Medical-Surgical Nursing - E-Book - Donna D. Ignatavicius 2020-10-01

Master the essential medical-surgical nursing content you'll need for success on the Next Generation NCLEX® Exam (NGN) and safe clinical practice! Medical-Surgical Nursing: Concepts for Interprofessional Collaborative Care, 10th Edition uses a conceptual approach to provide adult health knowledge and help you develop the clinical nursing judgment skills that today's medical-surgical nurses need to deliver safe, effective care. "Iggy" emphasizes three emerging trends in nursing — interprofessional collaborative care, concept-based learning, and clinical judgment and systems thinking — trends that will ground you in how to think like a nurse and how to apply your knowledge in the classroom, simulation laboratory, and clinical settings. A perennial bestseller, "Iggy" also features NCLEX Exam-style Challenge and Mastery questions to prepare you for success on the NGN! Consistent use of interprofessional terminology promotes interprofessional collaboration through the use of a common healthcare language, instead of using isolated nursing-specific diagnostic language. UNIQUE! Enhanced conceptual approach to learning integrates nursing concepts and exemplars, providing a foundation in professional nursing concepts and health and illness concepts, and showing their application in each chapter. Unparalleled emphasis on clinical reasoning and clinical judgment helps you develop these vital skills when applying concepts to clinical situations. Emphasis on QSEN and patient safety

focuses on safety and evidence-based practice with Nursing Safety Priority boxes, including Drug Alert, Critical Rescue, and Action Alert boxes. Direct, easy-to-read writing style features concise sentences and straightforward vocabulary. Emphasis on health promotion and community-based care reflects the reality that most adult health care takes place in environments outside of high-acuity (hospital) settings.

Foundations of Nursing E-Book - Kim Cooper 2018-10-23

Make sure you have the foundation you need to begin a successful nursing career! Foundations of Nursing, 8th Edition covers the skills needed for clinical practice, from nursing interventions to maternity, neonatal, pediatric, geriatric, mental health, and community health care. Guidelines for patient care are presented within the framework of the nursing process; Nursing Care Plans are described within a case-study format to help you develop skills in clinical decision-making. The accessible, friendly overall style and clearly written review questions also helps you prepare for the NCLEX-PN® examination! Clear coverage of skills across the human lifespan includes maternity, pediatrics, adults, and older adults. Full-color, step-by-step instructions for over 110 skills show nursing techniques and procedures along with rationales for each. Tenth grade reading level helps you to understand complex topics. Expanded and updated Cultural Considerations boxes explore specific health and cultural issues to help you address the needs of the increasingly diverse

patient and resident populations. Skills are presented in a step-by-step format with clearly defined nursing actions and rationales. Mathematics review in Dosage Calculation and Medication Administration chapter covers basic arithmetic skills prior to the discussion of medication administration. Safety Alerts cover issues related to safe patient care in a variety of settings. Health Promotion Considerations boxes highlight information on wellness and disease prevention, including infection control, diet, and pregnancy. Nursing Care Plans emphasize patient goals and outcomes within a case-study format, and promotes clinical decision-making with critical thinking questions at the end of each care plan. Patient Teaching boxes include post-hospital discharge guidelines and disease prevention instructions with a strong focus on three-way communication among the nurse, patient, and family members. Communication boxes illustrate communication strategies using real-life examples of nurse-patient dialogue. Lifespan Consideration boxes provide you with age-specific information for the care of the patient. Home Health Considerations boxes discuss issues facing patients and their caregivers in the home setting. Get Ready for the NCLEX® Examination section at the end of each chapter provides Key Points, Review Questions, and Critical Thinking Activities to reinforce learning. Coordinated Care boxes promote comprehensive patient care with other members of the health care team, focusing on prioritization, assignment, supervision, collaboration, delegation, and leadership topics.

Virtual Clinical Excursions 2.0 to Accompany Fundamentals of Nursing -

Patricia A. Potter 2004-06

A multi-floor, virtual hospital, VCE 2.0: Canyon View Regional Medical Center contains 14 patient rooms with five floors - a Well Child Clinic, a Pediatrics Floor, a Surgery Department, an Intensive Care Unit, and a Medical-Surgical Telemetry Floor. These patients are included in VCE 2.0: Canyon View Regional Medical Center:

- Darlene Martin Ms. Martin, age 49, was admitted with uterine leiomyomata, irregular periods, and endometrial hyperplasia. She opts for a total abdominal hysterectomy.
- James Franklin Mr. Franklin, age 67, admitted after experiencing episodic light-headedness, left arm

- and left leg numbness, and one episode of expressive aphasia. He undergoes a carotid endarterectomy.
- James Story Mr. Story, age 42, has renal failure and Type 1 Diabetes Mellitus. He arrives complaining of significant weakness, nausea, and an increasingly edematous right arm.
- Paul Jungerson Mr. Jungerson, age 61, complains of persistent left lower quadrant abdominal pain that has lasted for 3 days. Diagnosed with a coloanal anastomosis disruption, he undergoes a colostomy.
- Elizabeth Washington Ms. Washington, age 63, is admitted following an automobile accident which fractures her hip.
- Tom Handy Mr. Handy, age 62, is admitted for a right upper lobectomy with bronchoscopy for moderately differentiated squamous cell carcinoma of the right lung.
- Julia Parker Ms. Parker, age 55, is admitted with indigestion and mid back pain. She suffers a myocardial infarction. Includes a guided tutorial which shows students how to work with a patient in the virtual hospital

- collect patient data from various sources (reports, charts, medication administration record, short video clips and audio clips of nurse-patient interactions)
- record patient data
- listen to a report and itemize a patient's problems and high-priority concerns
- and sometimes administer medications. Requires students to use their critical thinking skills to set priorities for care, collect data, analyze and interpret data, and reach conclusions about complex problems within a health-illness transition. Encourages active learning and provides opportunities to identify information to collect and process data for evidence-based patient care; work with data entry and retrieval screens; optimize use of available information resources; understand hospital information systems; manage information for decision-making; and maintain and improve core computing skills. A new clock icon appears under each lesson, offering an estimate on how much time it will take to complete. A new linkage icon alerts users whenever they are about to begin an exercise that connects with previous lessons. A new Table of Contents-Index matches the chapters from the textbook with patients and lessons in the workbook. A series of groundbreaking, new workbooks and CD-ROMs, Virtual Clinical Excursions bring learning to life

in two different "virtual" hospital settings! Each lesson in Virtual Clinical Excursions has a core textbook reading assignment with corresponding CD-ROM and workbook activities. The exercises in the workbook complement the content in the the parent text and provide a perfect environment in which students may "practice" what they are learning in the text. The workbooks act as maps - guiding students through the CD-ROM as they care for patients in the virtual hospital. Virtual hospital visits on the CD-ROM allow students to access realistic information resources that are essential to patient care.

Virtual Clinical Excursions Online and Print Workbook for Introduction to Maternity and Pediatric Nursing - Gloria Leifer 2018-12-18

One of the most complete nursing education learning systems available, Virtual Clinical Excursions 4.0 (VCE) is an interactive print and online workbook that guides you through a virtual hospital where the patients are real and their conditions are constantly changing. Each lesson features a core reading assignment from Introduction to Maternity and Pediatric Nursing, 8th Edition along with activities based on "visiting" the patients in the hospital. By immersing you in a realistic, yet safe, nursing environment, VCE simulates the average clinical rotation by allowing you to conduct a complete assessment of a patient and set priorities for care, collect information, analyze and interpret data, prepare and administer medications, and reach conclusions about complex problems. This unique virtual setting is the best way to learn about the complexities of patient care by giving you the perfect environment to practice what you've learned. Duration for access to this

product, which may be at the discretion of your institution, is up to 36 months. Elsevier reserves the right to restrict or remove access due to changes in product portfolio or other market conditions. Updated drug reference includes a comprehensive set of the latest drug monographs to help you make the best clinical judgments to complete each case. Online workbook lessons guide you throughout the patient scenarios to collect information, make decisions, and set priorities. Vital signs tool within each patient's room allows you to check the patient's status at critical moments, and promotes safe practice. Nurse-client interaction videos depict conversations and situations involving nurses, patients, family members, and hospital staff to help you discern between communications that are ideal and those that need improvement. Unique records that house data from the virtual patient's hospital stay allows you to record new findings to see how the data for different attributes has changed over time. Laboratory guide provides standard value ranges for all laboratory values offered within the virtual patient hospital, so you can confirm and compare standard lab values against your patients' test results. Physical examination experience with unique images and assessment findings advance your understanding of each patient's system assessments. Patient medication administration enhances your ability to think critically about safe medication practices and follow safe medication standards. Allows for easy and quick access to various patient charts, including Physician's Orders, Laboratory Reports, Patient Education, Nursing Admission, and many more. Kardex nursing information regarding patients' acute care provides quick access to vital information such as physician's orders, laboratory reports, patient education, nursing admission, and more, offering a richly detailed portrait of the patient. NEW! Updated content from Introduction to Maternity and Pediatric Nursing, 8th Edition addressed through patient care activities in the VCE workbook, providing you with active learning of the latest evidence-based care.

From an introduction to A&P to discussions of disorders by body system and beyond, *Adult Health Nursing*, 6th Edition, is an indispensable reference.

Companion CD includes animations and audio clips depicting physiologic processes, physical assessment video clips, an English/Spanish glossary with definitions and audio pronunciations, an anatomy coloring book, and a fluid and electrolytes tutorial. Chapters begin with an overview of anatomy and physiology, providing a clear, basic understanding of A&P that LPN/LVNs need to know. The consistent, logical framework of the nursing process connects specific disorders to patient care.

Safety Alert boxes help you implement The Joint Commission's safety guidelines in all settings, with considerations for special populations.

Nursing Diagnosis boxes, screened and highlighted in the text, include nursing diagnoses for specific disorders paired with the appropriate nursing interventions. Skills in a step-by-step format with full-color illustrations present clearly defined nursing actions with rationales for the skills and techniques you'll use in practice. Medication tables are meticulously detailed and provide quick access to action, dosage, precautions, and nursing considerations for commonly used drugs. Nursing Care Plans, presented in a case-study format, emphasize patient goals and outcomes and end with Critical Thinking Questions to develop your clinical decision-making skills. An emphasis on communication features real-life examples of nurse-patient dialogue and illustrates practical guidelines for effective communication. Patient

Teaching boxes and Family Teaching boxes include post-hospital discharge guidelines and disease prevention instructions with a strong focus on three-way communication among the nurse, patient, and family members. Life Span Considerations for Older Adults boxes provide age-specific information for the care of the aging population, which is often the primary focus of the LPN/LVN nurse. Home Care Considerations boxes discuss the issues facing patients and caregivers in the home health care setting. Health Promotion boxes provide key information on staying healthy and preventing disease, with tips on wellness from Healthy People 2010. Cultural Considerations boxes discuss how to address the health needs of a culturally diverse patient population when planning care. Complementary and Alternative Therapy boxes includes disorder-specific therapies, precautions, and possible side effects of non-traditional treatments. Enhanced focus on the NCLEX® Examination offers end-of-chapter Get Ready for the NCLEX Examination! sections with key points for self-guided study and remediation and an extensive set of review questions for thorough self-assessment. Additional review questions on Evolve provide instant feedback with correct answer and rationale for even more test-taking practice. Evidence-Based Practice boxes summarize the latest research findings and highlight how they apply to LPN/LVN practice. Updated, vibrant full-color design highlights key information and enhances your understanding of important concepts.

Virtual Clinical Excursions 2. 0 to Accompany Fundamental Concepts and Skills for Nursing - Susan C. de Wit 2004-10

This groundbreaking workbook/CD-ROM package brings learning to life in a "virtual" hospital setting. Each lesson has a textbook reading assignment with corresponding CD-ROM and workbook activities. The workbook acts as a map, guiding students through the CD-ROM as they care for patients in the virtual hospital, and helping them make connections between what they experience through the CD-ROM and what they've learned in their textbook. Each virtual hospital visit allows the student to access realistic information essential to patient care. The result is a true-to-life, hands-on learning experience. The learning environment:

Offers multiple information sources that can be examined and evaluated to understand how and why care is implemented. Has meaningful real-world problems that place the student in nursing scenarios where they can set priorities for care, collect data, analyze and interpret data, and reach conclusions about complex problems. The workbook includes lessons that complement the content in the textbook and guide the student through the multi-floor virtual hospital. The multi-floor virtual hospital includes a Surgery Department, Intensive Care Unit, and Medical-Surgical/Telemetry Floor. Content is included on patient care, patient records, case conference, and clinical review to engage the user in the subject matter and allow for further exploration. The CD-ROM offers users the opportunity to visit each patient and access realistic information essential for patient care, including charts, medication administration records, electronic patient records, video streaming of dialogue with nurses, and other related patient materials. A clock icon appears under each lesson, estimating how much time it will take to complete. A linkage icon alerts the user whenever they are about to begin an exercise that connects with previous lessons. TOC/Index matches chapters from the textbook with patients and lessons in the workbook.

Maternity and Women's Health Care - E-Book - Kathryn Rhodes Alden 2013-12-27

With comprehensive coverage of maternal, newborn, and women's health nursing, *Maternity & Women's Health Care, 10th Edition* provides evidence-based coverage of everything you need to know about caring for women of childbearing age. It's the #1 maternity book in the market -- and now respected authors Dr. Deitra Leonard Lowdermilk, Dr. Shannon E. Perry, Kitty Cashion, and Kathryn R. Alden have improved readability and provided a more focused approach! Not only does this text emphasize childbearing issues and concerns, including care of the newborn, it addresses wellness promotion and management of common women's health problems. In describing the continuum of care, it integrates the importance of understanding family, culture, and community-based care. New to this edition is the most current information on care of the late preterm infant and the 2008 updated fetal

monitoring standards from the National Institute of Child Health and Human Development. A logical organization builds understanding by presenting wellness content first, then complications. Critical Reasoning exercises offer real-life situations in which you can develop analytical skills and apply their knowledge. Teaching for Self-Management boxes offer a guide to communicating follow-up care to patients and their families. Signs of Potential Complications boxes help you recognize the signs and symptoms of complications and provide immediate interventions. Procedure boxes offer easy-to-use, step-by-step instructions for maternity skills and procedures. Emergency boxes may be used for quick reference in critical situations. Medication Guide boxes provide an important reference for common drugs and their interactions. Cultural Considerations boxes stress the importance of considering the beliefs and health practices of patients from various cultures when providing care. Family content emphasizes the importance of including family in the continuum of care. Nursing Care Plans include specific guidelines and rationales for interventions for delivering effective nursing care. Community Activity exercises introduce activities and nursing care in a variety of local settings. Student resources on the companion Evolve website include assessment and childbirth videos, animations, case studies, critical thinking exercises with answers, nursing skills, anatomy reviews, a care plan constructor, review questions, an audio glossary, and more.

Foundations and Adult Health Nursing - Kim Cooper, RN, MSN 2014-08-25

Nursing books, including review questions to help you prepare for the NCLEX-PN® examination! Full-color, step-by-step instructions for over 100 skills show nursing techniques and procedures along with rationales for each. The 5-step Nursing Process connects specific disorders to patient care - with a summary at the end of each chapter. Nursing Care Plans emphasize patient goals and outcomes within a case-study format, and promotes clinical decision-making with critical thinking questions at the end of each care plan. Clear coverage of essential A&P is provided by an Introduction to Anatomy and Physiology chapter along with an overview of A&P in all body systems chapters. Student-friendly features enhance the learning of nursing skills with summary boxes for Patient Teaching, Health Promotion Considerations, Complementary and Alternative Therapy, Cultural Considerations, Older Adult Considerations, Home Care Considerations, Safety Alert, and Prioritization, Assignment, and Supervision. UNIQUE! Mathematics review in Dosage Calculation and Medication Administration chapter covers basic arithmetic skills prior to the discussion of medication administration. A focus on preparing for the NCLEX examination includes review questions and Get Ready for the NCLEX Examination! sections with key points organized by NCLEX Client Needs Categories. Evidence-Based Practice boxes provide synopses of nursing research articles and other scientific articles applicable to nursing, along with nursing implications for the LPN/LVN. Nursing Diagnosis boxes summarize nursing diagnoses for specific disorders along with the appropriate nursing interventions. UNIQUE! Delegation Considerations boxes provide parameters for delegation to nurse assistants, patient care technicians, and unlicensed assistive personnel. Medication Therapy tables provide quick access to actions, dosages, precautions, and nursing considerations for commonly used drugs. NEW! Reorganized chapters make it easier to follow and understand the material. NEW! Icons in page margins indicate videos, audios, and animations on the Evolve companion website that may be accessed for enhanced learning. UPDATED illustrations include photographs of common nursing skills.

Introduction to Medical-Surgical Nursing - Adrienne Dill Linton, PhD, RN, FAAN 2015-02-06
The leading medical-surgical text for LPN/LVN students, Linton's Introduction to Medical-Surgical Nursing, 6th Edition offers just the right level of information to equip today's students to effectively care for adults and older adults. Covering both medical-surgical and psychiatric mental health conditions and disorders, this comprehensive text addresses the LPN/LVN's role in a variety of care settings, including acute care and long-term care, with a special emphasis on assignment and supervision responsibilities. It also emphasizes culturally competent care and holistic nursing, while thoroughly covering all relevant NCLEX-PN test plan content. No other resource offers the breadth of topics at a level that is so perfectly tailored to the LPN/LVN student. Foundational units on basic concepts related to the health care system, care settings, the nursing process, leadership, nutrition, the older adult, growth and nutrition, legal/ethical considerations, evidence-based nursing care, and many more essential topics, avoid repetition later in the text and create a foundation to build your understanding of disorders by body system. Safety alerts are highlighted throughout the text with a Safety Considerations icon. A separate unit on psychiatric mental health nursing covers psychosocial responses to illness, psychiatric disorders, and substance abuse - eliminating the need for a separate psychiatric mental health nursing text. Content related to the NCLEX-PN test plan is emphasized throughout the text, including health promotion, nutrition, legal/ethical issues, HIPAA, and prevention of medication/medical errors. Separate chapters on common, high-profile disorders (including hypertension, diabetes, and shock), provide an in-depth understanding for patient care. Focus on assignment and supervision helps you assign tasks to nurse assistants, patient care techs, and unlicensed assistive personnel, and makes sure they understand the difference between delegation, management, supervision, and assignment of tasks on the health care team. UNIQUE! In-depth pharmacology coverage includes: the Pharmacology Tutorial covering drug classifications, how drugs work, and nursing responsibilities; Pharmacology Capsules

boxes providing medication information, precautions for use, interactions, and side/adverse effects; and Pharmacology and Medications tables including classification, use/action, side/adverse effects, and nursing interventions. A separate unit on gerontologic nursing provides comprehensive coverage of the care of the older adult and related disorders. No other LPN/LVN med-surg text offers as much coverage of this primary patient group. Diagnostic Tests and Procedures tables offer quick reference to MRI, CT, Doppler flow, lumbar puncture tests for neurologic disorders, and much more. Health Promotion Considerations boxes highlight timely wellness and disease prevention topics. Patient Teaching Plans provide bulleted lists of nursing instructions for patients, stressing the role and responsibility of the LPN/LVN to reinforce patient education. Nutrition Considerations boxes are spotlighted at appropriate points throughout the text to emphasize the role that nutrition plays in disease and nursing care. Nursing care plans reinforce the nursing process and focus on critical thinking. Cultural Considerations boxes discuss the importance of providing culturally-competent care related to various clinical situations. Put on Your Thinking Cap boxes allow you to pause and consider the practical implications of what you have just read. Get Ready for the NCLEX-PN Examination! sections at the end of chapters include key points, review questions, and case studies that address the various NCLEX Client Needs categories. NEW! Continued emphasis on evidence-based practice and the most current research findings include specific examples of how scientific evidence can justify and support patient care. NEW! Updated nursing diagnoses all reflect the most current NANDA listings for NCLEX compliance.

Virtual Clinical Excursions 1. 0 to Accompany Medical-Surgical Nursing - Mary Ann Hogan 2002-11

Dynamic and engaging, Virtual Clinical Excursions is a workbook and CD-ROM package that guides users through a virtual hospital featuring highly complex and diverse patients. Complementing core textbook reading assignments in Phipps: Medical-Surgical Nursing: Health and Illness Perspectives, 7th

Edition, lessons in the workbook provide a perfect opportunity for users to practice what they are learning in the text in a realistic clinical environment. Covers everything from general medical-surgical nursing concepts related to adult patients through pathophysiologic mechanisms to the nursing management of a full range of medical-surgical problems. Explores each disease and disorder in detail - discussing its etiologic and pathophysiologic basis, clinical manifestations, collaborative care, and nursing management. Includes a guided tutorial which shows students how to work with a patient in a virtual hospital · collect patient data from various sources (reports, charts, medication administration record, short video clips and audio clips of nurse-patient interactions) · record patient data · listen to a report and itemize a patient's problems and high-priority concerns · sometimes administer medication · and more. Emphasizes the importance of patient care - from nursing assessment, diagnosis, planning, and implementation to evaluation. Requires students to document client-nurse interactions - retrieving clinical data, maintaining quality and continuity of care, tracking client outcomes, and meeting current practice standards. Produced in conjunction with the Virtual Clinical Excursions CD-ROM authors: Jay Shiro Tashiro, PhD, RN; Ellen Sullins, PhD; Gina Long, RN, DNSc

Virtual Medical Office for Clinical Procedures for Medical Assistants - Kathy Bonewit-West 2007-04

Gain realistic experience in a physician's office without leaving the classroom! By using Elsevier's Virtual Medical Office learning system an Elsevier textbook, a study guide, and interactive software students develop critical thinking and decision-making skills they'll need in their externships and on the job. In Virtual Medical Office, students experience patient care from check-in through check-out, exploring all national curriculum competencies. It shows how to manage different patients and why. Each study guide lesson directs the student through the textbook and software and presents exercises focused on one or two medical assisting competencies at a time based on what they experience. Realistic software simulations of handling a difficult patient, setting up the exam room, and many more, bridge the gap between the classroom and the real world. Money-saving package with the textbook is also available. Search ISBN 1-4160-4175-3. 15 unique cases promote understanding of how the competencies established by ABHES (Accrediting Bureau of Health Education Schools) and CAAHEP (Commission on Accreditation of Allied Health Education Programs) come into play in the workplace. More than two hours of video clips highlight the communication and professionalism competencies of patient care. Realistic information resources are shown, such as medical records for each case, an office policy manual, a fee schedule, a daysheet, and more. Performance summaries allow students to compare their decisions for each case to those of an expert and evaluate any differences between the two. A study guide: Complements textbook content through lessons that correlate reading assignments with patients in the virtual practice. Focuses on one or two competencies in each lesson, to create brief, manageable learning experiences. Demonstrates how all CAAHEP and ABHES medical assisting competencies come into play in the workplace. Promotes active learning as students collect information from a variety of sources to make patient care decisions. Encourages critical thinking as

students discuss and critique the performance of the medical assistants in the videos. Augments knowledge of HIPPA by directing students to compare the policy manual, the contents of each case's medical record, and what actually happens in the videos. Makes lessons available online, allowing students to complete their assignments and submit them electronically to their instructor.
