The Influence of Sea Power Upon History, 1660-1783 - Alfred Thayer Mahan 1918

Today, war is more complicated than it has ever been. When considering military strategy, a commander must be aware of several theaters of war. There's ground strength, air power, naval combat and even cyber warfare. In the late 19th century, however, the true military might of a nation rested primarily on the strength of its navy. In 1890, United States Navy Captain Alfred Thayer Mahan published a book titled "The Influence of Sea Power Upon History." The monumental text addressed the importance of both military and commercial fleets in the success of a nation in war and peacetime. Mahan begins with a discussion of the elements he considers to be the key to a nation's success on the seas. He theorizes that a ground force could not sustain the pressure of a naval blockade. Mahan then applies his principles to wars of the past. He analyzes the use of a navy in various engagements and considers the resulting influence on the outcome of the wars. The book was readily accepted by commanders and tacticians all over the world and his principles and theories were utilized throughout the 20th century. His arguments, along with technological advances, were influential in the strengthening of the United States Navy. Presently, Mahan's work is considered the most important work on naval strategy in history.

When Faiza, a Muslim migrant girl from northern Ghana, and Abena, a wealthy doctor's daughter from the south, meet by chance in Accra's largest market, where Faiza works as a porter or kaya girl, they strike up an unlikely and powerful friendship that transcends their social inequities and opens up new worlds to them both. Set against a backdrop of class disparity in Ghana, The Kaya Girl has shades of The Kite Runner in its unlikely friendship, and of Slumdog Millionaire as Faiza's life takes unlikely turns that propel her thrillingly forward.
