Galaxy Morphology and Classification -
Sidney Bergh 1998-04-16

A concise and up-to-date guide to the shape of galaxies and how they can be classified, by one of the pioneers of the field.

Woman Without a Past - Phyllis A. Whitney
2017-08-29

From an Edgar and Agatha Award winner: A mystery writer must solve the puzzle of her past when she meets the South Carolina family she never knew existed. Popular mystery novelist Molly Hunt knows all about the twists and turns of fiction, but real life has thrown her for a loop.

Raised by adoptive parents on Long Island, Molly has just made a stunning discovery: She's the daughter of South Carolina blue bloods and was kidnapped as an infant from their ancestral home in Charleston. Now, she's heading south to solve the puzzle of her beginnings—totally unprepared for where it will end. At Mountfort Hall, her birth family's imposing plantation, Molly comes face to face with her past: her neglected twin sister; her reclusive and mentally imbalanced mother; a calculating cousin, now the Mountfort patriarch who has no tolerance for this lovely new intruder; and a resident psychic who sees into a deadly world all her own. It's only when Molly discovers a letter from her late father that she comes to realize how much danger she's in—and what it'll take to escape the shadows of Mountfort Hall alive. "In one of her smoothest suspense novels . . . Whitney combines a dynamic, likable heroine with eccentric characters, romantic entanglements, family ghosts and a charming setting" (Publishers Weekly). It's everything readers expect from the "Queen of American gothics" (The New York Times). This ebook features an illustrated biography of Phyllis A. Whitney including rare images from the author's estate.

The Secrets He Kept - Jackie Walsh
2019-11-06

'will have you gripped from start to finish, so much so that you really don't want to stop reading!' (5 stars) Reader review 'I was hooked straight in from the first chapter and it really didn't let up. Fast paced and thrilling.' (5 stars) Reader review You know everything about your husband. Don't you? He loves you. He loves your

children. He'd never put his family in danger. One of these is a lie. It started like any other day at the hairdressers where Sally works as a stylist... until her first client innocently shows her a family photograph; a photograph that causes Sally to collapse in shock. In one moment, Sally discovers that Tom has been hiding an explosive secret - one that could tear apart the life they've built together. Faced with an impossible dilemma - search for the truth, or keep her contented life? - Sally is about to discover that even those closest to us have secrets... and that sometimes the truth is the last thing we want to hear. A completely gripping, suspenseful psychological thriller that fans of T.M. Logan, My Lovely Wife and K.L. Slater won't be able to put down. Readers can't get enough of *The Secrets He Kept*: 'I read this in one sitting, loved it!! Quickly paced, great story!! Kept me guessing to the very end!!' (5 stars) Reader review 'I loved, loved this book. It was engaging from the first page and kept me up half the night.' Reader review 'Every few chapters provide a new twist in this story, all ending with a very satisfying conclusion...I could not recommend this book more!' (5 stars) 'Wow, this was one gripping read!...A roller coaster of a read that thrills and excites.' (5 stars) Reader review 'a fast paced and twisty ride that kept me gripped from start to finish...kept me addicted till the very last page.' Reader review 'A fast paced, twisty domestic thriller...an engrossing read with a likable character and a host of thrilling twists and turns, enjoy!' Reader review 'I was intrigued by this book from the start... A highly recommended and enjoyable read' Reader review 'a very compelling thriller...I would definitely recommend this book to those who enjoy psychological thrillers.' Reader review 'The moment the first jaw-dropping bombshell landed in the first chapter, I was hooked... Clever cliff-hangers...and a twist you couldn't guess even if you tried. A gripping, hard-hitting read' (5 stars) Reader review 'a splendid thriller that will leave you guessing until the end...I would recommend this book to anyone who loves psychological thrillers.' (5 stars) Reader review 'What a brilliant fast paced book. I was guessing all the way through.' (5 stars) Reader review 'Fantastic read! Great plot that grabs you from the very beginning. A masterful story that keeps

you endlessly intrigued...HIGHLY RECOMMEND!' (5 stars) Reader review 'A brilliant roller coaster of a read...full of twists and turns and I was gripped from the very first page' Reader review 'The characters were well drawn and the story flowed seamlessly. Highly recommended.' (5 stars) Reader review 'kept me fully engaged from beginning to end...a riveting and twisty tale that will have you racing to get to the bottom of it all.' Reader review 'The story is full of twists and turns and kept me hooked throughout...will have you flying through the chapters to see how it will all unravel.' Reader review 'loved all the twists and turns; kept me guessing! I really enjoyed this, read it in one sitting!' (5 stars) Reader review *Every Time a Bell Rings* - Barbara Ankrum 2019-11-18

Once upon a time, he was everything to her, except for one thing: her future Christmas sparkles from every bough and window at the cozy Four Winds Ski Resort, where single mother Eden Kendall and her eight-year-old son are spending the holiday. A surprise marriage proposal from her boss's son wasn't on her Christmas list, but it's the perfect excuse to get away and weigh her options. She never imagined her son's ski instructor/Santa impersonator would be the gorgeous, charismatic dreamer she left behind years ago, the one who still owns a piece of her heart. Cole Hagan has never stopped loving Eden and he's spent the last eight years proving her wrong on every count about his potential. While he fights to save the resort that he helped to build by organizing a holiday concert, he decides it's about time that Eden puts aside her list-making pragmatism so that she and her skeptical son can experience the true magic of Christmas. Can a not-so-perfect angel help this unlikely pair get a second chance at happily ever after?

Estimator's Electrical Man-Hour Manual - John S. Page 1999-05-24

This manual's latest edition continues to be the best source available for making accurate, reliable man-hour estimates for electrical installation. This new edition is revised and expanded to include installation of electrical instrumentation, which is used in monitoring various process systems.

Desk Encyclopedia of Plant and Fungal Virology

- Marc H.V. van Regenmortel 2009-10-13

This volume consists of 85 chapters that highlight recent advances in our knowledge of the viruses that infect plants and fungi. It begins with general topics in plant virology including movement of viruses in plants, the transmission of plant viruses by vectors, and the development of virus-resistant transgenic plants. The second section presents an overview of the properties of a selection of 20 well-studied plant viruses, 23 plant virus genera and a few larger groups of plant viruses. The third section, which is abundantly illustrated, highlights the most economically important virus diseases of cereals, legumes, vegetable crops, fruit trees and ornamentals. The last section describes the major groups of viruses that infect fungi. The most comprehensive single-volume source providing an overview of virology issues related to plant and fungi Bridges the gap between basic undergraduate texts and specialized reviews Concise and general overviews of important topics within the field will help in preparation of lectures, writing reports, or drafting grant applications

Jonny's Redemption - Riley Edwards

2021-02-23

Can two lost souls find redemption or are some transgressions beyond forgiveness? Lieutenant Jonny Spencer's life is spiraling out of control. With no end in sight, he withdraws. Giving in to the darkness is his only reprieve. Roberta "Bobby" Layne knows what it means to live in the shadows. Her childhood was spent fading into obscurity—loneliness her only friend. When Jonny's latest case threatens to snap what's left of his sanity, Bobby knows this is her last chance to pull him from the hell that awaits. But when her past comes to light, will she be strong enough to fight for the man she's fallen in love with, or will she fall back into old habits and fade away? "Riley Edwards is the queen of suspense! She knows just how to grab a reader and not let go! I recommend every single one of her books!" ~Susan Stoker, NYT Bestselling Author What are readers saying about Gemini Group: "I absolutely love the guys in the Gemini group." Goodreads Review "I can't wait to read the next book in this series." Goodreads Review "And the guys of Gemini Group..love them. The brotherhood and how they included Kennedy is

one of their own. They are amazing and can't wait to read their books. Next is Weston and Silver and by the little taste we got I know it's going to be awesome. " Island Girl Romance Reads. "Love this author. She's on my auto-buy list because I know as soon as I start reading the first few sentences that I am going to get sucked right in." Goodreads Review Topics: romantic suspense, contemporary romance, military romance, romantic suspense series, mystery, funny romance, modern romance, small town romance, Navy SEAL romance, smart romance, suspense romance, lighthearted romance, hot romance, riley edwards, riley edwards romance, rebels romance, sexy, heartwarming, heartwarming, family, love, love books, kissing books, emotional journey, contemporary, contemporary romance, romance series, long series, long romance series, Navy, navy series, former military, cop, police officer, policeman, cop romance, wealthy hero, sassy, strong heroine, captivating romance, hot, hot romance, Mercenary romance, action and adventure, action romance, veteran, former soldier, soldier, romantic, Navy SEAL, military romance, Emotional, HEA, happily ever after romance *Essays in Phenomenology* - Maurice Natanson 2013-12-19

Fifteen years ago, Dorion Cairns concluded an article on phenomenology with a cautious appraisal of its influence in America. "Thus far," he wrote, "it continues to be an exotic." The situation today has changed: translations of the writings of Husserl, Heidegger, Marcel, Sartre, and Merleau-Ponty have appeared, and commentaries on these and related thinkers are not uncommon. Moreover, discussion of phenomenological problems is increasingly becoming part of the American (if not the British) philosophical scene. Phenomenology is in danger of domestication! Signs of its accommodation include a willingness to pay tribute to Husserl's *Logical Investigations* by those who find relatively little to interest them in his later work, a location of what are taken to be common themes and underlying convergences of emphasis in Continental phenomenology and Anglo-American philosophy of the more nearly Wittgensteinian and Austinian varieties, and a growing impatience (shared by some phenomenologists) with expositions,

explications, and interpretations of Husserl's work at the expense of original applications of phenomenology. Most bluntly put, the attitude is: Don't talk about it; do it! It would seem that we have arrived at a point where introductions to phenomenology are of doubtful value, if not superfluous. The present collection of essays is based on different assumptions and points to an alternative conception of the role of both methodology and originality in phenomenological work

Doubt, Conviction and the Analytic Process -
Michael Feldman 2013-12-16

In this profound and subtle study, a practising psychoanalyst explores the dynamics of the interaction between the patient and the analyst. Michael Feldman draws the reader into experiencing how the clinical interaction unfolds within a session. In doing so, he develops some of the implications of the important pioneering work of such analysts as Klein, Rosenfeld and Joseph, showing in fine detail some of the ways in which the patient feels driven to communicate to the analyst, not only in order to be understood by him, but also in order to affect him. The author's detailed descriptions of the clinical process allow the reader to follow the actual process that enables the patient to get into contact with thoughts and feelings of which he or she was previously unconscious or only vaguely aware. Feldman makes the reader aware of the constant dynamic interaction between the patient and the analyst, each affecting the other. He shows how the analyst has to find a balance between doubt, uncertainty and confusion in himself and through this process may arrive at an understanding of what is happening, and by formulating this understanding the analyst can make a significant contribution to the process of psychic change. This collection of essays not only throws light on fascinating questions of technique, but also reflects on elements that are fundamental to psychoanalytic work. It is essential reading for practising psychoanalysts and those in training, as well as anyone with a general interest in the psychoanalytic relationship between the client and the therapist in the consulting room.

Flight Mechanics Modeling and Analysis -
Jitendra R. Raol 2008-08-20

The design, development, analysis, and

evaluation of new aircraft technologies such as fly by wire, unmanned aerial vehicles, and micro air vehicles, necessitate a better understanding of flight mechanics on the part of the aircraft-systems analyst. A text that provides unified coverage of aircraft flight mechanics and systems concept will go a long

Engineering Geology for Society and Territory -
Volume 4 - Giorgio Lollino 2014-08-12

This book is one out of 8 IAEG XII Congress volumes, and deals with the processes occurring on the coastal zone, which represents a critical interface between land and sea, as the contribution of the ocean to the provision of energy and mineral resources will likely increase in the coming decades. Several related topics fit into this volume, such as: coastal developments and infrastructures; dredging and beach re-nourishment; sediment erosion, transport and accumulation; geohazard assessment; seafloor uses; seabed mapping; exploration and exploitation of the seafloor, of the sub-seafloor, and of marine clean energies and climatic and anthropogenic impacts on coastal and marine environments. Examples of specific themes are coastal management and shore protection, taking into account storm-related events and natural and anthropogenic changes in the relative sea level, planning of waste disposal, remedial works for coastal pollution, seafloor pipeline engineering, slope stability analysis, or tsunami propagation and flooding. The Engineering Geology for Society and Territory volumes of the IAEG XII Congress held in Torino from September 15-19, 2014, analyze the dynamic role of engineering geology in our changing world and build on the four main themes of the congress: environment, processes, issues and approaches. The congress topics and subject areas of the 8 IAEG XII Congress volumes are: 1. Climate Change and Engineering Geology 2. Landslide Processes River Basins 3. Reservoir Sedimentation and Water Resources 4. Marine and Coastal Processes Urban Geology 5. Sustainable Planning and Landscape Exploitation 6. Applied Geology for Major Engineering Projects 7. Education, Professional Ethics and Public Recognition of Engineering Geology 8. Preservation of Cultural Heritage.

EnCase Computer Forensics -- The Official EnCE
- Steve Bunting 2012-09-14

The official, Guidance Software-approved book on the newest EnCE exam! The EnCE exam tests that computer forensic analysts and examiners have thoroughly mastered computer investigation methodologies, as well as the use of Guidance Software's EnCase Forensic 7. The only official Guidance-endorsed study guide on the topic, this book prepares you for the exam with extensive coverage of all exam topics, real-world scenarios, hands-on exercises, up-to-date legal information, and sample evidence files, flashcards, and more. Guides readers through preparation for the newest EnCase Certified Examiner (EnCE) exam Prepares candidates for both Phase 1 and Phase 2 of the exam, as well as for practical use of the certification Covers identifying and searching hardware and files systems, handling evidence on the scene, and acquiring digital evidence using EnCase Forensic 7 Includes hands-on exercises, practice questions, and up-to-date legal information Sample evidence files, Sybex Test Engine, electronic flashcards, and more If you're preparing for the new EnCE exam, this is the study guide you need.

Dermatology in Emergency Care - Libby Edwards 1997

This guide to diagnosing and treating skin conditions commonly encountered by the non-specialist, incorporates colour photographs, concise descriptions, best treatment options and patient handout pages detailing the aetiology and treatment of the skin conditions described in the text.

Cyprus South & North - Rolf Goetz 2019-03-28

Cyprus is not only famous for its cultural heritage and 9000 year old past - "Aphrodite's Island" is one of the most popular hiking destinations in the eastern Mediterranean. The centre of the island is dominated by the Troodos mountain measuring some 2000 m in height, which despite its considerable altitude is more reminiscent of European low mountains, due to its softly rounded and forested peak. This Rother hiking guide proposes 50 routes mostly ranging from easy to medium level. Next to mountain tours, it also includes a selection of coastal paths along bizarre cliffs and adventurous ravine tours. Forest paths and nature trails lead through aromatic cedar woods, silent valleys and to remote Byzantine churches and monasteries.

Classic spring tours are those which take visitors across the peninsula of Akamas, when colourful carpets of flowers and orchids blossoming by the wayside unveil their typical Mediterranean charm.

Digital Desires - Cutting Edge Women's Research Group 2000-07-28

This book explores the ways in which new technologies and scientific discourses are having a radical impact on today's debates and issues of gender. The writers and creative artists contributing cover a wide terrain, including Cyberfeminism and artificial life, the body's role in today's technoculture, the gender politics of e-commerce technology, the Cyberflaneuse, and the creation of "digital communities." Together they are mapping out how notions of self and its boundaries are now being questioned and changed.

For Better or For Worse? Collaborative Couples in the Sciences - Annette Lykknes 2012-06-05

In this volume, a distinguished set of international scholars examine the nature of collaboration between life partners in the sciences, with particular attention to the ways in which personal and professional dynamics can foster or inhibit scientific practice. Breaking from traditional gender analyses which focus on divisions of labor and the assignment of credit, the studies scrutinize collaboration as a variable process between partners living in the nineteenth and twentieth centuries who were married and divorced, heterosexual and homosexual, aristocratic and working-class and politically right and left. The contributors analyze cases shaped by their particular geographical locations, ranging from retreat settings like the English countryside and Woods Hole, Massachusetts, to university laboratories and urban centers in Berlin, Stockholm, Geneva and London. The volume demonstrates how the terms and meanings of collaboration, variably shaped by disciplinary imperatives, cultural mores, and the agency of the collaborators themselves, illuminate critical intellectual and institutional developments in the modern sciences.

Four Short Courses on Harmonic Analysis - Brigitte Forster 2010

Written by internationally renowned mathematicians, this state-of-the-art textbook

examines four research directions in harmonic analysis and features some of the latest applications in the field. The work is the first one that combines spline theory, wavelets, frames, and time-frequency methods leading up to a construction of wavelets on manifolds other than \mathbb{R}^n . Four Short Courses on Harmonic Analysis is intended as a graduate-level textbook for courses or seminars on harmonic analysis and its applications. The work is also an excellent reference or self-study guide for researchers and practitioners with diverse mathematical backgrounds working in different fields such as pure and applied mathematics, image and signal processing engineering, mathematical physics, and communication theory.

Storm Rising - Sara Driscoll 2019-08-27

FBI Special Agent Meg Jennings and her search-and-rescue K-9 companion confront the fury of nature—and the more dangerous nature of man . . . In the wake of a devastating hurricane, Special Agent Meg Jennings and her Labrador, Hawk—invaluable members of the FBI's Human Scent Evidence Team—have been deployed to Virginia Beach. Amid debris and the buried cries for help, the most alarming discovery is yet to come—a teenage girl hiding in the Great Dismal Swamp. Her name is Emma—a disheveled runaway lost to the sordid underbelly of a Virginia sex-trafficking ring. Its leader has disappeared in the chaos—along with other victims. Meg joins forces with Special Agent Walter Van Cleave and uncovers a vast network of abuse rooted in some of the most influential powers in Virginia. Now as Meg's investigation digs deeper, she's making some very dangerous enemies. And one by one, they're coming out of the storm to stop her. "Tense and exciting, Sara Driscoll has created a new power couple, Meg and her FBI K-9, Hawk." —Leo J. Maloney, author of Arch Enemy "Exceptional. . . . The descriptions of the teamwork between dog and human are detailed and dramatic. . . . Readers will hope this series has a long run." —Publishers Weekly (Starred Review)

Effective Information Retrieval from the Internet - Alison Stacey 2004-07-31

Effective Information Retrieval from the Internet discusses practical strategies which enable the advanced web user to locate information effectively and to form a precise evaluation of

the accuracy of that information. Although the book provides a brief but thorough review of the technologies which are available for these purposes, most of the book concerns practical 'future-proof' techniques which are independent of changes in the tools available. For example, the book covers: how to retrieve salient information quickly; how to remove or compensate for bias; and tuition of novice Internet users. Importantly, the book enables readers to develop strategies which will continue to be useful despite the rapidly-evolving state of the Internet and Internet technologies - it is not about technological tricks. Enables readers to be aware of and compensate for bias and errors which are ubiquitous on the Internet. Provides contemporary information on the deficiencies in web skills of novice users as well as practical techniques for teaching such users.

Forkhead Transcription Factors - Kenneth Maiese 2010-07-29

Forkhead Transcription Factors: Vital Elements in Biology and Medicine provides a unique platform for the presentation of novel work and new insights into the vital role that forkhead transcription factors play in multiple systems throughout the body. Leading international authorities provide their knowledge and insights to offer a novel perspective for translational medicine that highlights the role of forkhead genes and proteins that may have the greatest impact for the development of new strategies for a broad array of disorders. Equally important, Forkhead Transcription Factors: Vital Elements in Biology and Medicine clearly sets a precedent for the necessity to understand the diverse and complex nature of forkhead proteins since this family of transcription factors can limit as well as foster disease progression depending upon the cellular environment. The presentation and discussion of innovative studies and especially those that examine previously unexplored pathways that may influence clinical survival and longevity offer an exciting approach to address the potential of forkhead transcription factors for new therapeutic avenues in multiple disciplines.

Design Grow Sell - Sophie Davies 2012-12-03
This book is aimed at garden lovers and anyone keen to turn their gardening talent into a business. It's for those who, while stuck in an

office, have always dreamed of making a living outdoors, for second career-ers who have a flair for gardening and want a job that makes them happy and for anyone who would like to combine a love of plants of gardens with the freedom of being their own boss. Uniquely, the book looks at the diverse opportunities that exist in gardening, from running a nursery to building a garden maintenance business, and from training to be a landscape designer to writing about gardening for a living. Taking the reader through how to pursue each type of business successfully, it looks at everything from researching the competition, training and internships, to how to get your first job, develop a network and grow the business. As well as all the practical information required to start a gardening business, this essential guide profiles 20 individuals and tells their inspiring stories - from the doctor who became a garden designer and whose work ended up on national television, to the high-flying fashion director who gave up the rat race to make a living from growing traditional roses. Packed with advice, tips and resources, this book offers everything you need to start your own successful gardening business.

Evidence-based Care for Normal Labour and Birth - Denis Walsh 2007-04-19

Evidence-based care is a well established principle in contemporary healthcare and a world wide health care movement. However, despite the emphasis on promoting evidence-based or effective care without the unnecessary use of technologies and drugs, intervention rates in childbirth are rising rapidly. Evidence-based Care for Normal Labour and Birth brings to light much of the evidence around what works best for normal birth which has, until now, remained largely hidden and ignored by maternity care professionals. Beginning with the decision about where to have a baby, through all the phases of labour to the immediate post-birth period, it systematically details research and other evidence sources that endorse a low intervention approach. The book: highlights where the evidence is compelling discusses its application where women question its relevance to them and where the practitioner's expertise leads them to challenge it gives background and context before discussing the research to date includes questions for reflection and practice

recommendations generated from the evidence. Using research data, Evidence-based Care for Normal Labour and Birth critiques institutionalised, scientifically managed birth and endorses a more humane midwifery-led model. Packed with up-to-date and relevant information, this controversial book will help all students, practising midwives and doulas keep abreast of the evidence surrounding normal birth and ensure their practice takes full advantage of it.

Most Likely to Die - Lisa Jackson 2016-03

As their twenty-year high school reunion approaches, Lindsay, Kristen, and Rachel find themselves marked for death by the very same killer responsible for brutally murdering a fellow student.

The Pregnancy Proposition - Meredith Webber 2017-01-21

Nurse Amelia Peterson's relationship with bad-tempered E.R. doctor "Mac" McDougal has always been rocky. So she's astonished when he asks her out for dinner one night...and even more surprised when she wakes up with him the next morning! The ill-matched pair are both sure it was a one-off — no matter how much they might find themselves desiring each other! But, while Mac doesn't do relationships, he has always wanted a child — and when he realizes that Amelia's pregnant, he comes up with the most unexpected proposal....

Emotion, Psychopathology, and

Psychotherapy - Robert Plutchik 2013-10-22

Emotion: Theory, Research, and Experience, Volume 5: Emotion, Psychopathology, and Psychotherapy is concerned with the formulation of models of emotion psychopathology and psychotherapy. The book focuses on the dysregulation of emotion, methods for changing emotion and the experience of emotion. The papers contained in the volume are grouped into theoretical works that link emotions to psychopathology and psychotherapy based on concepts derived from evolutionary biology; theoretical works that utilizes psychoanalysis in understanding emotions; and the transformation of cognitive constructions through psychotherapy. Psychologists, psychiatrists, psychoanalysts, sociobiologists, and students in the allied fields will find the book a good source of insight.

Feng Shui Guide for Daily Life - 彼得·索 Peter So
2013-08-01

Internationally renowned Feng Shui Master Peter So champions the re-interpretation of ancient wisdom with modern applications, earning much recognition among clients. In this book, he handpicked the most popular topics in Feng Shui, Five Elements, animal signs, face and palm reading, naming tips, numerology and even face reading for pets, including: - number of doors, windows, floor number and number of light bulbs in a lamp - compatible trades, lucky accessories and colours according to Five Elements - love luck months for each animal signs; ways to boost love luck - reading the luck of your pets and naming tips Apart from highlighting the Feng Shui rules relevant to the urban landscape and practical housing conditions, the writer also corrects some common Feng Shui myths and misconceptions that have been passed down for generations: - must a couch lean against a wall? - mustn't a toilet bowl face the washroom door? - is an open kitchen bad for marriage? - Feng Shui remedy for construction conflicts caused by exterior wall maintenance This book fuses century-old theories with practical daily examples seamlessly, truly an indispensable reference on fortune telling. Read it through to find out ways to apply the theories flexibly to various situations, in the true spirit of Feng Shui.

The Billionaire Next Door - Christina Tetreault
2017-07-30

Curt Sherbrooke has two passions, renovating old homes and writing novels. When he leaves the financial world and the city behind, his plan is simple: indulge both while keeping his true identity as a member of America's wealthiest family a secret from his neighbors. Soon Taylor Walker, the sexy DEA agent living next door, and her niece have him reconsidering his plan. Taylor Walker doesn't believe she needs a man to complete her life. She's happy raising her niece and taking drug dealers off the street. If Mr. Right happens to come along someday, that would be wonderful. If not, she's not going to lose any sleep over it. Then she meets Curt, her new neighbor. Soon Curt and Taylor appear headed for a their own happily ever after. At least until Taylor's older sister returns and tries to capitalize on Taylor's newfound love.

Buzzard's Bluff - William W. Johnstone
2020-07-28

JOHNSTONE COUNTRY. WILDER THAN EVER. Welcome to the Lost Coyote Saloon. Saddle up to the bar and order a whiskey. Play a few hands of poker. But don't make any trouble. The new owner is savage. Ben Savage. Once a Texas Ranger, he's always cocked and ready for some fool to come looking for payback . . . EAT, DRINK, AND BE WARY When Ben Savage receives a telegram informing him that an old friend died—and left him his saloon—he's not sure what to think. Western saloons are as wild as it gets, full of rowdy ranchers and cocky cowboys, high-stakes gamblers and low-life drifters, hard liquor and easy women. Then there's the occasional outlaw gang. But when Savage travels to Buzzard's Bluff, Texas, to check out his inheritance, he meets the saloon's lovely manager, Rachel Baskin, and has a change of heart. As an experienced lawman, he figures he can run a decent establishment. Keep things friendly, peaceful, and orderly. There's just one problem: as a longtime Pinkerton agent, Ben has made a lot of enemies. And some of them are bound to turn up in his saloon—thirsty for whiskey . . . and revenge . . . Live Free. Read Hard.

Darling, All at Once - Piper Lennox 2018
Wasted. Covered in glitter. Wearing the ugliest dress in existence. Also known as: me, the night I stumble into bed with a Fairfield. -- Back cover.

The Island House - Nancy Thayer 2016-05-31
New York Times bestselling author Nancy Thayer evokes the shimmering seascape of Nantucket in a delightful novel that resonates with the heartache and hope of growing up, growing wise, and the bittersweet choices we must be brave enough to make. Courtney Hendricks will never forget the magical summers she spent on Nantucket with her college roommate, Robin Vickerey, and Robin's charismatic, turbulent, larger-than-life family, in their gorgeous island house. Now a college English professor in Kansas City, Courtney is determined to experience one more summer in this sun-swept paradise. Her reason for going is personal: Courtney needs to know whether Robin's brother James shares the feelings she's secretly had for him. Time with the Vickerey family always involves love and laughter, and

this season is no different. Vivacious matriarch Susanna Vickerey is celebrating her sixtieth birthday, but beneath the merriment, trouble is brewing. The family patriarch, Dr. Alastair Vickerey, is quiet and detached, while unspoken tension looms over oldest son Henry, a respected young surgeon. Warm and witty Robin, the most grounded of the siblings, is keeping a secret from her parents. Iris, the colorful baby of the brood, remains rudderless and in need of guidance. And the sexy, stunningly handsome, untouchable James—to Courtney’s dismay—may be in love with a beautiful and vibrant local artist. As the summer unfolds, a crisis escalates, surprising truths are revealed, and Courtney will at last find out where her heart and her future lie. Weaving the trials and uncertainty of real life into a tapestry of passion, hope, and courage, *The Island House* is a beautifully told story about the ties that bind us—and how the blessings of love and family heal us in ways we never dream possible. Praise for *The Island House* “Thayer’s latest should be filed under a Best Beach Reads of 2016 list. . . . The characters are complex and their struggles and concerns feel real. . . . Thayer has a really wonderful ability to showcase the meaning of family.”—RT Reviews “A perfect book to read while sticking your toes in the sand this summer!”—Bookish Devices “A touching story about friendship, family, and the uncertainty of love.”—Bustle Praise for Nancy Thayer *The Guest Cottage* “A sweet book with romance, laughter, and love after loss . . . Thayer knows her Nantucket history, and it shines in this book.”—RT Book Reviews “It’s a pleasant escape to a state of mind in which rebuilding a life is as simple as pitching an umbrella and spreading out a towel.”—Kirkus Reviews *Nantucket Sisters* “Thayer obviously knows her Nantucket, and the strong sense of place makes this the perfect escapist book for the summer, particularly for fans of Elin Hilderbrand.”—Booklist “Thayer keeps readers on the edge of their seats with her dramatic story spanning the girls’ childhood to adulthood. This wonderful beach read packs a punch.”—Library Journal *Island Girls* “A book to be savored and passed on to the good women in your life.”—Susan Wiggs “Full of emotion and just plain fun, this novel is delightful.”—Romance Reviews Today

Das Wesen Des Christentums - Adolf Von Harnack 2013-10

This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work is culturally important, and despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book.

Alpha Boss - Zoe Ray 2019-05-28

Samantha Davis was only looking for a job, but she ended up finding much more. The moment she stepped into the lobby at ASC she knew she belonged there, and the moment Preston Jacobs stepped into her life she knew she'd never be the same. His massive frame towers over her. His presence is intimidating, and he is the sexiest man she's ever seen. He exudes power, and Samantha can't explain the raw animalistic attraction she feels. Sam is determined to push thoughts of the boss out of her mind, but the connection is too powerful. Preston Jacobs is a hard-headed wolf shifter, and as CEO of ASC and leader of his pack, he hasn't had time to worry about people's feelings. Everything changed when he met Samantha. He knew she was his mate the moment he laid eyes on her in the elevator of his building. His thoughts become consumed with taking his mate and marking her, and he's going to pull out all the stops to make her trust him and show her that she is his forever. When members of the pack become rebellious and trouble arises Preston must face a new challenge. Can he convince Samantha to accept her fate as his mate and help him lead the pack? Or will uncertain danger cause her to run away with her tail tucked between her legs?

***Exploring Africa, Grades 5 - 8* - Michael Kramme 2012-01-03**

Take students in grades 5-8 on a field trip without leaving the classroom using *Exploring Africa*! This 48-page book features reading selections and assessments that utilize a variety of questioning strategies, such as matching, true or false, critical thinking, and constructed

response. Map projects and hands-on activities engage students in learning about the physical, political, and human geography of Africa. For struggling readers, the book includes a downloadable version of the reading selections at a fourth- to fifth-grade reading level. This book aligns with state, national, and Canadian provincial standards.

The Millionaire and the Cowgirl - Lisa Jackson 2017-11-01

A fan-favorite by #1 New York Times bestselling author Lisa Jackson, originally published in 1996. Ten years ago, an innocent Samantha Rawlings had surrendered herself to a man whose blue-eyed gaze promised forever. But when the summer sun faded, Kyle Fortune was gone, and Samantha was left to raise their child alone and in secret. But now, the restless millionaire has returned to Wyoming's wide-open spaces. Suddenly, he's face-to-face with the willful beauty he's never forgotten—and a blue-eyed daughter he's never known. Originally published in 1996.

Cpt-4 Outpatient Coding Reference and Study Guide 2012 - Rhit Kobayashi 2012-05

Ecology of Riparian Forests in Japan - Hitoshi Sakio 2008-08-25

Riparian forests along streams and rivers are diverse in species, structure, and regeneration processes, and have important ecological functions in maintaining landscape and biodiversity. This book discusses riparian forests from subpolar to warm-temperate zones, covering headwater streams, braided rivers on alluvial fans, and low-gradient meandering rivers. It presents the dynamics and mechanisms that govern the coexistence of riparian tree species, tree demography, the response to water stress of trees, and the conservation of endangered species, and focuses on natural disturbances, life-history strategies, and the ecophysiology of trees. Because many riparian landscapes have been degraded and are disappearing at an alarming rate, the regeneration of the remaining riparian ecosystems is urgent. With contributions by more than 20 experts in diverse fields, this book offers useful information for the conservation, restoration, and rehabilitation of riparian ecosystems that remain in world streams and

ivers.

Developing Intelligent Agent Systems - Lin Padgham 2005-06-24

Build your own intelligent agent system...

Intelligent agent technology is a tool of modern computer science that can be used to engineer complex computer programmes that behave rationally in dynamic and changing environments. Applications range from small programmes that intelligently search the Web buying and selling goods via electronic commerce, to autonomous space probes. This powerful technology is not widely used, however, as developing intelligent agent software requires high levels of training and skill. The authors of this book have developed and tested a methodology and tools for developing intelligent agent systems. With this methodology (Prometheus) developers can start agent-oriented designs and implementations easily from scratch saving valuable time and resources. *Developing Intelligent Agent Systems* not only answers the questions "what are agents?" and "why are they useful?" but also the crucial question: "how do I design and build intelligent agent systems?" The book covers everything a practitioner needs to know to begin to effectively use this technology - including an introduction to the notion of agents, a description of the concepts involved, and a software engineering methodology. Read on for: a practical step-by-step introduction to designing and building intelligent agent systems. a full life-cycle methodology for developing intelligent agent systems covering specification, analysis, design and implementation of agents. PDT: Prometheus Design Tool - software support for the Prometheus design process. the example of an electronic bookstore to illustrate the design process throughout the book. Electronic resources including the Prometheus Design Tool (PDT), can be found at:

<http://www.cs.rmit.edu.au/agents/prometheus>

This book is aimed at industrial software developers, software engineers and at advanced undergraduate students. It assumes knowledge of basic software engineering but does not require knowledge of Artificial Intelligence or of mathematics. Familiarity with Java will help in reading the examples in chapter 10.

Flash Burnout - L. K. Madigan 2009-10-19

Winner of the 2010 William C. Morris Award!
Fifteen-year-old Blake has a girlfriend and a friend who's a girl. One of them loves him; the other one needs him. When he snapped a picture of a street person for his photography homework, Blake never dreamed that the woman in the photo was his friend Marissa's long-lost meth addicted mom. Blake's participation in the ensuing drama opens up a world of trouble, both for him and for Marissa. He spends the next few months trying to reconcile the conflicting roles of Boyfriend and

Friend. His experiences range from the comic (surviving his dad's birth control talk) to the tragic (a harrowing after-hours visit to the morgue). In a tangle of life and death, love and loyalty, Blake will emerge with a more sharply defined snapshot of himself.

Essentials of Nucleic Acid Analysis - Jacquie T. Keer 2008

An indispensable handbook of the highest standard for those working in the fields of food analysis and forensic applications.
