Rosa Parks - Rosa Parks 1999-01-01

Rosa Parks is best known for the day she refused to give up her seat on a segregated bus, sparking the Montgomery, Alabama, bus boycott. Yet there is much more to her story

than this one act of defiance. In this straightforward, compelling autobiography, Rosa Parks talks candidly about the civil rights movement and her active role in it. Her dedication is inspiring; her story is unforgettable. "The simplicity and candor of this courageous woman's voice makes these

compelling events even more moving and dramatic."--Publishers Weekly, starred review
Coming of Age in Mississippi - Anne Moody
2011-09-07

The unforgettable memoir of a woman at the front lines of the civil rights movement—a harrowing account of black life in the rural South and a powerful affirmation of one person’s ability to affect change. “Anne Moody’s autobiography is an eloquent, moving testimonial to her courage.”—Chicago Tribune
Born to a poor couple who were tenant farmers on a plantation in Mississippi, Anne Moody lived through some of the most dangerous days of the pre-civil rights era in the South. The week before she began high school came the news of Emmet Till’s lynching. Before then, she had “known the fear of hunger, hell, and the Devil. But now there was . . . the fear of being killed just because I was black.” In that moment was born the passion for freedom and justice that would change her life. A straight-A student who

realized her dream of going to college when she won a basketball scholarship, she finally dared to join the NAACP in her junior year. Through the NAACP and later through CORE and SNCC, she experienced firsthand the demonstrations and sit-ins that were the mainstay of the civil rights movement—and the arrests and jailings, the shotguns, fire hoses, police dogs, billy clubs, and deadly force that were used to destroy it. A deeply personal story but also a portrait of a turning point in our nation’s destiny, this autobiography lets us see history in the making, through the eyes of one of the footsoldiers in the civil rights movement. Praise for *Coming of Age in Mississippi* “A history of our time, seen from the bottom up, through the eyes of someone who decided for herself that things had to be changed . . . a timely reminder that we cannot now relax.”—Senator Edward Kennedy, *The New York Times Book Review* “Something is new here . . . rural southern black life begins to speak. It hits the page like a natural force, crude and

undeniable and, against all principles of beauty, beautiful.”—The Nation “Engrossing, sensitive, beautiful . . . so candid, so honest, and so touching, as to make it virtually impossible to put down.”—San Francisco Sun-Reporter

The Civil Rights Movement in America - Charles W. Eagles 2012-01-19

The Civil Rights Movement warrants continuing and extensive examination. The six papers in this collection, each supplemented by a follow-up assessment, contribute to a clearer perception of what caused and motivated the movement, of how it functioned, of the changes that occurred within it, and of its accomplishments and shortcomings. Its profound effect upon modern America has so greatly changed relations between the races that C. Vann Woodward has

called it the second revolution. In a limited space the eleven scholars range with a definitive view over a large subject. Their papers analyze and emphasize the Civil Rights Movement's important aspects: its origins and causes, its strategies and tactics for accomplishing black freedom, the creative tensions in its leadership, the politics of the movement in the key state of Mississippi, and the role of federal law and federal courts. In this collection a scholarly balance is achieved for each paper by a follow-up commentary from a significant authority. By deepening the understanding of the Civil Rights Movement, these essays underscore what has been gained through struggle, as well as acknowledging the goals that are yet to be attained.

The Black Death - 2013-01-01

This series provides texts central to medieval studies courses and focuses upon the diverse cultural, social and political conditions that affected the functioning of all levels of medieval society. Translations are accompanied by introductory and explanatory material and each volume includes a comprehensive guide to the sources' interpretation, including discussion of critical linguistic problems and an assessment of recent research on the topics covered. From 1348 to 1350 Europe was devastated by an epidemic that left between a third and one half

of the population dead. This source book traces, through contemporary writings, the calamitous impact of the Black Death in Europe, with a particular emphasis on its spread across England from 1348 to 1349. Rosemary Horrox surveys contemporary attempts to explain the plague, which was universally regarded as an expression of divine vengeance for the sins of humankind. Moralists all had their particular targets for criticism. However, this emphasis on divine chastisement did not preclude attempts to explain the plague in medical or scientific terms. Also, there was a widespread belief that human agencies had been involved, and such scapegoats as foreigners, the poor and Jews were all accused of poisoning wells. The final section of the book charts the social and psychological impact of the plague, and its effect on the late-medieval economy.

The Circumstances of Living and Working for African-American Writers in the 1960s - Susanne Opel 2005-08-05

Seminar paper from the year 2004 in the subject American Studies - Literature, grade: 2,3, University of Rostock, 9 entries in the bibliography, language: English, abstract: The 1960s were a decade of changes for everyone in the USA. The Civil Rights Movement was at its height, while the assassinations of important personalities such as John F. Kennedy and

Malcolm X, as well as Vietnam and the Cold War overshadowed the lives and thoughts of a whole generation. Hippie Culture, the anti-war movement, and the sexual revolution created a whole new generation with a new set of values. For the arts, for culture, and for the sciences the 1960s were a period of new developments that influenced the following decades immensely: the Beatles, worldwide TV shows, or the first man on the moon, just to name a few. Compared to their peers of periods, adolescents and unmarried young adults of the 1960s enjoyed greater social freedom and mobility and also were less tolerant of the socio-political subjugation of black people. The 1960s were also the decade in which African-American literature reached a new climax after the Harlem Renaissance in the twenties. There were a lot of new possibilities for African-Americans, but still also a lot to fight for. Being an African-American writer was a constant struggle, not only to earn money to survive, but also to gain the same acceptance as

a white writer, or to help change something for the other African-Americans. Chester Himes wrote in his essay Dilemma of the Negro Novelist in U.S. (1966): From the start the American Negro writer is beset by conflicts. He is in conflict with himself, with his environment, with his public. The personal conflict will be the hardest. He must decide at the outset the extent of his honesty. He will find it no easy thing to reveal the truth of his experience or even to discover it. He will derive no pleasure from the recounting of his hurts. He will encounter more agony by his explorations into his own personality than most non-Negroes realize. For him to delineate the degrading effects of oppression will be like inflicting a wound upon himself. He will have begun an intellectual crusade that will take him through the horrors of the damned. And this must be his reward for his integrity: he will be reviled by the Negroes and whites alike. Most of all, he will find no valid interpretation of his experiences in terms of

human values until the truth be known. If he does not discover this truth, his life will be forever veiled in mystery, not only to whites, but to himself; and he will be heir to all the weird interpretations of his personality.

Measuring Racial Discrimination - National

Research Council 2004-07-24

Many racial and ethnic groups in the United States, including blacks, Hispanics, Asians, American Indians, and others, have historically faced severe discrimination—pervasive and open denial of civil, social, political, educational, and economic opportunities. Today, large differences among racial and ethnic groups continue to exist in employment, income and wealth, housing, education, criminal justice, health, and other areas. While many factors may contribute to such differences, their size and extent suggest that various forms of discriminatory treatment persist in U.S. society and serve to undercut the achievement of equal opportunity. Measuring Racial Discrimination considers the definition of race and racial discrimination, reviews the existing techniques used to measure racial discrimination, and identifies new tools and areas for future research. The book conducts a thorough evaluation of current methodologies for a wide

range of circumstances in which racial discrimination may occur, and makes recommendations on how to better assess the presence and effects of discrimination.

A Universal Template for Research Position and Life Experience Papers - Dale Drakeford 2005-03

The self-descriptive title, *A Universal Template For Research Position and Life Experience Papers*, implies that there is a position that writers take in even the simplest of essays. As such, Template provides an opportunity to accomplish two tasks at once: consider the definitive differences between Research, Position, and Experience papers, and explore the issues that impound and empower contemporary urban education. Dale Benjamin Drakeford provides an interactive workshop to guide student writing on any social science subject. Agreeing with many scholars that public and free pedagogy is indispensable, the author also argues that there is no wrong or right in scholastic debate, only correct presentation of

objective thoughts or non-objective attitudes. This the author says, is what is sometimes forgotten in the heat of getting ideas on paper. Hence, Template provides structure for planning papers, and in-process cues for staying on task to complete them with proper formality.

Just Mercy - Bryan Stevenson 2016

"From one of the most brilliant and influential lawyers of our time comes an unforgettable true story about the redeeming potential of mercy. Bryan Stevenson was a gifted young attorney when he founded the Equal Justice Initiative, a legal practice dedicated to defending the poor, the wrongly condemned, and those trapped in the furthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man sentenced to die for a notorious murder he didn't commit. The case

drew Stevenson into a tangle of conspiracy, political machination, and legal brinksmanship - and transformed his understanding of mercy and justice forever."--Back cover.

We Had Sneakers, They Had Guns - Tracy Sugarman 2009-07-08

No one experienced the Freedom Summer of 1964 quite like Tracy Sugarman. As an illustrator and journalist, Sugarman covered the nearly one thousand student volunteers who traveled to the Mississippi Delta to assist black citizens in the South in registering to vote. He interviewed these activists, along with local civil rights leaders and black and white residents not directly involved in the movement, and drew the people and events that made the summer one of the most heroic chapters in America's long march toward racial justice. In *We Had*

Sneakers, They Had Guns, Sugarman chronicles the sacrifices, tragedies, and triumphs of that unprecedented moment in our nation's history. Two white students and one black student were slain in the struggle, many were beaten and hundreds arrested, and churches and homes were burned to the ground by the opponents of equality. Yet the example of Freedom Summer—whites united with heroic black Mississippians to challenge segregation—resonated across the nation. The United States Congress was finally moved to pass the civil rights legislation that enfranchised the millions of black Americans who had been waiting for equal equal rights for a century. Blending oral history with memoir, *We Had Sneakers, They Had Guns* draws the reader into the lives of the activists, showing their passion and naïveté, the bravery of the civil rights leaders, and the candid, sometimes troubling reactions of the black and white Delta residents. Sugarman's unique reportorial art, in word and

image, makes this book a vital record of our nation's past.

This Nonviolent Stuff'll Get You Killed - Charles E. Cobb 2014-06-03

Visiting Martin Luther King, Jr. at the peak of the civil rights movement, the journalist William Worthy almost sat on a loaded pistol. "Just for self-defense," King assured him. One of King's advisors remembered the reverend's home as "an arsenal." Like King, many nonviolent activists embraced their constitutional right to self-protection—yet this crucial dimension of the civil rights struggle has been long ignored. In *This Nonviolent Stuff'll Get You Killed*, civil rights scholar Charles E. Cobb, Jr. reveals how nonviolent activists and their allies kept the civil rights movement alive by bearing—and, when necessary, using—firearms. Whether patrolling their neighborhoods, garrisoning their homes, or firing back at attackers, these men and women were crucial to the movement's success, as were the weapons they carried. Drawing on his firsthand experiences in the Southern Freedom Movement and interviews with fellow participants, Cobb offers a controversial examination of the vital role guns have played in

securing American liberties.
