Sailing with Noah - Jeffrey P. Bonner 2013-06-03

Written by the president of the nation's number-one zoo, *Sailing with Noah* is an intensely personal, behind-the-scenes look at modern zoos. Jeffrey P. Bonner, who was trained as an anthropologist and came to the zoo world quite by accident, shares some of the most compelling stories ever told about contemporary zoos. The stories jump between zoos in different cities and between countries on different continents. Some are fun and funny. Others are sad, even tragic. Pete Hoskins, the director of the Philadelphia Zoo, is in bed, sound asleep, when his phone rings. . . . "There's been a fire in the World of Primates," he is told. "You've got to get over here." Whatever he has been dreaming, it is nothing like the nightmare he will find now that he is awake. . . . "They're all gone. They're all gone." All of the animals in the building—the gorillas, the lemurs, the orangutans, and the gibbons—all twenty-three of them are dead. Written in a lively, accessible style, *Sailing with Noah* explores the role of zoos in today's society and their future as institutions of education, conservation, and research. Along the way, Bonner relates a variety of true stories about animals and those who care for them (or abuse them), offering his perspective on heavily publicized incidents and describing less-well-known events with compassion and humor in turn. By bringing the stories of the animals' lives before us, Bonner gives them a voice. He strongly believes that zoos must act for living things, and he

argues that conservation is a shared responsibility of all mankind. This book helps us to understand why biodiversity is important and what it means to be a steward of life on earth. From the day-to-day aspects of caring for some of the world's most exotic creatures to the role of zoos as field conservation organizations, saving wild things in wild places, this book takes the reader on an incredible journey—a journey that begins within the zoo and continues around the globe. Everyone—from zoo visitors to animal lovers to professional conservationists, the young and old alike—will be fascinated by this extraordinary book.

Crossroads of the Natural World - Tom Earnhardt 2013-04-22

In this richly illustrated love letter to the wild places and natural wonders of North Carolina, Tom Earnhardt, writer and host of UNC-TV's Exploring North Carolina and lifelong conservationist, seamlessly ties deep geological time and forgotten species from our distant past to the

unparalleled biodiversity of today. With varied topography and a climate that is simultaneously subtropical, temperate, and subarctic, he shows that North Carolina is a meeting place for living things more commonly found far to the north and south. Highlighting the ways in which the state is a unique ecological crossroads, Earnhardt's research, insightful writing, and stunning photography will both teach and inspire.

Crossroads of the Natural World invites readers to engage a variety of topics, including the impacts of invasive species, the importance of forested buffers along our rivers, the role of naturalists, and the challenges facing the state in a time of climate change and sea-level rise. By sharing his own journey of more than sixty years, Earnhardt entices North Carolinians of every age to explore the natural diversity of our state.

High Latitude Sailing - Jon Amtrup 2020-09-03

Sailing in cold waters is challenging, but hugely rewarding. And when you venture into the high latitudes you find yourself in some of the world's last real wildernesses. In recent years climate change has made these regions more accessible to small boats, and it is now possible to venture further afield in search of adventure. With practical advice, stunning photography and first-hand accounts of voyages from world-renowned experts, this book offers hard-won wisdom on all aspects of sailing in cold waters:

- Preparing yourself: good routines, assessing risk and preparing your crew
- Preparing your boat: design, heating, engine, steering, anchors and electrics
- Sailing in ice: instrumentation, charts, and what to do when you get stuck
- Safety: MOB, polar bears, glaciers and dinghy procedure
- Communication: VHF, satellite and SSB
- Weather: interpreting GRIB files and reading ice charts
- Anchoring and mooring: types and numbers of anchors and mooring lines
- Clothes: hiking and skiwear; the three-layer principle
- Cruising areas: Svalbard, Antarctica, South Georgia and many more

Whether it's tackling the North-West Passage aboard your own yacht or a more modest voyage, heading to Antarctica or keeping your boat in the water for the quieter

and often more beautiful winter season, this book is essential reading for all sailors preparing for enjoyable and safe sailing in cold waters.

Around the World in 80 Days - The 1874 Play - Jules Verne 2015-06-14
Jules Verne's most famous novel was originally conceived as a play—and had its greatest 19th century success as a stage hit the author himself adapted. Running for thousands of performances in many different countries, including the United States, here is the original playscript, translated directly from the French by the producers of the original Broadway presentation, not published since 1874. Like filmmakers after him, Verne understood the need to make changes for the stage, and in collaboration with Adolphe d'Ennery created a distinct variation, a play with many different characters and episodes than are in the novel. Included in this volume is an introduction about how the play was created and staged, together with the first translation of Verne's essay, "The Meridians and the Calendar," explaining how Phileas Fogg accomplished his feat.

Sailing into History - Frank Boles 2017-01-01

The Great Lakes create a vast transportation network that supports a massive shipping industry. In this volume, seamanship, cargo, competition, cooperation, technology, engineering, business, unions, government decisions, and international agreements all come together to create a story of unrivaled interest about the Great Lakes ships and the crews that sailed them in the twentieth century. This complex and

multifaceted tale begins in iron and coal mines, with the movement of the raw ingredients of industrial America across docks into ever larger ships using increasingly complicated tools and technology. The shipping industry was an expensive challenge, as it required huge investments of capital, caused bitter labor disputes, and needed direct government intervention to literally remake the lakes to accommodate the ships. It also demanded one of the most integrated international systems of regulation and navigation in the world to sail a ship from Duluth to upstate New York. *Sailing into History* describes the fascinating history of a century of achievements and setbacks, unimagined change mixed with surprising stability.

Giants of the Seas - Aaron Saunders 2013-10-01

The cruise ship market is a 30 billion-dollar industry, and in 2013 it is estimated that it will carry more than 20 million passengers; nor is there any sign of a slow down in the seven percent annual growth. What keeps the passengers coming in such huge numbers isn't the food, the ports or the entertainment. They come for the magnificent floating palaces themselves, the giants of the sea. In this new book, the author showcases the most influential cruise ships of the last three decades beginning with Royal Caribbean's ground-breaking *Sovereign of the*

Seas. When she was launched in 1988 she was the largest passenger ship constructed since Cunard's *Queen Mary* entered service some 48 years earlier, and her entry into service sparked a fiercely competitive building boom that continues to this day. The reader is taken aboard thirty of the most spectacular ships to reveal how their innovative designs changed the landscape of modern cruising. By employing original and archival photographs, deck plans, cruise programmes, as well as the author's intimate knowledge of many of these vessels, a unique picture is built up of these great ships and it becomes clear that the true Golden Age of Cruising is not in some distant past but exists right now, and that its origins can be traced back to one ship, launched in 1988. A truly sumptuous and fascinating book for all those drawn to the world of the modern cruise ship. As seen in *Ships Monthly Magazine*

Calendar Boy - Andy Quan 2001

On the edge of adulthood, self-discovery, coming out; in university towns, Europe, Vancouver, Toronto, Sydney, the protagonists of "Calendar Boy" unravel cultural heritage, community, identity on the road to -- they hope -- love, happiness, and self-acceptance. Set around the globe, sixteen adventurous stories weave fiction with real-life smarts, guts and oomph underpinning them. Quan shifts gears effortlessly from street-smart colloquial voice to rapid-fire monologue to bemused, exhilarated tone of immigrants new to Canada or to gay male culture. With one foot in urban Canadian life and the other in the global village, "Calendar Boy" will hit home even as it makes you see the world in new ways.

Cruising World - 1998-01

Across Islands and Oceans - James Baldwin 2012-01-31

Across Islands and Oceans is the memoir of twenty-five year-old James Baldwin and his epic two-year, solo circumnavigation in *Atom*, his trusty but aging twenty-eight foot sailboat. Early on and "as broke as [he] dared to be," James determined not only to sail around the world, but also to hike across every island that he visits. His inland forays are unique in the literature of circumnavigators as he finds danger, humor, friendship and romance in places most sailors will never visit. James' story unfolds in his

earnest exploration of distant lands and seas, his meditations on the people whose lives he touched, and his greater voyage to explore his own private ocean of solitude. His adventure is not merely an attempt to seek thrills, nor even to tempt death, but rather a voyage of discovery as he set out in the direction of his youthful dreams to meet the life he imagined. "Go seek what you will, where you will, but be a seeker all of your life." -James Baldwin

Setting Sail into the Age of Digital Local Government - Tony E. Wohlers 2015-12-11

The Internet and related technologies have dramatically changed the way we live, work, socialize, and even topple national governments. As the Internet becomes increasingly pervasive across societies, we find more often that governments adopt Information Communication Technologies (ICTs) as part of their toolbox for facilitating efficient and citizen-oriented service delivery at all levels of government. Local governments across the major industrialized democracies have not been an exception to this trend and have set sail into the age of digital government. Closest to their citizens, towns and cities have adopted ICTs to facilitate electronic government (e-government). While research on local e-government functionality in terms of information dissemination, service delivery, and citizen engagement continues at an impressive empirical and methodological pace, gaps in our knowledge remain. Cross-national comparative research on local e-government that covers a wide range of municipalities in combination with in-depth case study analyses is lacking. Informed by a comparative case study approach, this book seeks to narrow that gap and offer practical policy solutions to facilitate local e-government. We do so by pursuing both a macro and micro perspective of e-government functionality in the federal republics of Germany and the United States and unitary France and Japan. The macro perspective focuses on the state and scope of e-government functionality across a large number of randomly selected municipalities of all sizes in these advanced industrialized countries. Based on a small sample of case studies, the micro perspective analyzes the successful

implementation of e-government in Seattle (United States), Nuremberg (Germany), Bordeaux (France), and Shizuoka City (Japan).

Sail - Timothy Jeffery 2016-10-27

Whether it is to test the high seas on around-the-world events in the glory of 49er yachts, to cut through choppy coastal waters on a Lazer racing for Olympic Gold or to set team against team in the great cup challenges, Sail is a celebration of the adventure and skill of one of mankind's oldest sports. Including chapters on the greatest races and their class divisions and the incredible and inspirational stories of the world's greatest sailors - from Ellen MacArthur to Seve Jarvin, Tony Bullimore to Vinny Lauwers - homage is paid to those who have mastered their boats and set out to conquer the seas. Sail also includes detailed technical analysis and intricate illustrations on each classification of racing boat, explained by the experts in their field, to give a complete account of the world of sailing competition.

Half Fast - Randy Baker 2019-09-12

Ever thought of ditching your conventional life to buy a sailboat and go traveling the world as a modern-day sea nomad? Half Fast is the true story of a married couple in their thirties who do just that-a move some of their family and friends consider to be a 'half-assed scheme' at best. With little money and even even less nautical experience they leave their small-town home in Arkansas to embark on an adventure they hope will last for a year or two but which evolves into a quarter-century voyage of discovery spanning half the world. Come along with Randy and Cheryl as

they cruise their small boat to intriguing destinations that you won't find in any tourist brochure. Along the way they discover the best and worst the sailing life has to offer as they visit twenty-nine countries in the Caribbean, Central and South America and the South Pacific. Their adventures and misadventures include encounters with hurricanes, thieves, drug smugglers and a disastrous tsunami as well as lasting new friendships formed with local people and fellow sailors all along their route. Cruising under sail is a lifestyle like no other and though there are sometimes hardships, those who take the plunge will be rewarded with a life of adventure and freedom that may be impossible to find any other way in the modern world.

Sailing Alone Around the Room - Billy Collins 2011-08-10

Sailing Alone Around the Room, by America's Poet Laureate, Billy Collins, contains both new poems and a generous gathering from his earlier collections *The Apple That Astonished Paris*, *Questions About Angels*, *The Art of Drowning*, and *Picnic, Lightning*. These poems show Collins at his best, performing the kinds of distinctive poetic maneuvers that have delighted and fascinated so many readers. They may begin in curiosity and end in grief; they may start with irony and end with lyric transformation; they may, and often do, begin with the everyday and end in the infinite. Possessed of a unique voice that is at once plain and melodic, Billy Collins has managed to enrich American poetry while greatly widening the circle of its audience.

Under Construction: Logics of Urbanism in the Gulf Region - Steffen Wippel 2016-02-17

Interdisciplinary in approach, this volume explores and deciphers the symbolic value and iconicity of the built environment in the Arab Gulf Region, its aesthetics, language and performative characteristics. Bringing together a range of studies by artists, curators and scholars, it demonstrates how Dubai appeared - at least until the financial crisis - to be leading the construction race and has already completed a large number of its landmark architecture and strategic facilities. In contrast, cities like the Qatari capital Doha still appear to be heavily 'under construction' and in countries like the Sultanate of Oman, ultra-luxury tourism projects were started only recently. While the construction of artificial islands, theme parks and prestige sport facilities has attracted considerable attention, much less is known about the region's widespread implementation of innovative infrastructure such as global container ports, free zones, inter-island causeways and metro lines. This volume argues that these endeavours are not simply part of a strategy to prepare for the post-oil era for future economic survival and prosperity in the Lower Gulf region, but that they are also aiming to strengthen identitarian patterns and specific national brands. In doing so, they exhibit similar, yet remarkably diverse modes of engaging with certain global trends and present - questionably - distinct ideas for putting themselves on the global map. Each country aims to grab attention with regard to the world-wide flow of goods and capital and thus provide its own citizens with a socially acceptable trajectory for the future. By doing that, the countries in the Gulf are articulating a new semiotic and paradigm of urban development. For the first time, this volume maps these trends in their relation to architecture and infrastructure, in

particular by treating them as semiotics in their own right. It suggests that recent developments in this region of the world not only represent [The Coaching Calendar: daily inspiration from the 'Stress-less' Coach](#) - Jeff Hutchens

Routledge Handbook of Sports Event Management - Milena M. Parent
2017-07-14

From the Olympic Games to community-level competitions, sports events can be complex and pose a particular set of managerial challenges. The *Routledge Handbook of Sports Event Management* surveys the management of sports events around the world of every size and scale, from small to mega-events, including one-off and recurring events, and single-sport and multi-sport events. The book adopts a unique stakeholder perspective, structured around the groups and individuals who have an interest in and co-create sports events, including organising committees, promoters, sport organisations, spectators, community groups, sponsors, host governments, the media and NGOs. Each chapter addresses a specific stakeholder, defines that stakeholder and its relationships with sports events, describes the managerial requirements for a successful event, assesses current research and directions for future research, and outlines the normative dimensions of stakeholder engagement (such as sustainability and legacy). No other book takes such a broad view of sports event management, surveying key theory, current research, best practice, and moral and ethical considerations in one volume. With contributions from leading sport and event scholars from around the world, the *Routledge Handbook of Sports Event Management* is essential reading for any advanced student, researcher or professional with an interest in sport management, sport development, sport policy or events.

The Routledge Companion to Marine and Maritime Worlds 1400-1800 - Claire Jowitt
2020-05-21

The *Routledge Companion to Marine and Maritime Worlds, 1400–1800* explores early modern maritime history, culture, and the current state of the research and approaches taken by experts in the field. Ranging from

cartography to poetry and decorative design to naval warfare, the book shows how once-traditional and often Euro-chauvinistic depictions of oceanic ‘mastery’ during the early modern period have been replaced by newer global ideas. This comprehensive volume challenges underlying assumptions by balancing its assessment of the consequences and accomplishments of European navigators in the era of Columbus, da Gama, and Magellan, with an awareness of the sophistication and maritime expertise in Asia, the Arab world, and the Americas. By imparting riveting new stories and global perceptions of maritime history and culture, the contributors provide readers with fresh insights concerning early modern entanglements between humans and the vast, unpredictable ocean. With maritime studies growing and the ocean’s health in decline, this volume is essential reading for academics and students interested in the historicization of the ocean and the ways early modern cultures both conceptualized and utilized seas.

Sailing a Serious Ocean: Sailboats, Storms, Stories and Lessons Learned from 30 Years at Sea - John Kretschmer
2013-10-18

"I know you'll want to read more after you finish *Sailing a Serious Ocean*. And be warned, you'll very likely want to sail with John, perhaps across an ocean." -- DALLAS MURPHY, AUTHOR OF *ROUNDING THE HORN*
After sailing 300,000 miles and weathering dozens of storms in all the world's oceans, John Kretschmer has plenty of stories and advice to share. John's offshore training passages sell out a year in advance and his entertaining presentations are popular at boat shows and yacht clubs all over the English speaking world. John's talent for storytelling enchants his audience as it soaks up the lessons he learned during his often-challenging voyages. Now you can take a seat next to John--at a lesser cost--and get the knowledge you need to fulfill your own dream of blue-water adventure. In *Sailing a Serious Ocean*, John tells you what to expect when sailing the oceans and shows how to sail safely across them. His tales of storm encounters and other examples of extreme seamanship will help you prepare for your journey and give you confidence to handle any situation—even heavy weather. Through his personal stories, John will guide you through the whole process of choosing the right boat,

outfitting with the right gear, planning your route, navigating the ocean, and understanding the nuances of life at sea. Our oceans are beautiful yet unpredictable—water that is at one moment a natural mirror for the glowing sun can turn into a foamy, raging wall of fury. John knows our oceans, and he is one of the best teachers of taming and enjoying them. Before you set off across the big blue, turn to John for his inspirational stories and hard-learned advice and discover the serious sailor in you.

Insularity, Identity and Epigraphy in the Roman World - Javier Velaza 2017-05-11

This book explores the subject of islands, their essence and identity, their

isolation and their relationships in the Ancient world. It investigates Greek and Roman concepts of insularity, and their practical consequences for the political, economic and social life of the Empire. The contributions examine whether being related to an island was an externally or internally distinctive feature, and whether a tension between insularity and globalisation can be detected in this period. The book also looks at whether there is an insular material culture, an island-based approach to sacredness, or an island-based category of epigraphy.
