Develops essential writing skills.

Ideology, Absolutism and the English Revolution - David Parker 2008

This book offers a fascinating insight into ideas in the making - a glimpse into some of the early debates inside the History Group of the Communist Party of Great Britain, whose members included Christopher Hill, Rodney Hilton and Eric Hobsbawm. The outstanding contribution to historical studies of these and other members of the group is now almost universally recognised. The debates they initiated formed the ground for academic research that is still continuing, in particular their work on the nature of English civil war and revolution in the seventeenth century, and on the development of capitalism in Britain. This book focuses on the debates of the sixteenth- and seventeenth-century section of the group and their work on ideology and absolutism. It reproduces original documentary material - single contributions, reports and minutes - from the debates, and also includes an informative introductory essay as well as useful notes and appendices.

The Social Question and the Democratic Revolution - Douglas Moggach 2000

The revolutionary movements of 1848 viewed the political cataclysms of continental Europe as an explosion of liberty, a new age of freedom and equality. Over 150 years later, many problems raised by the revolutionaries of 1848, such as the extension of democracy and the rights of labour, remain vital and unresolved questions of political life. This collection of essays explores the relation of democratic and socialist currents in 1848, reassess their relevance in terms of the current era of global economic liberalism and identifies those parts of the revolutionary legacy yet unclaimed.

Princeton Review AP European History Premium Prep, 2022 - The Princeton Review 2021-09-14

PREMIUM PRACTICE FOR A PERFECT 5—WITH THE MOST PRACTICE ON THE MARKET! Ace the 2022 AP European History Exam with this Premium version of The Princeton Review's comprehensive study guide. Techniques That Actually Work. • Tried-and-true strategies to help you avoid traps and beat the test • Tips for pacing yourself and guessing logically • Essential tactics to help you work smarter, not harder Everything You Need to Know to Help Achieve a High Score. • Fully aligned with the latest College Board standards for AP® European History • Detailed review of the source-based multiple-choice questions and short-answer questions • Comprehensive guidance for the document-based question and long essay prompts • Access to study plans, a handy list of key terms and concepts, helpful pre-college information, and more via your online Student Tools Premium Practice for AP Excellence. • 6 full-length practice tests (4 in the book, 2 online) with complete answer explanations • End-of-chapter questions for targeted content review • Helpful timelines of major events in European history

Aspects of Western Civilization - Perry M. Rogers 2002-12

The first of a two-volume chronologically arranged compilation of primary and some secondary sources in Western Civilization. Organized

around eight major themes to provide direction and cohesion to the volume while allowing for originality of thought in both written and oral analysis. Readers are presented with basic questions regarding historical development, human nature, moral action and practical necessity while incorporating a wide variety of political, social, economic, religious, intellectual and scientific issues. The readings present history as a vehicle for better understanding in the present rather than a stagnant observation of past societies. The volume addresses the earliest civilizations, the Greek world, the Roman world, the Medieval world and transitions to the modern world. For those interested in an analysis of fundamental historical questions and concerns.

On Revolution - Hannah Arendt 1963

The Psychology of Revolution - Gustave Le Bon 1913

Leviathan - Thomas Hobbes 2021-02-09

Written by one of the founders of modern political philosophy, Thomas Hobbes, during the English civil war, Leviathan is an influential work of nonfiction. Regarded as one of the earliest examples of the social

contract theory, Leviathan has both historical and philosophical importance. Social contract theory prioritizes the state over the individual, claiming that individuals have consented to the surrender of some of their freedoms by participating in society. These surrendered freedoms help ensure that the government can be run easily. In exchange for their sacrifice, the individual is protected and given a place in a steady social order. Articulating this theory, Hobbes argues for a strong, undivided government ruled by an absolute sovereign. To support his argument, Hobbes includes topics of religion, human nature and taxation. Separated into four sections, Hobbes claims his theory to be the resolution of the civil war that raged on as he wrote, creating chaos and taking causalities. The first section, Of Man discusses the role human nature and instinct plays in the formation of government. The second section, Of Commonwealth explains the definition, implications, types, and rules of succession in a commonwealth government. Of a Christian Commonwealth imagines the religion's role government and societal moral standards. Finally, Hobbes closes his argument with Of the Kingdom of Darkness. Through the use of philosophical theory and historical study, Thomas Hobbes attempts to convince citizens to consider the cost and reward of being governed. Without an understanding of the sociopolitical theories that keep government bodies in power, subjects can easily become complicit or allow society to slip into anarchy. Created during a brutal civil war, Hobbes hoped to educate and persuade his peers. Though Leviathan was a work of controversy in its time, Hobbes' theories and prose has survived centuries, shaping the ideas of modern philosophy. This edition of Leviathan by Thomas Hobbes is now presented with a stunning new cover design and is printed in an easy-to-read font. With these accommodations, Leviathan is accessible and applicable to contemporary readers.

Weekly Compilation of Presidential Documents - 1974

A Documentary Survey of the French Revolution - 1969

Absolutism and Society in Seventeenth-Century France - William Beik

1985

This analysis of the provincial reality of absolutism argues that the relationship between the regional aristocracy and the crown was a key factor in influencing the traditional social system of seventeenth century France.

The Oxford Handbook of the Ancien Régime - William Doyle 2012

An exploration of current scholarly thinking about the wide and surprisingly complex range of historical problems associated with the study of Ancien Régime Europe

Aspects of Western Civilization - Perry M. Rogers 2003-05

The second in a two-volume chronologically arranged compilation of primary and some secondary sources in Western Civilization. Organized around eight major themes to provide direction and cohesion to the book while allowing for originality of thought in both written and oral analysis. Readers are presented with basic questions regarding historical development, human nature, moral action and practical necessity while incorporating a wide variety of political, social, economic, religious, intellectual and scientific issues. The readings present history as a vehicle for better understanding in the present rather than a stagnant observation of past societies. The volume addresses the Age of Absolutism through the contemporary world including foundations of the modern world, the era of revolution and the age of anxiety. For those interested in an analysis of fundamental historical questions and concerns.

The French Revolution - Linda Frey 2004

Presents essays covering the history of the French Revolution, covering important figures of the era, historical events, a selection of primary documents, and an annotated bibliography.

Improving Social Studies Instruction - National Education Association of the United States. Research Division 1937

The French Revolution: A History in Documents - Micah Alpaugh

2021-01-14

The French Revolution: A History in Documents explores the rapidly evolving political culture of the French Revolution through first-hand accounts of the revolutionary (and counterrevolutionary) actors themselves. It demonstrates how radical Enlightenment philosophy fused with a governmental crisis to create a moment of new political possibilities unlike any the world had previously seen. In so doing, the French and their allies generated a template for revolutionary possibility from which virtually all subsequent political movements – liberalism, abolitionism, socialism, anarchism, conservatism, feminism and human rights included – derived inspiration. As well as providing an invaluable general introduction, vital contextual notes and thematic bibliographies, Micah Alpaugh selects a fascinating range of pieces, drawing on Parisian, provincial, colonial, and even international voices. From Enlightened dissent to apologies for terror, from declarations of human rights to accounts of slave rebellions, from passionate arguments for democratization to the authoritarian pronouncements of Napoleonic rule, this book presents the French Revolution's evolution in all its awesome complexity. In addition to classic texts, Alpaugh includes many lesser-known sources, a number of which are translated into English here for the first time. This unique collection of 13 visual sources and over 90 documents, incorporating perspectives from across class, gender, race and nationality, provides you with insights into the fervent debates, pronouncements and proposals that spawned modern politics.

Louis XIV and Absolutism - William Beik 2000-01-20

This unique collection of documents with commentary explores the meaning of absolute monarchy by examining how Louis XIV of France became one of Europe's most famous and successful rulers. In the introduction, William Beik succinctly integrates the theoretical and practical nature of absolutism and its implications for the development of European states and society. The documents, newly translated and carefully selected for their readability, examine the problems of the Fronde, Colbert's grasp of the economic and fiscal dimensions of the kingdom, the taming of the rural nobility, the interaction of royal

ministers and provincial authorities, the repression of Jansenists and Protestants, popular rebellions, and royal image-making. Explanatory notes, a chronology, a map, a genealogy chart, and 9 striking images further strengthen this volume's usefulness in the undergraduate classroom.

Constitutionalism - Dieter Grimm 2016-09-08

Constitutionalism: Past, Present, and Future is the definitive collection of Dieter Grimm's most influential writings on constitutional thought and interpretation. The essays included in this volume explore the conditions under which the modern constitution could emerge; they treat the characteristics that must be given if the constitution may be called an achievement, the appropriate way to understand and interpret constitutional law under current conditions, the function of judicial review, the remaining role of national constitutions in a changing world, as well as the possibility of supra-national constitutionalism. Many of these essays have influenced the German and European discussion on constitutionalism and for the first time, much of the work of one of Germany's leading scholars of public law will be available in the English language.

Scandinavia in the Age of Revolution - Pasi Ihalainen 2013-07-28

The 'Age of Revolution' is a term seldom used in Scandinavian historiography, despite the fact that Scandinavia was far from untouched by the late eighteenth-century revolutions in Europe and America. Scandinavia did experience its outbursts of radical thought, its assassinations and radical reforms, but these occurred within reasonably stable political structures, practices and ways of thinking. As recent research on the political cultures of the Nordic countries clearly demonstrates, the Danish, Finnish, Icelandic, Norwegian and Swedish experiences of the late-eighteenth and early-nineteenth centuries offer a more differentiated look at what constitutes 'revolutionary' change in this period compared with other regions in Europe. They provide an alternative story of an incipient transition towards modernity, a 'Nordic model' in which radical change takes place within an apparent continuity of the established order. The long-term products of the processes of

change that began in the Age of Revolution were some of the most progressive and stable political systems in the modern world. At the same time, the Scandinavian countries provide a number of instances which are directly relevant to comparisons particularly within the northwest European cultural area. Presenting the latest research on political culture in Scandinavia, this volume with twenty-seven contributions focuses on four key aspects: the crisis of monarchy; the transformation in political debate; the emerging influence of commercial interest in politics; and the shifting boundaries of political participation. Each section is preceded by an introduction that draws out the main themes of the chapters and how they contribute to the broader themes of the volume and to overall European history. Generously illustrated throughout, this book will introduce non-Scandinavian readers to developments in the Nordic countries during the late-eighteenth and early-nineteenth centuries and both complement and challenge research into the political cultures of Europe and America.

The Age of Revolution - Eric J. Hobsbawm 1977-01

History of Western Society Since 1300 for Advanced Placement -

John P. McKay 2010-10-13

A History of Western Society continues to capture the attention of AP European history students because it recreates the lives of ordinary people and makes history memorable. Brought to you by the highly regarded editors at Bedford/St. Martins, every element of the text has been rethought, reconsidered, and revised to bring the original vision to a new generation of students. The tenth edition continues to tie social history to the broad sweep of politics and culture, heightening its attention to daily life, and strengthening the treatment of European exploration. With a dynamic new design, new special features on visual evidence, and a robust companion reader, A History of Western Society helps AP students master the concepts and content of European history.

The Revolution in Provincial France - Alan I. Forrest 1996

This book presents a provincial view of the French Revolution and assesses the experience of revolution across a broad swathe of

southwestern France, in an area which increasingly looked to Bordeaux as its capital city. Here the Revolution was not simply a pale reflection of events in Paris. Local conflicts and personal rivalries are vital to our understanding of the shape of events in the region, as are contrasting traditions of religious affiliation, peasant radicalism, and obedience to the state. The book examines the Revolution within a thematic framework, and discusses such aspects as the growth of a local political culture, the incidence of rural insurrection, religious responses to the Revolution, the chequered appeal of federalism, and the uneven experience of Terror and political repression.

Galileo, Courtier - Mario Biagioli 2018-12-01

Informed by currents in sociology, cultural anthropology, and literary theory, Galileo, Courtier is neither a biography nor a conventional history of science. In the court of the Medicis and the Vatican, Galileo fashioned both his career and his science to the demands of patronage and its complex systems of wealth, power, and prestige. Biagioli argues that Galileo's courtly role was integral to his science—the questions he chose to examine, his methods, even his conclusions. Galileo, Courtier is a fascinating cultural and social history of science highlighting the workings of power, patronage, and credibility in the development of science.

Reading Like a Historian - Sam Wineburg 2015-04-26

This practical resource shows you how to apply Sam Wineburg's highly acclaimed approach to teaching, "Reading Like a Historian," in your middle and high school classroom to increase academic literacy and spark students curiosity. Chapters cover key moments in American history, beginning with exploration and colonization and ending with the Cuban Missile Crisis.

Peterson's AP European History - Nathan Barber 2006-01

The French Book - Henri-Jean Martin 1996-07-26

From the Booker Prize-winning author of *The Remains of the Day* and *When We Were Orphans*, comes an unforgettable edge-of-your-seat mystery that is at once heartbreakingly tender and morally

courageous about what it means to be human. Hailsham seems like a pleasant English boarding school, far from the influences of the city. Its students are well tended and supported, trained in art and literature, and become just the sort of people the world wants them to be. But, curiously, they are taught nothing of the outside world and are allowed little contact with it. Within the grounds of Hailsham, Kathy grows from schoolgirl to young woman, but it's only when she and her friends Ruth and Tommy leave the safe grounds of the school (as they always knew they would) that they realize the full truth of what Hailsham is. *Never Let Me Go* breaks through the boundaries of the literary novel. It is a gripping mystery, a beautiful love story, and also a scathing critique of human arrogance and a moral examination of how we treat the vulnerable and different in our society. In exploring the themes of memory and the impact of the past, Ishiguro takes on the idea of a possible future to create his most moving and powerful book to date. From the Hardcover edition.

U.S. History - P. Scott Corbett 2017-12-19

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with

particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Document-Based Assessment for Global History - Theresa Noonan
2007-01-01

Enhances the world history curriculum through analysis of primary and secondary sources. Features 23 new and revised document-based questions covering significant eras. Teacher support includes scoring rubric and tips for implementation.

The Glorious Revolution - John Miller 1983

Discusses the causes and effects of the revolution which assured the failure of Catholic absolutism and assured the continuation of parliamentary government and the rule of law in England.

Two Treatises of Government - John Locke 1821

Sources of Chinese Tradition - Wm. Theodore De Bary 1964

This volume contains a chronological table of Chinese history beginning with 2852 B.C. up to A.D. 1849. In addition to presenting the major schools of classical philosophy, this volume discusses yin-yang theories of cosmology and geomancy and the rationale of monarchy and dynastic rule.
