Folks, This Ain't Normal - Joel Salatin 2011-10-10

From farmer Joel Salatin's point of view, life in the 21st century just ain't normal. In *FOLKS, THIS AIN'T NORMAL*, he discusses how far removed we are from the simple, sustainable joy that comes from living close to the land and the people we love. Salatin has many thoughts on what

normal is and shares practical and philosophical ideas for changing our lives in small ways that have big impact. Salatin, hailed by the New York Times as "Virginia's most multifaceted agrarian since Thomas Jefferson [and] the high priest of the pasture" and profiled in the Academy Award nominated documentary *Food, Inc.* and the bestselling book *The Omnivore's Dilemma*, understands what food should be: Wholesome, seasonal, raised naturally, procured locally, prepared lovingly, and eaten with a profound reverence for the circle of life. And his message doesn't stop there. From child-rearing, to creating quality family time, to respecting the environment, Salatin writes with a wicked sense of humor and true storyteller's knack for the revealing anecdote. Salatin's crucial message and distinctive voice--practical, provocative, scientific, and down-home philosophical in equal measure--make *FOLKS, THIS AIN'T NORMAL* a must-read book.

Matthew Dixon 2011-11-10
What's the secret to sales success? If you're like most business leaders, you'd say it's fundamentally about relationships-and you'd be wrong. The best salespeople don't just build relationships with customers. They challenge them. The need to understand what top-performing reps are doing that their average performing colleagues are not drove Matthew Dixon, Brent Adamson, and their colleagues at Corporate Executive Board to investigate the skills, behaviors, knowledge, and attitudes that matter most for high performance. And what they discovered may be the biggest shock to conventional sales wisdom in decades. Based on an exhaustive study of thousands of sales reps across multiple industries and geographies, The Challenger Sale argues that classic relationship building is a losing approach, especially when it comes to selling complex, large-scale business-to-business solutions. The authors' study found that every

sales rep in the world falls into one of five distinct profiles, and while all of these types of reps can deliver average sales performance, only one-the Challenger- delivers consistently high performance. Instead of bludgeoning customers with endless facts and features about their company and products, Challengers approach customers with unique insights about how they can save or make money. They tailor their sales message to the customer's specific needs and objectives. Rather than acquiescing to the customer's every demand or objection, they are assertive, pushing back when necessary and taking control of the sale. The things that make Challengers unique are replicable and teachable to the average sales rep. Once you understand how to identify the Challengers in your organization, you can model their approach and embed it throughout your sales force. The authors explain how almost any average-performing rep, once equipped with the

right tools, can successfully reframe customers' expectations and deliver a distinctive purchase experience that drives higher levels of customer loyalty and, ultimately, greater growth.

Fancy Goldfish - Erik L. Johnson 2001

A classic, prize-winning novel about an epic migration and a lone woman haunted by the past in frontier Waipu. from Scotland in 1817 to found a settlement in Nova Scotia, then subsequently to New Zealand via Australia. Their incredible journeys actually happened, and in this winner of the New Zealand Book Awards, Fiona Kidman breathes life and contemporary relevance into the facts by creating a remarkable fictional story of three women entangled in the migrations - Isabella, her daughter Annie and granddaughter Maria. McLeod's harsh leadership meant that anyone who ran counter to him had to live a life of secrets. The 'secrets' encapsulated the spirit of these women in their varied reactions to McLeod's strict edicts and connect the past to the present and future.

Rejection Proof - Jia Jiang 2015-04-14

An entertaining and inspiring account of conquering the fear of rejection, offering a completely new perspective on how to turn a no into a yes. Jia Jiang came to the United States with the dream of being the next Bill Gates. But despite early success in the corporate world, his first attempt to pursue his entrepreneurial dream ended in rejection. Jia was crushed, and spiraled into a period of deep self doubt. But he realized that his fear of rejection was a bigger obstacle than any single rejection would ever be, and he needed to find a way to cope with being told no without letting it destroy him. Thus was born his "100 days of rejection" experiment, during which he willfully sought rejection on a daily basis--from requesting a lesson in sales from a car salesman

(no) to asking a flight attendant if he could make an announcement on the loud speaker (yes) to his famous request to get Krispy Kreme doughnuts in the shape of Olympic rings (yes, with a viral video to prove it). Jia learned that even the most preposterous wish may be granted if you ask in the right way, and shares the secret of successful asking, how to pick targets, and how to tell when an initial no can be converted into something positive. But more important, he learned techniques for steeling himself against rejection and ways to develop his own confidence--a plan that can't be derailed by a single setback. Filled with great stories and valuable insight, *Rejection Proof* is a fun and thoughtful examination of how to overcome fear and dare to live more boldly.
