Village Phone Replication Manual - David Keogh 2005

Why is it such a challenge to provide telecommunications to rural areas? High initial infrastructure investment, relative low call volumes, high maintenance costs due to harsh environments, cash box collection needs, cash security costs (for coin operated phones), card availability (for prepaid airtime systems), technical illiteracy, remote locations, and high transportation costs are just some of the impediments to providing rural telecommunications access. This manual is based on the experiences of the Village Phone Programmes in Bangladesh and Uganda. In rural villages where no telecommunications services have previously existed, the programme provides cellular phones via a sustainable financing mechanism to poor entrepreneurs who use the phone to operate a business. Such has been the success that over 2,000 village phone businesses are now operating in remote villages of Uganda. This manual is a guideline for replicating the programme in a new country. It establishes a template for creating sustainable initiatives that bring telecommunications to the poor, create viable new businesses for micro-entrepreneurs, and expand the customer base for telecommunications companies.

Wastewater Treatment - Glenn M. Tillman 1996-08-01

Wastewater Treatment is another indispensable work from the author of Water Treatment. Both books are helpful tools for crisis identification and, most importantly, resolution. Tillman writes in a concise, well organized format - perfect for fast reference. This operator's guide presents basic troubleshooting and problem solving information for typical problems that can occur during the operation of processes used at municipal and industrial wastewater treatment plants. Common problems and the recommended operator responses are listed in tabular form for individual unit processes. Entry level operators will benefit greatly from the problems Tillman addresses, while experienced operators will appreciate it as a handy reference. The information compiled in this volume has been collected from various equipment manufacturers' operation and maintenance manuals, U.S. Environmental Protection Agency (EPA) technology transfer documents, the authors personal experience as a plant Operations and Maintenance manual writer, and his experience as a plant manager and operator. He includes only the most common wastewater treatment unit processes. He gives an overview of the treatment objective of the unit process, and then provides each with a troubleshooting table divided into Indicators/Observations: Possible Cause; Check or Monitor; Possible Solutions columns. Wastewater Treatment reads like the best of training manuals. Tillman's know-how, combined with his clarity, make this book required occupational reading. The brief, straightforward format and easy-to-read tables make the guide an accessible problem solving reference.

John Wesley and Marriage - Bufford W. Coe 1996

"In this book, a Methodist minister examines the sources of John Wesley's ideas about marriage and shows how those beliefs found expression in the cleric's revision of the Anglican wedding service." "Author Bufford W. Coe describes the radical differences between a

typical eighteenth-century wedding and a church wedding of today. He also tells the fascinating story of Wesley's romances with Sophia Hopkey and Grace Murray, based on his own private diaries, and shows how those relationships, as well as his miserably unhappy marriage, were affected by Wesley's beliefs about matrimony." "Four days after Wesley decided he would marry at the age of forty-seven, he spoke to a group of unmarried men and encouraged them to remain single. In the matrimonial service he devised for American Methodists, Wesley eliminated the custom of the bride being given in marriage by her father, although Wesley consistently taught that Christians should not marry without the consent of their parents. Wesley strongly condemned the Roman Catholic Church for requiring celibacy of its priests, but his own rules required that Methodist preachers who married during their initial probationary period were thereby disqualified." "In 1784, Wesley published *The Sunday Service of the Methodists in North America with Other Occasional Services*. Coe studies the components of Wesley's marriage liturgy from the Sunday Service to try to determine why Wesley revised the Anglican wedding service in the way that he did."--BOOK JACKET. Hague Law Interpreted - Stuart Casey-Maslen 2018-11-15

Given the centrality of Hague Law to the lawful prosecution of warfare, the relative paucity of dedicated works is surprising. The general formulation of Hague Law rules is largely uncontroversial, but this clarity stands in stark contrast to their interpretation and practical application. How precisely, for instance, the fundamental rules of distinction and proportionality in attack are to dictate and constrain the planning and practice of warfare continues to be highly uncertain. This important new publication fills the gap in the literature. Offering a comprehensive assessment of Hague Law, it explores questions of definitions and accountability and navigates the substantive rules and their application to different types of warfare.

Stage Presence from Head to Toe - Karen A. Hagberg 2003

"This book focuses on the performance of classical music, but the basic principles are the same for all kinds of music. Musicians need to make their audiences receptive and to give them a lasting, positive impression. Just as classical training lays a foundation for the performance of other kinds of music, the basics of stage presence outlined here may be adopted to all kinds of performances, by all kinds of musicians." - page xiii.

Academic and Workplace Sexual Harassment - Michele A. Paludi 1991-11-01

This book represents the first comprehensive resource manual for understanding and preventing sexual harassment in the academic community and in the workplace. Studies indicate that sexual harassment is at epidemic proportions in the academy and in the workplace: from 30%–70% of women in U.S. colleges and universities experience some form of sexual harassment (including sexual assaults) each year; a University of Massachusetts study reports 13% of undergraduate women were raped by acquaintances; and 50% of women in the workplace report serious sexual harassment from supervisors and fellow employees. This manual provides the results of research and of practical, effective experience in reducing the occurrence of sexual harassment, investigating complaints, and providing counseling and remedies for the victims. In addition, the authors have compiled bibliographies, audio-visual material, and pedagogical techniques for dealing with sexual harassment in the academy and in the workplace, as well as information and workshop techniques to facilitate training programs.
