**Joining Children on the Spiritual Journey** - Catherine Stonehouse 1998-03-01

Understanding how a child's faith forms is crucial to knowing how adults can most significantly enhance the child's spiritual development. This book provides parents, teachers, and Christian education leaders with valuable insights into spiritual formation during childhood. With a biblical perspective as a starting point and a recognition of the crucial role of both the family and the faith community, Stonehouse reviews important contributions from noted child development experts Erik Erikson, Jean Piaget, Lawrence Kohlberg, and James Fowler. This overview gives insight into

the processes of psychosocial, cognitive, and moral development in children and adolescents. Stonehouse concludes with solid guidelines for designing children's ministries. By carefully "setting the stage" through liturgy, sacred stories, and parables, Christian educators can help children meet with God. Quiet times of "godly play," carefully adapted to the age level of the child, enable adults to join with children on the journey toward deeper intimacy with God.

*Protecting Your Church Against Sexual Predators* -  
Voyle A. Glover

Many unsuspecting and unprepared churches have been financially and spiritually destroyed by child molestation within the church ministries and the resulting litigation. Written by an experienced lawyer, this handbook provides help to any church dealing with these issues.

Child Safety Guidelines for Local Churches - Roger N. McNamara 2010-10

Child Safety Guidelines for Local Churches deals with the sensitive subject of child sexual abuse and what churches can do to protect children under their care while at the same time minimizing their own liability. Prevention and training are critical elements in developing a structure that ensures the safety of children while they are in God's house. Sadly, many churches are unprepared to combat the

possibility of the unthinkable happening to one of their precious little ones. By not taking reasonable precautions, they not only endanger the welfare of their youngsters, but are subject to charges of gross negligence and significant financial judgments against their congregations. The author outlines numerous steps that any congregation can take to protect both the children and churches they serve. ROGER MCNAMARA is a veteran pastor, missionary, and church planter with more than forty-six years of experience in local church ministry in Latin America and the United States. He has started and worked in half a dozen churches over the past four decades, and now serves as the Church Planting Training Specialist for Baptist Mid-Missions. In this capacity, he works with churches and church planters throughout the United States and Canada teaching, training, and mentoring church leaders. He also serves in a number of leadership positions within the Baptist Mid-Missions' TEAM

*Parenting Matters* - National Academies of Sciences, Engineering, and Medicine  
2016-11-21

Decades of research have demonstrated that the parent-child dyad and the environment of the family— which includes all primary caregivers—are at the foundation of children's well-being and healthy

development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for

programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that

warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

**The Children's Minister** -

Rita B. Hays 2008

Many churches provide many planned activities and learning experiences of a child, but those who work with children often fail to see themselves as pastors to these children.

Indeed, the potential pastoral care for children is not usually addressed in seminary or in much of the literature concerning caring for the church. Rita Hays offers a warmhearted challenge to those in children's ministry to become pastors to those who are a part of their folk. Her vision encompasses all congregations who interact with children. She examines the needs of children and the ways in which they are most often neglected.

On Guard - Deepak Reju

"Jimmy" joined the church a year ago. Before long, he volunteered to teach a Sunday School class and got to know eight-year-old "Peter." Things started innocently. A hug at the end of class. Gifts for Peter. Lots of extra attention. And then it happened. Jimmy took advantage of Peter. In On Guard, Deepak Reju examines why child predators target churches and offers eleven straightforward strategies to protect children from abuse and to help young victims recover if it does happen. While On Guard does provide practical help for building a child protection policy, it provides much more. Full of pastoral wisdom, On Guard recognizes that the church's response to abuse must be more comprehensive—in line with her calling—than a simple legal policy or clinical analysis. *Church Safety and Security* - Robert M. Cirtin 2005

The church has always been regarded as a safe haven - a spiritual sanctuary where people can come to worship God free from worries about violence or unethical behavior by those involved in church ministry. But our culture is changing, and church leaders can no longer assume that it won't happen in my church. Like the rest of society, churches need to ensure the safety and security of their facility, staff, and worshipers. This book provides a wealth of practical information on preparing for and responding

to the challenges of a dangerous world. Robert Cirtin draws on more than two decades of law enforcement and investigative experience, and with his team of professionals outlines a how-to approach full of specific proactive steps churches can take to protect themselves and reduce the risk of costly lawsuits. Church Safety And Security is a must-have resource for anyone participating in or preparing for church leadership. Topics covered include: \* Utilizing background screening to protect your congregation. \* Safety and security issues for church-run preschool and day care programs. \* Preparing for and responding to medical emergencies. \* How to deal with issues pertaining to child abuse. \* Legally mandated responsibilities of church staff members. \* How to utilize security/surveillance cameras in the church facility. \* Organizing a church security officer program. \* Effectively coping with intruders. \* Responding to violent acts
