School Library Storytime: Just the Basics - Brenda S. Copeland 2013-04-23

This book is an invaluable resource for school library aides who conduct storytime activities, providing everything from instruction on how to read to children to a week-by-week read aloud curriculum for the entire school year. School Library Storytime: Just the Basics is the perfect resource for library aides, paraprofessionals, or other library staff who conduct storytime in a school library media center. It provides all of the essential information, materials, and step-by-step guidance needed to facilitate these all-important events for children in kindergarten through second grade, allowing library staff without previous training or experience to get started with confidence. The fifth title in the highly regarded Just the Basics series, this book starts with an introduction, followed by explanations of how to read aloud and tips for managing and working with children in the primary grades. The authors suggest specific picture books that tie into school year-based themes and supply materials that can be used as listed or easily modified to meet the individual library's needs. Event-specific lessons are supplied for many weeks within the school year, making this title one that educators will rely on for storytime ideas from September through May. Follows the school calendar, providing a lesson for nearly every week of the school year Uses both fiction and nonfiction readalouds Supplies a resource page for each month

**The Violence of Modernity** - Debarati Sanyal 2006-06

Publisher description

Monstrous Imagination - Marie-Hélène Huet 1993

What woeful maternal fancy produced such a monster? This was once the question asked when a deformed infant was born. From classical antiquity through to the Enlightenment, the monstrous child bore witness to the fearsome power of the mother's imagination. What such a notion meant and how it reappeared, transformed, in the Romantic period are the questions explored in this book, a study of theories linking imagination, art and monstrous progeny.

Work's a Bitch and Then You Make It Work - Andrea Kay 2012-01-09

Are you frustrated by the indignities of life in today's workplace? More work, longer hours, fewer benefits, incompetent bosses—career consultant and expert Andrea Kay has heard it all. In her new book, Kay connects with the 85 percent of the workforce who feel unsatisfied with their careers. Readers will immediately recognize themselves in the stories she tells, gleaned from the thousands of unhappy workers who have responded to Kay's nationally syndicated column and appearances. But Kay doesn't just explore what's wrong with the workplace today; she empowers workers to think about their careers in a new way, to get past disillusionment and feelings of powerlessness to see the possibilities and control they do have. She counsels readers on how to aim high and be fearless in presenting new ideas; how to cope with the unpredictable; how to determine whether a company is a good match for you; how to define the kind of work arrangement you want, and get up the nerve to ask for it. Throughout the text and the thought-provoking exercises that accompany it, she offers ways to take concrete and positive steps that will improve both your career and your life. Work may indeed be a bitch sometimes, but with Andrea Kay's help, readers will work it out.

Renegotiating French Identity - Jane F. Fulcher 2018-04-19

In *Renegotiating French Identity*, Jane Fulcher addresses the question of cultural resistance to the German occupation and Vichy regime during the Second World War. Nazi Germany famously stressed music as a

marker of national identity and cultural achievement, but so too did Vichy. From the opera to the symphony, music did not only serve the interests of Vichy and German propaganda: it also helped to reveal the motives behind them, and to awaken resistance among those growing disillusioned by the regime. Using unexplored Resistance documents, from both the clandestine press and the French National Archives, Fulcher looks at the responses of specific artists and their means of resistance, addressing in turn Pierre Schaeffer, Arthur Honegger, Francis Poulenc, and Olivier Messiaen, among others. This book investigates the role that music played in fostering a profound awareness of the cultural and political differences between conflicting French ideological positions, as criticism of Vichy and its policies mounted.

*The Cambridge Companion to Medieval Women's Writing* - Wallace David 2003-05-22

The Cambridge Companion to Medieval Women's Writing seeks to recover the lives and particular experiences of medieval women by concentrating on various kinds of texts: the texts they wrote themselves as well as texts that attempted to shape, limit, or expand their lives. The first section investigates the roles traditionally assigned to medieval women (as virgins, widows, and wives); it also considers female childhood and relations between women. The second section explores social spaces, including textuality itself: for every surviving medieval manuscript bespeaks collaborative effort. It considers women as authors, as anchoresses 'dead to the world', and as preachers and teachers in the world staking claims to authority without entering a pulpit. The final section considers the lives and writings of remarkable women, including Marie de France, Heloise, Joan of Arc, Julian of Norwich, Margery Kempe, and female lyricists and romancers whose names are lost, but whose texts survive.

Global Trends 2040 - National Intelligence Council 2021-03

"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

**Historical Painting Techniques, Materials, and Studio Practice** - Arie Wallert 1995-08-24

Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangka. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

The Book of Masks - Remy de Gourmont 1921

**Fire in the Minds of Men** - James H. Billington 1999

This book traces the origins of a faith--perhaps the faith of the century. Modern revolutionaries are believers, no less committed and intense than were Christians or Muslims of an earlier era. What is new is the belief that a perfect secular order will emerge from forcible overthrow of traditional authority. This inherently implausible idea energized Europe in the nineteenth century, and became the most pronounced ideological export of the West to the rest of the world in the twentieth century. Billington is interested in revolutionaries--the innovative creators of a new tradition. His historical frame extends from the waning of the French Revolution in the late eighteenth century to the beginnings of the Russian Revolution in the early twentieth century. The theater was Europe of the industrial era; the main stage was the journalistic offices within great cities such as Paris, Berlin, London, and St. Petersburg. Billington claims with considerable evidence that revolutionary ideologies were shaped as much by the occultism and proto-romanticism of Germany as the critical rationalism of the French Enlightenment. The conversion of social theory to political practice was essentially the work of three Russian revolutions: in 1905, March 1917, and November 1917. Events in the outer rim of the European world brought discussions about revolution out of the school rooms and press rooms of Paris and Berlin into the halls of power. Despite his hard realism about the adverse practical consequences of revolutionary dogma, Billington appreciates the identity of its best sponsors, people who preached social justice transcending traditional national, ethnic, and gender boundaries. When this book originally appeared *The New Republic* hailed it as "remarkable, learned and lively," while *The New Yorker* noted that Billington "pays great attention to the lives and emotions of individuals and this makes his book absorbing." It is an invaluable work of history and contribution to our understanding of political life.

*Realidades 2 and Online Course 6 Yr Grade 6, Level 2* - Peggy Palo Boyles 2011-01-01

**Lavoisier—the Crucial Year** - Henry Guerlac 2019-04-15

The author explores the origins of the eighteenth-century chemical revolution as it centers on Antoine-Laurent Lavoisier's earliest work on combustion. He shows that the main lines of Lavoisier's theory—including his theory of a heat-fluid, caloric—were elaborated well before his discovery of the role played by oxygen. Contrary to the opinion prevailing at that time, Lavoisier suspected, and demonstrated by experiment, that common air, or some portion of it, combines with substances when they are burned. Professor Guerlac examines critically the theories of other historians of science concerning these first experiments, and tries to unravel the influences which French, German, and British chemists may have had on Lavoisier. He has made use of newly discovered material on this phase of Lavoisier's career, and includes an appendix in which the essential documents are printed together for the first time.
