Interpreting and Translation Services and the Applied Language Solutions Contract - Great Britain: Parliament: House of Commons: Justice Committee 2013-02-06

Evidence suggests that the MoJ did not have a sufficient understanding of the complexities of court interpreting work. Significant concern was revealed that quality standards could be diminished by the imposition of a tiered system to enable a wider pool of interpreters, and by the introduction of lower levels of pay. However, the Department pushed ahead with the contract and failed to properly anticipate or address the potential for problems with Applied Language Solutions' (ALS) capacity to deliver on its promises. ALS, and more recently Capita, has been unable to recruit qualified and experienced interpreters in sufficient numbers. Professional interpreters have largely boycotted the new arrangements and Capita-ALS clearly needed significantly more resources than it had at its disposal. It also only paid lip service to the regulatory duties accepted under the Framework Agreement, yet did not have the capacity to cope with complaints or to implement basic vetting procedures. The MoJ has had to monitor Capita-ALS very closely to secure the level of improvement necessary to make the Agreement workable, and continues to do so. The existing arrangements may not be

financially sustainable as Capita is propping up the continuation of the Agreement, which mean that the Department's savings, originally projected to be £15million, are effectively being secured at the company's expense. Actions taken by MoJ also had the effect of hampering the inquiry when HMCTS issued an edict to its staff instructing them not to participate in the Committee's online consultation, established to invite direct observations from frontline staff of the performance of ALS

*Social Class on British and American Screens* - Nicole Cloarec 2016-01-14

At a time when debates about social inequality are in the spotlight, it is worth examining how the two most popular media of the 20th and 21st centuries--film and television--have shaped the representation of social classes. How do generic conventions determine the representation of social stereotypes? How do filmmakers challenge social class identification? How do factors such as national history, geography and gender affect the representation of social

classes? This collection of new essays explores these and other questions through an analysis of a wide range of American and British productions--from sitcoms and reality TV to documentaries and auteur cinema--from the 1950s to the present.

**Gaelic in Scotland** - McLeod Wilson McLeod 2020-09-04

In this extensive study of the changing role of Gaelic in modern Scotland - from the introduction of state education in 1872 up to the present day - Wilson McLeod looks at the policies of government and the work of activists and campaigners who have sought to maintain and promote Gaelic. In addition, he scrutinises the competing ideologies that have driven the decline, marginalisation and subsequent revitalisation of the language. Taking an interdisciplinary approach, at the boundary of history, law, language policy and sociolinguistics, the book draws upon a wide range of sources in both English and Gaelic to consider in detail the development of the language policy regime for Gaelic that was developed between 1975 and 1989. It examines the campaign for the Gaelic Language (Scotland)

Act 2005, its contents and implementation; and assesses the development and delivery of development and delivery of Gaelic education and media from the late 1980s to the present.

On the verge of retirement, and divorce, Andrew is forced to come to terms with the platitude his life has become. Then John Taplow, a previously unnoticed pupil, gives Andrew an unexpected parting gift: a second-hand copy of Robert Browning's translation of Agamemnon - a gift which offers not only a opportunity for redemption, but the chance to gain back some dignity. This volume also contains Harlequinade, a farce about a touring theatre troupe, written to accompany *The Browning Version* in a double-bill under the joint title, *Playbill*. 'Few dramatists of this century have written with more understanding of the human heart than Terence Rattigan' Michael Billington This edition includes an authoritative introduction, biographical sketch and chronology.

*English Learning in the Digital Age* - Shuang Zeng 2018-11-23

Moving beyond the 'Web 2.0' and 'digital native' rhetoric, this book addresses the complex experiences of learners of English as a foreign language (EFL) in a world embedded with interactive and participatory technologies. Adopting a sociocultural perspective, it investigates EFL learners' behaviours concerning digital technology, and guides exploration into their contextually mediated choices and learning practices in the '2.0' era. The argument is developed on the basis of the findings of a mixed sequential study that focused on 1485 Chinese undergraduates' use and non-use of online tools and applications outside the English classroom. Particular attention is paid to the role of context and agency when understanding their learning choices and behaviours in the context of digital technology. In particular, the book acknowledges the explanatory power of agency in the minority instances of 'good practices' among these EFL learners. At the same time it demonstrates that for most learners, use of the current web is limited and mostly non-interactive. The barriers to '2.0' transfer are largely contextual and the so-called 'communicative opportunities' and 'participatory culture' in particular did not fit into the learners' sociocultural context of

(language) learning. Overall, the compelling argument proposes that the technology-facilitated changes in EFL practices are a 'bottom up' process that is taking place in day-to-day situations and constrained by the learning context within which the learner is situated. Based on these arguments, the book provides a framework that challenges the existing beliefs about (language) learning with online technology, and that contributes to our understanding of how context mediates EFL learners' behaviours surrounding digital technologies. It is a valuable resource for teachers, researchers and policy makers, providing them with insights into using digital technology to stimulate 'good learning practices' outside the classroom.

**Borders, Migration and Class in an Age of Crisis** - Vickers, Tom 2020-10-14

This book responds to global tendencies toward increasingly restrictive border controls and populist movements targeting migrants for violence and exclusion. Informed by Marxist theory, it challenges standard narratives about immigration and problematises commonplace distinctions between 'migrants' and 'workers'. Using Britain as a case study, the book examines how these categories have been constructed and mobilised within representations of a 'migrant crisis' and a 'welfare crisis' to facilitate capitalist exploitation. It uses ideas from grassroots activism to propose alternative understandings of the relationship between borders, migration and class that provide a basis for solidarity.

**The Diary of a Young Girl** - Anne Frank  
1996-02-01

THE DEFINITIVE EDITION • Discovered in the attic in which she spent the last years of her life, Anne Frank's remarkable diary has since become a world classic—a powerful reminder of the horrors of war and an eloquent testament to the human spirit. Updated for the 75th Anniversary of the Diary's first publication with a new introduction by Nobel Prize-winner Nadia Murad "The single most compelling personal account of the Holocaust ... remains astonishing and excruciating."—The New York Times Book Review In 1942, with Nazis occupying Holland, a thirteen-year-old Jewish girl and her family fled their home in Amsterdam and went into hiding. For the next two years, until their whereabouts were betrayed to the Gestapo, they and another family lived cloistered in the "Secret Annex" of an old office building. Cut off from the outside world, they faced hunger, boredom, the constant cruelties of living in confined quarters, and the ever-present threat of discovery and death. In her diary Anne Frank recorded vivid impressions of her experiences during this period. By turns thoughtful, moving, and amusing, her account offers a fascinating commentary on human courage and frailty and a compelling self-portrait of a sensitive and spirited young woman whose promise was tragically cut short.

**Drawdown** - Paul Hawken 2017-04-18

• New York Times bestseller • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world "At this point in time, the *Drawdown* book is exactly what is needed; a credible, conservative solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis. Reported by-effects include increased determination and a sense of grounded hope." —Per Espen Stoknes, Author, *What We Think About When We Try Not To Think About Global Warming* "There's been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom." —David Roberts, *Vox* "This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook." —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The

solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth's warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world.

This is Switzerland's second largest city (behind Zurich), with 178,900 residents, and is heavily influenced by its French neighbors to the west and south. Here you'll find the quintessence or haute école of everything Switzerland stands for in the new century: beauty, wealth, education, international relations and culture, not to mention romantic scenery at its finest. One aspect of Geneva that is hard to miss is the Genevois' love of food. In fact, Geneva is home to more restaurants per capita (over 1,100 in total) than any other major city in the world -including Manhattan. A visitor will also note that the Genevois serve an unusual preponderance of organ meat dishes, known as "abats." Everything from blood pudding -"boudin noir" -to pickled pigs feet are popular and commonplace here. Geneva has over 30 museums and private galleries, all of which contain prestigious private and public displays of art work, historical documents and cultural highlights. Geneva offers a diverse variety of cultural and sporting events such as classical music concerts, open-air movies on the lakeshore, as well as various trade fairs. Annually Geneva is home to the Inventions and New Techniques Fair, a rousing Automobile Show, an International Book and Press Fair and the High Watchmaking Fair. This is based on our comprehensive Adventure Guide to Switzerland, which is close to 600 pages in the print version. Here, we focus on Geneva and the surrounding area in Switzerland's western portion. Among the many towns described are Lausanne, Montreux, Neufchatel, Fribourg and Gruyeres. Also included is a detailed introduction with full information about what you need to know when visiting Switzerland.
