Configuring SAP Asset Accounting - Narayanan Veeriah 2020-06-14
Configuring SAP Asset Accounting, based on the latest version of SAP S/4HANA Finance, is a complete guide to comprehend and configure SAP Asset Accounting (FI-AA). The book comes from the author who has written several books on SAP, including 'Configuring Financial Accounting in SAP ERP' (3rd Edition), by SAP Press (2018). This book follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of context-based additional information across Chapters, for better assimilation of concepts / settings. The entire content of the book has been presented as in SAP Implementation Guide with appropriate menu paths and Transactions. Coverage: SAP HANA SAP S/4HANA SAP S/4HANA Finance Case Study Asset Accounting: Overview Organizational Structures Structuring Fixed Assets in FI-AA Integration General Valuation Depreciation Special Valuations Master Data Transactions Information System Asset Data Transfer Preparations for Going Live Overview for Experts In this book: You will learn about SAP HANA, SAP S/4HANA and SAP S/4HANA Finance. You will learn how to use SAP FI-AA to manage your business entity's fixed assets internationally. You will learn how to portray your organizational structure. You will understand what a 'chart of depreciation' is and how the 'depreciation areas' enable managing the rules for asset depreciation / valuation. You will learn how to structure assets. You will learn FI-AA's integration with SAP's other application components, including G/L Accounting. You will learn how to manage general / special valuation, to meet differing business needs. You will learn how SAP supports both automatic (ordinary & special depreciation) and manual depreciation (unplanned depreciation & transfer of reserves). You will understand how SAP carries out depreciation calculation using 'Depreciation Calculation Program'. You will learn how information is arranged in an asset master record, in general master data area and in the data area for calculating asset values. You will learn about various 'transaction types', for carrying out asset transactions including acquisitions, retirements, transfers etc. You will learn about SAP Queries, asset history sheet etc., as a part of FI-AA Information System. You will learn how to undertake legacy asset data transfer into SAP FI-AA. As a part of going live, you will learn about production startup activities. You will learn how to use the 'overview for experts' functionality to check / verify configuration. In all, you will find this book easy to use as a desktop-reference for configuring SAP FI-AA.

Configuring SAP Financial Accounting - Vol. I - Narayanan Veeriah 2020-06-30

This book on 'Configuring SAP Financial Accounting' in SAP S/4HANA Finance, has been published in two volumes: Volume I and Volume II. The Volume I (this book) covers: Case Study Enterprise Structure FI Global Settings I (Fields, Ledgers, Fiscal Year, Posting Period, Parallel Accounting, Integration of SAP CO with SAP FI, and Company Code Global Parameters) FI Global Settings II (Documents, Inflation Accounting and Correspondence) FI Global Settings III (Taxes including Extended Withholding Tax) G/L Accounting The Volume II covers: Case Study Accounts Receivable and Accounts Payable Contract Accounts Receivable and Payable Bank Accounting Asset Accounting Here, in Volume I, you will learn about the context and relevance of SAP HANA, SAP S/4HANA and SAP S/4HANA Finance, before actually learning the configuration of SAP Financial Accounting. This book follows a case-study approach with a story-board technique, that provides you with the required business background for a given configuration activity. Towards configuring SAP FI, you will start your learning with SAP enterprise structure focussing on SAP FI/CO organizational units, their definition and assignment. Then, you will learn about FI global settings, in great detail, spread over three Chapters. You will learn about fields, ledgers, field status variants, fiscal year and posting periods. You will also learn parallel accounting, integration of SAP Controlling with SAP FI and configuring company code global parameters. Later, you will learn about documents (document structure, document types, posting keys, screen variants, document change rules, bar code entry, tolerance groups, summarization, default values, business transaction types, recurring entries, document parking and document archiving) besides inflation accounting and correspondence. Finally, in FI global settings, you will learn taxes: the tax on sales and purchases, the settings required for calculation / posting and interfacing your SAP system with external tax application (Vertex). You will also learn about withholding tax, including extended withholding tax: the configuration settings and how to manage withholding tax changeover. You will also learn SAP G/L Accounting, in great detail, covering the preparations required for creating the master data including chart of accounts, account groups, sample accounts etc. You will learn how to create / process G/L accounts, besides understanding the configuration towards business transactions like document splitting, cross-company code transactions, open item clearing, balance interest calculation, closing operations, and preparing for 'going live'. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you understand a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy comprehension. You will come across with appropriate menu paths and Transactions, to help you to navigate the various activities. In all, you can use this book as a desktop-reference for configuring SAP FI. As the Chapters have been progressively elaborated, you will certainly find this as informative and easy to comprehend.

Configuring SAP Accounts Receivable & Accounts Payable -

Narayanan Veeriah 2020-08-11

This book on 'Configuring SAP Accounts Receivable & Accounts Payable (SAP S/4HANA Finance)' covers: Case Study Accounts Receivable and Accounts Payable Customer Accounts Vendor Accounts Incoming Invoices / Credit Memos Release for Payment Outgoing Payments Outgoing Invoices / Credit Memos Incoming Payments Payments with Payment Cards Dunning Open Item Clearing Down Payment Received Down Payment Made Adjustment Posting / Reversal Interest Calculation Closing Information System Apps for FI-A/R & FI-A/P The book starts with a case study that forms the basis for further discussions across the various Chapters. The case study mirrors a real life business enterprise that wants to implement SAP Accounts Receivable and Accounts Payable components, as a part of configuring SAP FI. The book provides an overview of SAP Accounts Receivable (FI-A/R) and Accounts Payable (FI-A/P). It, then, goes on to discuss customer and vendor accounts, in detail. It outlines the structure of customer / vendor master records, and elaborates the preparations and the configuration settings that you may need to make in the system to create / change / delete the master records. It discusses the various business transactions of both FI-A/R and FI-A/P viz., incoming invoices / credit memos, release for payment, outgoing payments, outgoing invoices / credit memos, incoming payments, payments with payment cards, dunning, open item clearing, down payment received / made, adjustment posting / reversal, interest calculation, closing, information system and Apps for SAP FI-A/R and FI-A/P. It helps you to comprehend the configuration activities that you need to complete, in setting up these transactions in the system. For example, on configuring the settings for outgoing payments, it discusses (in detail) the global settings and the steps that are required for setting up the manual and the automatic payments. In dunning, it deals with basic settings, dunning procedure, printout, dunning process flow etc. In interest calculation, it starts with the fields (in customer / vendor master) that are relevant for item interest calculation and goes on to discuss the interest calculation process, global settings, actual interest calculation, interest posting and interest letters. In closing, it discusses the important closing operations like count (including balance confirmation), value and reclassify, in great detail. The book also discusses the FI-A/R and FI-A/P information system besides discussing the Apps for accounts receivable / accounts payable accountants, managers and credit controllers. As with my other books on SAP, this also follows a case-study approach to make your learning easy. Every effort has been taken to guide you, step-by-step, in configuring your SAP system in implementing SAP Accounts Receivable and Accounts Payable, in SAP S/4HANA (1909), to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you understand better a topic or a setting or a concept. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide) for easy comprehension. You will come across with appropriate menu paths and Transactions, to help you to navigate the various configuration activities. In all, you can use this book as a desktop-reference for configuring SAP FI-A/R and FI-A/P.

SAP S/4HANA Financial Accounting Configuration - Andrew Okungbowa 2022-12-30

Upgrade your knowledge to learn S/4HANA, the latest version of the SAP ERP system, with its built-in intelligent technologies, including AI, machine learning, and advanced analytics. Since the first edition of this book published as SAP ERP Financial and Controlling: Configuration and Use Management, the perspective has changed significantly as S/4HANA now comes with new features, such as FIORI (new GUI), which focuses on flexible app style development and interactivity with mobile phones. It also has a universal journal, which helps in data integration in a single location, such as centralized processing, and is faster than ECC S/3. It merges FI & CO efficiently, which enables document posting in the Controlling area setup. General Ledger Accounts (FI) and Cost Element (CO) are mapped together in a way that cost elements (both primary and secondary) are part of G/L accounts. And a mandatory setup of customer-vendor integration with business partners is included vs the earlier ECC creation with separate vendor master and customer master. This updated edition presents new features in SAP S/4HANA, with in-depth coverage of the FI syllabus in SAP S/4HANA. A practical and hands-on approach includes scenarios with real-life examples and practical illustrations. There is no unnecessary jargon in this configuration and end-user manual. What You Will Learn Configure SAP FI as a pro in S/4 Master

Sap Fico Covers Sap Ecc 6.0 Black Book - Bhushan Jairamdas Mamtani

This book, SAP FICO Black Book, brings to you a simple to the point non-technical jargon free discussion on SAP FICO along with comprehensive real life examples based on authors real life implementations. One of the first FICO books which cover business cycles rather than plain technical configuration. Targeting intermediate and advanced-level readers, this book discusses Implementation Tools; Enterprise Structure; New GL Configuration; Online Document Splitting; AR; AP; AA; Bank accounting; Integration of FI with Other Modules; Business Processes; Controlling; Cost Center Accounting; Product Costing; Material Ledger Configuration and Profit Center Accounting. The author has spent the last 10 years of his career acquiring this knowledge through the trial and error method. It covers the end user as well as technical configuration perspective. It can serve as a starting point for the people who want to comprehend how the financial and managerial accounting functions in an ERP. Most of the FICO text deals with technical configuration and throws little light on its functional implementation. This book is author's humble attempt to bridge the gap by providing real life scenarios along with technical details.

SAP ERP Financial Accounting and Controlling - Andrew

Okungbowa 2015-06-08

SAP ERP modules are notoriously hard to configure and use effectively without a lot of practice and experience. But as SAP ERP Financial Accounting and Controlling: Configuration and Use Management shows, it doesn't have to be so difficult. The book takes a systematic approach that leads SAP Financial Accounting and Controlling (FICO) users step by step through configuring and using all the program's facets. This approach makes configuration complexities manageable. The book's author—SAP expert, trainer, and accountant Andrew Okungbowa—ensures that both you and your end users are up and running quickly and confidently with FICO. He also provides sound and tested procedures that ensure your implementation works without error. SAP ERP Financial Accounting and Controlling: Configuration and Use Management is in fact the most comprehensive and easy-to-follow SAP FICO configuration book in the market. It incorporates a hands-on approach, with hundreds of screen shots and practical examples, that allows a person without prior configuration training to make SAP FICO ready for use in the enterprise. You'll find that you don't need to be a rocket scientist to grasp the concepts explained and apply them to your work—even when the finances are complicated, such as with the ins and outs of taxes, currency conversions, or special general ledger entries such as down payments or bills of exchange. Providing an in-depth coverage of both configuration and end user procedures, the book covers most aspects of the SAP FICO certification syllabus—SAP's view of the module's key tasks and procedures—including: Configuring and using the general ledger and accounts payable and receivable screens Configuring and completing closing procedures, asset accounting, and financial reporting Configuring global settings and enterprise variables Accounting for both profit and cost centers Creating a house bank Integrating FICO with other SAP modules Taking a jargon-free tone and providing an abundance of examples, Andrew Okungbowa provides a clear understanding of configuration techniques and the breadth of functionalities encompassed by SAP FICO. And as an accountant, Okungbowa understands the needs of end users as well as of those answering to the CIO.

Transportation Management with SAP TM 9 - Jayant Daithankar
2014-08-07

The implementation of a TMS solution is a highly complex and mission critical project. If executed correctly a good TMS can deliver a number of benefits to the organization in terms of optimization, greater efficiency, reduced errors and improved revenue through accurate invoicing.

However a number of projects fail to realize these benefits for a host of reasons such as an incorrect product selection, over customization of the system and lack of detailed processes. The evaluation and selection of the right transportation management system is a very critical step in the successful implementation of a TMS product as well as ensuring that the organization is able to realize the benefits expected from the system.

Transportation Management with SAP TM 9 is a guide for CIO/CXOs evaluating options for various transportation management solutions available in the market and helps inappropriate decision making before committing investment. A proven evaluation framework and guidance provided in the book can help decision makers with product selection and help to create a business case for management approval and design a future roadmap for the organization. The book provides a comprehensive understanding of what SAP transportation management is and is useful for teams involved in TM Implementation and roll outs to ensure preparedness. The book explains end-to-end freight life cycle processes, functional system landscape, implementation challenges and post go-live precautions required to optimize investments in SAP TM.

Transportation Management with SAP TM 9 also acts as a step by step implementation guide with details of configuration required to set up a TM9 system. This book also covers the upgrade of SAP TM8 to SAP TM9 which will be useful for existing clients who are on TM 8. Nonavailability of SAP TM skilled resources is a major challenge faced by organizations and the book provides a detailed competency building plan along with skill set requirements to create a competent and trained workforce to manage-transformation. The current book available in the market on SAP TM is based on Version 6 release which does not cover air freight processes. Our book covers end-to-end air freight configuration scenarios for logistic companies.
