**The Map Thief** - Heather Terrell 2009-04-28  
Republican kingmaker Richard Tobias has hired attorney Mara Coyne, he says, because of her skill in recovering stolen art, but Mara senses that he is not telling her everything. Tobias reveals that a centuries-old map was stolen from an archaeological dig he is sponsoring in China,

and he wants her to get it back. But as Mara begins her investigation, she uncovers the shocking truth: The map is more valuable than anyone has even imagined, and her client's motives are more sinister than she suspected. From Hong Kong to the Italian countryside, from Lisbon to the remote reaches of Communist

China, and literally around the world on the ships of fifteenth-century explorers, Heather Terrell takes readers on an adventure of epic proportions.

*Make Your Bed* - Admiral William H. McRaven 2017-04-04

Based on a Navy SEAL's inspiring graduation speech, this #1 New York Times bestseller of powerful life lessons "should be read by every leader in America" (Wall Street Journal). If you want to change the world, start off by making

your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves-and the world-for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement

that will inspire readers to achieve more, even in life's darkest moments. "Powerful." --USA Today  
"Full of captivating personal anecdotes from inside the national security vault." --Washington Post  
"Superb, smart, and succinct." --Forbes

*A Navy Admiral's Bronze Rules* - Rear Adm. Dave Oliver, USN (Ret.) 2021-08-15

*A Navy Admiral's Bronze Rules* uses case studies to explore the inherent risks of leadership and the tools available to those who nevertheless wish to shoulder those responsibilities. Real world examples are used and inevitably expose hitherto unrevealed history. The latter includes a secret of the Yom Kippur War, the background of the 1986 bloodless revolution in the Philippines, how Admiral Bud Zumwalt was such a unique Chief of Naval Operations, why our National War Plan suddenly had to be revised during the Reagan years and what spurred President Clinton's anti-nuclear proliferation success. Rear Adm. Oliver sketches the problems a leader will

routinely (and not-so routinely) face. He invites the reader to consider the attributes which will help best prepare them for future challenges. These thirty case studies demonstrate that few real leadership problems will yield to a “one-hammer” solution. No matter how good a practitioner may become with one leadership style, one knock-them-dead ability seldom serves to get a leader all the way through their problem or conflict. Adm. Oliver thus provides a range of tools for different personalities and situations. The potential leader thus has a range of solutions to fit the problem as well as an individual’s personal comfort zone.

*The Admiral's Steward* - Howard George  
2019-05-21

The reflections of an old man late in the Victorian era lead back to before he was born. Thomas Spencer, Admiral's Steward, has first sight of Mary Hever, his future wife, on the Bay of Naples in December 1798, just as Lord Nelson is about to evacuate the Neapolitan royal family to Palermo. The dire sea voyage is followed not just by a developing relationship between Thomas and Mary, but also between Nelson and

Emma, Lady Hamilton, while elderly Sir William Hamilton is ill. Over the ensuing year, Thomas's devotion to his duty with Nelson results in Mary and himself becoming dupes of Emma and Nelson in a deception so scandalous it would have brought ruin on Nelson and the Hamiltons had it been discovered. When those famous three quit the Mediterranean in 1800, Thomas and Mary have to take the infant Horatio William Spencer back to England as their own. The growing child is deceived even as to the year of his birth and the death in battle of Nelson means plans for his future must change.

*Shakespeare and the Admiral's Men* - Tom Rutter 2017-01-16

For most of the 1590s, the Admiral's Men were the main competitors of Shakespeare's company in the London theatres. Not only did they stage old plays by dramatists such as Christopher Marlowe and Thomas Kyd: their playwrights invented the genres of humours comedy (with An Humorous Day's Mirth) and city comedy (with Englishmen for My Money), while other new

plays such as *A Knack to Know an Honest Man* and *The Downfall of Robert, Earl of Huntingdon* were important influences on Shakespeare. This is the first book to read the Admiral's repertory against Shakespeare's plays of the 1590s, showing both how Shakespeare drew on their innovations and how his plays influenced Admiral's dramatists in turn. Shedding new light on well-known plays and offering detailed analysis of less familiar ones, it offers a fresh perspective on the dramatic culture of the 1590s.
