A Newspaper for China? - Barbara Mittler 2020-03-23

In 1872 in the treaty port of Shanghai, British merchant Ernest Major founded one of the longest-lived and most successful of modern Chinese-language newspapers, the Shenbao. His publication quickly became a leading newspaper in China and won praise as a "department store of news," a "forum for intellectual discussion and moral challenge," and an "independent mouthpiece of the public voice." Located in the

International Settlement of Shanghai, it was free of government regulation. Paradoxically, in a country where the government monopolized the public sphere, it became one of the world's most independent newspapers. As a private venture, the Shenbao was free of the ideologies that constrained missionary papers published in China during the nineteenth century. But it also lacked the subsidies that allowed these papers to survive without a large readership. As a purely commercial venture, the foreign-managed Shenbao depended on the acceptance of educated Chinese, who would write for it, read it, and buy it. This book sets out to analyze how the managers of the Shenbao made their alien product acceptable to Chinese readers and how foreign-style newspapers became alternative modes of communication acknowledged as a powerful part of the Chinese public sphere within a few years. In short, it describes how the foreign Shenbao became a "newspaper for China."

The SAGE Encyclopedia of Communication Research Methods - Mike Allen 2017-04-11

Communication research is evolving and changing in a world of online journals, open-access, and new ways of obtaining data and conducting experiments via the Internet. Although there are generic encyclopedias describing basic social science research methodologies in general, until now there has been no comprehensive A-to-Z reference work exploring methods specific to communication and media studies. Our entries, authored by key figures in the field, focus on special considerations when applied specifically to communication research, accompanied by engaging examples from the literature of communication, journalism, and media studies. Entries cover every step of the research process, from the creative development of research topics and questions to literature reviews, selection of best methods (whether quantitative, qualitative, or mixed) for analyzing research results and publishing research findings, whether in traditional media or via new media outlets. In addition to expected entries covering the basics of theories and methods traditionally used in communication research, other entries discuss important trends influencing the future of that research, including contemporary practical issues students will face in communication professions, the influences of globalization on research, use of new recording technologies in fieldwork, and the challenges and opportunities related to studying online multi-media environments. Email, texting, cellphone video, and blogging are shown not only as topics of research but also as means of collecting and analyzing data. Still other entries delve into considerations of accountability, copyright, confidentiality, data ownership and security, privacy, and other aspects of conducting an ethical research program. Features: 652 signed entries are contained in an authoritative work spanning four volumes available in choice of electronic or print formats. Although organized A-to-Z, front matter includes a Reader's Guide grouping entries thematically to help students interested in a specific aspect of communication research to more easily locate directly related entries. Back matter includes a Chronology of the development of the field of communication research; a Resource Guide to classic books, journals, and associations; a Glossary introducing the terminology of the field; and a detailed Index. Entries conclude with References/Further Readings and Cross-References to related entries to guide students further in their research journeys. The Index, Reader's Guide themes, and Cross-References combine to provide robust search-and-browse in the e-version.

Spanish Women Writers and the Essay - Kathleen Mary Glenn 1998
Never before has a book examined Spanish women and their mastery of the essay. In the groundbreaking collection *Spanish Women Writers and the Essay*, Kathleen M. Glenn and Mercedes Mazquiarán de Rodríguez help to rediscover the neglected genre, which has long been considered a "masculine" form. Taking a feminist perspective, the editors examine why Spanish women have been so drawn to the essay through the decades, from Concepción Arenal's nineteenth-century writings to the modern works of Rosa Montero. Spanish women, historically denied a public voice, have discovered an outlet for their expression via the essay. As essayists, they are granted the authority to address subjects they personally deem important, discuss historical and sociopolitical issues, and denounce female subordination. This genre, which attracts a different audience than does the novel or poem, allows Spanish women writers to engage in a direct dialogue with their readers. Featuring twelve critical investigations of influential female essayists, *Spanish Women Writers and the Essay* illustrates Spanish women writers' command of the genre, their incorporation of both the ideological and the aesthetic into one concise form, and their skillful use of various strategies for influencing their readers. This fascinating study, which provides English translations for all quotations, will appeal to anyone interested in nineteenth- and twentieth-century Spanish literature, comparative literature, feminist criticism, or women's studies.

Linguistic Creativity in Japanese Discourse - Senko K. Maynard 2007
Using theoretical concepts of self, perspective, and voice as an interpretive guide, and based on the Place of Negotiation theory, this volume explores the phenomenon of linguistic creativity in Japanese discourse, i.e., the use of language in specific ways for foregrounding personalized expressive meanings. Personalized expressive meanings include psychological, emotive, interpersonal, and rhetorical aspects of communication, encompassing broad meanings such as feelings of intimacy or distance, emotion, empathy, humor, playfulness, persona, sense of self, identity, rhetorical effects, and so on. Nine analysis chapters explore the meanings, functions, and effects observable in the indices of linguistic creativity, focusing on discourse creativity (style mixture, borrowing others' styles, genre mixture), rhetorical creativity (puns, metaphors, metaphors in multimodal discourse), and grammatical creativity (negatives, demonstratives, first-person references). Based on the analysis of verbal and visual data drawn from multiple genres of contemporary cultural discourse, this work reveals that by creatively expressing in language we share our worlds from multiple perspectives, we speak in self's and others' many voices, and we endlessly create personalized expressive meanings as testimony to our own sense of being.

Who Owns the News? - Will Slauter 2019-01-29

You can't copyright facts, but is news a category unto itself? Without legal protection for the "ownership" of news, what incentive does a news organization have to invest in producing quality journalism that serves the public good? This book explores the intertwined histories of journalism and copyright law in the United States and Great Britain, revealing how shifts in technology, government policy, and publishing strategy have shaped the media landscape. Publishers have long sought to treat news as exclusive to protect their investments against copying or "free riding." But over the centuries, arguments about the vital role of newspapers and the need for information to circulate have made it difficult to defend property rights in news. Beginning with the earliest printed news publications and ending with the Internet, Will Slauter traces these countervailing trends, offering a fresh perspective on debates about copyright and efforts to control the flow of news.

Getting the Picture - Jason E. Hill 2020-09-08

Powerful and often controversial, news pictures promise to make the world at once immediate and knowable. Yet while many great writers and thinkers have evaluated photographs of atrocity and crisis, few have sought to set these images in a broader context by defining the rich and diverse history of news pictures in their many forms. For the first time, this volume defines what counts as a news picture, how pictures are selected and distributed, where they are seen and how we critique and value them. Presenting the best new thinking on this fascinating topic, this book considers the news picture over time, from the dawn of the illustrated press in the nineteenth century, through photojournalism's heyday and the rise of broadcast news and newsreels in the twentieth century and into today's digital platforms. It examines the many kinds of images: sport, fashion, society, celebrity, war, catastrophe and exoticism; and many mediums, including photography, painting, wood engraving, film and video. Packed with the best research and full colour-illustrations throughout, this book will appeal to students and readers interested in how news and history are key sources of our rich visual culture.

Essays in the Economic History of the Atlantic World - John McCusker 2005-08-15

Written by one of the leading authorities on trade and finance in the early modern Atlantic world, these fourteen essays, revised and integrated for this volume, share as their common theme the development of the Atlantic economy, especially British America and the Caribbean. Topics treated range from early attempts in medieval England to measure the carrying capacity of ships, through the advent in Renaissance Italy and England of business newspapers that reported on the traffic of ships, cargoes and market prices, to the state of the economy of France over the two hundred years before the French Revolution and of the British West Indies between 1760 and 1790. Included is the story of Thomas Irving who challenged and thwarted the likes of John Hancock, Samuel Adams, Alexander Hamilton, George Washington and Thomas Jefferson.

The Infographic - Murray Dick 2020-04-21

An exploration of infographics and data visualization as a cultural phenomenon, from eighteenth-century print culture to today's data journalism. Infographics and data visualization are ubiquitous in our everyday media diet, particularly in news—in print newspapers, on television news, and online. It has been argued that infographics are changing what it means to be literate in the twenty-first century—and even that they harmonize uniquely with human cognition. In this first serious exploration of the subject, Murray Dick traces the cultural evolution of the infographic, examining its use in news—and resistance to its use—from eighteenth-century print culture to today's data journalism. He identifies six historical phases of infographics in popular culture: the proto-infographic, the classical, the improving, the commercial, the ideological, and the professional. Dick describes the emergence of infographic forms within a wider history of journalism, culture, and communications, focusing his analysis on the UK. He considers their use in the partisan British journalism of late eighteenth and early nineteenth-century print media; their later deployment as a vehicle for reform and improvement; their mass-market debut in the twentieth century as a means of explanation (and sometimes propaganda); and their use for both ideological and professional purposes in the post-World War II marketized newspaper culture. Finally, he proposes best practices for news infographics and defends infographics and data visualization against a range of criticism. Dick offers not only a history of how the public has experienced and understood the infographic, but also an account of what data

visualization can tell us about the past.

Breaking the News - Alex Marlow 2021-05-18

From the editor in chief of Breitbart News, a firsthand account of how the establishment media became weaponized against Donald Trump and his supporters on behalf of the political left. Alex Marlow was just a twenty-one-year-old UC Berkeley student when renowned media mogul Andrew Breitbart hired him as his first employee. Breitbart began mentoring Marlow on how to fight the culture war one headline at a time and to remain resilient in the face of personal attacks. Now, in this eye-opening and timely book, Marlow explains how the establishment press destroyed its own credibility with a relentless stream of "fake news" designed to smear Donald Trump and his supporters while advancing a leftist agenda. He also reveals key details on how our information gatekeepers truly operate and why America's "fake news" moment might never end. Breitbart—and Trump—began banging the drum about "fake news" during the 2016 election, and it resonated with millions of voters because they intuitively knew the corporate media was willing to say or

write anything to achieve their political ends. It's a battle cry that continues to this day. Alex and his team of researchers elucidate the stunning details of the key "fake news" moments of the Trump era and take a deep dive into some of the right's favorite media targets: from Bloomberg, CNN, The Washington Post, and The New York Times to the tech elite in Silicon Valley. Deeply researched and eye-opening, *Breaking the News* rips back the curtain on the inner workings of how the establishment media weaponizes information to achieve their political and cultural ends.

The Newspaper Press in Kentucky - Herndon J. Evans 2014-07-11

The story of Kentucky's newspapers is the story of our political, economic, and social life. It is the story of issues and answers, the story of life and death. Newspapers, by their very nature, become sources of historical studies. They recount day by day or week by week the happenings, joyous or sorrowful, humorous or sad, enlightening or dull, experienced by those who live in the communities where they are printed or circulated. In 1787, five years before statehood, John Bradford established Kentucky's first newspaper in Lexington. The *Kentucky Gazette* was first in a long line of newspapers which, over the years, have served the people of the state. The *Newspaper Press in Kentucky*, by revered Kentucky journalist Herndon J. Evans, illuminates the early days of Kentucky newspapers and their influence.

SOCIOLOGICAL AND CULTURAL ASPECTS OF MEDIA AND COMMUNICATIONS - Anant Chauhan Vishwendra 2022-01-16

Mass media play a significant role in shaping public perceptions on a variety of important issues, both through the information that is dispensed through them and through the interpretations they place upon

this information. They also play a large role in shaping modern culture, by selecting and portraying a particular set of beliefs, values, and traditions (an entire way of life), as reality. That is, by portraying a certain interpretation of reality, they shape reality to be more in line with that interpretation. Mass communication is "the process by which a person, group of people or large organization creates a message and transmits it through some type of medium to a large, anonymous, heterogeneous audience." Mass communication is regularly associated with media influence or media effects, and media studies. Mass communication is a branch of social science that falls under the larger umbrella of communication studies or communication. With the rise of mass society and the rapid growth of the mass media starting in the nineteenth century, the public, media critics, and scholars have raised questions about the effects various media might have on society and individuals. These effects were viewed initially as being strong, direct, and relatively uniform on the population as a whole. More recently, research has expanded to move beyond looking just at the effects that media and media content have on individuals and society to examinations of how living in a world with all-pervasive media changes the nature of our interactions and culture. It is hoped that the book will serve the purpose of students and scholars of the subject and can be useful to them in allied fields.
