

Faces Of Latin America

Thank you unquestionably much for downloading **faces of latin america**. Maybe you have knowledge that, people have look numerous period for their favorite books behind this faces of latin america, but end stirring in harmful downloads.

Rather than enjoying a good PDF next a mug of coffee in the afternoon, otherwise they juggled in the same way as some harmful virus inside their computer. **faces of latin america** is to hand in our digital library an online access to it is set as public suitably you can download it instantly. Our digital library saves in merged countries, allowing you to acquire the most less latency era to download any of our books subsequently this one. Merely said, the faces of latin america is universally compatible afterward any devices to read.

The Right in Latin America - Barry Cannon
2016-04-14

Most current analysis on Latin American politics has been directed at examining the shift to the left in the region. Very little attention, however, has been paid to the reactions of the right to this phenomenon. What kind of discursive, policy, and strategic responses have emerged among the right in Latin America as a result of this historic turn to the left? Have there been any shifts in attitudes to inequality and poverty as a result of the successes of the left in those areas? How has the right responded strategically to regain the political initiative from the left? And what implications might such responses have for democracy in the region? *The Right in Latin America* seeks to provide answers to these questions while helping to fill a gap in the literature on contemporary Latin American politics. Unlike previous studies, Barry Cannon's book does not simply concentrate on party political responses to the contemporary challenges for the right in the region. Rather he uses a wider, more comprehensive theoretical framework, grounded in political sociology, in recognition of the deep social roots of the right among Latin America's elites, in a region known for its startling inequalities. Using Michael Mann's pioneering work on power, he shows how elite dominance in the key areas of the economy, ideology, the military, and in transnational relations, has had a profound influence on the political strategies of the Latin American right. He shows how left governments, especially the more radical ones, have

threatened elite power in these areas, influencing right-wing strategic responses as a result. These responses, he persuasively argues, can vary from elections, through street protests and media campaigns, to military coups, depending on the level of perceived threat felt by elites from the left. In this way, Cannon uncovers the dialectical nature of the left/right relationship in contemporary Latin American politics, while simultaneously providing pointers as to how the left can respond to the challenge of the right's resurgence in the current context of left retrenchment. Cannon's multi-faceted inter-disciplinary approach, including original research among right-leaning actors in the region makes the book an essential reference not only for those interested in the contemporary Latin American right but for anyone interested in the region's politics at a critical juncture in its history.

From Poverty to Power - Duncan Green 2008
Offers a look at the causes and effects of poverty and inequality, as well as the possible solutions. This title features research, human stories, statistics, and compelling arguments. It discusses about the world we live in and how we can make it a better place.

Faces of the Caribbean - John Gilmore 2000-04
Faces of the Caribbean seeks to investigate the story behind the stock images of this unique region of sea and islands sandwiched between the New World continents. Acclaimed Caribbean expert John Gilmore gives an overview of the region and the complex historical forces that have shaped its extraordinary diversity and

creativity. He examines the legacy of slavery and exploitation, reggae as cultural phenomenon and growth industry, the impact of Derek Walcott, sugar and cricket, volcanoes and the environment, Creole literature, the Anglican faith, and much more in this engaging volume. Faces of the Caribbean follows the acclaimed format of Faces of Latin America and offers a very readable overview both of current issues and historical developments in the region.

Revolution and Revolutionaries - Daniel Castro 1999-01-01

Few publications cover the full span of the history of revolutionary movements in Latin America. In Revolution and Revolutionaries, editor Daniel Castro examines all aspects of guerrilla warfare-from revolutionary programs to the repressive tactics used by various governments to rid themselves of the threats presented by revolutionary movements. In addition to illustrating specific cases of guerrilla struggles, Revolution and Revolutionaries also analyzes the political and social conditions that made the outbreak of revolutionary movements throughout the region unavoidable. Finally, Castro examines the remaining guerrilla movements still active in Latin America as the century comes to a close. Revolution and Revolutionaries revives the debate about the viability of revolutionary violence in Latin America, and will interest those studying Latin American history and sociology, and political science.

Five Different Faces of Latin America - Ioannis Vasileiou 2020-07-23

Special Thanks (In alphabetical order) to the following brilliant contributors for their excellent cooperation: a) Nikos Filiopoulos [Music Producer-Facebook: <https://www.facebook.com/nikosfiliopoulos>, Twitter: <https://twitter.com/NFiliopoulos>, Miscellaneous Links: <https://www.youtube.com/user/filionik?feature=guide> and <https://gelakardoulamou.xat.gr/> (Filionik Music Producer). E-mail: nikosfiliopoulos@gmail.com], b) Afroditi Eleni-Filiopoulou Funda (E-mail: eleniafroditif@gmail.com), c) Daniel Hofmann (Entrepreneur, Leader of Opinion in the Ski Business in Chile and Well Respected in the Industry in the USA and Europe), d) Claudia

Moras Baez [Model, Psychologist, Miss Valencia 2015, World Miss University 2017 (Instagram: <https://www.instagram.com/morasclaudia/>)] and e) Tassuli Vilichich Fundas [Business Engineer in Economics-Professor of Stock Market Finance and Economics (E-mail: tasscapm@hotmail.com)]. Book Summary: The dominant target of this book is to meticulously examine five different faces of Latin America. Chile, Cuba, Peru, Puerto Rico and Venezuela can incontestably be characterized as "Latin", but as the reader will notice the differences with respect to not only their economic and sociopolitical sphere but also their culture, history, indigenous ethnic groups and languages, biodiversity and miscellaneous national characteristics are more than a few. Via this book, the author attempts to methodically provide a sufficient analysis as regards the complete profiles of the aforementioned five countries with a view to the best possible understand

Latin American Development - Julie Cupples 2013-07-18

Latin America's diverse political and economic struggles and triumphs have captured the global imagination. The region has been a site of brutal dictators, revolutionary heroes, the Cold War struggle and as a place in which the global debt crisis has had some of its most lasting and devastating impacts. Latin America continues to undergo rapid transformation, demonstrating both inspirational change and frustrating continuities. This text provides a comprehensive introduction to Latin American development in the twenty-first century, emphasizing political, economic, social, cultural and environmental dimensions of development. It considers key challenges facing the region and the diverse ways in which its people are responding, as well as providing analysis of the ways in which such challenges and responses can be theorized. This book also explores the region's historical trajectory, the implementation and rejection of the neoliberal model and the role played by diverse social movements. Relations of gender, class and race are considered, as well as the ways in which media and popular culture are forging new global imaginaries of the continent. The text also considers the increasing difficulties that Latin America faces in confronting climate

change and environmental degradation. This accessible text gives an overarching historical and geographical analysis of the region and critical analysis of recent developments. It is accompanied by a diverse range of critical historical and contemporary case studies from all parts of the continent, providing readers with the conceptual tools required to analyse theories on Latin American development. Each chapter ends with a summary section, discussion topics, suggestions for further reading, websites and media resources. This is an indispensable resource for scholars, students and practitioners.

Democracy in Latin America, 1760-1900 - Carlos A. Forment 2003-08-15

Carlos Forment's aim in this highly ambitious work is to write the book that Tocqueville would have written had he traveled to Latin America instead of the United States. Drawing on an astonishing level of research, Forment pored over countless newspapers, partisan pamphlets, tabloids, journals, private letters, and travelogues to show in this study how citizens of Latin America established strong democratic traditions in their countries through the practice of democracy in their everyday lives. This first volume of *Democracy in Latin America* considers the development of democratic life in Mexico and Peru from independence to the late 1890s. Forment traces the emergence of hundreds of political, economic, and civic associations run by citizens in both nations and shows how these organizations became models of and for democracy in the face of dictatorship and immense economic hardship. His is the first book to show the presence in Latin America of civic democracy, something that gave men and women in that region an alternative to market- and state-centered forms of life. In looking beneath institutions of government to uncover local and civil organizations in public life, Forment ultimately uncovers a tradition of edification and inculcation that shaped democratic practices in Latin America profoundly. This tradition, he reveals, was stronger in Mexico than in Peru, but its basic outlines were similar in both nations and included a unique form of what Forment calls Civic Catholicism in order to distinguish itself from civic republicanism, the dominant political

model throughout the rest of the Western world.

Forgotten Continent: A History of the New Latin America - Michael Reid 2017-11-14

The bestselling primer on the social, political, and economic challenges facing Central and South America—now fully revised and updated. Ten years after its first publication, Michael Reid's bestselling survey of the state of contemporary Latin America has been wholly updated to reflect the new realities of the "Forgotten Continent." The former *Economist* editor for the Americas, Reid suggests that much of Central and South America, though less poor, less unequal, and better educated than before, faces harder economic times now that the commodities boom of the 2000s is over. His revised, in-depth account of the region reveals dynamic societies more concerned about corruption and climate change, the uncertainties of a Donald Trump-led United States, and a political cycle that, in many cases, is turning from left-wing populism to center-right governments. This essential new edition provides important insights into the sweeping changes that have occurred in Latin America in recent years and indicates priorities for the future. "[A] comprehensive and erudite assessment of the region . . . While the social and economic face of Latin America is becoming more attractive, political life remains ugly and, in some countries, is getting even uglier."—The Washington Post "Excellent . . . a comprehensive primer on the history, politics, and culture of the hemisphere."—Francis Fukuyama, *New York Times* bestselling author "Reid's book offers something valuable to both specialists and the general reading public . . . He writes of Latin America with great empathy, intelligence, and insight."—Hispanic American Historical Review

The Faces of Honor - Lyman L. Johnson 1998

Honor was everywhere in Colonial Latin America, and to understand the many ways it had an impact on people's lives is to understand the organizing principles of a society.

Faces of Latin America - Duncan Green 1997

Faces of Latin America celebrates the vibrant culture of Latin America's people and looks at some of the key actors in the region's turbulent politics - the military, Indians, grassroots protest groups, guerrillas, the radical Church and the women's movement. The second edition of this

best-selling introduction to Latin America has been extensively updated and enlarged, providing an unparalleled portrait of the continent at the end of the millennium. Duncan Green traces the roots of the region's underdevelopment and poverty, with a new chapter on the role of the state, as well as sections on life in the city and the countryside, and Latin America's recent conversion to the free-market economy.

Latin America in Times of Global Environmental Change - Cristian Lorenzo 2019-08-05

This volume discusses the challenges of Latin America in global environmental geopolitics. Written by leading experts, this book brings together Latin American research on global environmental change. They cover a range of topics such as climate change, water, forest and biodiversity conservation connected with science policies, public opinion, priorities of international funds, and international politics of Latin American countries. The book describes the discrepancy between the international priorities and the regional needs or country interests. It includes several case studies and analyses the cooperation in multilateral negotiations on climate change. It also offers a synthesis of debates around global environmental changes and Latin American politics, which the authors have previously promoted in different academic events in South America, including in Santiago de Chile in Chile, and Buenos Aires and Ushuaia in Argentina. This book assesses the environmental problems from different perspectives, highlights the scientific development in the environmental changes affecting Latin America and offers a new view on geopolitics to help face those issues. Specialist readers in international relations, political sciences, environmental sciences, geography and geopolitics will appreciate this up-to-date examination of Latin America and the global environmental change.

Australia and Latin America - Barry Carr 2014-08-01

This is a good time to reflect on opportunities and challenges for Australia in Latin America. Impressive economic growth and opportunities for trade and investment have made Latin America a dynamic area for Australia and the Asia Pacific region. A growing Latin American

population, Australia's attractiveness to Latin American students, a fascination with the cultural vibrancy of the Americas and an awareness of Latin America's increasingly independent stance in politics and economic diplomacy, have all contributed to raising the region's profile. This collection of essays provides the first substantial introduction to Australia's evolving engagement with Latin America, identifying current trends and opportunities, and making suggestions about how relationships in trade, investment, foreign aid, education, culture and the media could be strengthened.

The United States and Latin America in the 1990s - Jonathan Hartlyn 2014-03-30

A comprehensive examination of both unresolved tensions in inter-American relations and the specific problems facing U.S. and Latin American policymakers in the 1990s.--American Political Science Review "These well-integrated essays analyze the key issues in contemporary inter-American relations very clearly. The authors address their themes with subtlety and insight, in this first overall assessment of North-South relations in the Western Hemisphere during the post-Cold War period.--Christopher Mitchell, New York University "A superb contribution. . . . At a time when U.S.-Latin American relations face a critical turning point, policymakers would benefit from a careful reading of this fine book.--Eduardo A. Gamarra, Florida International University

Open Veins of Latin America - Eduardo Galeano 1997

[In this book, the author's] analysis of the effects and causes of capitalist underdevelopment in Latin America present [an] account of ... Latin American history. [The author] shows how foreign companies reaped huge profits through their operations in Latin America. He explains the politics of the Latin American bourgeoisies and their subservience to foreign powers, and how they interacted to create increasingly unequal capitalist societies in Latin America.- Back cover.

Black in Latin America - Henry Louis Gates, Jr. 2012-08-01

12.5 million Africans were shipped to the New World during the Middle Passage. While just over 11.0 million survived the arduous journey,

only about 450,000 of them arrived in the United States. The rest—over ten and a half million—were taken to the Caribbean and Latin America. This astonishing fact changes our entire picture of the history of slavery in the Western hemisphere, and of its lasting cultural impact. These millions of Africans created new and vibrant cultures, magnificently compelling syntheses of various African, English, French, Portuguese, and Spanish influences. Despite their great numbers, the cultural and social worlds that they created remain largely unknown to most Americans, except for certain popular, cross-over musical forms. So Henry Louis Gates, Jr. set out on a quest to discover how Latin Americans of African descent live now, and how the countries of their acknowledge-or deny-their African past; how the fact of race and African ancestry play themselves out in the multicultural worlds of the Caribbean and Latin America. Starting with the slave experience and extending to the present, Gates unveils the history of the African presence in six Latin American countries—Brazil, Cuba, the Dominican Republic, Haiti, Mexico, and Peru—through art, music, cuisine, dance, politics, and religion, but also the very palpable presence of anti-black racism that has sometimes sought to keep the black cultural presence from view.

Faces of Latin America - Duncan Green 1997

Faces of Latin America celebrates the vibrant culture of Latin America's people and looks at some of the key actors in the region's turbulent politics - the military, Indians, grassroots protest groups, guerrillas, the radical Church and the women's movement. The second edition of this best-selling introduction to Latin America has been extensively updated and enlarged, providing an unparalleled portrait of the continent at the end of the millennium. Duncan Green traces the roots of the region's underdevelopment and poverty, with a new chapter on the role of the state, as well as sections on life in the city and the countryside, and Latin America's recent conversion to the free-market economy.

When the Mountains Move - Daniel Behrman 1954

Faces of Latin America - Duncan Green 2013
Faces of Latin America has sold more than

50,000 copies since it first appeared in 1991, and is widely considered to be the best available introduction in English to the economies, politics, demography, social structures, environment and cultures of Latin America. Duncan Green and Sue Branford take the reader beyond the conventional media's fixation on the drug trade, corrupt politicians and military leaders, death squads, and guerrilla movements to celebrate the vibrant history and culture of Latin America's people. *Faces of Latin America* examines some of the key forces—from conquest and the growth of the commodity trade, military rule, land distribution, industrialization, and migration to civil wars and revolutions, the debt crisis, neoliberalism, and NAFTA—shaping the region's political and social history. Green also analyzes the response to these transformations—the rise of freedom fighters and populists, guerrilla wars and grassroots social movements, union organizing and trade movements, liberation theology, and the women's movement, sustainable development and the fight for the rainforest, popular culture and the mass media—providing a fascinating and unparalleled portrait of the continent. This new edition is thoroughly updated and covers recent developments in Latin America such as the growing costs of export agriculture, the rise of Brazilian manufacturing, connections between the war on drugs and the war on terror, the social costs of neoliberalism, the Argentinian default, the search for new economic models in Venezuela and elsewhere, the decline in direct U.S. military intervention in the region, growing urbanization, urban poverty and casual employment, outmigration and the importance of family remittances from abroad, rampant environmental destruction, the struggles of indigenous movements, and more.

Why Unions Matter - Michael Yates 2009-05

In this new edition of *Why Unions Matter*, Michael D. Yates shows why unions still matter. Unions mean better pay, benefits, and working conditions for their members; they force employers to treat employees with dignity and respect; and at their best, they provide a way for workers to make society both more democratic and egalitarian. Yates uses simple language, clear data, and engaging examples to show why workers need unions, how unions are formed,

how they operate, how collective bargaining works, the role of unions in politics, and what unions have done to bring workers together across the divides of race, gender, religion, and sexual orientation. The new edition not only updates the first, but also examines the record of the New Voice slate that took control of the AFL-CIO in 1995, the continuing decline in union membership and density, the Change to Win split in 2005, the growing importance of immigrant workers, the rise of worker centers, the impacts of and labor responses to globalization, and the need for labor to have an independent political voice. This is simply the best introduction to unions on the market.

Paisanos - Tim Fanning 2018-09-30

In the early nineteenth century, thousands of volunteers left Ireland behind to join the fight for South American independence. Lured by the promise of adventure, fortune, and the opportunity to take a stand against colonialism, they braved the treacherous Atlantic crossing to join the ranks of the Liberator, Simón Bolívar, and became instrumental in helping oust the Spanish from Colombia, Panama, Venezuela, Ecuador, Peru, and Bolivia. Today, the names of streets, towns, schools, and football teams on the continent bear witness to their influence. But it was not just during wars of independence that the Irish helped transform Spanish America. Irish soldiers, engineers, and politicians, who had fled Ireland to escape religious and political persecution in their homeland, were responsible for changing the face of the Spanish colonies in the Americas during the eighteenth century. They included a chief minister of Spain, Richard Wall; a chief inspector of the Spanish Army, Alexander O'Reilly; and the viceroy of Peru, Ambrose O'Higgins. Whether telling the stories of armed revolutionaries like Bernardo O'Higgins and James Rooke or retracing the steps of trailblazing women like Eliza Lynch and Camila O'Gorman, Paisanos revisits a forgotten chapter of Irish history and, in so doing, reanimates the hopes, ambitions, ideals, and romanticism that helped fashion the New World and sowed the seeds of Ireland's revolutions to follow.

Latin America During World War II - George M. Lauderbaugh 2007

The first full-length study of World War II from

the Latin American perspective, this unique volume offers an in-depth analysis of the region during wartime. Each country responded to World War II according to its own national interests, which often conflicted with those of the Allies, including the United States. The contributors systematically consider how each country dealt with commonly shared problems: the Axis threat to the national order, the extent of military cooperation with the Allies, and the war's impact on the national economy and domestic political and social structures. Drawing on both U.S. and Latin American primary sources, the book offers a rigorous comparison of the wartime experiences of Argentina, Brazil, Chile, Central America, Gran Colombia, the Dominican Republic, Mexico, Panama, and Puerto Rico.

New Face of the Church in Latin America - Guillermo Cook 1994

The contributors to *New Face of the Church in Latin America* provide firsthand accounts and insider perspectives on such issues as Protestant evangelism and base communities, Catholic renewal efforts, Native American inculturation, and new developments in liberation theology.

The Women of Colonial Latin America - Susan Migden Socolow 2015-02-16

In this second edition of her acclaimed volume, *The Women of Colonial Latin America*, Susan Migden Socolow has revised substantial portions of the book - incorporating new topics and illustrative cases that significantly expand topics addressed in the first edition; updating historiography; and adding new material on poor, rural, indigenous and slave women.

New Faces of God in Latin America - Virginia Garrard 2020

"This monograph is a hist ...

New Faces of God in Latin America - Virginia Garrard 2020

"This monograph is a hist ...

Americas - Peter Winn 2006-01-25

PRAISE FOR THE PREVIOUS EDITIONS: "Rare is the book in English that provides a general overview of Latin America and the Caribbean. Rarer still is the good, topical, and largely dispassionate book that contributes to a better understanding of the rest of the hemisphere. Peter Winn has managed to produce both."—Miami Herald "This magisterial work

provides an accessible and engaging introduction to the complex tapestry of contemporary Latin America and the Caribbean."—Foreign Affairs "A clear, level-headed snapshot of a region in transition.... Winn is most interesting when he discusses the larger issues and to his credit he does this often."—Washington Post Book World "Balanced and wide-ranging.... After canvassing the legacies of the European conquerors, Winn examines issues of national identity and economic development.... Other discussions survey internal migration, the role of indigenous peoples, the complexity of race relations, and the treatment of women." —Publishers Weekly *Faces of Latin American Protestantism* - José Míguez Bonino 1997

Míguez reflects on Latin American Protestantism, considering the liberal, evangelical, and pentecostal facets, and then explores theologically the tasks of unity and mission still before Latin American Protestant churches.

New Worlds - John Lynch 2012-06-26
This extraordinary book encompasses the time period from the first Christian evangelists' arrival in Latin America to the dictators of the late twentieth century. With unsurpassed knowledge of Latin American history, John Lynch sets out to explore the reception of Christianity by native peoples and how it influenced their social and religious lives as the centuries passed. As attentive to modern times as to the colonial period, Lynch also explores the extent to which Indian religion and ancestral ways survived within the new Christian culture. The book follows the development of religious culture over time by focusing on peak periods of change: the response of religion to the Enlightenment, the emergence of the Church from the wars of independence, the Romanization of Latin American religion as the papacy overtook the Spanish crown in effective control of the Church, the growing challenge of liberalism and the secular state, and in the twentieth century, military dictators' assaults on human rights. Throughout the narrative, Lynch develops a number of special themes and topics. Among these are the Spanish struggle for justice for Indians, the Church's position on slavery, the concept of popular religion as distinct from

official religion, and the development of liberation theology.

Latin America's Cold War - Hal Brands 2012-03-05

For Latin America, the Cold War was anything but cold. Nor was it the so-called "long peace" afforded the world's superpowers by their nuclear standoff. In this book, the first to take an international perspective on the postwar decades in the region, Hal Brands sets out to explain what exactly happened in Latin America during the Cold War, and why it was so traumatic.

The Companion to Latin American Studies - Philip Swanson 2014-04-04

What is 'Latin American Studies'? This companion gives a concise and accessible overview of the discipline. Covering a wide range of topics, from colonial cultures and identity to US Latino culture and issues of race, gender and sexuality, this book goes beyond conventional literary companions and situates Latin America in its historical, social, political, literary and cultural context. This essential book provides the key introductory information on the subject and will be especially useful for students taking or considering taking courses in Hispanic or Latin American Studies. Written by an international team of experts, each chapter supplies the necessary basic information and a sound introduction to central ideas, issues and debates. In addition to 12 chapters on the main topics in Latin American Studies, the companion includes an introduction, time chart, glossary and suggestions for further reading.

Another Face of Empire - Daniel Castro 2007-01-24

Separating historical reality from myth, this book provides a nuanced, revisionist assessment of the friar's career, writings, and political activities.

Latin America Faces The Twenty-first Century - Susanne Jonas 1994-07-17

Voices of Latin America - Tom Gatehouse 2019-03-15

These are uncertain times in Latin America. Popular faith in democracy has been shaken; traditional political parties and institutions are stagnating, and there is a growing right-wing extremism overtaking some governments. Yet, in

recent years, autonomous social movements have multiplied and thrived. This book presents voices of these movement protagonists themselves, as they describe the major issues, conflicts, and campaigns for social justice in Latin America today. Latin America Bureau, a London-based, independent organization providing news and analysis on the region, spoke to people from fourteen countries, from Mexico to the Southern Cone. The book captures the voices indigenous activists, fighting oil drilling in their homelands; mothers from favelas seeking justice for their children killed by police; opponents of large-scale mining projects; independent journalists working, at great personal risk, to expose corruption and human rights violations; women and LGBT people confronting violence and discrimination; and students demanding their right to a free, universal and high-quality education system. Though their locations and causes are disparate, these people and their movements share learning and activism, and their cooperation helps to link the movements across national borders. Voices of Latin America is essential reading for students, travelers, journalists—anyone with an interest in social justice movements in Latin America.

Latin American Icons - Dianna C. Niebylski
2014-02-21

The faces of Che, Frida, Evita, Carmen Miranda, and other icons represent Latin America both to a global public that sees these faces constantly reproduced, and to Latin Americans themselves. They enter the circulation machines of Hollywood, or work as nostalgic definitions of a nation, or define a post-national condition. They become stereotypes as they go global, and the often melodramatic stories that cling to them give them a different sort of power than the one they had in their original contexts. *Latin American Icons*, from critics both in the United States and in Latin America, ask these faces questions; they describe the technologies and propaganda machines, whether the newspapers of Revolutionary Mexico (or Paris and New York) or the movie studios of Argentina and Mexico, which gave them power in their local context; and they return their original histories to those faces that have become abstract symbols of The Rebel or The Spitfire or The Tortured Artist. In

equal parts idolatry and iconoclasm, *Latin American Icons* recognizes and interrogates those Latin Americans who have become larger than life. In trying to understand the meaning of iconic figures in modern Latin America, this volume ranges across every realm of political and cultural life--populist politicians, jet-setting ambassador-playboys, soccer players and superstars--to examine the complex forces at work in the making and re-making of celebrities within and across national borders.

A History of Latin America - Benjamin Keen
2012-01-20

This best-selling text for introductory Latin American history courses encompasses political and diplomatic theory, class structure and economic organization, culture and religion, and the environment. The integrating framework is the dependency theory, the most popular interpretation of Latin American history, which stresses the economic relationship of Latin American nations to wealthier nations, particularly the United States. Spanning pre-historic times to the present, *A HISTORY OF LATIN AMERICA* takes both a chronological and a nation-by-nation approach, and includes the most recent historical analysis and the most up-to-date scholarship. The Ninth Edition includes expanded coverage of social and cultural history (including music) throughout and increased attention to women, indigenous cultures, and Afro-Latino people assures well balanced coverage of the region's diverse histories. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

[What If Latin America Ruled the World?](#) - Oscar Guardiola-Rivera
2010-09-21

This tour of the histories of North and South America explains how Latin America has become a vital part of the global community and discusses how its consumers, resources and emigrants will become big factors in the future.

Faces of Latin America - Duncan Green
2006-09

"Simple, unpretentious narrative makes this volume an accessible and inviting source for nonspecialists. Its many photographs enhance the appeal of the book and provide the faces referred to in the title. Throughout the volume, framed insets open up the text to provide an

occasional 'window' for a statistical table, a biographical sketch, or to give voice to a first-person narrative that humanizes the text."--
Multicultural Review

Faces of Jesus - Jose Miguez Bonino 2002-11-20

The Long Honduran Night - Dana Frank 2018
A story of resistance, repression, and US policy in Honduras in the aftermath of a violent

military coup.

Build It Now - Michael A. Lebowitz 2006-08

'Build it Now' provides a compelling set of arguments for socialism, showing both the new catastrophes being prepared by capitalism and the concrete steps being taken to initiate a transition from capitalism to a form of socialism fitted for the 21st century.
