It is your unconditionally own epoch to conduct yourself reviewing habit. along with guides you could enjoy now is **great debates in company law palgrave great debates in law** below.

Critical Company Law - Lorraine Talbot

2015-08-11

The second edition of *Critical Company Law* provides a framework in which to understand how the company functions in society and a thorough grounding in modern legal doctrine. It

shows how modern company law is shaped by a multi-layered history of politics, ideology, economics and power. Through the lens of political economic theory the book shows how the company becomes the mechanism through which the state makes political choices about

distributing societies' wealth and through which it responds to economic crises. The current law reflects an economy marked by a disjuncture between the low profits of the productive economy and the high profits of the finance economy. Critical Company Law examines areas of company law to show how they reflect a fragile economy inexorably drawn to social and economic inequality and short-termism. These include: • The Doctrine of Separate Corporate Personality • Groups of Companies and Tort Liabilities • Company Formation and the Constitution • Directors' Duties and Authority • Corporate Capacity • Shares and Shareholders • Raising and Maintaining Capital • Minority Protection In this uniquely hybrid book the legal topics are treated with detail and clarity, providing an engaging introduction to the key topics required for a student of company law. *Creating Corporate Sustainability* - Beate Sjøfjell 2018-05-31

This compelling volume considers three

significant modern developments: the ever-changing role of women in society; a significant and growing dissatisfaction with current dominant understandings of corporate governance, corporate law and corporate theory; and the increasing concern to establish sustainable business models globally. A range of female scholars from across the globe and from different disciplines interconnect these ideas in this unique collection of new and thought-provoking essays. Readers are led through a carefully planned enquiry focussing initially on female activism and the corporation, secondly on liberal attempts to include women in business leadership and, finally, on critiquing the modern focus on women as a 'fix' for ethical and unsustainable business practises which currently dominates the corporate world. This collection presents a fresh perspective on what changes are needed to create the sustainable corporation and the potential role of women as influencers or as agents for these changes.

Multinationals and the Constitutionalization of the World Power System

- Jean-Philippe Robe 2016-06-03

This collection offers a powerful and coherent study of the transformation of the multinational enterprise as both an object and subject of law within and beyond States. The study develops an analysis of the large firm as being a system of organization exercising vast powers through various instruments of private law, such as property rights, contracts and corporations. The volume focuses on the firm as the operational unit of governance within emerging systems of globalization, whilst exploring in-depth the forms within which the firm might be regulated as against the inhibiting parameters of national law. It connects, through the ordering concept of the firm in globalization, the distinct regimes of constitutionalization, national and international law. The study will be of interest to students and academics in globalization and the regulation of multinational corporations, as well as law,

economics and politics on a global scale. It will also interest government leaders and NGOs working in the areas of MNE regulations.

[The Politics of Gun Control](#) - Robert J. Spitzer
2020-10-14

The new edition of this classic text covers the latest developments in American gun policy including the most recent shooting incidents that persist in plaguing the American landscape. Continuing a multi-decade trend, crime generally remains low throughout the US, but mass shootings have increased in both number and lethality, stoking greater support for gun laws among the public. Two seismic political events are highlighted in the eighth edition. The first is the ascendance of the gun safety movement, culminating in numerous electoral victories for gun law supporters in 2018 congressional and state races around the country. This outcome, which contributed to the Democrats' capture of the House of Representatives for the first time since 2008,

also demonstrates that support for stronger gun laws could be a winning issue for proponents in 2020 and beyond. The second political development featured is the financial, political, and legal crises that beset the nation's oldest and most powerful gun group, the National Rifle Association. These crises are sufficiently grave that they may pose an existential threat to the organization's traditional dominance in the realm of gun politics. Author Robert J. Spitzer has long been a recognized authority on gun control and gun policy. His even-handed treatment of the issue--as both a member of the NRA and the Brady Center--continues to compel national and international interest, including appearances on major media such as the PBS NewsHour. The eighth edition of *The Politics of Gun Control* provides the reader with up-to-date data and coverage of gun ownership, gun deaths, school shootings, border patrols and new topics including universal background checks, limits on large capacity ammunition magazines,

and "red flag" laws. New to the Eighth Edition Covers the ascendance of the Second Amendment sanctuary and gun safety movements, resulting from heinous shootings in Las Vegas and Parkland, Florida. Tracks the financial, political, and legal crises that threaten the dominance of the National Rifle Association. Examines new policy measures including universal background checks, limits on large capacity ammunition magazines, the bump stock controversy, and "red flag" laws, among others.

Nurse Memoirs from the Great War in Britain, France, and Germany - Jerry Palmer
2021-10-19

Nurse Memoirs from the Great War in Britain, France, and Germany examines an understudied corpus of memoirs in English, French, and German stemming from the unprecedented involvement of women in the war effort. Jerry Palmer considers the memoirs in relationship to public opinion, collective memory and other women's writing about the war. Through close-

readings of the memoirs and their contexts, the book identifies themes present in the texts and considers the nurse memoir as rhetoric—examining to what extent the texts are promoting or countering arguments in the public sphere about their involvement or more widely about women’s position in society. Palmer explores the multiple contexts related to the nurse memoirs, including public response to volunteer wartime nursing, the organisation of the military health services of the three nations and their conduct in the war, and changes in the post-war organization of public health services and the professionalization of nursing.

Great Debates in Jurisprudence - Nicholas McBride 2018-03-16

This textbook is an ambitious and engaging introduction to the more advanced writings on Jurisprudence, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key

questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in Jurisprudence, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading. A perfect book for students taking a module in jurisprudence, or for those wanting to deepen their knowledge. New to this Edition: - New debates on the nature and legitimacy of global justice, and the binding force of precedent. - Incorporates discussion of new contributions to jurisprudential writing by Mark Greenberg, Scott Hershowitz, David Howarth and Shona Stark, Matthew Kramer, Frederick Schauer, and Jeremy Waldron. - Includes substantially revised chapters on 'The nature of jurisprudence' and 'Morality and rights'

The Logic of Charity - Beth Breeze 2016-07-26

What is charity? How does it operate, who does it benefit and what should we expect it to do? This important book helps to tackle the most common misunderstandings and misconceptions of charitable activity in contemporary British society, especially insofar as these affect the thinking of politicians and policymakers. The authors present and discuss over a dozen studies, including public attitudes to giving, large datasets on the geography and funding patterns of third sector organisations, and interviews with a wide range of donors, charity leaders, fundraisers and philanthropy advisers. This data enables them to explore the logic of charity in terms of the distribution of resources across causes and communities in the UK, and the processes behind philanthropic decision-making, to reveal a picture of charitable activity at odds with widespread assumptions.

Unlocking Company Law - Susan McLaughlin
2018-07-11

Unlocking Company Law is the ideal resource for learning and revising Company Law. This 4th edition has been extensively updated, and this, along with its many pedagogical features, makes it the ideal companion for students studying Company Law. Each chapter in the book contains: • aims and objectives; • activities such as self-test questions; • charts of key facts to consolidate your knowledge; • diagrams to aid memory and understanding; • prominently displayed cases and judgments; • chapter summaries; • essay questions with answer plans. In addition, the book features a glossary of legal terminology, making the law more accessible.

Great Debates on the European Convention on Human Rights - Fiona de Londras
2018-03-16

This engaging textbook provides a critical analysis of the legitimacy and effectiveness of the European Convention on Human Rights and its practical operation. In a succinct way, the book investigates questions around the

legitimacy of how the European Court of Human Rights develops its law, the obligations of states to comply with its judgments, the adequacy of the Convention in securing basic goods, and the effectiveness of the system in protecting rights 'in the real world'. It assesses some under-explored areas of the Convention that are often overlooked. Presenting a number of debates about the legitimacy and effectiveness of the system in a provocative and critical style, this book encourages debate, discussion, and self-reflection on how, when and why the Convention protects human rights in Europe. An ideal text for Law students at English and Welsh universities and higher education institutions taking a module in The European Convention on Human Rights (LLB or LLM level), and for GDL/CPE students and those taking the postgraduate LPC training course.

Great Debates in Company Law - Lorraine Talbot
2014-08-15

An engaging introduction to some of the more

advanced concepts in Company Law and corporate governance, providing a cutting edge for students who are looking to gain additional insights with which to excel. Readers are introduced to the many debates surrounding each core area and presented with the key tensions and questions underlying each topic.

Great Debates in Equity and Trusts - Alastair Hudson
2014-08-26

This textbook is an ambitious and engaging introduction to the more advanced writings on equity and trusts, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in equity and trusts, but rather to illustrate the current debates which are currently going on among those working in

shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading.

Great Debates in Medical Law and Ethics -

Imogen Goold 2018-03-22

This textbook is an ambitious and engaging introduction to the more advanced writings on medical law and ethics, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is not to present a complete overview of theoretical issues in medical law and ethics, but rather to illustrate the current debates which are currently going on among those working in and shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further

reading. A perfect book for students taking a module in medical law, or for those wanting to deepen their knowledge. New to this Edition: - The Supreme Court decision in Montgomery receives extensive discussion and analysis - Recent developments on the best interests test under the Mental Capacity Act are explored - The latest case law on end of life decision making is set out - Debates over whether abortion should be decriminalised are examined - The Charlie Gard case is considered

Great Debates in Family Law - Jonathan Herring 2015-04-17

This textbook is an ambitious and engaging introduction to the more advanced writings on family law, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete

overview of theoretical issues in family law, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading.

Hans J. Morgenthau and the American Experience - Cornelia Navari 2017-11-24

This edited volume covers the development of the thought of the political realist Hans J. Morgenthau from the time of his arrival in America from Nazi-dominated Europe through to his emphatic denunciation of American policy in the Vietnam War. Critical to the development of thinking about American foreign policy in the post-war period, he laid out the idea of a national interest defined in terms of power, the precarious uncertainty of the international balance of power, the weakness of international morality, the decentralized character of international law, the deceptiveness of

ideologies, and the requirements of a peace-preserving diplomacy. This volume is required reading for students of American foreign policy, and for anyone who wishes to understand the single most important source of the ideas underpinning American foreign policy since the end of the Second World War.

Great Debates in Company Law - Lorraine Talbot 2020-04-22

This textbook is an ambitious and engaging introduction to the more advanced writings on company law, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in company law, but rather to illustrate the current debates which are currently going on among those working in shaping the area.

The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading.

Great Debates in Employment Law - Simon Honeyball 2015-04-23

This textbook is an ambitious and engaging introduction to the more advanced writings on employment law, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in employment law, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading.

Great Debates in Gender and Law - Rosemary Auchmuty 2018-03-16

The first textbook to consider gender perspectives in relation to the whole undergraduate law curriculum in England and Wales. Gender is of central importance in every area of law and every area of people's lives but is rarely mentioned in the formal LLB syllabus; this book is designed to fill some of those gaps. 18 chapters, written by experts in the field, cover all the core modules on the English LLB together with 11 of the most popular options. Aimed at students and lecturers on undergraduate and postgraduate Gender and Law modules, the book will also be useful for all LLB and LLM students studying English law, who may use it to accompany their studies from their first to their final year, and also for prospective law students, legal scholars from outside England and Wales, and scholars in other disciplines.

Great Debates on the European Convention

on Human Rights - Fiona de Londras

2018-03-16

This engaging textbook provides a critical analysis of the legitimacy and effectiveness of the European Convention on Human Rights and its practical operation. In a succinct way, the book investigates questions around the legitimacy of how the European Court of Human Rights develops its law, the obligations of states to comply with its judgments, the adequacy of the Convention in securing basic goods, and the effectiveness of the system in protecting rights 'in the real world'. It assesses some under-explored areas of the Convention that are often overlooked. Presenting a number of debates about the legitimacy and effectiveness of the system in a provocative and critical style, this book encourages debate, discussion, and self-reflection on how, when and why the Convention protects human rights in Europe. An ideal text for Law students at English and Welsh universities and higher education institutions

taking a module in The European Convention on Human Rights (LLB or LLM level), and for GDL/CPE students and those taking the postgraduate LPC training course.

Great Debates in Jurisprudence - Nicholas

McBride 2018-03-16

This textbook is an ambitious and engaging introduction to the more advanced writings on Jurisprudence, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in Jurisprudence, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading. A

perfect book for students taking a module in jurisprudence, or for those wanting to deepen their knowledge. New to this Edition: - New debates on the nature and legitimacy of global justice, and the binding force of precedent. - Incorporates discussion of new contributions to jurisprudential writing by Mark Greenberg, Scott Hershowitz, David Howarth and Shona Stark, Matthew Kramer, Frederick Schauer, and Jeremy Waldron. - Includes substantially revised chapters on 'The nature of jurisprudence' and 'Morality and rights'

Great Debates in Commercial and Corporate Law - Andrew Johnston 2020-02-29

An exciting new textbook which presents critical perspectives on corporate and commercial law. Focussing on the key areas of trade and transactions, intellectual property, corporations and finance, it covers each of the areas of commercial and company law that would typically be offered to undergraduate and postgraduate law students. The chapters are

written by acknowledged experts in the field and are aimed at undergraduates, post graduates and lecturers who wish to further their understanding of this area. Each of the authors focuses on an area within their subject and draws out the political, the controversial and the discursive, providing essential reading for undergraduate dissertation topics and postgraduate analysis.

Emer de Vattel and the Politics of Good Government - Antonio Trampus 2020-08-31

This book explores the history of the international order in the eighteenth and nineteenth century through a new study of Emer de Vattel's *Droit des gens* (1758). Drawing on unpublished sources from European archives and libraries, the book offers an in-depth account of the reception of Vattel's chief work. Vattel's focus on the myth of good government became a strong argument for republicanism, the survival of small states, drafting constitutions and reform projects and fighting

everyday battles for freedom in different geographical, linguistic and social contexts. The book complicates the picture of Vattel's enduring success and usefulness, showing too how the work was published and translated to criticize and denounce the dangerousness of these ideas. In doing so, it opens up new avenues of research beyond histories of international law, political and economic thought.

Drafting Copyright Exceptions - Emily Hudson 2020-04-02

This is a detailed account of interpretative practices and the 'law in action' that draws lessons for the drafting of copyright exceptions.

Beginning Business Law - Chris Monaghan 2015-02-11

Whether you're new to higher education, coming to legal study for the first time or just wondering what Business Law is all about, Beginning Business Law is the ideal introduction to help you hit the ground running. Starting with the

basics and an overview of each topic, it will help you come to terms with the structure, themes and issues of the subject so that you can begin your Business Law module with confidence. Adopting a clear and simple approach with legal vocabulary explained in a detailed glossary, Chris Monaghan breaks the subject of Business Law down using practical everyday examples to make it understandable for anyone, whatever their background. Diagrams and flowcharts simplify complex issues, important cases are identified and explained and on-the-spot questions help you recognise potential issues or debates within the law so that you can contribute in classes with confidence. Beginning Business Law is an ideal first introduction to the subject for LLB, GDL or ILEX and especially international students, those enrolled on distance learning courses or on other degree programmes.

Great Debates in Contract Law - Jonathan Morgan 2015-04-17

This textbook is an ambitious and engaging introduction to the more advanced writings on contract law, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in contract law, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading.

The Corporation, Law and Capitalism - Grietje Baars 2019-03-25

In *The Corporation, Law and Capitalism*, Grietje Baars offers a radical Marxist perspective on law, tracing the corporation from colonial times to the present multinational. 'Corporate

accountability' is shown to be a red herring in the struggle for another world.

Rethinking Cybercrime - Tim Owen 2020-11-13

The book provides a contemporary 'snapshot' of critical debate centred around cybercrime and related issues, to advance theoretical development and inform social and educational policy. It covers theoretical explanations for cybercrime, typologies of online grooming, online-trolling, hacking, and law and policy directions. This collection draws on the very best papers from 2 major international conferences on cybercrime organised by UCLAN. It is well positioned for advanced students and lecturers in Criminology, Law, Sociology, Social Policy, Computer Studies, Policing, Forensic Investigation, Public Services and Philosophy who want to understand cybercrime from different angles and perspectives.

Great Debates in Land Law - David Cowan 2016-05-02

This textbook is an ambitious and engaging introduction to the more advanced writings on land law, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in land law, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading.

The Law and Governance of Decentralised Business Models - Roger M Barker 2020-12-31

This book draws together themes in business model developments in relation to decentralised business models (DBMs), sometimes referred to as the 'sharing' economy, to systematically

analyse the challenges to corporate and organisational law and governance. DBMs include business networks, the global supply chain, public-private partnerships, the platform economy and blockchain-based enterprises. The law of organisational forms and governance has been slow in responding to changes, and reliance has been placed on innovations in contract law to support the business model developments. The authors argue that the law of organisations and governance can respond to changes in the phenomenon of decentralised business models driven by transformative technology and new socio-economic dynamics. They argue that principles underlying the law of organisations and governance, such as corporate governance, are crucial to constituting, facilitating and enabling reciprocity, mutuality, governance and redress in relation to these business models, the wealth-creation of which subscribes to neither a firm nor market system, is neither hierarchical nor totally decentralised,

and incorporates socio-economic elements that are often enmeshed with incentives and relations. Of interest to academics, policymakers and legal practitioners, this book offers proposals for new thinking in the law of organisation and governance to advance the possibilities of a new socio-economic future.

[The Corporation](#) - Grietje Baars 2017-03-24

The corporation has become an increasingly dominant force in contemporary society. However, comprehensive, in-depth analysis of the concept of the corporation is often restricted, or limited to one disciplinary approach. This handbook brings together the cutting-edge scholarship, expertise and insight of leading scholars in a wide range of disciplines, notably management studies, law, history, political science, anthropology, sociology and criminology, using a critical approach to dissect and understand the corporation. Ten chapters provide overviews of the state of play of critical scholarship on the

corporation in each of these disciplines. Further contributors tackle current hot topics, such as corporate social responsibility, corporate crime, global value chains, financialization, and the interaction between corporations and communities. Finally, they consider resistance and alternatives to the corporation. With its interdisciplinary approach, this book is an invaluable resource for all readers studying the past, present and future of the corporation.

Critical Company Law - Lorraine Talbot
2015-08-28

The second edition of Critical Company Law provides a framework in which to understand how the company functions in society and a thorough grounding in modern legal doctrine. It shows how modern company law is shaped by a multi-layered history of politics, ideology, economics and power. Through the lens of political economic theory the book shows how the company becomes the mechanism through which the state makes political choices about

distributing societies' wealth and through which it responds to economic crises. The current law reflects an economy marked by a disjuncture between the low profits of the productive economy and the high profits of the finance economy. Critical Company Law examines areas of company law to show how they reflect a fragile economy inexorably drawn to social and economic inequality and short-termism. These include: * The Doctrine of Separate Corporate Personality * Groups of Companies and Tort Liabilities * Company Formation and the Constitution * Directors' Duties and Authority * Corporate Capacity * Shares and Shareholders * Raising and Maintaining Capital * Minority Protection In this uniquely hybrid book the legal topics are treated with detail and clarity, providing an engaging introduction to the key topics required for a student of company law.

Shaping the Corporate Landscape - Nina Boeger 2018-02-22

Currently, there exists a distrust of corporate

activity in the continuing aftermath of the financial crisis and with increasing recognition of the threats of climate change and global, as well as national, inequalities. Despite efforts in the arena of corporate governance to address these, we are still beset with corporate scandals and witness companies facing large fines for their environmental and cost-cutting misdemeanours. Recognising that the usual responses to dealing with these corporate problems are not effective, this book asks whether the traditional form of the joint stock corporation itself lies at the heart of these problems. What are the features of the corporate form and how does its current regulation underscore these problems? Identifying such features provides a basis for the discussion to develop towards suggesting more progressive regulatory developments around the corporate form. More fundamentally, this book investigates a diverse range of corporate governance models that are emerging as alternatives to the

shareholder corporation, including employee-owned, cooperative and social enterprises. The contributors are leading scholars from various backgrounds including law, management and organisation studies, finance and accounting, as well as experienced professionals and policy makers with expertise in social and cooperative business models and the role of employees in the corporation.

Understanding the Company - Barnali Choudhury 2017-07-20

What is the purpose of the company and its role in society? From their origin in medieval times to their modern incarnation as powerful transnational bodies, companies remain an important part of business and society at large. Drawing from a variety of perspectives, this book adopts a normative approach to understanding the modern company and provides insights into how companies should be conceptualized. It considers key topics such as the development of corporate theory, the rights

and obligations of the company, and the means and ends of corporate governance. Written by leading experts of different jurisdictions, this book provides important international viewpoints on some of the most pressing corporate governance questions.

Chaos, Complexity and Leadership 2016 - Şefika Şule Erçetin 2018-03-21

This book covers the proceedings from the 2016 International Symposium on Chaos, Complexity and Leadership, and reflects current research results of chaos and complexity studies and their applications in various fields. Included are research papers in the fields of applied nonlinear methods, modeling of data and simulations, as well as theoretical achievements of chaos and complex systems. Also discussed are leadership and management applications of chaos and complexity theory.

The Company Share - David Milman 2018-10-26

The legal regulation of company shares is a

fundamental building block in a capitalist society. This insightful book provides an historical analysis of the phenomenon, investigating underlying policy issues and considering relevant aspects of current law to explore possible future trends. David Milman examines the phenomenon of the company share in a holistic way, tracing the origins of the share and exploring the diversity present within the family of shares. Using a comparative approach, key chapters consider the circumstances under which shares are acquired, the property law perspective relevant to shares and the rights and obligations of those who hold shares. The book concludes with speculation on how the share might evolve in the future in light of technological change and the development of other capital raising investments. This accessible book will provide valuable insight to scholars researching corporate law. It will also be beneficial for policymakers and practitioners wishing to understand more about the history of

the company share, and how this may impact its future.

Great Debates in Property Law - David S. Cowan 2012

An engaging introduction to the more advanced writings on property law, designed to provide the additional insights necessary to excel in the study of the subject.

Japan and the Great Divergence - Penelope Francks 2016-10-15

This text offers an accessible guide to the ways in which our growing knowledge of development in early-modern and modernising Japan can throw light on the paths that industrialisation was eventually to take across the globe. It has long been taken as read that the industrial revolution was the product of some form of 'European superiority' dating back to at least early-modern times. In *The Great Divergence*, Kenneth Pomeranz challenged this assumption on the basis of his evidence that parts of eighteenth-century China were as well placed as

northern Europe to achieve sustained economic growth, thus igniting what has been called 'the single most important debate in recent global history'. Japan, as the only non-Western country to experience significant industrialisation before the Second World War, ought to provide crucial - and intriguing - evidence in the debate, but analysis of the Japanese case in such a context has remained limited. This work suggests ways of re-interpreting Japanese economic history in the light of the debate, so arguing that global historians and scholars of Japan have in fact much to say to each other within the comparative framework that the Great Divergence provides.

Contemporary Australian Corporate Law - Stephen Bottomley 2020-10-31

Contemporary Australian Corporate Law is a highly-regarded introduction to corporate law in Australia that provides an authoritative, contextual and critical analysis of the law governing Australian corporations and financial

markets. It explores the rules, principles, doctrines and policies that constitute corporate law in Australia within their legal, social, economic and political contexts. Clearly and precisely written, this edition has been thoroughly updated and refined to reflect current Australian corporate law, including recent case law, changes to the Corporations Act 2011 and the impact on the corporate sector of the Financial Services Royal Commission. Written by leading legal scholars, Contemporary Australian Corporate Law will assist students to develop a critically informed understanding of corporate law and the role of corporations in contemporary society.

Great Debates in EU Law - Jeremias Adams-Prassl 2021-06

This book introduces students to the great debates in EU law. Rather than simply presenting traditional approaches that provide descriptions (often in historical order) of substantive and constitutional elements of Union

law, this book clusters material around these debates in an engaging and lively way. By offering concise analyses of core dilemmas and tensions in EU law, the book provides a different kind of introduction, one that helps students place the discussions within a boarder context and narrative. The authors have found in their teaching that students often struggle with individual aspects and materials without understanding broader narratives, which are traditionally developed in monographs or journal articles that are beyond the reach of undergraduate readers.

The Making of the Modern Company - Susan Watson 2022-05-19

This book adopts a historical perspective to highlight, and bring back into focus, the key features of the modern company. A central argument in the book is that legal personhood attaching to an entity containing a corporate fund seeded by shareholders is a direct and inevitable consequence of limited liability and

the company's status as a separate legal entity from its shareholders. Management by a board subject to legal duties to the company as an entity that can exist in perpetuity facilitates a long term perspective by the board that can accommodate both shareholder and stakeholder interests. These defining characteristics differentiate the modern company from other business forms. *The Making of the Modern Company* applies a 21st-century lens to the corporation through its history to identify turning points in its development. It sets out how key features emerged in the course of two separate developmental cycles in English corporate law: first with the English East India Company in the 17th century, and then with general incorporation statutes in the 2nd half of the 19th century. The book's historical perspective highlights that the key features are part of the 'secret sauce' of modern companies. Each cycle coincided with unparalleled periods of economic success associated with corporate

activity This book will be of interest to corporate law and governance academics, theorists and practitioners, those who study the company from related disciplines, and anyone who questions why uncertainty still exists about the structure of a legal form that has been described as 'amongst mankind's greatest inventions'.

Debating Bad Leadership - Anders Örténblad
2021-04-02

"This stimulating collection tackles the question that is uppermost in most of humanity's minds and hearts right now. The novel debating approach that is taken generates a rich understanding of the range of ways in which bad leadership is created, manifested and most importantly, remedied." - Professor Brad Jackson, Waikato Management School, The University of Waikato, New Zealand "In the midst of a world full of incompetent and incoherent leaders this book is exactly what we need: a veritable cornucopia of critical leadership studies." - Keith Grint, Professor

Emeritus, Warwick Business School, UK "While we like to have leaders who guide, looking at the present state of the world, there are far too many leaders who misguide. It makes this anthology on bad leadership more than timely. The various contributors, taking many different perspectives, highlight the ways leaders can go astray. In these very difficult times, this book will be a must read for anybody interested in this subject." - Manfred F. R. Kets de Vries, Clinical Professor of Leadership "Debating Bad Leadership, edited by Anders Örténblad, is a book for this time! The rise of populism and the emergence of so-called 'strong' leaders in many countries have created a social, political, and economic climate that begs for closer examination of the origins, characteristics, and forms of, especially, bad leadership. Taking as its starting-point the question of why there are so many bad leaders in the corporate world, the impressive collection of chapters compiled in Debating Bad Leadership canvasses a

comprehensive array of issues ranging from toxic, psychopathic, leadership and ethical failure to issues of poor selection, ill-considered recruitment, leader (in)competence, conflicted or weak followership, to the very concept of leadership itself. In debating these fundamental issues, this book illuminates and educates, and offers some remedies, both theoretically and practically. Debating Bad Leadership challenges scholars, students and practitioners of leadership to continue this fundamental discussion, for the benefit of us all.” - Gabriele Lakomski Professor Emeritus, Melbourne Centre for the Study of Higher Education, University of Melbourne, Australia. In this book, leadership experts explore why there are so many bad leaders, and suggest remedies for how the current situation could be improved. Some of the

experts suggest that reasons for why bad leaders are so common are searched for in people: more specifically leaders-to-become, acting leaders or followers. Others suggest that reasons are to be found in the leadership role (or expectations on those having such role), in the lack of support for leaders, or in beliefs about leadership. On the backdrop of their suggested explanations as to why there are so many bad leaders, the experts suggest remedies that could be taken to decrease the number of bad leaders as well as their negative impact. The very presumption that this book rests upon also gets its fair share of critique, by some of the experts. Anders Örténblad is Professor of Working Life Science at the University of Agder, Norway. He is the editing founder of the book series Palgrave Debates in Business and Management.
