**Achtung-Panzer!** - Heinz Guderian 1995

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

**Facedown (The Worship Series)** - Matt Redman 2004-06-04

Most believers understand that worship is not a compartmentalized aspect of the Christian experience, but rather it is the motivation--the driving force--behind all that we do and are. We exist to worship God. For years we have been basking in God's love and worshipping Him with uplifted hands and hearts. Now we need to go deeper and see that God is also an awesome, mysterious being who should engender our silent, even dumbstruck, reverence for His holiness, His "otherness." Until we are undone by the knowledge of who God is in all His glory, we will only touch the edges of true worship. Matt Redman says, "When we face up to the glory of God, we find ourselves face down in worship." This book shows the biblical record of those who found themselves prostrate before God.
