Wild Swans - Jung Chang 2008-06-20

The story of three generations in twentieth-century China that blends the intimacy of memoir and the panoramic sweep of eyewitness history—a bestselling classic in thirty languages with more than ten million copies sold around the world, now with a new introduction from the

author. An engrossing record of Mao's impact on China, an unusual window on the female experience in the modern world, and an inspiring tale of courage and love, Jung Chang describes the extraordinary lives and experiences of her family members: her grandmother, a warlord's concubine; her mother's struggles as a young idealistic Communist; and her parents' experience as members of the Communist elite and their ordeal during the Cultural Revolution. Chang was a Red Guard briefly at the age of fourteen, then worked as a peasant, a "barefoot doctor," a steelworker, and an electrician. As the story of each generation unfolds, Chang captures in gripping, moving—and ultimately uplifting—detail the cycles of violent drama visited on her own family and millions of others caught in the whirlwind of history.

The Nomos of the Earth in the International Law of the Jus Publicum Europaeum - Carl Schmitt 2006

Describes the origin of the Eurocentric global order, which Schmitt dates from the discovery of the New World, discusses its specific character and its contribution to civilization, analyzes the reasons for its decline at the end of the 19th century, and concludes with prospects for a new world order. It is a reasoned, yet passionate argument in defense of the European achievement, not only in creating the first truly global order of international law, but also in

limiting war to conflicts among sovereign states, which in effect civilized war.

Data Mining: Concepts and Techniques -

Jiawei Han 2011-06-09

Data Mining: Concepts and Techniques provides the concepts and techniques in processing gathered data or information, which will be used in various applications. Specifically, it explains data mining and the tools used in discovering knowledge from the collected data. This book is referred as the knowledge discovery from data (KDD). It focuses on the feasibility, usefulness, effectiveness, and scalability of techniques of large data sets. After describing data mining, this edition explains the methods of knowing, preprocessing, processing, and warehousing data. It then presents information about data warehouses, online analytical processing (OLAP), and data cube technology. Then, the methods involved in mining frequent patterns, associations, and correlations for large data sets are described. The book details the methods for data classification and introduces the concepts and methods for data clustering. The remaining chapters discuss the outlier detection and the trends, applications, and research frontiers in data mining. This book is intended for Computer Science students, application developers, business professionals, and researchers who seek information on data mining. Presents dozens of algorithms and implementation examples, all in pseudo-code and suitable for use in real-world, large-scale data mining projects. Addresses advanced topics such as mining object-relational databases, spatial databases, multimedia databases, time-series databases, text databases, the World Wide Web, and applications in several fields. Provides a comprehensive, practical look at the concepts and techniques you need to get the most out of your data.

Young Learner English Language Policy and Implementation - Janet Enever 2009

Young Learner English Language Policy and Implementation: International Perspectives Over

the past three decades, there has been a huge expansion across the world in school programmes for the teaching of English to young learners. Much of this growth is due to global forces which currently demand ever-increasing levels of communication in English across continents. This publication, resulting from the conference The Way Forward: Learning from International Experience of TEYL held in Bangalore, India, in 2008, seeks to address these issues, responding to concerns that there is often insufficient guidance available to decision-makers at ministry level regarding the policy and practical implications of an early start for English. Young Learner English Language Policy and Implementation: International Perspectives is a collection of 28 papers which reflect the insights of a group of academics, policy makers, senior educationalists and practitioners who have been important contributors internationally, regionally or in their own countries, to debates about YL policy and implementation. These papers represent a significant contribution to current thinking on effective YL language policy formulation, the design of appropriate programmes for implementation and the sustainable implementation of policy at local and national levels. Three themes were evident in many of the conference presentations and are also reflected in these papers: the specific impact of global factors on policy decisions and classroom practices; the challenges of policy and its implementation; broader and more local language issues and their impact on policy. The first section of this book contains country-specific case studies which provide analyses of a range of policy issues in state school provision for TEYL, including some recommendations for policy makers in planning and shaping their future national provision. The second section includes accounts of innovations, experiments or small-scale projects in the YL field from the state and private sectors, across a range of countries. This volume will be of considerable interest to a wide range of policy makers in ministries and educational institutions, researchers, teacher educators and anyone concerned with YL English language policy and implementation.
