Memorial Articles for 20th Century American Accounting Leaders -

Stephen A. Zeff 2016-03-31

This collection of memorial articles and selected obituaries highlights the careers and contributions to accounting practice, the accounting profession, and the accounting literature of leading American figures in the 20th century. The memorial articles do much more than recite their subject's career. More importantly, they discuss and assess their subject's role in influencing the course of accounting practice and the profession as well as the evolution of their influential writings, revealing the names of the accounting leaders and leading thinkers of the past century. Memorial Articles for 20th Century American Accounting Leaders is useful in providing students and young researchers with a rich source of intelligence on the leaders who have established norms of practice, advanced the profession, and set the terms of debate in the literature - leaders who are cited and even quoted but who are known mostly as names without a full-bodied treatment of their

backgrounds and broader roles in shaping the accounting literature.

Managing Reality - Cheryl R. Lehman 2013-10-08

The 16th volume scrutinizes the role and influence of accounting within the social struggles of our time, in fields such as ethics, sustainability, and education. The research reveals the ability of using the discipline as a tool for affirmation and empowerment within governance, politics, and social practice.

Digitization of the Management Accounting Function - Oliver Holtkemper 2020-10-27

This book analyzes the impact of digitization on management accounting in five manufacturing companies. It is one of the first in-depth empirical studies on the

intersection of management accounting and digitization. The study suggests that there are two archetypes of digitization of the management accounting function. The first archetype emphasizes top-down-driven changes that aim to enhance efficiency, such as conducting tasks with a higher degree of automation in a leaner structure with fewer resources. The second archetype is strongly driven and initiated by employees in the management accounting function (bottom-up). The focus is on improving the use of data by applying innovative analytics methods, integrating additional sources of data, and benefiting from new technologies like artificial intelligence. The results of the study also indicate that digitization of the management accounting function is mostly in line with the overall company strategy.

Readers develop a solid understanding of costs and cost behavior and the use of cost information for planning and control decisions, not just inventory valuation. This book emphasizes the notion that "You need to understand the business first, before you can understand the accounting of business." Updated to cover the most recent methods in management accounting,

topics include: cost behavior, cost management systems, and activity-based costing; marketing and product decisions; the master budget; flexible budget and variance analysis; management control systems; capital budgeting; cost allocation; and job-costing and process-costing systems; basic accounting concepts, techniques, and conventions; corporate financial reports and basic financial statements; and consolidated financial statements. An excellent reference resource for managerial accountants.

Management Control Systems in Japan - Takashi Shimizu 2017-03-27

As the world's third-ranking economic power, Japan's style of management, such as the lifetime employment system, the seniority system, and an enterprise union, has been well studied. However, little else is known about the Japanese management control systems (MCSs) and management accounting systems, which are significantly different from other economic powers. This

book sheds light on Japanese MCSs and the differences with those of the United States, illustrated with examples from Mitsubishi Electric, Kao, and more. This book aids not only researchers in management accounting, but also provides more useful insight for international investors and management accountants that can prove useful in business management.

Essentials of Accounting for Governmental and Not-for-Profit Organizations - Paul

Copley 2017-01-25
Copley's Essentials of Accounting for Governmental and Not-for-Profit Organizations, 13e is best suited for those professors whose objective is to provide more concise coverage than what is available in larger texts. The main focus of this text is on the preparation of external financial statements which is a challenge for governmental reporting. The approach in this edition is similar to that used in practice. Specifically, day to day events are recorded at the fund level using the basis of accounting for fund financial statements. Governmental activities are recorded using the modified accrual basis. The fund-basis statements are then used as input in the preparation of government-wide statements. The preparation of government-wide statements is presented in an Excel worksheet. Cost Accounting, 16e -

Horngren

Cost accounting provides key data to managers for planning and controlling, as well as costing products, services, even customers. Cost Accounting, 16e focuses on how this discipline would help managers make better decisions, as cost accountants are increasingly becoming integral members of company's decision-making teams. In order to emphasize this prominence in decision making, the authors have used the 'different costs for different purposes' theme throughout this book. By focusing on basic concepts, analyses, uses and procedures instead of procedures alone, they have recognized cost accounting as a managerial tool for business strategy and
