Chain of Title - David Dayen 2017-12-19
NOW IN PAPERBACK The "gripping" (New York Times) and "Hitchcockian"(Publishers Weekly) story of how a nurse, a car dealership worker, and a forensic expert took on the nation's largest banks A Kirkus Reviews and The Week best book of the year, David Dayen's Chain of Title is a riveting work that recalls A Civil Action, Erin Brockovich, and Flash Boys, recounting how three ordinary Floridians—a car dealership worker, a cancer nurse, and an insurance fraud specialist—helped uncover the largest consumer crime in American history, challenged the most powerful institutions in America, and—for a brief moment—brought the corrupt financial industry to its knees. Lisa Epstein, Michael Redman, and Lynn Szymoniak did not work in government or law enforcement. They had no history of anticorporate activism. Instead they were all foreclosure victims, and while struggling with their shame and isolation they committed a revolutionary act: closely reading their mortgage documents, discovering the deceit behind them, and building a movement to expose it. Harnessing the power of the Internet, they revealed how the financial crisis and subsequent recession were fundamentally based upon a series of frauds that kicked millions out of their homes because of false evidence by mortgage companies that had no legal right to foreclose.

As Rolling Stone's Matt Taibbi noted: "Chain of Title is a sweeping work of investigative journalism that traces the arc of a criminally underreported story in America, the collapse of the rule of law in the home mortgage industry." The Battle of Tippecanoe - Charles River Charles River Editors 2018-02-03
*Includes pictures *Explains the roles played by Tecumseh and William Henry Harrison before, during, and after the battle *Includes various accounts of what happened at the battle according to both sides *Includes a bibliography for further reading *Includes a table of contents
The Battle of Tippecanoe, fought on November 7, 1811 near present-day Lafayette, Indiana, involved forces of fewer than 2,000 Native American warriors and white soldiers, and only about 300 men were killed or wounded on both sides. Given those numbers, it's apparent that the battle was far from being a Saratoga or a Gettysburg in terms of its scale or significance as an historical turning point, yet it was one of the most important battles in shaping American history during the early 19th century. The battle also involved an epic confrontation between two important American figures: William Henry Harrison, who would become the 9th president of the United States by running on his success in the battle, and the Shawnee war chief Tecumseh, arguably the most famous Native

American leader in American history. From the American Revolution up through the Battle of Tippecanoe, Native Americans in the Old Northwest (today's Midwestern states) had been putting up stout resistance to that region's settlement by white land speculators and settlers. Things came to a head when Tecumseh and his brother, the Prophet Tenskwatawa, spearheaded a movement in the region that greatly influenced the area's Native Americans. In 1806, Harrison began to publicly denounce Tenskwatawa to other tribal leaders, calling him a fraud and charlatan, but the Shawnee Prophet responded by accurately predicting a solar eclipse, which embarrassed Governor Harrison, and after this event, which tribal leaders took as a sign of Tenskwatawa's authenticity, his movement grew even more rapidly. By 1808, Tenskwatawa and his followers had moved west and founded a large, multi-tribal settlement near the confluence of the Tippecanoe and Wabash Rivers, called Prophetstown or Tippecanoe. Assisted by his brother Tecumseh, Tenskwatawa's settlement grew tremendously and eventually became the largest Native American settlement in the region. It also served as a Native American cultural center and provided a steady cadre of warriors ready to hear the Prophet's message that they should return to their ancestral lifestyles and force the white settlers and their culture out of their territory. Although accounts of the battle conflict, all agree that sentinels aroused the main body of the American troops when they detected Native American warriors attacking the Americans' perimeter from the south. The initial Native American attack struck the southern point of the defensive perimeter around 4:30 a.m. on November 7, 1811, and almost immediately the warriors rushed in among the American defenders manning that sector. Soldiers defending the southern side of the perimeter suffered the highest casualties, with the Yellow Jackets suffering a 30% casualty rate, but in fighting lasting about two hours Harrison's force of roughly 1,000, suffered only 62 dead and about 120 wounded. As the sun rose, the warriors began running low on ammunition, and the light revealed their small numbers, leading them to break off the attack and retreat towards Prophetstown. The battle

was hardly a decisive victory, but at the end of the fighting the Americans still held their perimeter, allowing them to claim victory. While Tippecanoe was clearly not a total victory, and Native American resistance would continue through the War of 1812, the battle is widely considered the end of Tecumseh's War and did help bring about the decline of Native American ascendancy in the region. The Battle of Tippecanoe: The History and Legacy of the American Victory That Ended Tecumseh's War analyzes the background that led up to the battle and its aftermath.

We Own the Future - Kate Aronoff 2020-01-14
A stunningly original and timely collection that makes the case for "socialism, American style" It's a strange day when a New York Times conservative columnist is forced to admit that the left is winning, but as David Brooks wrote recently, "the American left is on the cusp of a great victory." Among Americans under thirty, 43 percent had a favorable view of socialism, while only 32 percent had a favorable view of capitalism. Not since the Great Depression have so many Americans questioned the fundamental tenets of capitalism and expressed openness to a socialist alternative. *We Own the Future: Democratic Socialism—American Style* offers a road map to making this alternative a reality, giving readers a practical vision of a future that is more democratic, egalitarian, inclusive, and environmentally sustainable. The book includes a crash course in the history and practice of democratic socialism, a vivid picture of what democratic socialism in America might look like in practice, and compelling proposals for how to get there from the age of Trump and beyond. With contributions from some of the nation's leading political activists and analysts, *We Own the Future* articulates a clear and uncompromising view from the left—a perfectly timed book that will appeal to a wide audience hungry for change. Military Recruiting in the United States - Pat Elder 2016-12-08

Military Recruiting in the United States provides a fearless and penetrating description of the deceptive practices of the U.S. military as it recruits American youth into the armed forces. Long-time antiwar activist Pat Elder exposes the underworld of American military recruiting in this explosive and consequential book. The book describes how recruiters manage to convince youth to enlist. It details a sophisticated psy-ops campaign directed at children. Elder describes how the military encourages first-person shooter games and places firearms into the hands of thousands using the schools, its JROTC programs, and the Civilian Marksmanship Program to inculcate youth with a reverence for guns. Previously unpublished investigative work reveals how indoor shooting ranges in schools are threatening the health of children and school staff through exposure to lead particulate matter. The book provides a kind of "what's coming next manual" for European peacemakers as they also confront a rising tide of militarism. The book examines the disturbing, nurturing

role of the Catholic Church in recruiting youth. It surveys the wholesale military censorship of Hollywood films, pervasive military testing in the high schools, and an explosion of military programs directed toward youth. Anacker 2019-07-02 *The Routledge Handbook of Housing Policy and Planning* provides a comprehensive multidisciplinary overview of contemporary trends in housing studies, housing policies, planning for housing, and housing innovations in the United States, the United Kingdom, and Continental Europe. In 29 chapters, international scholars discuss aspects pertaining to the right to housing, inequality, homeownership, rental housing, social housing, senior housing, gentrification, cities and suburbs, and the future of housing policies. This book is essential reading for students, policy analysts, policymakers, practitioners, and activists, as well as others interested in housing policy and planning.

[Homewreckers](#) - Aaron Glantz 2019-10-15 "[I] can't recommend this joint enough. ... An illuminating and discomfiting read." —Ta-Nehisi Coates "Essential reading." —New York Review of Books A shocking, heart-wrenching investigation into America's housing crisis and the modern-day robber barons who are making a fortune off the backs of the disenfranchised working and middle class—among them, Donald Trump and his inner circle. Two years before the housing market collapsed in 2008, Donald Trump looked forward to a crash: "I sort of hope that happens because then people like me would go in and buy," he said. But our future president wasn't alone. While millions of Americans suffered financial loss, tycoons pounced to heartlessly seize thousands of homes—their profiteering made even easier because, as prize-winning investigative reporter Aaron Glantz reveals in *Homewreckers*, they often used taxpayer money—and the Obama administration's promise to cover their losses. In *Homewreckers*, Glantz recounts the transformation of straightforward lending into a morass of slivered and combined mortgage "products" that could be bought and sold, accompanied by a shift in priorities and a

loosening of regulations and laws that made it good business to lend money to those who wouldn't be able to repay. Among the men who laughed their way to the bank: Trump cabinet members Steve Mnuchin and Wilbur Ross, Trump pal and confidant Tom Barrack, and billionaire Republican cash cow Steve Schwarzman. Homewreckers also brilliantly weaves together the stories of those most ravaged by the housing crisis. The result is an eye-opening expose of the greed that decimated millions and enriched a gluttonous few.

Monopolized - David Dayen 2020-06-09

From the airlines we fly to the food we eat, how a tiny group of corporations have come to dominate every aspect of our lives—by one of our most intrepid and accomplished journalists "If you're looking for a book . . . that will get your heart pumping and your blood boiling and that will remind you why we're in these fights—add this one to your list." —Senator Elizabeth Warren on David Dayen's Chain of Title Over the last forty years our choices have narrowed, our opportunities have shrunk, and our lives have become governed by a handful of very large and very powerful corporations. Today, practically everything we buy, everywhere we shop, and every service we secure comes from a heavily concentrated market. This is a world where four major banks control most of our money, four airlines shuttle most of us around the country, and four major cell phone providers connect most of our communications. If you are sick you can go to one of three main pharmacies to fill your prescription, and if you end up in a hospital almost every accessory to heal you comes from one of a handful of large medical suppliers. Dayen, the editor of the American Prospect and author of the acclaimed Chain of Title, provides a riveting account of what it means to live in this new age of monopoly and how we might resist this corporate hegemony. Through vignettes and vivid case studies Dayen shows how these monopolies have transformed us, inverted us, and truly changed our lives, at the same time providing readers with the raw material to make monopoly a consequential issue in American life and revive a long-dormant antitrust movement. *Good Time Girls of the Alaska-Yukon Gold Rush* - Lael Morgan 1999

Morgan offers an authentic and deliciously humorous account of the prostitutes and other "disreputable" women who were the earliest female pioneers of the Far North.

The Neoliberal Age in America - Nader Elhefnawy 2020-02-10

As we enter 2020 it seems as if the country's politics are undergoing nothing less than a tectonic shift—one result of which is that the word "neoliberalism" has passed out of the usage of academics, into general parlance. Those trying to make sense of it all find that the market is flooded with public affairs books—but most are longer on political hacks' rants than substance, or too busy telling colorful stories, to offer answers to such obvious and essential questions as •Just what is neoliberalism anyway? (And why is there so much confusion about this anyway?) •What did the Reagan administration actually do, and what were the results? •What was the policy of the Clinton administration, and did it justify its characterization by critics as neoliberal? (Ditto Obama.) •What was the country's economic record before and after "the neoliberal turn?" However, *THE NEOLIBERAL AGE IN AMERICA: FROM CARTER* systematically examines Federal policy from the 1970s through the Presidencies of Carter, Reagan, the two Bushes, Clinton and Obama, emphasizing specifics and hard data to offer a picture of just what happened in these years as a matter of practical policy, and its consequences—answering these questions and more as we confront this era of crisis, and what may be a historic election this upcoming November.

Homo Luminous - Mike Frost 2011-01-21

David Werden wants nothing more than to lead a quiet, ordinary life. But his world is turned upside down when an unknown event changes the face of the planet. Realizing he cannot live alone in the ruins of the old world, and compelled by a strange internal force to reach the sea, he sets out on foot, carrying what he can, struggling against the harsh post-apocalyptic environment to search out others who may still be alive. Thrust into the leadership of a band of survivors, David struggles to scratch out the necessities of life while dealing with the staggering destruction and overwhelming sense of loss - and begins to understand the tragic and

marvelous events that have occurred to the planet and to humanity itself. Finding love and betrayal, he must fight those who cling to the old world with all their strength and those who wish to stamp out the growing number of people coming to terms with their new levels of perception and insight into the Universal Mind.

This timely Research Agenda examines the ways in which public-private partnerships (PPPs) in infrastructure continue to excite policy makers, governments, research scholars and critics around the world. It analyzes the PPP research journey to date and articulates the lessons learned as a result of the increasing interest in improving infrastructure governance. Expert international contributors explore how PPP ideas have spread, transferred and transformed, and propose a range of future research directions.

Disorder - Helen Thompson 2022-02-24

Getting to grips with the overlapping geopolitical, economic, and political crises faced by Western democratic societies in the 2020s. The 21st century has brought a powerful tide of geopolitical, economic, and democratic shocks. Their fallout has led central banks to create over \$25 trillion of new money, brought about a new age of geopolitical competition, destabilised the Middle East, ruptured the European Union, and exposed old political fault lines in the United States. *Disorder: Hard Times in the 21st Century* is a long history of this present political moment. It recounts three histories - one about geopolitics, one about the world economy, and one about western democracies - and explains how in the years of political disorder prior to the pandemic the disruption in each became one big story. It shows how much of this turbulence originated in problems generated by fossil-fuel energies, and it explains why as the green transition takes place the long-standing predicaments energy invariably shapes will remain in place.

Economism - James Kwak 2018-03-20

Here is a bracing deconstruction of the framework for understanding the world that is learned as gospel in Economics 101, regardless of its imaginary assumptions and misleading half-truths. Economism: an ideology that distorts the valid principles and tools of introductory

college economics, propagated by self-styled experts, zealous lobbyists, clueless politicians, and ignorant pundits. In order to illuminate the fallacies of economism, James Kwak first offers a primer on supply and demand, market equilibrium, and social welfare: the underpinnings of most popular economic arguments. Then he provides a historical account of how economism became a prevalent mode of thought in the United States—focusing on the people who packaged Econ 101 into sound bites that were then repeated until they took on the aura of truth. He shows us how issues of moment in contemporary American society—labor markets, taxes, finance, health care, and international trade, among others—are shaped by economism, demonstrating in each case with clarity and élan how, because of its failure to reflect the complexities of our world, economism has had a deleterious influence on policies that affect hundreds of millions of Americans.

Milked - Ruth Conniff 2022-07-12

A compelling portrayal by the veteran journalist of the lives of farming communities on either side of the U.S.-Mexico border and the surprising connections between them “Conniff brings her skills and insights to a particularly urgent project: moving beyond the polarizing politics of our current era, and taking a deeper look at how people who have been pitted against each other can forge bonds of understanding.” —E.J. Dionne Jr., co-author of *100% Democracy* In the Midwest, Mexican workers have become critically important to the survival of rural areas and small towns—and to the individual farmers who rely on their work—with undocumented immigrants, mostly from Mexico, accounting for an estimated 80 percent of employees on the dairy farms of western Wisconsin. In *Milked*, former editor-in-chief of *The Progressive* Ruth Conniff introduces us to the migrants who worked on these dairy farms, their employers, among them white voters who helped elect Donald Trump to office in 2016, and the surprising friendships that have formed between these two groups of people. These stories offer a rich and fascinating account of how two crises—the record-breaking rate of farm bankruptcies in the Upper Midwest, and the contentious politics around immigration—are

changing the landscape of rural America. A unique and fascinating exploration of rural farming communities, *Milked* sheds light on seismic shifts in policy on both sides of the border over recent decades, connecting issues of labor, immigration, race, food, economics, and U.S.-Mexico relations and revealing how two seemingly disparate groups of people have come to rely on each other, how they are subject to the same global economic forces, and how, ultimately, the bridges of understanding that they have built can lead us toward a more constructive politics and a better world.

Can't Pay, Won't Pay - Collective Debt
2020-06-23

Debtors have been mocked, scolded and lied to for decades. We have been told that it is perfectly normal to go into debt to get medical care, to go to school, or even to pay for our own incarceration. We've been told there is no way to change an economy that pushes the majority of people into debt while a small minority hoard wealth and power. The coronavirus pandemic has revealed that mass indebtedness and extreme inequality are a political choice. In the early days of the crisis, elected officials drew up plans to spend trillions of dollars. The only question was: where would the money go and who would benefit from the bailout? The truth is that there has never been a lack of money for things like housing, education and health care. Millions of people never needed to be forced into debt for those things in the first place. Armed with this knowledge, a militant debtors movement has the potential to rewrite the contract and assure that no one has to mortgage their future to survive. Debtors of the World Must Unite. As isolated individuals, debtors have little influence. But as a bloc, we can leverage our debts and devise new tactics to challenge the corporate creditor class and help win reparative, universal public goods. Individually, our debts overwhelm us. But together, our debts can make us powerful.

Introduction to Housing - Katrin B. Anacker
2018

This foundational text for understanding housing, housing design, homeownership, housing policy, special topics in housing, and housing in a global context has been comprehensively revised to reflect the changed housing situation in the United States during and after the Great Recession and its subsequent movements toward recovery. The book focuses on the complexities of housing and housing-related issues, engendering an understanding of housing, its relationship to national economic factors, and housing policies. It comprises individual chapters written by housing experts who have specialization within the discipline or field, offering commentary on the physical, social, psychological, economic, and policy issues that affect the current housing landscape in the United States and abroad, while proposing solutions to its challenges.

Rural Rides - William Cobbett 2020-04-09

Rural Rides is the book for which the English journalist, agriculturist and political reformer William Cobbett is best known. At the time of writing *Rural Rides*, in the early 1820s, Cobbett was a radical anti-Corn Law campaigner. He embarked on a series of journeys by horseback through the countryside of Southeast England and the English Midlands. He wrote down what he saw from the points of view both of a farmer and a social reformer. The result documents the early 19th-century countryside and its people as well as giving free vent to Cobbett's opinions

Waste - Catherine Coleman Flowers 2020-11-17

The MacArthur grant-winning environmental justice activist's riveting memoir of a life fighting for a cleaner future for America's most vulnerable. A *Smithsonian Magazine* Top Ten Best Science Book of 2020. Catherine Coleman Flowers, a 2020 MacArthur "genius," grew up in Lowndes County, Alabama, a place that's been called "Bloody Lowndes" because of its violent, racist history. Once the epicenter of the voting rights struggle, today it's Ground Zero for a new movement that is also Flowers's life's work—a

fight to ensure human dignity through a right most Americans take for granted: basic sanitation. Too many people, especially the rural poor, lack an affordable means of disposing cleanly of the waste from their toilets and, as a consequence, live amid filth. Flowers calls this America's dirty secret. In this "powerful and moving book" (Booklist), she tells the story of systemic class, racial, and geographic prejudice that foster Third World conditions not just in Alabama, but across America, in Appalachia, Central California, coastal Florida, Alaska, the urban Midwest, and on Native American reservations in the West. In this inspiring story of the evolution of an activist, from country girl to student civil rights organizer to environmental justice champion at Bryan Stevenson's Equal Justice Initiative, Flowers shows how sanitation is becoming too big a problem to ignore as climate change brings sewage to more backyards—not only those of poor minorities.

Dastardly Discourse - Meg Gorzycki 2020-03-09
Screaming at the television, compulsively firing off tart little tweets, and blogging until we are blue; these signal that we are feeling the effects of dastardly discourse. We live in a world where people feel entitled to use words to hurt, exploit, and publicly degrade humanity. We daily consume rhetoric that makes a mockery of decency and civility. Leaders of key social institutions, including government, news media, and religious organizations, who are supposed to be role models of reasoned and compassionate communication are often the ones with the loudest lies and the hardest hate. We can change the channel. We can unplug. We can even encourage others to do the same. We may not do so, however, until we grasp what is

fundamentally at risk in our current norms of communication. Nasty words are just the tip of the dastardly discourse iceberg. What lies beneath is a steady flow of propaganda that aims to control our personal narratives. This book is about that propaganda, the importance of owning our own narratives, and improving our own rhetorical capital--the ability to analyze and evaluate information--for the sake of sustaining human dignity, decency, and civility.

Welcome to Soviet America - Michael T. Petro, Jr. 2012-04-06

In 1848 Karl Marx published his infamous pamphlet, The Communist Manifesto. In this pamphlet Marx outlined the basic principles of Communism as well as the goals to be achieved in establishing Communism in a targeted nation. In 1932 William Z. Foster, the National Chairman of the Communist Party, USA, published his book, Toward Soviet America. In his book Foster revealed the Communist plan to build a Soviet America, or an American version of the Soviet Union. Foster provided the reader with a general plan along with many specific details. In 1958 former FBI agent W. Cleon Skousen published his book, The Naked Communist. In his 1962 edition Skousen listed 45 goals Communists planned to achieve in building a Communist America. This book, Welcome To Soviet America: Special Edition, explores the alarming extent to which many of the goals outlined by Karl Marx, William Z. Foster, W. Cleon Skousen - and others - have been achieved in the America that was once described as "the land of the free and the home of the brave!"

Now an Award-Winning Finalist in the Non-Fiction: Narrative category of The 2012 USA Best Book Awards, sponsored by USA Book News. Obtain a free 40-page excerpt on www.kirschstonebooks.com. Against the backdrop of World War II tragedy and devastation in Latvia, Poland and Germany and three decades of European history, this true narrative provides a window into the palpating heart of wartime upheaval through the lives of Rolf Dutzmann and Lilo Wassull—two people fatefully positioned "on the other side." In December of 1939, swept along on a tide of dire necessity and circumstance due to the imminent Soviet takeover of his homeland, Rolf, a young Latvian aeronautical engineering student, flees with his family to Germany, a country fully under Hitler's control and already engaged in a brutal war. While the account chronicles Rolf's pursuit of his technical dream against daunting wartime odds, it is first and foremost a poignant love story that plays out against a panorama of worldwide chaos and destruction. It is also a story of the seen and unseen forces that coalesce to keep Rolf and Lilo alive after they meet in 1940 Berlin, leading them through a chain of cataclysmic events including Rolf's draft into the Luftwaffe and his father's assignment as chief inspector of V-2 rocket production; the bombing of Berlin; the destruction of their homes; their numerous desperate, cross-country escapes from the bombing, the advancing Soviet troops from the east, and other Allied forces from the west; the POW camp hardships; and the deprivation of the postwar years. Despite the immeasurable evil, suffering and desolation of World War II, a synchronistic chain of events provides an uplifting reminder that love and hope may take wing even out of the ashes of life's most terrifying adversities.

Kill Anything That Moves - Nick Turse
2013-01-15

Based on classified documents and first-person interviews, a controversial history of the Vietnam War argues that American acts of violence against millions of Vietnamese civilians were a pervasive and systematic part of the war and that soldiers were deliberately trained and ordered to conduct hate-based slaughter campaigns.

Chain of Title - David Dayen 2017-12-19

A riveting work that recalls *A Civil Action*, Erin Brockovich, and *Flash Boys*, recounting how three ordinary Floridians - a car dealership worker, a cancer nurse, and an insurance fraud specialist - helped uncover the largest consumer crime in American history, challenged the most powerful institutions in America, and - for a brief moment - brought the corrupt financial industry to its knees.

The Lines Between Us - Lawrence Lanahan
2019-05-21

A masterful narrative—with echoes of *Evicted* and *The Color of Law*—that brings to life the structures, policies, and beliefs that divide us. Mark Lange and Nicole Smith have never met, but if they make the moves they are contemplating—Mark, a white suburbanite, to West Baltimore, and Nicole, a black woman from a poor city neighborhood, to a prosperous suburb—it will defy the way the Baltimore region has been programmed for a century. It is one region, but separate worlds. And it was designed to be that way. In this deeply reported, revelatory story, duPont Award-winning journalist Lawrence Lanahan chronicles how the region became so highly segregated and why its fault lines persist today. Mark and Nicole personify the enormous disparities in access to safe housing, educational opportunities, and decent jobs. As they eventually pack up their lives and change places, bold advocates and

activists—in the courts and in the streets—struggle to figure out what it will take to save our cities and communities: Put money into poor, segregated neighborhoods? Make it possible for families to move into areas with more opportunity? The Lines Between Us is a riveting narrative that compels reflection on America's entrenched inequality—and on where the rubber meets the road not in the abstract, but in our own backyards. Taking readers from church sermons to community meetings to public hearings to protests to the Supreme Court to the death of Freddie Gray, Lanahan deftly exposes the intricacy of Baltimore's hypersegregation through the stories of ordinary people living it, shaping it, and fighting it, day in and day out. This eye-opening account of how a city creates its black and white places, its rich and poor spaces, reveals that these problems are not intractable; but they are designed to endure until each of us—despite living in separate worlds—understands we have something at stake.

Poverty, Politics, and Race - Dorothy Inman-Johnson 2012-12-11

Poverty, Politics, and Race gives a true face to poverty, while knocking down stereotypes on race and the poor; and sheds light on how the politics of the past and present have magnified issues of race in America. The book also gives a personal look back at an important period in civil rights in America's history and sounds an alarm at the renewed and very open racial hatred that resurfaced with the election of the first African-American U.S. President. It takes a critical look at current events affecting the lives of average Americans through the prism of a Black woman who has experienced firsthand the effects of poverty, race, and the politics surrounding both issues. The book hopefully will help remove the blinders and lead to a more honest discussion on the divisions in our country and ways we can begin to heal them.

Necessary Trouble - Sarah Jaffe 2016-08-23

We are witnessing a moment of unprecedented political engagement and social activism, among them the growth of the Tea Party, BlackLivesMatter, and the grassroots networks supporting presidential candidates like Bernie Sanders. Jaffe leads readers into the heart of these movements, explaining what has made

ordinary Americans become activists.

Americans, regardless of political alignment, are boldly challenging who wields power in this country, and are poised to permanently remake politics as we know it.

Vector - Vaun Murphrey 2014-12-19

Homecomings usually involve burgers, fries and apple pies but that's not on the menu for Cassandra and Silver. They're launched into assassination attempts, bar brawls, and relationship drama just in the first 24 hours. Can they protect everyone they love from all comers before it explodes in their face? Find out in VECTOR, Book Three of the Weaver Series.

We Fought the Road - Christine McClure 2017-10-15

We Fought the Road is the story of the building of the Alaska-Canada Highway during World War II. More than one third of the 10,607 builders were black; thought to be incapable of performing on a war front by many of their white commanding officers. Their task—which required punching through wilderness on a route blocked by the Rocky Mountains and deadly permafrost during the worst winter on record—has been likened to the building of the Panama Canal. Unlike most accounts that focus on the road's military planners, We Fought the Road is boots-on-the-ground and often personal, based in part on letters from the "Three Cent Romance," the successful courtship via mail discovered in the authors' family papers

The Dashboard Book - Wayne Moore
2016-12-10

JAY LENO says "The Dashboard Book" is a "Good read" and "I really liked it". It is the definitive full color illustrated history of the American automobile dashboard. More than 400 color photographs and more than 160 different cars are included. The first chapters include the elegant Curved Dash Oldsmobile of 1901/07, Sears mail order Motor Buggy, Ford's Model T, air cooled Franklins, early Cadillacs, Buick's 1914 Torpedo Touring, Auburn, Duesenburg, Pierce Arrow, Essex, Hudson, Lincoln, LaSalle, Chevrolet, 1936 Cord, and my visit to Jay Leno's garage and his 1934 Airflow. The early chapters also include the evolution of dashboards from simple wooden boards of the carriage and buggy styles to development of the firewall, cowl, and instrument panels of the early 1900's to the conflicting cockpit and living room styles of the 1920's and to the Art Deco and Streamline Moderne styles of the 1930's. Later chapters include cars from the 40's 50's and 60's including models from Studebaker and the Avanti, Ford, Mercury, Lincoln, Plymouth, Dodge, Desoto, Chrysler, Cadillac, Chevrolet, Corvette, Mustang, Pontiac GTO, the Tucker, Oldsmobile, Jay Leno's Nash, Rambler, and more. An exterior photo of every car accompanies each dashboard photo and description. Throughout, the styling of dashboards is related to the styling trends of auto exteriors. Early instrumentation is also discussed as is the influence of the first affordable closed car. Brief histories and descriptions of dashboard accessories and controls like the cigar lighter, ashtrays, glove boxes, radios, a cigarette dispenser, tissue

dispensers, and a glove box mini bar, and windshield wipers are also included as well as a full Works Cited and list of auto museums visited.

The Great American Housing Bubble - Adam J. Levitin 2020-06-09

The definitive account of the housing bubble that caused the Great Recession—and earned Wall Street fantastic profits. The American housing bubble of the 2000s caused the worst global financial crisis since the Great Depression. In this definitive account, Adam Levitin and Susan Wachter pinpoint its source: the shift in mortgage financing from securitization by Fannie Mae and Freddie Mac to “private-label securitization” by Wall Street banks. This change set off a race to the bottom in mortgage underwriting standards, as banks competed in laxity to gain market share. The Great American Housing Bubble tells the story of the transformation of mortgage lending from a dysfunctional, local affair, featuring short-term, interest-only “bullet” loans, to a robust, national market based around the thirty-year fixed-rate mortgage, a uniquely American innovation that served as the foundation for the middle class. Levitin and Wachter show how Fannie and Freddie’s market power kept risk in check until 2003, when mortgage financing shifted sharply to private-label securitization, as lenders looked for a way to sustain lending volume following an unprecedented refinancing wave. Private-label securitization brought a return of bullet loans, which had lower initial payments—enabling borrowers to borrow more—but much greater back-loaded risks. These loans produced a vast oversupply of underpriced mortgage finance that drove up home prices unsustainably. When the bubble burst, it set off a destructive downward spiral of home prices and foreclosures. Levitin and Wachter propose a rebuild of the housing finance system that ensures the widespread availability of the thirty-year fixed-rate mortgage, while preventing underwriting competition and shifting risk away from the public to private investors.

I Am Not My Hair - Shawneda 2013-04-19
Hairnigans. Friendship. Big Dreams. The previously scheduled life Maya Hatton planned has been interrupted for an emergency broadcast announcement. A news station

manager threatens to destroy over twenty years of brand and image building with a new contract from hell. Her husband Roddreccus moved into the rental property and refuses to move home without explanation. Instead of finding confidence, fun, and freedom as she enters her mid-fifties she's faced with crises. Fans believed she had it all together but her dream team lost a member, a villain hijacked her fairy tale marriage and now she needs to remember how to be the Maya everyone thinks she is or lose the best thing she ever had. Natural Sistahs series is written by an African American author whose chosen her natural hair since 1998. While one of

many indie published black authors she considers her books appropriate for the women's fiction category though most would be shelved in the black fiction, black books, African American women's fiction, or black women's fiction section in most physical bookstores.
