. First, the big picture: frameworks, types, and drivers; second, strategy and leadership; third, measurement and assessment and fourth, tools, methods and technologies.

Chapter 11 of this book is available open access under a CC BY 4.0 license at link.springer.com. The editors donate their remuneration for this book to conservation organisation the WWF.

Purpose-driven Organizations - Carlos Rey
2019-06-17

A higher purpose is not simply about profit. Symbolising the motivations of our actions and efforts, it reflects something much more aspirational and contributes to our global society. This open access book offers novel solutions to ensure employees support a wider organizational meaning whilst guaranteeing that the company benefits from the employee's individual sense of purpose. Advocating a shift from previous models and theories, this book contributes to debate and offers insight for both scholars and practitioners. The chapters bring together academic rigour and practical models to help readers distinguish between the fads and influential strategies. Exploring the development of purpose at each level of business, from strategy and leadership to communication, this book avoids theoretical jargon and provides new approaches to building sustainable purpose-driven organizations. This is an Open Access

book sponsored by DPMC Spain, UIC Barcelona and Corporate Excellence - Centre for Reputation Leadership

Spanish Sentence Builders - a Lexicogrammar Approach - Dylan Viñales
2020-05-05

Spanish Sentence Builders is a workbook aimed at beginner to pre-intermediate students co-authored by two modern languages educators with over 40 years of extensive classroom experience between the two, both in the UK and internationally. This 'no-frills' book contains 19 units of work on very popular themes, jam-packed with graded vocabulary-building, reading, translation, retrieval practice and writing activities. Key vocabulary, lexical patterns and structures are recycled and interleaved throughout. Each unit includes: 1) a sentence builder modelling the target constructions; 2) a set of vocabulary building activities; 3) a set of narrow reading texts exploited through a range of tasks focusing on both the meaning and structural levels of the text; - a set of retrieval-practice translation tasks; 4) a set of writing tasks targeting essential micro-skills such as spelling, lexical retrieval, syntax, editing and communication of meaning. Based on the Extensive Processing Instruction (E.P.I.) principle that learners learn best from comprehensible and highly patterned input flooded with the target linguistic features, the authors have carefully designed each and every text and activity to enable the student to process and produce each item many times over. This occurs throughout each unit of work as well as in smaller grammar, vocabulary and question-skills micro-units located at regular intervals in the book, which aim at reinforcing the understanding and retention of the target grammar, vocabulary and question patterns.

Similar Languages, Varieties, and Dialects - Marcos Zampieri
2021-09-02

Studying language variation requires comprehensive interdisciplinary knowledge and new computational tools. This essential reference introduces researchers and graduate students in computer science, linguistics, and NLP to the core topics in language variation and the computational methods applied to similar languages, varieties, and dialects.

The Handbook of Environmental Policy

Evaluation - Ann Crabb 2012-05-04

Policy evaluation is an important and well-established part of the policy process, facilitating and feeding back to promote the ongoing effectiveness of policies that have been implemented or anticipating policies in the making. Environmental policy is a special case, presenting new complexities uncommon to other areas, which standard evaluation tools are ill-equipped to grapple with. It is also an area that is experiencing rapid growth throughout the world and knowledge is now needed at all levels of government and in NGOs, businesses and other organizations, all of whom are required to assess the effectiveness of their policies. This handbook is the first guide to environmental policy evaluation in practice. Beginning with an introduction to the general principles of evaluation, it explains the particular complexities native to the environmental sphere and provides a comprehensive toolkit of evaluation methods and techniques which the practitioner can employ and refer to again and again. The authors also consider design issues which may face the policy evaluator, including involvement of stakeholders, the sensitivities between them, the a priori assessment of the evaluability of a field, the maximization of the utilization of the evaluations outcomes, and much more. Throughout, the theory is illustrated with practical examples from around the world, making this the essential companion guide for anyone tasked with ensuring that environmental policy fulfils its aims and achieves its potential.

Integrated Science in Digital Age - Tatiana Antipova 2019-06-17

This book gathers selected papers presented at the 2019 International Conference on Integrated Science in Digital Age (ICIS 2019), which was jointly supported by the Institute of Certified Specialists (ICS), Russia and Springer and held in Batumi, Georgia on May 10-12, 2019. The ICIS 2019 received roughly 50 contributions, by authors hailing from six countries. Following a peer-review process, the Scientific Committee – a multidisciplinary group of 110 experts from 38 countries around the globe – selected roughly 60% for publication. The main topics covered include: Artificial Intelligence Research; Digital Business & Finance; Educational Sciences; Health Management Informatics; Public

Administration in the Digital Age; and Social Problem-solving.

Hard Core Cartels - OECD 2003-05-23

Anti-cartel measures seek to prevent violations of competition law such as agreements among competitors to fix prices, restrict product supply or submit collusive tenders. This report examines the harm caused by cartels and the progress made to strengthen methods of investigation and sanctions systems to tackle this problem. It also outlines and identifies the challenges that lie ahead.

Economic and fiscal outlook - Office for Budget Responsibility 2010-11-29

The Office for Budget Responsibility was established to provide independent and authoritative analysis of the UK's public finances. Part of this role includes producing the official economic and fiscal forecasts. This report sets out forecasts for the period to 2015-16. The report also assesses whether the Government is on course to meet the medium-term fiscal objectives and presents preliminary observations on the long-run sustainability of the public finances. Since the June forecast, the UK economy has recovered more strongly than initially expected. The GDP growth was greater than expected in both the 2nd and 3rd quarters, but that unemployment levels have risen to levels that the June forecast did not anticipate until the middle of 2012. In general the world economy has also grown more strongly. CPI inflation has remained slightly higher than expected in June, whilst public finances have performed as forecast. The interest rates on UK debt are lower than in June. The OBR forecasts that the economy will continue to recover from the recession, but at a slower pace than the recoveries of the 1970s, 1980s and 1990s. The publication is divided into 5 chapters with two annexes.

Data Management, Analytics and Innovation - Neha Sharma 2019-10-24

This book presents the latest findings in the areas of data management and smart computing, big data management, artificial intelligence and data analytics, along with advances in network technologies. It addresses state-of-the-art topics and discusses challenges and solutions for future development. Gathering original, unpublished contributions by scientists from around the

globe, the book is mainly intended for a professional audience of researchers and practitioners in academia and industry.

Microfinance investments : an investor's guide to financing the growth and wealth creation of small enterprises and low income households in emerging economies - Roland Dominicé 2012

"This book offers investors an in-depth guide to understanding the microfinance investment value chain and its benefits. It aims to increase the awareness of this growing asset class among traditional investors by providing a detailed review of the current state of the industry. The book focuses on the two key intermediaries linking investors and small enterprises: financial institutions and investment funds, covering their respective markets, models, risks, performance and impact. By describing their dynamics, strengths and weaknesses, it helps the investor to better grasp the elements of choice when deciding to add microfinance in his portfolio."-- Preface.

Gerontechnology - José García-Alonso
2020-02-28

This book constitutes the thoroughly refereed post-conference proceedings of the Second International Workshop on Gerontechnology, IWOG 2019, held in Cáceres, Spain, in September 2019. The 24 revised full papers along with 11 short papers presented were carefully reviewed and selected from 77 submissions. The papers are organized in topical sections on smart technologies and algorithms for health; technologies to increase the quality of life of the elderly population; Internet of Things (IoT); solutions for active aging, social integration and self-care; monitoring and management of chronic and non-chronic diseases; health interventions to support caregivers of elderly people; public and other health initiatives.

The Next Step - 2017-03

The Next Step: Exponential Life presents essays on the potential of what are known as "exponential technologies"--those whose development is accelerating rapidly, such as robotics, artificial intelligence or industrial biology--considering their economic, social, environmental, ethical and even ontological implications. This book's premise is that humanity is at the beginning of a technological

revolution that is evolving at a much faster pace than earlier ones--a revolution is so far-reaching it is destined to generate transformations we can only begin to imagine. Contributors include Aubrey D.N.J. de Grey, Jonathan Rossiter, Joseph A. Paradiso, Kevin Warwick, Huma Shah, Ramón López de Mántaras, Helen Papagiannis, Jay David Bolter, Maria Engberg, Robin Hanson, Stuart Russell, Darrell M. West, Francisco González, Chris Skinner, Steven Monroe Lipkin, S. Matthew Liao, James Giordano, Luciano Floridi, Seán Ó Héigeartaigh and Martin Rees.

Impact of Information Society Research in the Global South - Arul Chib 2015-04-15

The second volume in the SIRCA book series investigates the impact of information society initiatives by extending the boundaries of academic research into the realm of practice. Global in scope, it includes contributions and research projects from Asia, Africa and Latin America. The international scholarly community has taken a variety of approaches to question the impact of information society initiatives on populations in the Global South. This book addresses two aspects— Impact of research: How is the research on ICTs in the Global South playing a role in creating an information society? (e.g. policy formulation, media coverage, implementation in practice) and Research on impact: What is the evidence for the impact of ICTs on society? (i.e. the objectives of socio-economic development). This volume brings together a multiplicity of voices and approaches from social scientific research to produce an engaging volume for a variety of stakeholders including academics, researchers, practitioners, policy-makers and those in the business and civil sectors of society.

U. S. -Mexico Economic Relations - M. Angeles Villareal 2011-04

Mexico has a population of about 111 million people, making it the most populous Spanish-speaking country in the world. Contents of this report: (1) Intro.; (II) U.S.-Mexico Econ. Trends: Mexico-U.S. Bilateral Foreign Direct Invest.; Mexico's Export-Oriented Assembly Plants; Worker Remittances to Mexico; Security and Prosperity Partnership of N. Amer.; (3) The Mexican Economy: Economic Reforms; Effects of the Global Financial Crisis; Poverty; Regional Free Trade Agree.; (4) NAFTA and the U.S.-

Mexico Econ. Relationship; (5) U.S.-Mexico Trade Relations: Trucking Issue: Truck Pilot Program; Mexico's Retaliatory Tariffs; Other Trade Issues; (6) Policy Issues. Charts and tables. This is a print on demand publication. *Quality of Life in Communities of Latin Countries* - Graciela Tonon 2018-07-21

This book presents a reconfiguration of the concepts of community in Latin countries as well as the community quality of life and well-being of different groups: children, young people, older adults, migrants. The traditional concept of community has changed together with the way people participate in community spaces.

Community nowadays is more than a geographic concentration; it is related to social support, inter-subjectivity, participation, consensus, common beliefs, joint effort aiming at a major objective, and intense and extensive relationships. This volume presents unique experiences about culture, social development, health, water, armed conflicts, the digital media, and sports within communities, written by authors from Latin countries. This volume is a valuable resource for researchers, students, and policy makers in quality of life studies.

OECD Investment Policy Reviews: Philippines 2016 - OECD 2016-05-12

This review assesses the overall investment climate in the Philippines, looking at investment policy, investment promotion and facilitation, competition policy, infrastructure investment and responsible business conduct.

The State of Environmental Migration 2020 - 2021-04-08

The Propaganda Model Today - Joan Pedro-Carañana 2018-10-25

While the individual elements of the propaganda system (or filters) identified by the Propaganda Model (PM) - ownership, advertising, sources, flak and anti-communism - have previously been the focus of much scholarly attention, their systematisation in a model, empirical corroboration and historicisation have made the PM a useful tool for media analysis across cultural and geographical boundaries. Despite the wealth of scholarly research Herman and Chomsky's work has set into motion over the past decades, the PM has been subjected to marginalisation, poorly informed critiques and

misrepresentations. Interestingly, while the PM enables researchers to form discerning predictions as regards corporate media performance, Herman and Chomsky had further predicted that the PM itself would meet with such marginalisation and contempt. In current theoretical and empirical studies of mass media performance, uses of the PM continue, nonetheless, to yield important insights into the workings of political and economic power in society, due in large measure to the model's considerable explanatory power.

Big Data - Cornelia Hammer 2017-09-13

Big data are part of a paradigm shift that is significantly transforming statistical agencies, processes, and data analysis. While administrative and satellite data are already well established, the statistical community is now experimenting with structured and unstructured human-sourced, process-mediated, and machine-generated big data. The proposed SDN sets out a typology of big data for statistics and highlights that opportunities to exploit big data for official statistics will vary across countries and statistical domains. To illustrate the former, examples from a diverse set of countries are presented. To provide a balanced assessment on big data, the proposed SDN also discusses the key challenges that come with proprietary data from the private sector with regard to accessibility, representativeness, and sustainability. It concludes by discussing the implications for the statistical community going forward.

Civil Procedure Stories - Kevin M. Clermont 2008

This book is a collaborative effort by fourteen law-school professors to provide a deeper understanding of the great civil procedure cases. The professors each wrote a short chapter on one of the cases, retelling the cases in their own voice and by their own method. Each chapter has a fairly consistent structure, with separate sections on: social and legal background of the case; factual background of the case; lower court proceedings in the case; final appellate disposition, including issues, decisions, reasons, and separate opinions; factual postscript to the case; immediate impact of the case on the development of the law (why the case is famous and when it became so); and continuing

importance of the case today (why it is still a leading case). The accompanying website, <http://civprostories.law.cornell.edu>, serves as a research tool for students, academics, and practitioners. The poste

Economy, Business and Uncertainty: New Ideas for a Euro-Mediterranean Industrial Policy - Jaime Gil-Lafuente 2018-10-13

This book presents original research articles addressing various aspects of economics, management and optimization. The topics discussed include economics, finance, marketing, resource allocation strategies, fuzzy logic, and network-based techniques for the analysis of economics, management and mathematical optimization. Combining the input of contributing professors and researchers from various Spanish, Italian and Latin American universities, the book will be of interest to students, researchers and practitioners, as well as members of the general public interested in the world of Economics and Management.

International Handbook of Financial Literacy - Carmela Aprea 2016-03-24

This Handbook presents in-depth research conducted on a myriad of issues within the field of financial literacy. Split into six sections, it starts by presenting prevalent conceptions of financial literacy before covering financial literacy in the policy context, the state and development of financial literacy within different countries, issues of assessment and evaluation of financial literacy, approaches to teaching financial literacy, and teacher training and teacher education in financial literacy. In doing so, it provides precise definitions of the construct of financial literacy and elaborates on the state and recent developments of financial literacy around the world, to show ways of measuring and fostering financial literacy and to give hints towards necessary and successful teacher trainings. The book also embraces the diversity in the field by revealing contrasting and conflicting views that cannot be bridged, while at the same time making a contribution by re-joining existing materials in one volume which can be used in academic discourse, in research-workshops, in university lectures and in the definition of program initiatives within the wider field of financial literacy. It allows for a landscape of financial literacy to be depicted

which would foster the implementation of learning opportunities for human beings for sake of well-being within financial living-conditions. The Handbook is useful to academics and students of the topic, professionals in the sector of investment and banking, and for every person responsible for managing his or her financial affairs in everyday life.

Strategic Innovative Marketing - Androniki Kavoura 2016-09-26

This book presents the latest on the theoretical approach of the contemporary issues evolved in strategic marketing and the integration of theory and practice. It seeks to make advancements in the discipline by promoting strategic research and innovative activities in marketing. The book highlights the use of data analytics, intelligence and knowledge-based systems in this area. In the era of knowledge-based economy, marketing has a lot to gain from collecting and analyzing data associated with customers, business processes, market economics or even data related to social activities. The contributed chapters are concerned with using modern qualitative and quantitative techniques based on information technology used to manage and analyze business data, to discover hidden knowledge and to introduce intelligence into marketing processes. This allows for a focus on innovative applications in all aspects of marketing, of computerized technologies related to data analytics, predictive analytics and modeling, business intelligence and knowledge engineering, in order to demonstrate new ways of uncovering hidden knowledge and supporting marketing decisions with evidence-based intelligent tools. Among the topics covered include innovative tourism marketing strategies, marketing communications in small and medium-sized enterprises (SMEs), the use of business modeling, as well as reflecting on the marketing trends and outlook for all transportation industry segments. The papers in this proceedings has been written by scientists, researchers, practitioners and students that demonstrate a special orientation in strategic marketing, all of whom aspire to be ahead of the curve based on the pillars of innovation. This proceedings volume compiles their contributions to the field, highlighting the exchange of insights on strategic issues in the science of innovation

marketing.

Marketing and Smart Technologies - Álvaro Rocha 2020

This book includes selected papers presented at the International Conference on Marketing and Technologies (ICMarkTech 2019), held at Maieutica Academic Campus (University Institute of Maia & Polytechnic Institute of Maia) in Maia, Portugal, from 27 to 29 November 2019. It covers up-to-date cutting-edge research on artificial intelligence applied in marketing, virtual and augmented reality in marketing, business intelligence databases and marketing, data mining and big data, marketing data science, web marketing, e-commerce and v-commerce, social media and networking, geomarketing and IoT, marketing automation and inbound marketing, machine learning applied to marketing, customer data management and CRM, and neuromarketing technologies.

Poetry and Ethics - Andrea Grieder 2018-06

This book on the topic of ethics and poetry consists of contributions from different continents on the subject of applied ethics related to poetry. It allows for a comparison of the healing power of words from various religious, spiritual and philosophical traditions.

Federalism and the Response to COVID-19 - Rupak Chattopadhyay 2021-11-25

The COVID-19 pandemic bared the inadequacies in existing structures of public health and governance in most countries. This book provides a comparative analysis of policy approaches and planning adopted by federal governments across the globe to battle and adequately respond to the health emergency as well as the socio-economic fallouts of the pandemic. With twenty-four case studies from across the globe, the book critically analyzes responses to the public health crisis, its fiscal impact and management, as well as decision-making and collaboration between different levels of government of countries worldwide. It explores measures taken to contain the pandemic and to responsibly regulate and manage the health, socio-economic welfare, employment, and education of its people. The authors highlight the deficiencies in planning, tensions between state and local governments, politicization of the crisis, and the challenges of

generating political consensus. They also examine effective approaches used to foster greater cooperation and learning for multi-level, polycentric innovation in pandemic governance. One of the first books on federalism and approaches to the COVID-19 pandemic, this volume is an indispensable reference for scholars and researchers of comparative federalism, comparative politics, development studies, political science, public policy and governance, health and wellbeing, and political sociology.

Disruptive Technology in Banking and Finance - Timothy King 2021-12-02

This book exemplifies the potential of FinTech to deliver important economic and societal gains, such as enhancing competition and financial inclusion to deliver tailored financial products and services at more affordable prices and at greater convenience. The emergence of FinTech directly challenges the business models of incumbent financial intermediaries like banks, which are adapting by developing their own FinTech offerings and partnering with FinTech and large technology firms. FinTech also constitutes both known and unknown risks to financial stability and challenges regulators to evaluate whether existing regulations are sufficient. The emergence of FinTech as a global phenomenon requires insightful cross-country analysis and different perspectives to evaluate its development and associated opportunities and challenges. This book will be of interest to practitioners, regulators and students of this essential enabling technology that is a major component of the Fourth Industrial Revolution.

Risk Assessment and Risk Management on Non-ferrous Metals - George M. Gray 1997

Writing Sounds in Carolingian Europe - Susan Rankin 2018-10-31

Musical notation has not always existed: in the West, musical traditions have often depended on transmission from mouth to ear, and ear to mouth. Although the Ancient Greeks had a form of musical notation, it was not passed on to the medieval Latin West. This comprehensive study investigates the breadth of use of musical notation in Carolingian Europe, including many examples previously unknown in studies of notation, to deliver a crucial foundational model

for the understanding of later Western notations. An overview of the study of neumatic notations from the French monastic scholar Dom Jean Mabillon (1632-1707) up to the present day precedes an examination of the function and potential of writing in support of a musical practice which continued to depend on trained memory. Later chapters examine passages of notation to reveal those ways in which scripts were shaped by contemporary rationalizations of musical sound. Finally, the new scripts are situated in the cultural and social contexts in which they emerged.

Can Blockchain Revolutionize International

Trade? - World Trade Organization Wto 2019 Trade has always been shaped by technological innovation. In recent times, a new technology, Blockchain, has been greeted by many as the next big game-changer. Can Blockchain revolutionize international trade? This publication seeks to demystify the Blockchain phenomenon by providing a basic explanation of the technology. It analyses the relevance of this technology for international trade by reviewing how it is currently used or can be used in the various areas covered by WTO rules. In doing so, it provides an insight into the extent to which this technology could affect cross-border trade in goods and services, and intellectual property rights. It discusses the potential of Blockchain for reducing trade costs and enhancing supply chain transparency as well as the opportunities it provides for small-scale producers and companies. Finally, it reviews various challenges that must be addressed before the technology can be used on a wide scale and have a significant impact on international trade.

There's a Future - Nayef Al-Fodhan 2013-04-01

The book presents eighteen essays that explore the future from very different perspectives, grouped under five overarching themes: Fundamentals, Science and Technology, The Environment, Global Society, and People. The final chapter details how BBVA is pr

Food and Agricultural Development - United States. Agency for International Development

1982

Computational and Corpus-Based

Phraseology - Gloria Corpas Pastor 2019-08-30

This book constitutes the refereed proceedings of the Third International Conference on Computational and Corpus-Based Phraseology, Europhras 2019, held in Malaga, Spain, in September 2019. The 31 full papers presented in this book were carefully reviewed and selected from 116 submissions. The papers in this volume cover a number of topics including general corpus-based approaches to phraseology, phraseology in translation and cross-linguistic studies, phraseology in language teaching and learning, phraseology in specialized languages, phraseology in lexicography, cognitive approaches to phraseology, the computational treatment of multiword expressions, and the development, annotation, and exploitation of corpora for phraseological studies.

Towards a New Enlightenment? - Michelle Baddeley 2019-04-24

Addresses key issues in understanding the decade 2008-2018 and its impact on the societies of the future. Brings together the articles B28of twenty-two prestigious international experts in different fields of thought. Through an informative approach, the essays form a transversal view of today's thinking. This is the tenth title of the Open Mind essay collection published by BBVA.A27.0We are living through years of great importance, marked by the unstoppable evolution of technology, science and the information society. This book brings together twenty-two essays written by prestigious researchers from the world's leading universities on areas as diverse as crucial to our future: climate change, artificial intelligence, economics, cyber-security and geopolitics, democracy, anthropology, new media, astrophysics and cosmology, nanotechnology, biomedicine, globalisation, gender theory and the cities of the future.

New Financial Instruments - Organisation for Economic Co-operation and Development 1988
