Dayworld Breakup - Philip José Farmer 2017-08-08

From the Hugo Award-winning author of *Riverworld*: The conclusion of the trilogy set on a future Earth where freedom is threatened by an insidious lie. Before the dawn of the New Era, the world was divided into nations with separate governments that engaged in wars, and populations ravaged by poverty, starvation, and disease. After a final bloody conflict, a single government emerged and took drastic measures to control the dangerous overpopulation in the Organic Commonwealth of Earth: Each citizen is "stoned" in suspended animation for six days each week and closely monitored at all times. Thus, resources are plentiful, and there's peace and prosperity—or is there? It seems the World Council has been lying. Now, rebel daybreaker Jeff Caird and Panthea Snick, formerly of the organic police force, must risk their lives to expose the truth about the corrupt government and rally the citizens of Earth to rise up against the powers that are robbing them of their freedom—and their lives. But what will become of Jeff and his multiple identities as the struggle draws to a close? The breathtaking finale in the *Dayworld Trilogy* reveals the truth about the perverse government of Earth in the New Era, and the ramifications of its fall, along with a deeper understanding of the man who dares to challenge it.

Betty Boo - Claudia Piñeiro 2016-01-18

"Not for nothing is Claudia Piñeiro Argentina's most popular crime writer. Betty Boo is original, witty and hugely entertaining; it mixes murder with love, political power and journalism." Times-London "Those willing to take the time to enjoy the style and the unusual denouement will find themselves wondering why more crime authors don't take the kinds of risks Piñeiro does." Booklist The fourth novel from Claudia Piñeiro, South America's best-selling crime novelist. When a renowned Buenos Aires industrialist is found dead at his home in an exclusive gated community called La Maravillosa, the novelist Nurit Iscar (once nicknamed Betty Boo owing to a resemblance to the cartoon character Betty Boop) is contracted by a former lover, the editor of a national newspaper, to cover the story. Nurit teams up with the paper's veteran, but now demoted, crime reporter. Soon they realize that they are falling in love, which complicates matters deliciously. The murder is no random crime but one in a series that goes to the heart of the establishment. Five members of the Argentine industrial and political elite, who all went to the same boarding-school, have died in apparently innocent circumstances. The Maravillosa murder is just the last in the series and those in power in Argentina are not about to allow all this brought to light. Too much is at stake.

Homeward Bound - Harry Turtledove 2005-12-27

The twentieth century was awash in war. World powers were pouring men and machines onto the killing fields of Europe. Then, in one dramatic stroke, a divided planet was changed forever. An alien race attacked Earth, and for every nation, every human being, new battle lines were drawn. . . **HOMEWARD BOUND** With his epic novels of alternate history, Harry Turtledove shares a stunning vision of what might have been—and what might still be—if one moment in history were changed. In the WorldWar and Colonization series, an ancient, highly advanced alien species found itself locked in a bitter struggle with a distant, rebellious planet—Earth. For those defending the Earth, this all-out war for survival supercharged human technology, made friends of foes, and turned allies into bitter enemies. For the aliens known as the Race, the conflict has yielded dire consequences. Mankind has developed nuclear technology years ahead of schedule, forcing the invaders to accept an uneasy truce with nations that possess the technology to defend themselves. But it is the Americans, with their primitive inventiveness, who discover a way to launch themselves through distant space—and reach the Race's home planet itself. Now—in the twenty-first century—a few daring men and women embark upon a journey no human has made before. Warriors, diplomats, traitors, and exiles—the humans who arrive in the place called Home find themselves genuine strangers on a strange world, and at the center of a flash point with terrifying potential. For their arrival on the alien home world may drive the enemy to make the ultimate decision—to annihilate an entire planet, rather than allow the human contagion to spread. It may be that nothing can deter them from this course. With its extraordinary cast of characters—human, nonhuman, and some in between—*Homeward Bound* is a fascinating contemplation of cultures, armies, and individuals in collision. From the novelist USA Today calls “the leading author of alternate history,” this is a novel of vision, adventure, and constant, astounding surprise.

Charlie Chan Carries On - Earl Derr Biggers 2015-07-03

This early work by Earl Derr Biggers was originally published in 1930 and we are now republishing it with a brand new introductory biography. “Charlie Chan Carries On” is the fifth novel in the Charlie Chan series. Inspector Duff, a Scotland Yard detective and friend of Chan's, first introduced in *Behind That Curtain*, is pursuing a murderer on an around-the-world voyage; so far, there have been murders in London, France, Italy and Japan. While his ship is docked in Honolulu, the detective is shot and wounded by his quarry; though he survives, he is unable to continue with the cruise, and Chan takes his place instead. Earl Derr Biggers was born on 26th August 1884 in Warren, Ohio, USA. Biggers received his further education at Harvard University, where he developed a reputation as a literary rebel, preferring the popular modern authors, such as Rudyard Kipling and Richard Harding Davis to the established figures of classical literature. Following in their footsteps upon graduating, he himself began a career as a popular writer, penning humorous articles and reviews for the *Boston Traveler*. While on holiday in Hawaii, Biggers heard tales of a real-life Chinese detective operating in Honolulu, named Chang Apana. This inspired him to create his most enduring legacy in the character of super-sleuth Charlie Chan. The first Chan story “The House Without a Key” (1925) was published as a serialised story in the *Saturday Evening Post* and then released as a novel in the same year. Biggers went on to write five more Chan novels and all were licensed for movie adaptations by Fox Films. These films were hugely popular with several different actors taking the lead role of Chan. Eventually; over 40 films were produced featuring the character. Biggers only saw the early on-screen successes of Charlie Chan due to his death at the age of only 48 from a heart attack in April 1933.

In a breathtaking race against time, a team of Navy SEALs penetrates deep inside the remote waters of northern Russia on a daring mission of destruction. Dayworld Rebel - Philip José Farmer 2017-08-08

A daybreaker rebels on an overpopulated planet in this dystopian adventure by the author of the *World of Tiers* series. Jeff Caird was once a daybreaker: a criminal who avoided government-required suspended animation by living seven different identities. Now he goes by the name William St.-George Duncan, and he's suppressed the memory of his past, and even his real identity, in order to avoid harsh punishment by the government of the Organic Commonwealth of Earth. But the danger is far from over, and the authorities continue to hunt him—because among the things he's forgotten there's something very important . . . In the wilderness of northern New Jersey, Dunc has fallen in with a group of rebel daybreakers. As he struggles to retrieve the memory that's so valuable—and dangerous—to the government, he learns from his new allies that there's a larger movement to break free from the control of the corrupt World Council that limits citizens to one day of consciousness per week. And the knowledge buried deep within him may be the key to

their success. Hugo award-winning Science Fiction Grand Master Philip José Farmer returns to the Dayworld universe for the second installment of his richly imagined trilogy, in which Earth's overpopulation has led to the most stringent government restrictions on personal freedom imaginable.
