ANTROPOGENESI - La Storia Esoterica delle Origini Umane - Dr. Douglas M. Baker

2014-04-26

ANTROPOGENESI - La Storia Esoterica delle Origini Umane: La storia esoterica delle origini

dell'Uomo è un affascinante argomento, che è stato trattato da autori come H. P. Blavatsky ed Annie Besant, ma che ciononostante non è fra i meglio compresi dagli studenti della Saggezza Perenne. In questa sua opera, il dott. Baker tratta con la chiarezza che gli è tipica il tema della nascita e dell'evoluzione dell'umanità sul nostro pianeta, gettando luce su aspetti rimasti fino ad oggi oscuri. L'Uomo è una cellula nel corpo del più vasto essere di cui fa parte: l'umanità. Non possiamo conoscere noi stessi come individui, se non comprendiamo qualcosa di questa grande entità, delle sue origini, della sua storia e del suo destino finale. Così come non possiamo veramente comprendere una cellula epatica, se non la consideriamo in relazione al fegato ed all'intero organismo, allo stesso modo non possiamo comprendere l'uomo se non lo consideriamo in relazione all'umanità. Questo libro riempie una lacuna che forse esisteva nella letteratura esoterica. Il suo attento studio si rivelerà estremamente utile per chi

calca il sentiero dello sviluppo spirituale, mosso dal desiderio di avvicinarsi alla parte reale di se stesso.
