Soap Making 101 - P. Karn
2015-02-07

The Art and Craft of Handmade Soap As an essential resource for soap-making, the Art and Craft of Handmade Soap covers all the essential information that both

connoisseur and seasoned soap-makers can take advantage of. The Art and Craft of Handmade Soap was written and produced out of love for making homemade soaps. It traces back the history of soap, from the legend of soap in Mount Sapo to the rise of today's commercially-made soap. However, the book's contents are devoted towards educating a new soap-maker and filling information for the seasoned one. The Art and Craft of Handmade soap details the use of different soap making processes - pour-and-melt, hot processes and cold processes, along with each process' strength and weaknesses. Furthermore, the book also provides insider information on how to infuse handmade soaps with oils and essences, choosing ingredients for a rich, creamy lather, as well as expert tips on cutting, curing and storing of handmade soaps. Providing straightforward step-by-step instructions, required tools and equipment and safety tips in making personal soaps, this

book provides a comprehensive introduction for the uninitiated soap-makers. Making your own soap in today's world does not just make frugal and economic sense. Beyond anything, it is practice too often overshadowed by large soap industries, diminishing its impact and significance that were once highly regarded.

The Art and Craft of Handmade soap takes readers to the centuries when soap was regarded a luxury and people placed great emphasis on its composition. Making your own soap affords you to choose your own ingredients, resulting to the kind of fragrance, lather and feel with your own personal magic. Personal and handmade soap-making is like being able to concoct your own bar of magical essence and fragrances - a true and one-of-a-kind luxury you do not get to experience from store-bought soaps. This book will help jumpstart your endeavor in weaving that kind of magic.

Have you recently come across information that ordinary people are making organic soaps at home, even without having any certifications relating to the use of various chemicals? And have you been

curious to know the process involved in making soap and want to make your first batch of soap to explore this new world of making soap at home, but haven't found a comprehensive guide that addresses everything? If you've answered YES, keep reading! You Are About To Discover Exactly How To Make Your Very Own Organic Soap Using Readily Available Ingredients, Just Like The Pros! Even though we don't like admitting it, most of us know that commercial soap that comes in different names like "beauty bar" and "deodorizing bar" isn't really soap, but a detergent made with synthetic ingredients, agents and chemicals you'd not fancy pronouncing. Such soap is often harsh to our precious skin, which is notorious for absorbing anything that is placed on it. On the other hand, natural soap is made with rich, natural fats and oils that are nourishing to the skin, through a very simple, interesting process. So basically, making your own

soap is not only cost-effective, but healthy and salutary especially if you love exciting DIY projects that yield magnificent results. But what if you've never done it before, how do you get started? What if you want to go large-scale and make a business out of it? What if you heard that it's risky? What if you're looking for a way to improve your current soap making processes? If you're (or have been) having such thoughts and concerns, then you landed on the right page. This simple beginners' guide to making your own natural soap has your back, adequately armed with all the answers tips and techniques that characterize any master soap-maker. More precisely, you'll learn: The basic essentials of making soap, including the equipment, tools and chemical compounds you require The different forms of making soap The precautions you need to take while making organic soap How to conduct soap mixing using different methods Why it's important to make natural

and organic soaps The most important things to consider while choosing your homemade soap recipe The common mistakes in homemade soap making that you can avoid How to be creative in your homemade soap making process How to cure and cut your cold process soap The different soap making recipes to take advantage of today ...And much more! Soap Making From Scratch -

April Weatherly 2014-01-23

Natural soap is a great way to keep yourself clean without exposing your skin to harsh chemicals, dyes, and scents. Making that natural soap at home is a great way to ensure that you are getting exactly what you want in your soap. However, not everyone wants to make their own soap. Lye, a caustic chemical used in making soap can be extremely dangerous and frightening for inexperienced soap makers. Luckily there is a way to make natural soap at home without using lye. If you want to learn the secrets of the art then Soap Making from Scratch by April Weatherly is the best book for you to use to get started. Commercial soap is full of chemicals that are hard to pronounce. Chemicals are added in to create lather, add shine, give the soap color and scent, and preserve the bar for longer times. On the other side, natural soaps are made from things you can both pronounce and understand like goat's milk, olive oil, and your favorite essential oils. April learned

that lye that is commonly used in soaps is dangerous. It is poisonous if accidentally swallowed by young children or pets. It can also cause serious chemical burns if spilled. This is why many people are looking for ways to make natural soaps without lye. Unfortunately, there is no true soap without lye, yet you can skip the lye process by using melt and pour soaps. There are several melt and pour glycerin soap kits that you can use to make your own natural soaps. Learn the trade secrets of making safe soap in Soap Making from Scratch.

The Soapmaker's Companion - Susan Miller Cavitch 2010-11-10

In this comprehensive guide, Susan Miller Cavitch covers everything you need to know to make your own soaps. Learn the basic techniques for crafting oil-, cream-, and vegetable-based soaps, and then start experimenting with your own personalized scents and effects. Cavitch provides tips for making more than 40 different specialty soaps,

showing you how to design colorful marbled bars and expertly blend ingredients to create custom fragrances. You'll soon be making luxurious soaps at a fraction of the cost of boutique products. Important Notice Early printings of this book contain a recipe variation in a sidebar note on page 36. As a result of further testing, author Susan Miller Cavitch and Storey Publishing strongly recommend that you do not try this variation. Adding honey when you are combining the sodium hydroxide and water may result in a stronger reaction with more intense heat. The mixture may bubble up quickly and come out of the pot, posing a potential hazard.

Soap Making Like a Pro -

"Smart it is A simple, no-nonsense book that cuts through the curmudgery of stifling soap bibles like no other." -- Shellie Humphries, Harstine Island, Washington
"Way overdue. . . . A gift of common sense caution, proven methods, tried-and-true shortcuts, and some excellent recipes as well, for both the professional/experienced soapmaker and the eager beginner." -- Deb Petersen, Shepherd's Soap Co., Shelton,

Washington "A great book for beginners, with clear and easy instructions." -- Anne-Marie Faiola, Bramble Berry Inc., Bellingham, Washington "I learned more from Smart Soapmaking than from any other soaping book, and I have read quite a few. . . . It's written with the average person in mind, not a chemistry major. Directions are very simple and easy to understand. It really takes the mystery out of making soap." -- Jackie Pack, Stuart, Virginia
"Groundbreaking Anne L. Watson [is the] universally respected and loved author/crafter/curator of this lost art for thousands of aspiring soapers Unquestionably the best book with which to begin. To be precise, it's probably the most accessible, most reader-friendly, and most immediately useful container of information a first-time soapmaker could hope to find." -- Wishing Willow (blog)

DIY Natural Melt and Pour Soap Crafting - Molly Barrett 2017-10-13

DIY Natural Melt and Pour Soap Crafting Ultimate Guide to Making & Selling Colorful Natural Soaps Paraben, Sulfate and Triclosan are some of the ingredients in commercial soap that I never questioned until I began making soap at home. That's when my curiosity got the best of me. After finding just these three, I wanted to call a truce to look for dangerous additives in what I used (and worse yet, my children used) to clean. That's when I thought I found the fourth one. Fragrance! How in the world could something that sounds as harmless as fragrance possibly damage your skin? How wrong I was. The definition of fragrance was

a far cry in meaning than the one on the soap label. I began making soap because it was a fun hobby I could share with my children. I continued because it morphed into a successful small business. But I'm now compelled to continue knowing that I'm contributing to the health of my family. Before we get into the actual soap making, I do share my findings about just these four potentially harmful ingredients found in too many soaps and body washes. I am sure you will be shocked to read it. But let's move on and talk about what more is in this book. I wanted to arrange the chapters in a logical order. So you are not confused as I was when I first started. I start off with what and how commercial soap can harm you and your family, I dug deep and found out the truth. Then I explain all three soap making process and why Melt and Pour method is the best and easiest to use. Next, I show you what supplies and equipment you will need and their approximate cost. In the next chapter I guide you

through a step by step soap making process (chapter 4). After that we discuss everything under the sun about molds you can use and all of their different variations and types (chapter 5). Chapter 6 is all about adding colors and how to use the color wheel. Next up is essential oils which give your soap its scent and a great natural healing power (Chapter 7). After that it is all about my favorite recipes (chapter 8), next I share 15 soap coloring tricks that may truly surprise you, yes they are that good really! (chapter 9). And lastly, in chapter 10, it is all about how to start, run and grow your soap business right from home. After reading the book, you will become a master on how to make homemade soap using melt pour soap making method. You will also learn about all soap making supplies, my favorite soap making recipes and most importantly you will know the difference between store bought commercial soap vs. all natural and organic soap made right at home. If you have any

question, I have added my personal email address at the end of the book so you can contact me.

Soap Making Business Startup
- Floy Sweeney 2022-01-25

Have you recently come across information that ordinary people are making organic soaps at home, even without having any certifications relating to the use of various chemicals? And have you been curious to know the process involved in making soap and want to make your first batch of soap to explore this new world of making soap at home, but haven't found a comprehensive guide that addresses everything? If you've answered YES, keep reading! You Are About To Discover Exactly How To Make Your Very Own Organic Soap Using Readily Available Ingredients, Just Like The Pros! Even though we don't like admitting it, most of us know that commercial soap that comes in different names like "beauty bar" and "deodorizing bar" isn't really soap, but a detergent made with synthetic

ingredients, agents and chemicals you'd not fancy pronouncing. Such soap is often harsh to our precious skin, which is notorious for absorbing anything that is placed on it. On the other hand, natural soap is made with rich, natural fats and oils that are nourishing to the skin, through a very simple, interesting process. So basically, making your own soap is not only cost-effective, but healthy and salutary especially if you love exciting DIY projects that yield magnificent results. But what if you've never done it before, how do you get started? What if you want to go large-scale and make a business out of it? What if you heard that it's risky? What if you're looking for a way to improve your current soap making processes? If you're (or have been) having such thoughts and concerns, then you landed on the right page. This simple beginners' guide to making your own natural soap has your back, adequately armed with all the answers tips and

techniques that characterize any master soap-maker. More precisely, you'll learn: The basic essentials of making soap, including the equipment, tools and chemical compounds you require The different forms of making soap The precautions you need to take while making organic soap How to conduct soap mixing using different methods Why it's important to make natural and organic soaps The most important things to consider while choosing your homemade soap recipe The common mistakes in homemade soap making that you can avoid How to be creative in your

homemade soap making process How to cure and cut your cold process soap The different soap making recipes to take advantage of today ...And much more! Are you looking for simple, amazing soap recipes to diversify your production? Or are you targeting certain body or mental ailments that you can fight with topical applications? If you've answered YES, this book is for you! What's more, this book takes an easy to follow structure, and a practical approach that will enable you to put what you learn into action, even if you've never done anything like this before!
