**Entrepreneurship and Sustainability** - Dr

Daphne Halkias 2012-10-28

In Entrepreneurship and Sustainability the editors and contributors challenge the notion that not-for-profit social entrepreneurship is the only sort that can lead to the alleviation of poverty. Entrepreneurship for profit is not just about the entrepreneur doing well.

Entrepreneurs worldwide are leading successful for-profit ventures which contribute to poverty alleviation in their communities. With the challenge of global poverty before them, entrepreneurs continue to develop innovative, business-oriented ventures that deliver promising solutions to this complex and urgent agenda. This book explores how to bring commercial investors together with those who are best placed to reach the poorest customers. With case studies from around the World, the focus of the contributions is on the new breed of entrepreneurs who are blending a profit motive

with a desire to make a difference in their communities and beyond borders. A number of the contributions here also recognize that whilst much research has been devoted to poverty alleviation in developing countries, this is only part of the story. Studies in this volume also focus upon enterprise solutions to poverty in pockets of significant deprivation in high-income countries, such as the Appalachia region of the US, in parts of Europe, and the richer Asian countries. Much has been written about the achievements of socially orientated non-profit microfinance institutions. This valuable, academically rigorous but accessible book will help academics, policy makers, and business people consider what the next generation of more commercially orientated banks for the 'bottom billion' might look like.

Mona and Rita seem to possess special (fantastic or witch-like) powers and the ability to bring about great change in the world, even as they struggle with paralyzing fears and

challenges in their own lives. These meetings, although important to both women, have become increasingly irregular and are at risk of ending altogether if the source and force of their connection is not examined and revived. Mona and Rita are more than friends, they are like two halves of one being, like two lovers on the verge of breaking-up or breaking free. For Rita, change is afoot. Mona, however, requires the more traditional intervention of a divine power. He arrives in the form of a dapper hairstylist with a light step and a strong singing voice" -- Publisher's website.

*The Malay Dilemma* - Dr Mahathir Mohamad 2010-08-31

In *The Malay Dilemma*, former prime minister Mahathir Mohamad examines and analyses the make-up of the Malays and the problem of racial harmony in Malaysia. First published in 1970, the book seeks to explain the causes for the 13 May 1969 riots in Kuala Lumpur. Dr Mahathir sets out his view as to why the Malays are economically backward and why they feel they must insist upon immigrants becoming real Malaysians speaking in due course nothing but Malay, as do immigrants to America or Australia speak nothing but the language of what the author calls "the definitive people". He argues that the Malays are the rightful owners of Malaya. He also argues that immigrants are guests until properly absorbed, and that they are not properly absorbed until they have abandoned the language and culture of their past.
