**The Quartermaster** - Robert O'Harrow 2017-10-24

"Born to a well to do, connected family in 1816, Montgomery C. Meigs graduated from West Point as an engineer. He helped build America's forts and served under Lt. Robert E. Lee to make navigation improvements on the Mississippi River. As a young man, he designed the Washington aqueducts in a city where people were dying from contaminated water. He built the spectacular wings and the massive dome of the brand new US Capitol. Introduced to President Lincoln by Secretary of State William Seward, Meigs became Lincoln's Quartermaster. It was during the Civil War that Meigs became a national hero. He commanded Ulysses S. Grant's base of supplies that made Union victories, including Gettysburg, possible. He sustained Sherman's

army in Georgia, and the March to the Sea. After the war, Meigs built Arlington Cemetery (on land that had been Robert E. Lee's home). [The author] brings Meigs alive in [this book]. We get to know this major military figure that Lincoln and his Cabinet and Generals called the key to victory and learn how he fed, clothed, and armed the Union Army using his ingenuity and devotion"--Amazon.com.

**A Wrinkle in Time** - Madeleine L'Engle 2019-07-18

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.
