an isometric graph paper notebook containing 100 count 9 inch x 6 inch 3-dimensional graph paper. Fun for Minecraft type art and isometric projection drawings. Children and teen doodlers and other creative people love to create in the third dimension. Perfect for taking to meetings, long car or airplane trips to doodle and experiment. Have you ever tried to draw a 3-dimensional shape, such as a cube? Every artist faces the challenge of creating 3-dimensional images on 2-dimensional paper. It can be a bit of a challenge but with a little bit of practice- you will be amazed at the objects you can draw and create. Isometric is an easy method of drawing 3D images.

Dear Data - Giorgia Lupi 2016-09-13

Equal parts mail art, data visualization, and affectionate correspondence, *Dear Data*

celebrates "the infinitesimal, incomplete, imperfect, yet exquisitely human details of life," in the words of Maria Popova (*Brain Pickings*), who introduces this charming and graphically powerful book. For one year, Giorgia Lupi, an Italian living in New York, and Stefanie Posavec, an American in London, mapped the particulars of their daily lives as a series of hand-drawn postcards they exchanged via mail weekly—small portraits as full of emotion as they are data, both mundane and magical. *Dear Data* reproduces in pinpoint detail the full year's set of cards, front and back, providing a remarkable portrait of two artists connected by their attention to the details of their lives—including complaints, distractions, phone addictions, physical contact, and desires. These details illuminate the lives of two remarkable young women and also inspire us to map our own lives, including specific suggestions on what data to draw and how. A captivating and unique book for designers, artists, correspondents, friends,

and lovers everywhere.
