Painting in Italy, 1500-1600 - Sydney Joseph Freedberg 1993-01-01

'Art', declared Vasari in Lives of the Artists, has been reborn and reached perfection in our time'. Indeed the roster of great names in painting of the Cinquecento, which only begins with those of Leonardo, Michelangelo, and Raphael, appears to justify this grand claim. Professor Freedberg here discusses the individual painters and analyses the hallmarks of their work. He traces the classical style of the High Renaissance, the Mannerism that succeeded it, and the events, in North Italy especially, that resist stylistic categories. He has given order to this diversity, but at the same time has preserved the intense individuality of the works of art.

Plunder - Cynthia Saltzman 2021-05-11

One of The Christian Science Monitor's Ten Best Books of May "A highly original work of history . . . [Saltzman] has written a distinctive study that transcends both art and history and forces us to explore the connections between the two." —Roger Lowenstein, The Wall Street Journal A captivating study of Napoleon's plundering of Europe's art for the Louvre, told through the story of a Renaissance masterpiece seized from Venice Cynthia Saltzman's Plunder recounts the fate of Paolo Veronese's Wedding Feast at Cana, a vast, sublime canvas that the French, under the command of the young Napoleon Bonaparte, tore from a wall of the monastery of San Giorgio Maggiore, on an island in Venice, in 1797. Painted in 1563 during the Renaissance, the picture was immediately hailed as a masterpiece. Veronese had filled the scene with some 130 figures, lavishing color on the canvas to build the illusion that the viewers' space opened onto a biblical banquet taking place on a terrace in sixteenth-century Venice. Once pulled from the wall, the Venetian canvas crossed the Mediterranean rolled on a cylinder; soon after, artworks commandeered from Venice and Rome were triumphantly brought into Paris. In 1801, the Veronese went on exhibition at the Louvre, the new public art museum founded during the Revolution in the former palace of the French kings. As Saltzman tells the larger story of Napoleon's looting of Italian art and its role in the creation of the Louvre, she reveals the contradictions of his character: his thirst for greatness—to carry forward the finest aspects of civilization—and his ruthlessness in getting whatever he sought. After Napoleon's 1815 defeat at Waterloo, the Duke of Wellington and the Allies forced the French to return many of the Louvre's plundered paintings and sculptures. Nevertheless, The Wedding Feast at Cana remains in Paris to this day, hanging directly across from the Mona Lisa. Expertly researched and deftly told, Plunder chronicles one of the most

spectacular art appropriation campaigns in history, one that sheds light on a seminal historical figure and the complex origins of one of the great museums of the world.

Veronese : Magnificence in Renaissance Venice - Xavier F. Salomon 2014

"Paolo Veronese (1528-1588) was one of the great Venetian artists of the Renaissance, whose works were admired for their rich colours and mastery of theatrical narrative. His paintings ranged from decorative

fresco schemes and portraits to allegorical, biblical and historical subjects, produced for an aristocratic international audience. This definitive reappraisal of the artist also provides a fascinating account of painting and patronage in 16th-century Venice. Xavier F. Salomon traces Veronese's career from its beginnings in Verona, where he developed an art shaped by the rediscovery of antiquity, to Venice, where he established a successful workshop. Salomon's discussion of Veronese's entire output, including his monumental banquet scenes, illuminates the original function of every work, many of them designed for specific locations. Generous illustrations, including numerous details, reveal the distinctive tactile qualities of Veronese's technique and the beauty of his palette, whether rendering rich textiles, precious metals or female complexions. This splendid book makes a significant contribution to scholarship in the field of 16th-century Venetian painting"--Book jacket.

Lives of Veronese - Giorgio Vasari 2015-11

The painter Veronese's life is here displayed in several early biographies, each showcasing a different side of the artist "Never was a painter more nobly joyous, never did an artist take a greater delight in life, seeing it all as a kind of breezy festival and feeling it through the medium of perpetual success. . . He was the happiest of painters." --Henry James on Veronese, 1909 Collected here for the first time, these fascinating early biographies (one of which has never been translated before) describe and celebrate the astonishingly fertile art of Paolo Veronese. Most of what we know about Veronese comes from these three essays. "I have known this Paolino and I have seen his beautiful works. He deserves to have a great volume written in praise of him, for his pictures prove that he is second to no other painter," wrote Veronese's contemporary Annibale Carracci in the margins to his copy of Vasari's writings, continuing "and this fool passes over him in four lines. And just because he was not Florentine." It was indeed a measure of his fame that Vasari, whose Life of Veronese is reprinted here, should have overcome his pro-Tuscan prejudices to write about his great Venetian contemporary; and he was followed in this by another Florentine, the theorist Raffaele Borghini. But the most striking record of the impact of Veronese's art on his countrymen is the extensive biography by his fellow Venetian, Carlo Ridolfi. Entirely original in the seriousness and passion with which he approached his subject, Ridolfi permanently changed the course of writing about art. This is the first translation of his work into English, translated and introduced by Xavier F. Salomon, curator of "Veronese: Renaissance Magnificence" at the National Gallery, London. 50 pages of color illustrations cover the span of Veronese's breathtaking career.

Artistic Practices and Cultural Transfer in Early Modern Italy - Allison Sherman 2017-07-05

For too long, the 'centre' of the Renaissance has been considered to be Rome and the art produced in, or inspired by it. This collection of essays dedicated to Deborah Howard brings together an impressive group of internationally recognised scholars of art and architecture to showcase both the diversity within and the porosity between the 'centre' and 'periphery' in Renaissance art. Without abandoning Rome, but together with other centres of art production, the essays both shift their focus away from conventional categories and bring together recent trends in Renaissance studies, notably a focus on cultural contact, material culture and historiography. They explore the material mechanisms for the transmission and evolution of ideas, artistic training and networks, as well as the dynamics of collaboration and exchange between artists, theorists and patrons. The chapters, each with a wealth of groundbreaking research and previously unpublished documentary evidence, as well as innovative methodologies, reinterpret Italian art relating to canonical sites and artists such as Michelangelo, Titian, Tintoretto, Veronese, and Sebastiano del Piombo, in addition to showcasing the work of several hitherto neglected architects, painters, and an inimitable engineer-inventor.

Paolo Veronese - Richard Cocke 2017-10-05

This title was first published in 2001: Paolo Veronese: Piety and Display in an Age of Religious Reform examines the large body of religious paintings with which Veronese (1528 -1588) played a crucial role in shaping Venetian piety. With 117 illustrations (26 in colour) Richard Cocke sets Veronese's work into context, arguing his mastery of narrative has long been neglected, largely as a result of Sir Joshua Reynolds's criticism in his Discourses. The new expressiveness of Veronese's work in his final decade is linked with the decrees of the Council of Trent, which resulted in an enhanced display of paintings in Venetian palaces during the 1570s, matched by the renewed decorative schemes in the city's churches.

Delphi Complete Paintings of Paolo Veronese (Illustrated) - Paolo Veronese 2021-12-17

One of the principle painters of the sixteenth century Venetian school, Paolo Veronese produced monumental works, portraying allegorical, biblical and historical subjects in splendid colour, set against the backdrop of Renaissance architecture. A master of colour, Veronese also excelled at illusionary compositions that extend the eye beyond the actual confines of the room. After an early period of Mannerism, he developed a naturalist style of painting, which was influenced by Titian and would go on to

inspire the masters of the Baroque and later eras. His works are celebrated for their chromatic brilliance, sensibility of brushwork, aristocratic elegance and the sheer magnificence of spectacle.
