Linguistic perspectives from the classroom - 2004

Educational Assessment of Students - Anthony J. Nitko 2013-11-01

For a wide variety of courses in classroom assessment. This highly respected text offers the most comprehensive discussion of traditional and alternative assessments of any classroom assessment text—explaining, giving examples, discussing pros and cons, and showing how to construct virtually all of the traditional and alternative assessments teachers use in the classroom. The author explores assessment theories and research findings as they affect teaching and learning, and examines why, when, and how teachers should use assessment in the classroom. To the text's hundreds of practical examples are added checklists to aid in evaluating assessment vehicles and scores of strategies for assessing higher-order thinking, critical-thinking, and problem-solving skills.

Customer Communications, 2007-2008 - Maggie Jones 2007

If Not Now, When? - Camilla Arnold 2010-09-15

The world of work is changing dramatically. Jobs for life have long been a thing of the past and even as people move up the corporate ladder, they are questioning their choices and keen to consider new possibilities such as work/life balance and portfolio working. Those of us keen to change career often don't know where to start so it remains a pipe dream rather than a reality we can work towards. In this action-oriented and pragmatic book, expert career coaches Jane Barrett and Camilla Arnold address the common barriers to career change that they frequently encounter in their work, and give readers a proven roadmap to achieve their new job goals. If Not Now, When? includes first-hand experiences of successful career change but also quizzes, exercises and self-assessment tools to help readers make the best choice for them.

The pearson Guide to Bank Probationary Officer Recruitment Examinations - Vandana Thorpe 2008-09

Constructive Work with Offenders - Nigel Parton 2006-01-27

Constructive Work with Offenders offers a challenge to many of the assumptions of criminal justice policy and the dominant approaches to practice. The contributors advocate an emphasis on constructive work with offenders that harnesses their positive strengths and resources, and offers inclusive approaches to effective offender assessment and intervention. Taking a fresh look at much received knowledge, they proclaim that constructive work with offenders is both possible and increasingly warranted, and encourage practitioners to develop new skills and adapt existing expertise to the rapidly changing requirements of the criminal justice system. This book will be of interest to practitioners, trainers, managers, and researchers in the criminal justice system, as well as academics and students in the field of criminology and related disciplines.

How to Teach Grammar - Scott Thornbury 2008

100 questions and answers for job interview Offshore Drilling Platforms - PETROGAV INTERNATIONAL

This book offers you a brief, but very involved look into the operations in the drilling of an oil & gas wells that will help you to be prepared for job interview at oil & gas companies. From start to finish, you'll see a general prognosis of the drilling process. If you are new to the oil & gas industry, you'll enjoy having a leg up with the knowledge of these processes. If you are a seasoned oil & gas person, you'll enjoy reading what you may or may not know in these pages. This course provides a non-technical overview of the phases, operations and terminology used on offshore drilling platforms. It is intended also for non-drilling personnel who work in the offshore drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. No prior experience or knowledge of drilling operations is required. This course will provide participants a better understanding of the issues faced in all aspects of drilling operations, with a particular focus on the unique aspects of offshore operations.

Child Development and Education - Teresa M. McDevitt 2012-08-21
Child Development and Education is a comprehensive child development text written especially for educators. It helps students to translate developmental theories into practical implications for teaching and caring for youngsters with diverse backgrounds, characteristics and needs. The text draws from innumerable theoretical concepts, research studies conducted around the world and the authors' own experiences as parents, teachers, psychologists and researchers to identify strategies for promoting young people's physical, cognitive and social-emotional growth. In this Australian edition, contemporary Australian and New

Zealand research has been highlighted, and local educational structures, philosophies and controversies have been reflected.

Causes, Impacts and Solutions to Global Warming - Ibrahim Dincer
2013-10-29

Global Warming: Causes, Impacts and Solutions covers all aspects of global warming including its causes, impacts, and engineering solutions. Energy and environment policies and strategies are scientifically discussed to expose the best ways to reduce global warming effects and protect the environment and energy sources affected by human activities. The importance of green energy consumption on the reduction of global warming, energy saving and energy security are also discussed. This book also focuses on energy management and conservation strategies for better utilization of energy sources and technologies in buildings and industry as well as ways of improving energy efficiency at the end use, and introduces basic methods for designing and sizing cost-effective systems and determining whether it is economically efficient to invest in specific energy efficiency or renewable energy projects, and describes energy audit producers commonly used to improve the energy efficiency of residential and commercial buildings as well as industrial facilities. These features and more provide the tools necessary to reduce global warming and to improve energy management leading to higher energy efficiencies. In order to reduce the negative effects of global warming due to excessive use of fossil fuel technologies, the following alternative technologies are introduced from the engineering perspective: fuel cells, solar power generation technologies, energy recovery technologies, hydrogen energy technologies, wind energy technologies, geothermal energy technologies, and biomass energy technologies. These technologies are presented in detail and modeling studies including case studies can also be found in this book.

Enterprise Architecture for Strategic Management of Modern IT Solutions - Tiko Iyamu 2022-03-16

The popularity of enterprise architecture (EA) has increased in the last two decades, in both business and academic domains. Despite the cumulative interest from all sectors, the implementation and practice of EA have been entangled with numerous challenges and complexities. Consequently, some organisations continue to theorise the concept, which has ramifications on practice and return on investment (ROI). This has led to many studies that have been conducted, to understand the complexities impacting the implementation and practice of EA in organisations. Yet, the trajectory of some convolutions remains mystery in many quarters. This attributes to the struggle to articulate the value of EA in many environments. Hence many organisations find it difficult to apply EA for strategic management of modern information technology (IT) solutions. Enterprise Architecture for Strategic Management of Modern IT Solutions provides guidance on how to employ EA in deploying and managing IT solutions from pragmatic and implementable strategies' perspectives. Until now, implementation and practice of EA have been slow, despite its growing popularity and interest from all sectors. The author employs sociotechnical theories such as actor-network theory (ANT) and structuration theory (ST) as lenses to examine and explain why and how challenges and complexities exist and derail the implementation or practice of EA in organisations. By doing so, this serves to enable practitioners and readers to gain fresh insights on why the challenges exist and how they can be addressed in creating collaborative capabilities for business enhancement, sustainability, and competitiveness. The book provides detailed insights on how to apply EA for organisational purposes, from three main fronts. First, it explains the implications that lack of understanding of EA have on organisational activities and processes. Second, it examines the challenges and complexities that hinder the implementation and practice of EA in

organisations. Third, it proposes models and frameworks on how EA can be applied for strategic management of modern IT solutions in organisations. Written for postgraduates, researchers, academics, and professionals in the fields of EA, IT, and information systems, this book provides a valuable resource that will enable and enhance implementation and practice of EA including future studies.

Daily Life of Women: An Encyclopedia from Ancient Times to the Present [3 volumes] - Colleen Boyett 2020-12-31

Indispensable for the student or researcher studying women's history, this book draws upon a wide array of cultural settings and time periods in which women displayed agency by carrying out their daily economic, familial, artistic, and religious obligations. Since record keeping began, history has been written by a relatively few elite men. Insights into women's history are left to be gleaned by scholars who undertake careful readings of ancient literature, examine archaeological artifacts, and study popular culture, such as folktales, musical traditions, and art. For some historical periods and geographic regions, this is the only way to develop some sense of what daily life might have been like for women in a particular time and place. This reference explores the daily life of women across civilizations. The work is organized in sections on different civilizations from around the world, arranged chronologically. Within each society, the encyclopedia highlights the roles of women within five broad thematic categories: the arts, economics and work, family and community life, recreation and social customs, and religious life. Included are numerous sidebars containing additional information, document excerpts, images, and suggestions for further reading. An introduction provides an overview the daily life of women through history, and a timeline highlights key events in women's history. Chronologically arranged sections on civilizations from across world history provide information on the daily life of women living in those societies. For each civilization, broad categories of daily life are broken into subsections, with each offering reference entries on specific topics. Photos help users visualize important topics, and sidebars provide interesting tangential information. Bibliographies direct readers to additional resources.

Technology, Outsourcing and Transforming HR - Graeme Martin 2008

This book examines the progress made in e-enabling the HR function and the relationship with outsourcing. The editors will review and analyse recent developments in the application of outsourcing and ICT to the HR function and its overall contribution to organizational aims. This text aims to fill the gap in current literature, by providing accessible guidance on how to tackle the e-enablement of the function and on the factors

associated with successful outsourcing. There is no single text that adequately deals with this increasingly important problem and which has been recognised by the CIPD as a key area of research for their forward programme. The contributors all have leading-edge knowledge and practical experience and aim to provide practical guidance for organizations and HR professionals.

English for Information Technology - Maja Olejniczak 2011

This series is designed to meet the English language needs of learners in a range of vocational specialisations.

New Zealand Books in Print 2004 - Thorpe-Bowker Staff 2004-06
