[Foreign Direct Investment in Latin America and the Caribbean 2019](#) - United Nations 2019-10-01

This ECLAC annual report sets out and analyses the main foreign direct investment (FDI) trends in the countries of Latin America and the Caribbean. In the region, FDI inflows were up (by 13.2%) year on year for the first time in five years, at US\$ 184.287 billion. This performance is explained by higher flows into just a few countries, however, mainly Brazil and Mexico. Moreover, it does not reflect equity investment, but higher inflows in the form of intercompany loans and, to a lesser extent, reinvestment of earnings. Manufactures and services were the sectors receiving most equity, although there was a slight rise in investment in natural resource sectors compared with 2018.

*The Coke Machine* - Michael Blanding

2011-09-06

*The Coke Machine* takes readers deep inside the Coca-Cola Company and its international franchisees to reveal how they became the number one brand in the world, and just how far they'll go to stay there. Ever since its "I'd like to teach the world to sing" commercials from the 1970s, Coca-Cola has billed itself as the world's beverage, uniting all colors and cultures in a

mutual love of its caramel-sweet sugar water. The formula has worked incredibly well-making it one of the most profitable companies on the planet and "Coca-Cola" the world's second-most recognized word after "hello." However, as the company expands its reach into both domestic and foreign markets, an increasing number of the world's citizens are finding the taste of Coke more bitter than sweet. Journalist Michael Blanding's *The Coke Machine* probes shocking accusations about the company's global impact, including: ? Coca-Cola's history of winning at any cost, even if it meant that its franchisees were making deals with the Nazis and Guatemalan paramilitary squads ? How Coke has harmed children's health and contributed to an obesity epidemic through exclusive soda contracts in schools ? The horrific environmental impact of Coke bottling plants in India and Mexico, where water supplies have been decimated while toxic pollution has escalated ? That Coke bottlers stand accused of conspiring with paramilitaries to threaten, kidnap, and murder union leaders in their bottling plants in Colombia A disturbing portrait drawn from an award-winning journalist's daring, in-depth research, *The Coke Machine* is the first comprehensive probe of the company and its secret formula for greed. COKE is a registered trademark of The Coca-Cola Company. This book is not authorized by or endorsed by The Coca-Cola Company.
