*Wasting Time on the Internet* - Kenneth Goldsmith 2016-08-23

Using clear, readable prose, conceptual artist and poet Kenneth Goldsmith's manifesto shows how our time on the internet is not really wasted but is quite productive and creative as he puts the experience in its proper theoretical and philosophical context. Kenneth Goldsmith wants you to rethink the internet. Many people feel guilty after spending hours watching cat videos or clicking link after link after link. But Goldsmith sees that "wasted" time differently. Unlike old media, the internet demands active engagement—and it's actually making us more

social, more creative, even more productive.

When Goldsmith, a renowned conceptual artist and poet, introduced a class at the University of Pennsylvania called "Wasting Time on the Internet", he nearly broke the internet. The New Yorker, the Atlantic, the Washington Post, Slate, Vice, Time, CNN, the Telegraph, and many more, ran articles expressing their shock, dismay, and, ultimately, their curiosity.

Goldsmith's ideas struck a nerve, because they are brilliantly subversive—and endlessly shareable. In *Wasting Time on the Internet*, Goldsmith expands upon his provocative insights, contending that our digital lives are remaking human experience. When we're "wasting time," we're actually creating a culture of collaboration. We're reading and writing more—and quite differently. And we're turning concepts of authority and authenticity upside-down. The internet puts us in a state between deep focus and subconscious flow, a state that Goldsmith argues is ideal for creativity. Where that creativity takes us will be one of the stories of the twenty-first century. Wide-ranging, counterintuitive, engrossing, unpredictable—like the internet itself—*Wasting Time on the Internet* is the manifesto you didn't know you needed.

*Spurious Correlations* - Tyler Vigen 2015-05-12

"Spurious Correlations ... is the most fun you'll ever have with graphs."--Bustle Military intelligence analyst and Harvard Law student Tyler Vigen illustrates the golden rule that "correlation does not equal causation" through hilarious graphs inspired by his viral website. Is there a correlation between Nic Cage films and swimming pool accidents? What about beef consumption and people getting struck by lightning? Absolutely not. But that hasn't stopped millions of people from going to tylervigen.com and asking, "Wait, what?" Vigen has designed software that scours enormous data sets to find unlikely statistical correlations. He began pulling the funniest ones for his website and has since gained millions of views, hundreds of thousands of likes, and tons of media coverage. Subversive and clever, *Spurious Correlations* is geek humor at its finest, nailing our obsession with data and conspiracy theory.

*One Writer's Beginnings* - Eudora Welty

2020-11-03

Featuring a new introduction, this updated edition of the New York Times bestselling classic by Pulitzer Prize and National Book

Award-winning author and one of the most revered figures in American letters is "profound and priceless as guidance for anyone who aspires to write" (Los Angeles Times). Born in 1909 in Jackson, Mississippi, Eudora Welty shares details of her upbringing that show us how her family and her surroundings contributed to the shaping not only of her personality but of her writing as well. Everyday sights, sounds, and objects resonate with the emotions of recollection: the striking clocks, the Victrola, her orphaned father's coverless little book saved since boyhood, the tall mountains of the West Virginia back country that became a metaphor for her mother's sturdy independence, Eudora's earliest box camera that suspended a moment forever and taught her that every feeling awaits a gesture. In her vivid descriptions of growing up in the South—of the interplay between black and white, between town and countryside, between dedicated schoolteachers and the children they taught—she recreates the vanished world of her youth with the same subtlety and insight that mark her fiction, capturing "the mysterious transfiguring gift by which dream, memory, and experience become art" (Los Angeles Times Book Review). Part memoir, part exploration of the seeds of creativity, this unique distillation of a writer's beginnings offers a rare glimpse into the Mississippi childhood that made Eudora Welty the acclaimed and important writer she would become.

**Intelligence Reframed** - Howard E. Gardner  
2000-09-18

Harvard psychologist Howard Gardner has been acclaimed as the most influential educational theorist since John Dewey. His ideas about intelligence and creativity - explicated in such bestselling books as *Frames of Mind* and *Multiple Intelligences* (over 200,000 copies in print combined) - have revolutionized our thinking. In his groundbreaking 1983 book *Frames of Mind*, Howard Gardner first introduced the theory of multiple intelligences, which posits that intelligence is more than a single property of the human mind. That theory has become widely accepted as one of the seminal ideas of the twentieth century and continues to attract attention all over the world. Now in *Intelligence Reframed*, Gardner provides a much-needed report on the theory, its evolution and revisions. He offers practical guidance on the educational uses of the theory and responds to the critiques leveled against him. He also introduces two new intelligences (existential intelligence and naturalist intelligence) and argues that the concept of intelligence should be broadened, but not so absurdly that it includes every human virtue and value. Ultimately, argues Gardner, possessing a basic set of seven or eight intelligences is not only a unique trademark of the human species, but also perhaps even a working definition of the species. Gardner also offers provocative ideas about creativity, leadership, and moral excellence, and speculates about the relationship between multiple intelligences and the world of work in the future.

**The Yellow Wallpaper Illustrated** - Charlotte Perkins Gilman 2021-06-14

"The Yellow Wallpaper" is a short story by American writer Charlotte Perkins Gilman, first published in January 1892 in *The New England Magazine*. [1] It is regarded as an important early work of American feminist literature, due to its illustration of the attitudes towards mental and physical health of women in the 19th century. Narrated in the first person, the story is a collection of journal entries written by a woman whose physician husband (John) has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the unnamed woman is forbidden from working, and is encouraged to eat well and get plenty of air, so she can recuperate from what he calls a "temporary nervous depression - a slight hysterical tendency", a diagnosis common to women during that period
