Famous Butterfly Species - Prodigy Wizard
2016-05-25

Why should children learn to count money? There are two reasons. The first is because counting money entails the use of basic math skills like counting and skip counting. The second reason is because you want to teach your child about the value of money. These are two important concepts that your child should learn ASAP. Grab a copy of this book

People Are Bigger Than the Problems They Face - Ira L. Lake 2017-09-29

A STEP BY STEP GUIDE TO FIXING YOUR RELATIONSHIP Relationships can place more stress on us than money, careers, or even health

issues. We're told that love can conquer all, and yet we get overwhelmed by arguing over the most trivial issues. Other people seem to get their relationships right, yet many of the rest of us never seem to get them to work. And we're left wondering, "What's wrong with me?" or "What are they doing that I'm not?" The bad news is that no relationships are trouble free. The good news is that every one of us can take clear action steps to make our relationships stronger and more fulfilling. People Are Bigger Than the Problems They Face follows ten separate case studies of relationship difficulties. Ira L. Lake, a minister and counselor who works with both couples and individuals, recounts the facts and principles we can learn from each one. Even for those of us who haven't been able to form a relationship yet, these steps give us the tools to open ourselves to a better way of treating both ourselves and those who matter most to us.

Sequencing - Michael Metzger 2010-04
Watson and Crick discovered the human DNA. What made the difference was deciphering it. Like the human body, every organization has a DNA. What will make the difference is not seeing it, but sequencing it. It's the key to long-term success at innovation. Sequencing, written by business consultant Michael Metzger, explores what is required for a company to develop a culture that promotes innovation for the long haul. Harvard's Clayton Christensen reports that few companies have the capacity to innovate. The more success a company achieves, the harder it is for the company to innovate. And yet the reality is that companies innovate or die.

Metzger outlines the steps necessary to sustain innovation - the culture, conscience, and C-level leadership required. It begins by having an accurate assessment of human nature and reality. Institutional leaders ignore this book at their peril.

Denying to the Grave - Sara E. Gorman
2016-08-01

Why do some parents refuse to vaccinate their children? Why do some people keep guns at home, despite scientific evidence of risk to their family members? And why do people use antibiotics for illnesses they cannot possibly alleviate? When it comes to health, many people insist that science is wrong, that the evidence is incomplete, and that unidentified hazards lurk everywhere. In *Denying to the Grave*, Gorman and Gorman, a father-daughter team, explore the psychology of health science denial. Using several examples of such denial as test cases, they propose six key principles that may lead individuals to reject "accepted" health-related wisdom: the charismatic leader; fear of complexity; confirmation bias and the internet; fear of corporate and government conspiracies; causality and filling the ignorance gap; and the nature of risk prediction. The authors argue that the health sciences are especially vulnerable to our innate resistance to integrate new concepts with pre-existing beliefs. This psychological difficulty of incorporating new information is on the cutting edge of neuroscience research, as scientists continue to identify brain responses to new information that reveal deep-seated, innate discomfort with changing our minds. *Denying to the Grave* explores risk theory and how people make decisions about what is best for them and their loved ones, in an effort to better understand how people think when faced with significant health decisions. This book points the way to a new and important understanding of how science should be conveyed to the public in order to save lives with existing knowledge and technology.

Chronicles of a Daddy's Girl - Kimberly Solomon
2016-05-30

Many people in our society grow up without the love of their father. *Chronicles of a Daddy's Girl*, vol.1 is a beautifully written, God inspired, power-packed slice of solution and healing pie. In Volume 1, Kimberly shares some of her life

story dealing with the pain she suffered at the hands of a "good" father. The book is filled with riveting stories that take you right to the heart of the message, dealing with the pain she suffered.

1,001 Facts that Will Scare the S#*t Out of You - Cary Mcneal
2010-03-18

Fact: Chocolate contains the alkaloid theobromine, which in high doses can be toxic to humans, and in even small amounts can kill dogs, parrots, horses, and cats. This means that despite its name, the Kit-Kat candy bar is not a recommended snack for your kitty-cat. I wonder how many cats have died because of this confusion. Fact: The most germ-laden place on your toilet isn't the seat or even the bowl--it's the handle. The solution: Don't flush. Let the next guy worry about it. There are "just the facts"--and then there are just the facts that will frighten the bejeezus out of you. And thanks to this little gem of a bathroom book, you'll never look at the world the same way again, without, er, dry heaving a little bit. From the sneaky fish that can swim up our genitals to the E. coli bacteria lurking in the very water we drink, disturbing phenomena are everywhere we turn. Educational, entertaining, and undeniably horrifying, this book isn't guaranteed to help you, um, go to the bathroom, but it's certain to make your time there more...informed.

Salem VI - Jack Heath
2012-09

SALEM, MASS. - Newspaper editor John Andrews thought he'd lost everything when his wife was killed, but when timeless bloodlines reemerge Andrews realizes that a tragic accident may actually have been murder, and even worse, might be part of a battle between good and evil that has gone on hundreds of years.

My Overdue Book - Peter Bright
2015-04-30
My Overdue Book: Too many stories not to tell: spells out the varied episodes in the life of a man who spent decades working in Hollywood. He began as a little boy in Cincinnati impressed early on by the broadcasting magic of radio and then TV in the middle of twentieth century America. His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong

excursion in "Fun City East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. Following his wanderings through the jungles of Vietnam, Bright's interactions with many of America's top public figures throughout his decades in radio and television come to life with intriguing stories that are personal, professional, positive and negative. It's life without a filter! Readers across generations will share and co-experience numerous real life feelings and emotions with writer Bright as his winding trail of life opens in front of them. book endorsement for peter bright; i always thought that peter bright and i had many things in common; we both grew up in ohio, we both had careers in the live event and variety side of television, and the few times we had times to talk i thought we shared a mutual philosophy toward the ups and downs of life. but it wasn't until i read his "overdue" book that i realized just what a rich and storied life peter has had and how much more deeply he had experienced the highs and lows, particularly during his years in the military, than i ever could have imagined. it really amazes me just how little we know about people we think we know, and just how much more we appreciate who they are when we are fortunate enough to have that background filled in by someone as articulate and able to express both facts and feelings as peter has in this book. when i started to read it, i thought all of those common events that we shared would be an interesting parallel track to my life and as such i would have a great frame of reference, but as i read on, i realized just what an amazing story peter has to tell and just how well he tells it. ken ehrlich, executive producer, the grammy awards

[A Hoser's Guide to Canadian History](#) - Kirt Purdy 2016-03

The great thing about being Canadian is simply this: we don't take ourselves too seriously, which works out pretty well because no one else on the planet takes us seriously, either. If you're reading this book, there's a good chance you're a Canadian. But what does that mean? There are the stereotypical nods, such as politeness and apologizing, but there's so much more! To be honest, you've probably taken part in (or at least talked about) hockey, poutine, curling, canoes, health care, snowshoes, parkas, camping, beer,

road work, Canadian Tire, Slurpees, moose, maple syrup, and Tim Hortons in the last 24 hours. "A Hoser's Guide to Canadian History" is your ticket to even more things "Canadian" that you may have missed during your water-cooler discussions, online chats, or your seventeen-hour wait in the local emergency room. As you read this book, you'll discover new and exciting facts about Canada that simply weren't taught in school. As a History teacher, I found the need to spread the unvarnished truth of this great nation's past. People like Sir John "Eh" MacDonald, Tommy Douglas, and Pierre Trudeau all had a distinct impact on this great country of ours, and part of their stories are included in these pages. Even less-famous folks who helped to shape Canada got a mention: John Humphrey, Laura Secord, and Egerton Ryerson. (Yes, "Egerton" is a real name.) Canada has an exciting past, full of events that have brought us to where we are now. Like all countries, we have some things we'd like to forget, but most of those unpleasant moments happened because we had morons in Parliament, something that doesn't happen anymore. Canadians have no need to apologize for being nice, honest, and caring people. So, please enjoy this book, and if you don't, well, I'm sorry.

The Bone Forge - Max Ingram 2012-04-04

"...all that I am, all my weakness, it is my crucible, my fire, my inferno, by which I am burned alive in glory." - excerpt from the poem 'Bone Forge' (pg 24). In this collection of poetry, the author explores the concepts of death, transcendence and transformation. He plumbs the depths of the human soul, laying bare his many faults and failings, exposing his weaknesses with painful honesty, and seeking as ever to illustrate an important chapter in the story of the human experience. Forty-two of his most powerful and evocative works are collected here, brought to readers for the first time in a beautiful volume with cover illustration provided by the talented fantasy artist Ryan Wardlow.

Cyclopedia of Law and Procedure - William Mack 1901

Are You Sh*tting Me? - Cary McNeal

2014-10-28

Blue Ice, Meteors, and Beaver Ass, Oh My!

FACT: The use of maggots to clean wounds has

proven to be effective for patients who don't respond to traditional treatments. FACT: The Icelandic dish hákarl is beheaded basking shark that is buried in the ground for six to 12 weeks to putrefy before it is eaten. FACT: Used during the Dutch Revolt, rat torture involved trapping rodents under a bowl on a prisoner's stomach then heating the bowl's exterior so the animals would eat through the victim's flesh to try to escape. FACT: The average person picks his nose five times every hour, occasionally eating what he picks. The world is a scary place, and it gets scarier every day. From the creator of the bestselling 1,001 Facts That Will Scare The S#*t Out Of You comes this new collection of 1,004 (count 'em!) truly horrifying and horrifyingly true facts about the world around us. From ancient medical practices to doomsday scenarios, to disgusting food from around the world and the entire terrifying state of Florida, the facts in *Are You Sh*tting Me?* are sure to entertain and disturb you at once. Unless of course you are already disturbed, in which case this is the book for you!

United States Code Annotated - United States 1984

What Ever It Takes - Mick Williams 2017-09-20

For the small town of Watkins Forge, the worst thing to happen is a heavy snowfall. That is, until widower Cory Keller visits for an annual hunting trip. When he witnesses a murder in the nearby forest, no one believes him. With no corpse, and as the only witness, he is faced with convincing the towns sceptical sheriff before the killer tracks him down to silence him. As he develops a friendship with an attractive waitress, Keller discovers that he is up against much more than a killer and he must not only save himself but the whole town. Mick Williams is the author of Amazon Top Ten title A Reason To Grieve, and the page turning adventure A Guy Walks Into A Bar.

What If? 2 - Randall Munroe 2022-09-13

AN INSTANT NEW YORK TIMES BESTSELLER!
"The questions throughout What If? 2 are equal parts brilliant, gross, and wonderfully absurd and the answers are thorough, deeply researched, and great fun. . . . Science isn't easy, but in Munroe's capable hands, it surely can be fun." —TIME The #1 New York Times bestselling author of What If? and How To answers more of the weirdest questions you never thought to ask The millions of people around the world who read and loved What If? still have questions, and those questions are getting stranger. Thank goodness xkcd creator Randall Munroe is here to help. Planning to ride a fire pole from the Moon back to Earth? The hardest part is sticking the landing. Hoping to

cool the atmosphere by opening everyone's freezer door at the same time? Maybe it's time for a brief introduction to thermodynamics. Want to know what would happen if you rode a helicopter blade, built a billion-story building, made a lava lamp out of lava, or jumped on a geyser as it erupted? Okay, if you insist. Before you go on a cosmic road trip, feed the residents of New York City to a T. rex, or fill every church with bananas, be sure to consult this practical guide for impractical ideas. Unfazed by absurdity, Munroe consults the latest research on everything from swing-set physics to airliner catapult-design to answer his readers' questions, clearly and concisely, with illuminating and occasionally terrifying illustrations. As he consistently demonstrates, you can learn a lot from examining how the world might work in very specific extreme circumstances.

White Light - Rudy von Bitter Rucker 1980
Felix Rayman spends the day teaching indifferent students, pondering his theories on infinity, and daydreaming. When his dreams finally separate him from his physical body, Felix plunges headfirst into a multidimensional universe beyond the limits of space and time — the place of White Light.

The One Year Book of Did You Know Devotions for Kids - Nancy S. Hill 2002

A collection of interesting and sometimes silly facts that relates to a Bible verse.

Ted's Score - Daniel P. Coughlin 2011-09
From the author of the films Lake Dead, (After Dark Film's 8 Films to Die For) and Farmhouse, Daniel P. Coughlin's Ted's Score is a shocking, suspenseful tale of a depraved, ax-wielding serial killer. When beautiful Jules Benton, a seventeen year old senior, goes missing after the spring formal dance in the small town of Watertown, Wisconsin, her father, Richard Benton, becomes suspicious of Jules' boyfriend, David Miller and his involvement with her disappearance. When Richard confirms his suspicions, the brutality of his capability consumes him and soon David will find out what that means. Unbeknownst to David or Richard, a serial killer by the name of Ted Olson has more to do with Jules' disappearance than anyone might suspect. As Jules' whereabouts unfold, the truth begins to bleed from a dark place. And the authorities have begun to smell the criminal acts committed. Murder and mayhem catch up with the slow pace of this ordinary Middle American town when evil, perversion, and death mislead these simple folks into a disastrous wave of crime that spirals out of control. All the while, Ted collects his score.

Uprising UK - George Hill 2010-11-16

The Ogre faces not just the undead, but also the demonic powers that control and drive them to feed on human flesh.

Free Roll - Brandt Tobler 2017-05-22

Have you ever wondered: What it's like to daily bet hundreds of thousands of dollars working for some of the largest professional gamblers in Las Vegas? ... How to spend a summer house sitting

one of the biggest stars in the world's 11,000 square-foot mansion - without an invitation from it's celebrity owner ... Whether the life of crime - specifically, running a shoplifting ring in a middle American mall - pays? ... What causes a son to finally say enough is enough ... and decide "Today is the day I am going to kill my dad." Comedian Brandt Tobler has the answers in this funny, touching and sometimes downright unbelievable memoir of a small town Wyoming-kid turned "mall-fia" don, turned nationally touring comic. Brand tells his life story with candor, detailing the many pit stops, wrong turns, crazy connections and lucky breaks he experienced along the way to his comedy career, all while trying to balance a toxic relationship with his unreliable jailbird dad. In these pages Brandt will make you laugh (he better - it's his job!) and believe as he does that, when it comes to defining family, blood isn't always thicker than water. -- back cover.

[The Tree That Ate Everything](#) - Robert Feiner
2017-09-19

Jake and Austin are twins. Jake has Down syndrome while Austin is typical. On their birthday, they play with their toys but a whimsical tree wants to play too. It also happens to be her birthday.

[Heart of the Streets](#) - Chenae Glaze 2013-10-07

Follow Corinne and Jabari through the streets of Atlanta as she offers him a loyalty he's never had and he showers her in a love she never knew existed!

[Scared Sh*tless](#) - Cary McNeal 2012-09-04
You'll laugh, you'll cry, you'll s#*t yourself! Back by popular demand, the mind-blowing follow-up to the bestselling 1,001 Facts That Will Scare the S#*t Out of You. An all-new collection of entertaining and horrifying truths about us, our world, and why we're totally screwed. With more disturbing facts and fun new topics, including weird celebrities, boobs, the internet, clowns, serial killers, sexual fetishes, bacon, Elvis, things that will eat you, and more. From stupid dead people to halitosis caused by constipation to a singer whose music can get you killed in some Jamaican neighborhoods, it's all

here—everything you need to know about the scary s#*t that surrounds all of us. FACT: Men are four times as likely as women to be struck by lightning. FACT: McDonald's McRib sandwich contains some of the same ingredients used to manufacture gym mats and running shoes. FACT: Möbius syndrome is a rare neurological disorder that renders victims unable to move their faces. FACT: You can get an STD from a bikini wax.

Debunking the Bump - Daphne Adler
2014-12-11

When Daphne Adler, a mother and mathematician, was pregnant, a colleague scolded her for sprinkling parmesan cheese on her pasta. After dutifully dumping her dinner in the trash, she decided to investigate to find out whether the admonishment and similar warnings were based on fact. What she discovered surprised her-and will surprise you, too. After 3 years of research where she poured over thousands of studies, Adler has reframed the parameters of what should and shouldn't be allowable during pregnancy. Her refreshing and reassuring book finally provides us with a way to separate myth from reality. Fact or fallacy? Debunking the Bump sets the record straight with eye-opening revelations such as: * 44% of obstetricians never mention the most important avoidable cause of birth defects.* Less than half of all pregnant women are counseled about the most dangerous activity they could undertake while pregnant.* In the long list of forbidden foods, one category is 10,000 times more risky than others...but its danger is not emphasized.* Many pregnant women cut down their consumption of the single substance that's the most beneficial to their developing baby. Debunking the Bump is a pregnancy book for women with a thirst for facts. It covers not only all the hot pregnancy topics (Is it safe to eat sushi and drink coffee?) but also a variety of additional subjects Adler's exhaustive research uncovered that aren't even mentioned in most pregnancy books. Filled with practical, actionable recommendations and clear explanations of risks and trade-offs, this unique guide will help you make informed choices so you can enjoy a relaxed and happy pregnancy. Read more at www.debunkingthebump.com
