[Physics of the Impossible](#) - Michio Kaku 2008-03-11

Teleportation, time machines, force fields, and interstellar space ships—the stuff of science fiction or potentially attainable future technologies? Inspired by the fantastic worlds of Star Trek, Star Wars, and Back to the Future, renowned theoretical physicist and bestselling author Michio Kaku takes an informed, serious, and often surprising look at what our current understanding of the universe's physical laws may permit in the near and distant future. Entertaining, informative, and imaginative, *Physics of the Impossible* probes the very limits of human ingenuity and scientific possibility.

Chariots of Gods Unknown: Unsolved Mysteries of the Past - Robert Charroux 2017-05

Long before Erich von Daniken wrote *Chariots of the Gods*, Robert Charroux was writing about our historical visitors from outer space, otherwise called "Ancient Astronauts" or "Ancient Aliens," and stimulating his readers to deep thought and further investigation. This book is no exception. *Chariots of Unknown Gods* reveals unsuspected conceptual constructs, especially of the hitherto unpublished history of our Celtic ancestors - a history unpublished, and actually interdicted, because it runs counter to some of the statements made in the Bible, in Sumerian and other scriptures, and by historians and prehistorians. The whole history of Western civilization has, in fact, been deliberately distorted in order to develop a mental outlook encouraging particular modes of thought, behavior, and social structure. Charroux, who notably has worked with William Shatner and Leonard Nimoy on television documentaries concerning this topic, has prepared a serious work where nothing was shirked or neglected, and for which he dedicated himself to worldwide research. In 1968, for example, he covered 25,000 miles, traveling all over Mexico, Libya, and Tunisia. Few writers show such dedication and professional integrity in checking their sources.

Charroux's readers will find in his immense documentation many ideas and proofs that will open up new vistas of understanding.

[Chariots of the Gods](#) - Erich Von Daniken 1999-01-01

THE SEVEN MILLION COPY BESTSELLER The groundbreaking classic that introduced the theory that ancient Earth established contact with aliens. Immediately recognized as a work of monumental importance, *Chariots of the Gods* endures as proof that Earth has been visited repeatedly by advanced aliens from other worlds. Here, Erich von Däniken examines ancient ruins, lost cities, spaceports, and a myriad of hard scientific facts that point to extraterrestrial intervention in human history. Most incredible of all, however, is von Däniken's theory that we are the descendants of these galactic pioneers—and he reveals the archeological discoveries that prove it... The dramatic discoveries and irrefutable evidence:

- An alien astronaut preserved in a pyramid
- Thousand-year-old spaceflight navigation charts
- Computer astronomy from Incan and Egyptian ruins
- A map of the land beneath the ice cap of Antarctica
- A giant spaceport discovered in the Andes

Includes remarkable photos that document mankind's first contact with aliens at the dawn of civilization.

[Evidence of the Gods](#) - Erich von Däniken 2012-11-22

Ancient humans had the natural urge to document the world in which they lived, a fact that is evident in the cave paintings and carvings that still exist today. Why do rock paintings from various sites around the world all seem to depict the same things? Did the peoples of the prehistoric world have contact with each another? Is it possible that some were transported to far-flung locations in what our ancestors could only have described as "flying chariots"? Erich von Däniken, one of the best-selling authors of all time and regarded by many as the father of the ancient alien theory, continues his mission to uncover Earth's ancient

past—this time with more than 150 extraordinary full-color photographs—in *Evidence of the Gods*. This extensively illustrated book features never-before-seen photographs from his unique archive, compiled throughout decades of searching around the world for traces of the cosmic gods whom he believes came to Earth thousands of years ago. *Evidence of the Gods* offers the best and most impressive evidence to date, along with concise explanations for the images, to bolster the case that von Däniken has already been making quite convincingly for years. *Evidence of the Gods* is his most convincing—and thoroughly entertaining—work yet. Did extraterrestrial visitors really leave their unmistakable traces on our planet thousands of years ago? The images will speak for themselves.

[Crash at Corona](#) - Don Berliner 2010-04-01

IF UFOS DON'T EXIST, THEN THEY CAN'T CRASH. But something did crash near Corona, a tiny town not far from Roswell, New Mexico, in 1947. And that crash has been dissected and debated ever since. Aviation/science writer Don Berliner and nuclear physicist Stanton Friedman, the original civilian investigator of the so-called Roswell incident, have delved into the controversy to find the truth. They sifted through once-classified government documents, interviewed military and civilian witnesses, pieced together evidence, considered alternative theories, and concluded that a UFO crashed near Corona—and the U.S. government knew it and covered it up. *Crash at Corona* proves that what was found in the New Mexico desert wasn't a weather balloon or a secret weapon—it was a UFO. "One of the more credible books arguing the existence of UFOs... Most arresting of all is the testimony of those who handled the debris, who had no opportunity to compare notes, yet have described the materials ... in almost identical language." - Publishers Weekly DON BERLINER has written more than 300 magazine articles and 25 books on aviation history and space and was also a staff writer for the National Investigations Committee on Aerial Phenomena (NICAP). He is board chairman of the non-profit Fund for UFO Research, Inc., and is a delegate to the UFO Research Coalition. STANTON T. FRIEDMAN is a nuclear physicist who has worked for General Electric, General Motors, Westinghouse, and other corporations. He is also the author of *TOP SECRET/MAJIC* and has appeared on *Larry King*, *Unsolved Mysteries*, and *Nightline*, and was involved with the documentaries *UFOs Are Real* and *Flying Saucers Are Real*. He was the final speaker at the fiftieth anniversary conference at the International UFO Museum and Research Center at Roswell, and has given more than 700 lectures on the subject of UFOs.

[The Space-gods Revealed](#) - Ronald Story 1976

[War of the Gods](#) - Erich von Däniken 2020-09-01

Bestselling author and father of the Ancient Alien Theory Erich von Däniken explores what drove ancient humans to build city-sized places underground around the world and its connection to conflicts in the sky. *War of the Gods* examines ancient scriptures from India, Siberia, Tahiti, and many other regions of the world independently on reports of battles in the stars. Weapons of unimaginable destructive power were used in the battle. Use of one of these weapons destroyed a planet completely. Traditions from all over the world depict the gruesome effects of the battle in space. Many ancient stories speak of it raining fire from the sky for years. The people of the time tried to protect themselves from this, and thus created more testimonies that prove the star war and contact with beings from other planets. With impressive examples von Däniken illustrates some of the numerous cities that were dug underground as safe harbors from the destructive boulders. Miles and miles of underground passageways have been discovered around the world as

they made space for villages and entire cities. To end the book, von Däniken presents his newest discoveries of an event that can only be described as shocking: In 2017, the author was informed that strange mummified creatures were found near the Peruvian village of Nazca. They lived several thousand years, had three fingers and three toes, and had exceptionally long heads. One of the mummies, apparently several thousand years ago, had been implanted with a metal plate under the skin. Scientists agree: These creatures are not from Earth!

The Gods Never Left Us - Erich von Däniken 2017-11-20

The Long Awaited Sequel to the Worldwide Best-seller Chariots of the Gods When Chariots of the Gods was published 50 years ago, it began a worldwide change in humanity's view of the cosmos. In an era of the military space race, Erich von Däniken boldly proclaimed that Earth had been visited by more advanced beings early in our history. But prescientific man had no concept of space ships, so he called their vehicles "chariots," and those driving the chariots became "gods." Over the next five decades, von Däniken's more than 40 books built an ever-stronger case for Earth being visited by extraterrestrial visitors. And Chariots became an international best seller, with 30 million copies sold in more than two dozen languages. Also during that time, the case for ET visitations millennia ago was being reexamined by contemporary UFO researchers, who found evidence of modern visitations. And von Däniken expanded his perspective to encompass the present. Now, he presents his long-awaited sequel to Chariots of the Gods, proclaiming that the gods never left us with all-new material to show that ancient aliens are still with us. The Gods Never Left Us contends that recent advancements in biotechnology, astrophysics, engineering, and artificial intelligence not only give us a fresh perspective on his ancient astronaut theory but actually validates it. We are--as a race--embarking on the exact same trajectory of our own interplanetary colonization, just as von Däniken suggested Earth itself was colonized. ETs are definitely at work today. And that affects all of us. Why do they do what they do? What could an extraterrestrial species possibly gain from observing us in the same way we look at ants? What have these strangers wanted for the past thousands of years? Can't they leave us alone? And what makes it so difficult for us to acknowledge the existence of these extraterrestrials? That is what this book deals with. "Erich's newest book is a fascination journey from the ancient past into the present with a plethora of scientific evidence and documented research. As always, he ads his own "to the point" take on it all. Readers may also like that his newest work moves in a slightly different direction from his past books. A thoroughly enlightening and enjoyable Read." --Bruce Cunningham, Director, Ancient Mysteries International LLC & Publisher of Advanced Archaeology Review magazine

The Return of the Gods - Erich von Däniken 2002

With more than 140 photographs, maps, models, and drawings, Von Dniken applies the same fact-filled analysis to Nazca—an ancient, isolated settlement deep in the Peruvian desert—that launched his 1968 bestseller Chariots of the Gods. He analyzes aerial views and closeups of extraordinary markings that stretch for miles, forming complex designs noticeable only from the air.

[The Cult of Alien Gods](#) - Jason Colavito 2010-03-05

Fans of fantasy/horror writer H.P. Lovecraft must add The Cult of Alien Gods: H.P. Lovecraft and Extraterrestrial Pop Culture to their reading lists.- California BookwatchCombining literary theory, cultural criticism and muckraking, Colavito aims to debunk alternative history...He does a fair job of presenting his case, using a great deal of textual analysis, but believers will dismiss it as yet another attempt to suppress the truth, while those who haven't been immersed in the literature are likely to be bewildered or indifferent...the writing is engaging and the topic intriguing...- Publishers WeeklyNearly half of all Americans believe in the existence of extraterrestrials, and many are also convinced that aliens have visited earth at some point in history. Included among such popular beliefs is the notion that so-called ancient astronauts (visitors from outer space) were responsible for historical wonders like the pyramids. In The Cult of Alien Gods, author Jason Colavito reveals for the first time that the entire genre of ancient astronaut books is based upon fictional horror stories, whose author once wrote that he never wished to mislead anyone.In this entertaining and informative book, Colavito traces the origins of the belief in ancient extraterrestrial visitors to the work of

horror writer H. P. Lovecraft (1890-1937). This amazing tale takes the reader through fifty years of pop culture and pseudoscience highlighting such influential figures and developments as Erich von Däniken (Chariots of the Gods), Graham Hancock (Fingerprints of the Gods), Zecharia Sitchin (Twelfth Planet), and the Raelian Revolution. The astounding and improbable connections among these various characters are revealed, along with the disturbing consequences of Lovecraft's little joke for modern science and public knowledge.Beyond documenting Lovecraft's influence on ancient astronaut theories and Raelian cloning efforts, Colavito also argues that the appeal of such modern myths is a troubling sign in an age when science is having its greatest success. He suggests that at the dawn of the 21st century Western society is witnessing a deep-seated erosion of Enlightenment values that are the basis of the modern world.Jason Colavito is a freelance writer and editor who has written for Skeptic magazine, among other publications.

The God Theory - Bernard Haisch 2011-05-14

As science integrates the in-depth knowledge of the physical world accumulated over the past three centuries, it will be channeled into a new and exciting line of inquiry that acknowledges the expanded reality of consciousness as a creative force in the universe and the spiritual creative power embodied in our own minds. This book summarizes the thoughts of an inquisitive, but open-minded, scientist. What I present here is a theory that looks promising, not scientific proof. It should not be surprising, however, if some of what I propose coincides with theories propounded by others who claim a more intimate relationship with the Almighty. After all, if I am on the right track, and if they are, it would be worrisome if we were not, ultimately, in agreement. All I ask is that you seriously consider the logic of my theory, especially if it challenges you to question what you were taught - in Sunday school, in catechism or, dare I say, in physics class. I offer this book, not as a theological treatise, but as a short, readable exposition of a worldview that can bring sense and purpose into individual lives, and tolerance and peace to a planet whose future is in serious jeopardy - in large part because of the irrational dogmatism of both religion and science. If I am correct, we are literally all one being (God) in many individual forms. Why, then, would we continue to harm one another?

Eyewitness to the Gods - Erich Von Daniken 2019-10

The father of the ancient alien theory with more than 65 million books sold reveals everything he has withheld for years. In all his years of service, why didn't Erich von Däniken ever doubt his theory that inhabitants of other planets had come into contact with humanity ages ago, and that they still observe us today? How could von Däniken in all these years say firmly that the UFO phenomenon is real and that people are being abducted by aliens? Why does he repeatedly criticize the official historiography and our religions and thus accept scorn and hostility? The answers to these questions are: Because Erich von Däniken spoke to people who supported his theories. Because people who saw UFOs or were kidnapped by aliens trusted him. And because experts and insiders inaugurated secrets known to only a few people. In this book, the now 81-year-old presents selected eyewitnesses and insiders for the first time, reveals secrets and stories that he has hitherto kept private, and presents reports and revelations that leave one speechless!

From here you can fly over the celebrated Nazca pampa and appreciate the massive scale of the extraordinary markings on the surrounding landscape. Some of these lines are over twenty kilometers long!Drawing on over thirty years of study, Erich von Daniken examines the various theories that attempt to explain the Nazca phenomena in terms of religious ritual, ancient roads, and astrological symbols. With the help of numerous photographs taken by the author---half-hanging from a small airplane---he describes the many mysteries of Nazca and puts forward a startling revolutionary solution to one of archaeology's greatest enigmas.

Erich von Däniken’s theory of alien contact with the ancient world is so incredible, yet so logical and convincing, that it has become part of a wide-ranging debate that continues to this day. From Science to God - Peter Russell 2010-02-08

From Science to God offers a crash course in the nature of reality. It is the story of Peter Russell’s lifelong exploration into the nature of consciousness — how he went from being a strict atheist, studying mathematics and physics at Cambridge University, to realizing a profound personal synthesis of the mystical and scientific. Using his own tale of curiosity and exploration as the book’s backbone, Russell blends physics, psychology, and philosophy to reach a new worldview in which consciousness is a fundamental quality of creation. He shows how all the ingredients for this worldview are in place; nothing new needs to be discovered. We have only to put the pieces together and explore the new picture of reality that emerges. *From Science to God* is as much a personal story of an open-minded skeptic as it is a tour de force of scientific and religious paradigm shifts. Russell takes us from Galileo’s den to the lecture halls of Cambridge where he studied with Stephen Hawking. “If you had asked me then if there was a God,” says the best-selling author of his scientific beginnings, “I would have pointed to mathematics.” But no matter what empirical truths science offered Russell, one thorny question remained: How can something as immaterial as consciousness, ever arise from something as unconscious as matter?

Maps of the Ancient Sea Kings - Charles H. Hapgood 1966

Hapgood utilizes ancient maps as concrete evidence of an advanced worldwide civilization existing many thousands of years before ancient Egypt. Hapgood concluded that these ancient mapmakers were in some ways much more advanced in mapmaking than any people prior to the 18th century. Hapgood believes that they mapped all the continents. This would mean that the Americas were mapped thousands of years before Columbus. Antarctica would have been mapped when its coasts were free of ice. Hapgood supposes that there is evidence that these people must have lived when the Ice Age had not yet ended in the Northern Hemisphere and when Alaska was still connected with Siberia by the Pleistocene, Ice Age 'land bridge'.

Bloodline of the Gods - Nick Redfern 2015-08-17

Are significant numbers of humanity the product of an ancient and advanced alien civilization? Have we, across the millennia, been periodically modified and refined as a species? In short, has our genetic make-up been manipulated by otherworldly beings that view human civilization as one big lab experiment? These are controversial and thought-provoking questions. They are also questions that demand answers, answers that may very well be found by examining those people whose blood type is Rh negative. The vast majority of humankind—85 to 90 percent—is Rh positive, which means a person’s red blood cells contain an antigen directly connected to the Rhesus monkey. This antigen is known as the Rh factor. Each and every primate on the planet has this antigen, except for one: the remaining 10 to 15 percent of humans. If the theory of evolution is valid—that each and every one of us is descended from ancient primates—shouldn’t we all be Rh positive? Yes, we should. But we’re not. The Negatives are unlike the rest of us. They are different. They are the unique individuals whose bloodline may have nothing less than extraterrestrial origins.

The Gods Were Astronauts - Erich von Däniken 2002

Why do nearly all the world’s major religions share similar myths? Erich Von Däniken, author of the runaway international bestseller *Chariots of the Gods*, believes he knows: the winged deities populating ancient religious texts were in reality extraterrestrials. Fully illustrated with compelling color and black-and-white photographs, the book takes us from Myanmar to Peru’s and Egypt’s unexplained “landing strips.”

Mysteries of the Gods: Ancient Aliens Throughout Mankind's History - Robert Charroux 1971-03-01

In "Mysteries of the Gods: Ancient Aliens Throughout Mankind's History," renowned French scientist Robert Charroux (who worked as an expert consultant - with William Shatner and Erich von Däniken - on the 1970s documentary, "Mysteries of the Gods") asks the pertinent question: "What really happened in our past?" Is our civilization only beginning to attain the level of another civilization that existed on Earth hundreds of thousands of years ago? Is there a conspiracy to withhold knowledge bequeathed to us by our superior ancestors - truths that must be kept hidden for the "good" of mankind? Are our familiar occult doctrines only fragmentary, distorted reflections of that knowledge? Do ancient Hindu writings record the story of an atomic war? Is modern science rapidly approaching the ancient knowledge that will lead to the same sort of catastrophe? Is a breakaway civilization leading us down the road to destruction, or salvation? Charroux thinks the time has come for the human race to break through the ancient veil of secrecy, and discover the truth about itself.

The Alien Book - Nick Redfern 2019-09-01

Unmasking the mysteries of alien life on earth! Make mention of the word "alien" and it conjures images of black-eyed, large-headed, dwarfish beings that have come to be known as the Greys. Indeed, Greys have become a staple part of pop-culture, never mind just the field of UFO research. They've appeared in Steven Spielberg's classic 1977 movie, *Close Encounters of the Third Kind*. They regularly popped up in *The X-Files*. And, of course, there are numerous people - all across the world - who claim to have been abducted by the Greys and subjected to intrusive medical experiments. Yet, before the 1950s, the Greys were nowhere in sight. *The Alien Book: A Guide to Extraterrestrial Beings on Earth* shows that extraterrestrial life comes in all kinds, appearances, sizes, and bodies. They all have one thing in common, however: the human race has encountered them, and we continue to do so today. Not just dozens, or even hundreds, but thousands of eyewitness experiences have been reported. Covering hundreds of extraterrestrial life forms in more than 40 thematic chapters, this absorbing look at the mysteries of aliens on earth includes ... the Space Brothers: long-haired, very human-looking ETs the fiendish Reptilians: seven-to-eight-foot-tall predatory shapeshifters Men in Black beings: extremely pale-skinned, tall, and with huge eyes Black-eyed Children: anemic-looking kids with solid black eyes that might be ET-human hybrids Bigfoot the werewolf-like Dogmen jellyfish-style aliens that soar around the skies of our world the Shadow People: dangerous humanoids that terrorize people legendary Nephilim space-vampires: insect-like aliens that resemble a giant praying mantis and many, many more! *The Alien Book* investigates the full range of sentient, alien life forms. Some are benign and others downright deadly. Some are small, like a germ or virus that has NASA, creating guidelines to deal with an outbreak of an extraterrestrial germ. Some are big like a giant praying mantis or the biblical Goliath. They all lurk on Earth and in this chilling book! With more than 120 photos and graphics, this tome is richly illustrated. Its helpful bibliography and extensive index add to its usefulness.

Chariots of the Gods? - Erich von Däniken 1980

The author attempts to explain such perplexing archaeological discoveries as the stone figures on Easter Island and various temple and cave drawings

The Unidentified - Colin Dickey 2021-07-20

America's favorite cultural historian and author of *Ghostland* takes a "thought-provoking and deliciously unsettling" (*Publisher's Weekly*) tour of the country's most persistent "unexplained" phenomena In a world where rational, scientific explanations are more available than ever, belief in the unprovable and irrational--in fringe--is on the rise: from Atlantis to aliens, from Flat Earth to the Loch Ness monster, the list goes

on. It seems the more our maps of the known world get filled in, the more we crave mysterious locations full of strange creatures. Enter Colin Dickey, Cultural Historian and Tour Guide of the Weird. With the same curiosity and insight that made *Ghostland* a hit with readers and critics, Colin looks at what all fringe beliefs have in common, explaining that today's Illuminati is yesterday's Flat Earth: the attempt to find meaning in a world stripped of wonder. Dickey visits the wacky sites of America's wildest fringe beliefs--from the famed Mount Shasta where the ancient race (or extra-terrestrials, or possibly both, depending on who you ask) called Lemurians are said to roam, to the museum containing the last remaining "evidence" of the great Kentucky Meat Shower--investigating how these theories come about, why they take hold, and why as Americans we keep inventing and re-inventing them decade after decade. *The Unidentified* is Colin Dickey at his best: curious, wry, brilliant in his analysis, yet eminently readable.

Crash Go the Chariots - Clifford A. Wilson 1976

Confessions of an Egyptologist - Erich von Däniken 2021

Bestselling author Erich von Däniken shares the story of a 16-year-old grave-diver who discovered a mysterious labyrinth of the old kings under one of the pyramids of Saqqara. In this book, Erich von Däniken shares the story of his friend Adel H., an Egyptologist, who, as a 16-year-old boy, was trapped for days under the Step Pyramid of Saqqara. Based on his conversations with Adel H., he retells the boy's search for a way out of the underground world, how the boy roamed passageways and chambers and saw what he calls "impossible" things of which the professional world is completely unaware. Adel experienced uncanny events, a mixture of spirit realm and reality, which is described here for the first time. "The story of Egypt," Adel says, "has two sides--the official one and the unknown one." It is secrets like the sights and events Adel experiences underground that von Däniken refers to throughout this book. Von Däniken shows that the Great Pyramid of Giza is nothing but a huge library created for the people of the future. He proves his claim through quotes from the few ancient works that still survive. Who actually had an interest for millennia in destroying knowledge/books? It's not about a few thousand, but about millions of books. Von Däniken documents the fanatical destructive rage of the people and means: If we would only have one ten-thousandth of the former writings, human prehistory would have to be completely rewritten. And where are the lost labyrinths? The one of Crete and the gigantic labyrinth of Egypt, of which all ancient historians reported? Against the background of these revelations, von Däniken turns the spot on to another focus of his book. A paradigm shift in the question of extraterrestrial life: "The gods have already come back. They came down again. They are currently orbiting our planet!"

The Egypt Code - Robert Bauval 2007-10-01

Why did the ancients align their monuments so precisely with the stars? What were the practical and symbolic reasons behind these mysterious configurations? From the author of *The Orion Mystery*, the best-selling book that introduced the revolutionary star-correlation theory about the Giza pyramids, *The Egypt Code* reveals an amazing Grand Unified Plan behind the legendary temples of upper Egypt. Robert Bauval, one of the world's most prominent and controversial Egyptologists, completes his groundbreaking investigation of astronomy as related to Egyptian monuments and related religious texts. *The Egypt Code* revisits the Pyramid Age and the Old Kingdom, proposing a vast sky-ground correlation for the Memphite-Heliopolis region, and presenting the possibility of a grand plan spanning three thousand years of Pharaonic civilization and involving pyramids and major temple sites along the Nile. The central idea of the book is that the cosmic order, which the ancients referred to as "Maat," was comprised of the observable cycles of the sun and stars, in particular the star Sirius, and that the changes that took place due to the precession of the equinoxes and the so-called Sothic Cycle are reflected in the orientation and location of religious sites.
