It surveys the current status, practices, challenges, and future directions of Secondary English education in 11 diverse countries - in Israel, Japan, Korea, Singapore, Bangladesh, India, Indonesia, Malaysia, Pakistan, Vietnam and China. Given the importance of secondary English education as the central feature for continuing development of target language and culture in English language teaching in Asia, each contributed chapter includes key policies, theories, and practices related to the development and implementation of country-specific curricular and instructional programs in secondary English educational contexts in these countries. English Language Education in

2020-12-18

This Handbook is a
comprehensive overview of
English language education in
Bangladesh. Presenting
descriptive, theoretical, and
empirical chapters as well as
case studies, this Handbook, on
the one hand, provides a
comprehensive view of the
English language teaching and

learning scenario in
Bangladesh, and on the other
hand comes up with
suggestions for possible
decolonisation and de-
elitisation of English in
Bangladesh. The Handbook
explores a wide range of
diverse endogenous and
exogenous topics, all related to
English language teaching and
learning in Bangladesh, and
acquaints readers with
different perspectives,
operating from the macro to
the micro levels. The
theoretical frameworks used
are drawn from applied
linguistics, education,
sociology, political science,
critical geography, cultural
studies, psychology, and
economics. The chapters
examine how much
generalisability the theories
have for the context of
Bangladesh and how the
empirical data can be
interpreted through different
theoretical lenses. There are
six sections in the Handbook
covering different dynamics of
English language education
practices in Bangladesh, from
