Investigating Political Tolerance at Conservative Protestant Colleges and Universities - George Yancey 2019-02-21

This book aims to investigate the level of political tolerance at conservative Protestant colleges and universities. Through innovative and methodologically sophisticated techniques, the authors test the political openness of these institutions as a proxy for their willingness to accept opinions that fall outside of those held by their religious community. The purpose of this study is to determine if there is an insular environment at conservative Protestant institutions beyond religious obligations, or if these institutions are only restrictive as it concerns those theological commitments. Drawing from five distinct sets of data, the authors demonstrate that conservative Protestant institutions of higher education exhibit more political diversity and political tolerance than other institutions of higher education, including elite 'Research 1' institutions.

Monk's Travels - Edward A Malloy 2004-07

Anne Tyler wrote a novel called *The Accidental Tourist* about a man who is forced to travel but does not want to have any new experiences...My goal on my trips has been just the opposite: not to do anything too foolish, but to be open to an endless round of new experiences and possibilities." Father Edward Malloy never planned to share his trip diaries with readers throughout the world. Affectionately known as "Monk," the president of the University of Notre Dame just wanted to record where he went, what he saw, and whom he met along the way. But good reading attracts readers, and good travel writing takes those readers along on the journey. Both apply to *Monk's Travels: People, Places, and Events*. The book carries readers to destinations ranging from New York just after September 11, 2001, to Europe, the Mediterranean, Latin America, Africa, and the Far East. Monk meets and experiences the local residents and their customs. But he also comes in contact with some of the most notable personalities of our time: Presidents George H. W. and George W. Bush, Martin Luther King Jr., Pope John Paul II, and Taiwanese Premier Lien Chen and President Lee Teng-Hui. The author's reportage of these places and personages opens the world to readers of all faiths and interests. *Monk's Travels* shares its creator's personality, hopes, spirituality, and emotions. Wherever he goes, Monk sees who and what is going on around him. His eye for detail is sharp and his talent for recounting his visits reflects his long experience of speaking to wide and varied audiences. This is a book that will interest anyone who is curious about higher education, Catholicism, travel, and/or world events.

Momentum - Daniel Seymour 2015-12-07

Momentum changes the conversation from how others are holding higher education accountable to why colleges and universities need to embrace the need to demonstrate their own responsibility. The responsibility paradigm that emerges fundamentally shifts the dialogue from fixing to preventing, from reacting to creating, from surviving to thriving.

The Men We Became - Robert T. Littell 2013-08-13

For over twenty years Robert Littell was John F. Kennedy Jr.'s closest confidant. Now, in a beautiful and moving memoir, Littell introduces us to the private John. A story of laughter and sorrow, joy and heartbreak, *The Men We Became* is an unforgettable memoir. Rob Littell was a freshman at Brown when he met the young JFK, Jr. during orientation week. Although Littell came from a privileged background, it was worlds apart from the glamorous life of the son of the late President and Jacqueline Kennedy Onassis. Eager to be accepted on his own terms, Kennedy admired Littell's irreverence toward his celebrity and they became close friends. John opened up to Littell on a very personal level, revealing the complex and sometimes tense nature of his relationships

with his sister and cousins, as well as his mother's extraordinary influence on John - and how they both worked to keep it from being overbearing. John's marriage had its ups and downs and Carolyn had made enemies of some of his friends, but she was in great shape mentally and physically and they were planning to have children. Littell recounts wonderful dinners at Jacqueline Onassis's apartment where she surprised him with his favorite dinner of specially burned hamburgers and weekends at her retreat in Martha's Vineyard where she critiqued their touch football while lying on a chaise lounge, her face covered in cold cream and cucumber slices. As students, Littell and Kennedy bummed around Europe. They slept in Hyde Park, sampled the pleasures of Amsterdam, ran afoul of customs officers and almost got busted at the Ritz Hotel for smoking pot. They even shared apartments in New York City until Jackie summoned them to dinner one day and gently suggested it was time to grow up. The two went on to pursue their professional lives. John trained as a lawyer - and Littell speaks of his friend's anguish at repeatedly failing the bar - and then he founded his own political magazine, which seemed only fitting because Kennedy yearned to live up to the family name and accepted that politics would be his destiny. Later on, Littell was a part of JFK, Jr.'s secret wedding to Carolyn Bessette on Cumberland Island, Georgia, and three years later a pallbearer at his funeral. From shared adventures, private moments and lasting memories, Robert Littell offers a unique look at John F. Kennedy Jr.'s life - one that has never been seen before.

Told You So - Ralph Nader 2013-05-28

"What sets Ralph Nader apart is that he has moved beyond social criticism to effective political action."—The New York Times "Nader is at his polemical best inveighing against specific issues from the skyrocketing costs of college education to the Keystone XL pipeline to new traffic safety concerns that harken back to his pivotal game-changing 1965 book, *Unsafe at Any Speed*. Admirers of Nader will find much to savor here as will anyone seeking to understand the mind of a man who singlehandedly sparked a new era of citizen-driven political and consumer activism." —Publishers Weekly The column is the most natural literary form for a citizen's advocate, and Ralph Nader may be its most robust and forceful practitioner. *Told You So: The Big Book of Weekly Columns* presents a panoramic portrait of the problems confronting our society and provides examples of the many actions an organized citizenry could and should take to create a more just and environmentally sustainable world. Drawing on decades of experience, Nader's columns document the consequences of concentrated corporate power; threats to our food, water and air; the corrosive effect of commercialism on our children; the dismantling of worker rights; and the attacks on our civil rights and civil liberties. Nader also offers concrete suggestions to spark citizen action and achieve social change.

Free Speech on Campus - Sigal R. Ben-Porath 2017-08-15

From the University of California, Berkeley, to Middlebury College, institutions of higher learning increasingly find themselves on the front lines of cultural and political battles over free speech. Repeatedly, students, faculty, administrators, and politically polarizing invited guests square off against one another, assuming contrary positions on the limits of thought and expression, respect for differences, the boundaries of toleration, and protection from harm. In *Free Speech on Campus*, political philosopher Sigal Ben-Porath examines the current state of the arguments, using real-world examples to explore the contexts in which conflicts erupt, as well as to assess the place of identity politics and concern with safety and dignity within them. She offers a useful framework for thinking about free-speech controversies both inside and outside the college classroom, shifting the focus away from disputes about legality and harm and toward democracy and inclusion. Ben-Porath provides readers with strategies to de-escalate tensions and negotiate highly charged debates surrounding trigger warnings, safe spaces, and

speech that verges on hate. Everyone with a stake in campus controversies—professors, students, administrators, and informed members of the wider public—will find something valuable in Ben-Porath's illuminating discussion of these crucially important issues.

Who Owns the Problem? - Pius Adesanmi 2020-02-01

How may we conceptualize Africa in the driver's seat of her own destiny in the twenty-first century? How practically may her cultures become the foundation and driving force of her innovation, development, and growth in the age of the global knowledge economy? How may the Africanist disciplines in the humanities, the social sciences, and the natural sciences be revamped to rise up to these challenges through new imaginaries of intersectional reflection? This book assembles lectures given by Pius Adesanmi that address these questions. Adesanmi sought to create an African world of signification in which verbal artistry interpellates performer and audience in a heuristic process of knowledge production. The narrative and delivery of his arguments, the antiphonal call and response, and the aspects of Yoruba oratory and verbal resources all combine with diction and borrowings from Nigerian popular culture to create a distinct African performative mode. This mode becomes a form of resistance, specifically against the pressure to conform to Western ideals of the packaging, standardization, and delivery of knowledge. Together, these short essays preserve the committed and passionate voice of an African writer lost far too soon. Adesanmi urges his readers to commit themselves to Africa's cultural agency.

Nixon Rebuilds - John David Briley 2021-08-09

Richard Nixon's election to the presidency in 1968 was an improbable vindication for a man branded as a loser after unsuccessful presidential and gubernatorial campaigns. Yet during the 1966 mid-term elections, he emerged as the critical figure who united the fractured Republican Party after the disastrous 1964 presidential election. Along the way, he sensed how large swaths of the American public were moving against the Democrats, and how a candidate could take advantage of this. Filling an important gap in the Nixon literature, this book explores his dynamic reinvention during the dark days of the mid-sixties—a period that mirrored his 1946-1952 rise from obscure congressman to Eisenhower's vice-president. Beginning with his 1962 press conference after losing the California governor's election and ending with his 1968 presidential victory, a far more human Nixon is revealed, unlike the familiar caricature of the shady politician and orchestrator of Watergate who would do anything to win.

Cancel Your Own Goddam Subscription - William F. Buckley, Jr. 2010-05

National Review has always published letters from readers. In 1965 the magazine decided that certain letters merited different treatment, and William F. Buckley, the editor, began a column called "Notes & Asides" in which he personally replied to the most notable and outrageous correspondence. Rosenthal, Auberon Waugh, Arthur Schlesinger Jr., and many others. Chiang Yee - Da Zheng 2010-02-26

A young man arrives in England in the 1930s, knowing few words of the English language. Yet, two years later he writes a successful English book on Chinese art, and within the following decade publishes more than a dozen others. This is the true story of Chiang Yee, a renowned writer, artist, and worldwide traveler, best known for the Silent Traveller series—stories of England, the United States, Ireland, France, Japan, and Australia—all written in his humorous, delightfully refreshing, and enlightening literary style. This biography is more than a recounting of extraordinary accomplishments. It also embraces the transatlantic life experience of Yee who traveled from China to England and then on to the United States, where he taught at Columbia University, to his return to China in 1975, after a forty-two year absence. Interwoven is the history of the communist revolution in China; the battle to save England during World War II; the United States during the McCarthy red scare era; and, eventually, thawing Sino-American relations in the 1970s. Da Zheng uncovers Yee's encounters with racial exclusion and immigration laws, displacement, exile, and the pain and losses he endured hidden behind a popular public image.

The Lives of Erich Fromm - Lawrence J. Friedman 2014-11-04

Erich Fromm was a political activist, psychologist, psychoanalyst, philosopher, and one of the most important intellectuals of the twentieth century. Known for his theories of personality and political insight, Fromm dissected the sadomasochistic appeal of brutal dictators while also eloquently championing love—which, he insisted, was nothing if it did not involve joyful contact with others and humanity at large. Admired all over the world, Fromm continues to inspire with his message of universal brotherhood and quest for lasting peace. The first systematic study of Fromm's influences and achievements, this biography revisits the thinker's most important works, especially *Escape from Freedom* and *The Art of Loving*, which conveyed important and complex ideas to millions of readers. The volume recounts Fromm's political activism as a founder and major funder of Amnesty International, the National Committee for a Sane Nuclear Policy, and other peace groups. Consulting rare archival materials across the globe, Lawrence J. Friedman reveals Fromm's support for anti-Stalinist democratic movements in Central and Eastern Europe and his efforts to revitalize American democracy. For the first time, readers learn about Fromm's direct contact with high officials in the American government on matters of war and peace while accessing a deeper understanding of his conceptual differences with Freud, his rapport with Neo-Freudians like Karen Horney and Harry Stack Sullivan, and his association with innovative artists, public intellectuals, and world leaders. Friedman elucidates Fromm's key intellectual contributions, especially his innovative concept of "social character," in which social institutions and practices shape the inner psyche, and he clarifies Fromm's conception

of love as an acquired skill. Taking full stock of the thinker's historical and global accomplishments, Friedman portrays a man of immense authenticity and spirituality who made life in the twentieth century more humane than it might have been.

The Spirit's Tether - Mary Ellen Konieczny 2013-08-15

After the Madness - Sol Wachtler 2014-04-29

Driving down the Long Island Expressway in November of 1992, Sol Wachtler was New York's chief judge and heir apparent to the New York governorship. Suddenly, three van loads of FBI agents swerved in front of him—bringing his car and his legal career to a halt. Wachtler's subsequent arrest, conviction, and incarceration for harassing his longtime lover precipitated a media feeding frenzy, revealing to the world his struggles with romantic attachment, manic depression, and drug abuse. In this, his prison diary, Wachtler reveals the stark reality behind his vertiginous fall from the heights of the legal establishment to the underbelly of the criminal justice system. Sentenced to a medium security prison in Butner, North Carolina, Wachtler is stabbed by an unseen assailant, berated by prison guards, and repeatedly placed in solitary confinement with no explanation. Moreover, as a prisoner he confronts firsthand the inequities of a system his judicial rulings helped to construct and befriends the type of people he once sentenced. With unflinching honesty, Wachtler draws on his unique experience of living life on both sides of the bench to paint a chilling portrait of prison life interwoven with a no-holds-barred analysis of the shortcomings of the American legal justice system.

Prophecy without Contempt - Cathleen Kaveny 2016-03-07

The culture wars have as much to do with rhetorical style as moral substance. Cathleen Kaveny focuses on a powerful stream of religious discourse in American political speech: the Biblical rhetoric of prophetic indictment. It can be strong medicine against threats to the body politic, she shows, but used injudiciously it does more harm than good.

(Not That You Asked) - Steve Almond 2008-07-08

In *(Not that You Asked)*, Steve Almond documents a life spent brawling with the idiot kings of modern culture. He squares off against Sean Hannity on national TV, takes on Oprah Winfrey, nearly gets kidnapped by a reality TV crew, and winds up in Boston, where he quickly enrages the entire population of Red Sox Nation. Amid the carnage, he finds time to celebrate his literary hero, the late Kurt Vonnegut. These are essays the Los Angeles Times has called "rich, fearless [and] cutting." Praise for *(Not that You Asked)* "Refreshingly irreverent . . . absurdly funny." —The Boston Globe "[Almond] scores big in every chapter of this must-have collection. Biting humor, honesty, smarts and heart: Vonnegut himself would have been proud." —Kirkus Reviews (starred review) "Taunting, revealing, irreverent, and earnest." —The New York Times "Steve Almond has created a distinctive voice and literary persona. Pleasure-obsessed, self-deprecating, horny, hilarious and always dedicated to parsing the messy terrain of the human heart." —Forward.com

Donald Seldin - Raymond S. Greenberg 2020-09-10

No one would have blamed Donald Seldin for running away. When he arrived at Southwestern Medical College in 1951, it was a collection of hastily repurposed military shacks creaking in the wind. On practically day one he became chair of the department of medicine—when the only other full-time professors departed. By the time he stepped down thirty-six years later, Seldin had transformed a sleepy medical college into the University of Texas Southwestern Medical Center—a powerhouse of research and patient care and an anchor of the city of Dallas. Raymond Greenberg, a physician-scholar, tells Seldin's story of perseverance and intellectual triumph. Drawing on interviews with Seldin's trainees and colleagues—and on Seldin's own words—Greenberg chronicles the life of the Brooklyn boy who became one of Texas's foremost citizens and taught decades of men and women to heal. A pioneering nephrologist, Seldin devoted his career to developing the specialty; educating students, residents, and fellows; caring for patients; and nurturing basic research. Seldin was a wildcatter in the best sense. He declined the comfortable prestige of Harvard and Yale and instead embraced a worthy challenge with an unflagging sense of mission. Graceful and richly detailed, *The Maestro of Medicine* captures an inspiring life of achievement and service.

Demagogue - Larry Tye 2020

The definitive biography of the most dangerous demagogue in American history, based on first-ever review of his personal and professional papers, medical and military records, and recently unsealed transcripts of his closed-door Congressional hearings In the long history of American demagogues, from Huey Long to Donald Trump, never has one man caused so much damage in such a short time as Senator Joseph McCarthy. We still use "McCarthyism" to stand for outrageous charges of guilt by association, a weapon of polarizing slander. From 1950 to 1954, McCarthy destroyed many careers and even entire lives, whipping the nation into a frenzy of paranoia, accusation, loyalty oaths, and terror. When the public finally turned on him, he came crashing down, dying of alcoholism in 1957. Only now, through bestselling author Larry Tye's exclusive look at the senator's records, can the full story be told. *Demagogue* is a masterful portrait of a human being capable of immense evil, yet beguiling charm. McCarthy was a tireless worker and a genuine war hero. His ambitions knew few limits. Neither did his socializing, his drinking, nor his gambling. When he finally made it to the Senate, he flailed around in search of an agenda and angered many with his sharp elbows and lack of integrity. Finally, after three years, he hit upon anti-communism. By recklessly charging treason against everyone from George Marshall to much of the State Department, he became the most influential and controversial man in America. His chaotic, meteoric rise is a gripping and terrifying object lesson for us all. Yet his equally sudden fall from fame offers reason for hope that, given the rope, most American demagogues eventually hang themselves.

Justice Stanley Mosk - Jacqueline R. Braitman 2012-11-27

This is the first biography of Stanley Mosk (1912-2001), iconic protector of civil rights and civil liberties during his 37 years as a justice of the Supreme Court of California (1964 to 2001). He had quickly risen as a well liked leader among Los Angeles reformers, as executive secretary to California governor Culbert Olson and then 16 years as a superior court judge. His 1958 election and service as state attorney general soon won national attention and the promise of likely election to the U.S. Senate, but an unexpected campaign twist augured a new course. This book frames Mosk's Supreme Court years and the landmark cases in which his opinions or biting dissents continue to resonate.

The Motivational Speaker - Tilawan 2012-07-19

They all come from all walks of life seeking solutions to their problems . . . Seeking answers from the motivational speaker . . . SST, really I feel I'm not worthy to be here, she spoke softly again, displaying a reluctance to speak out. I immediately got interested! From experience, such people have interesting stories that will make my day. My sister, don't worry, you have come where your problems will be attended to. I was cajoling her to speak out! And please, I didn't get your name, or you don't feel like telling me? I said. It's not like that, SST! It's just that I don't think I should say what I want to say. She was shying away. I was right. She didn't want her name to be mentioned, there's a story all right! She came back reluctantly. OK. SST, my name is Joan, she said. Joan like hell! No problem, I can use that name. Names are like ages. They really don't count on my show because you hardly get the true dose, all the same I just needed it for the reference. OK, Joan, what's the issue? Let me see your steps, the floor is all yours now. I decided to spur her. I haven't got all day even if she was my only caller. Joan, let's hear you before our shot time is up, and we might just miss you for life. I was pushing her. That seemed to wake her, and from then, she started coming out like a canary.

When something is bottled up for so long inside someone and it wants to spurt out, a small nod will collapse the whole balloon. SST, you see, I never knew my life will drain to this level. I was not brought up to be like this. I had a good family upbringing, nice parents that wanted the best for me. It was not meant to be like this for me. I bet I was left astray by the company I made in school. That's it, she is talking now! You can't put it down once you start reading . . .

The Papers of George Catlett Marshall - George Catlett Marshall 2016-05

This final volume details the last decade of Marshall's life. This seventh and final volume of The Papers of George Catlett Marshall covers the last ten years of Marshall's life, when he served as secretary of defense from September 1950 to September 1951 following a year as American Red Cross president. Dramatic swings in fortune for US and UN forces in Korea consumed him as defense secretary, yet Europe remained Marshall's strategic focus and with it the establishment of a NATO military command, efforts to convince the French to accept German rearmament, congressional approval for a major US military buildup, and a Mutual Security Program for America's allies. Marshall also participated in the decision to relieve General Douglas MacArthur, sparking public uproar and a Senate investigation. Marshall remained active and honored in retirement, particularly in 1953, when he led the US delegation to the coronation of Queen Elizabeth II and then became the first professional soldier to win the Nobel Peace Prize, a tribute to the Marshall Plan. Through it all, he maintained an extensive correspondence with national and international leaders. When he died on October 16, 1959, George Catlett Marshall was hailed by many as the nation's greatest soldier-statesman since George Washington.
