College Curriculum at the Crossroads - Kirsten T. Edwards 2017-11-22
College Curriculum at the Crossroads explores the ways in which college curriculum is complicated, informed, understood, resisted, and enriched by women of color. This text challenges the canon of curriculum development which foregrounds the experiences of white people, men and other dominant

subject positions. By drawing on Black, Latina, Queer, and Transnational feminism, the text disrupts hegemonic curricular practices in post-secondary education. This collection is relevant to current conversation within higher education, which looks to curriculum to aid in the development of a more tolerant and just citizenry. Women of color have long theorized the failures of injustice and the

promise of inclusion; as such, this text rightly positions women of color as true "experts in the field." Across a variety of approaches, from reflections on personal experience to application of critical scholarship, the authors in this collection explore the potency of women of color's presence with/in college curriculum and emphasize a dire need for women of color's voices at the center of the academic process.

Multicultural Curriculum Transformation in Social Studies and Civic Education

- Kenneth J. Fasching-Varner
2021-07-12

This book focuses on multicultural curriculum transformation in social studies and civic education subject areas. The discussion of each area outlines critical considerations for multicultural curriculum transformation for the area by grade level and then by eight organizing tools, including content standards, relationships with and among students and their families, and evaluation of student learning

and teaching effectiveness. The volume is designed to speak with PK-12 teachers as colleagues in the multicultural curriculum transformation work. Readers are exposed to "things to think about," but also given curricular examples to work with or from in going about the actual, concrete work of curriculum change. This work supports PK-12 teachers to independently multiculturally adapt existing curriculum, to create new multicultural curriculum differentiated by content areas and grade levels, and by providing ample examples of what such multicultural transformed social studies and civic education curricula looks like in practice.

ECGBL 2019 13th European Conference on Game-Based Learning - Lars Elbæk

Active Literacy Across the Curriculum - Heidi Hayes Jacobs
2017-09-25

Help students become more confident and successful readers, writers, and thinkers

in today's world. In this new edition of a bestseller, highly acclaimed author and speaker Heidi Hayes Jacobs offers practical ideas for closing the literacy gap by teaching classic literacies (reading, writing, speaking, and listening) along with essential new literacies (digital, media, and global). The expanded second edition features Heidi's latest work on the new literacies and provides enhanced versions of strategies designed to help educators integrate critical language skills into their daily operational curriculum. These strategies include: Revising and expanding the role of all teachers so that they see themselves as classical language and contemporary literacy teachers; Separating vocabulary into three distinctive types with distinctive instructional approaches to sustain and extend independent language development; Building creative and visual notetaking and sketchnoting strategies; Designing media projects for every class level and employing

a consistent editing and revision policy for writing assignments; Using a formal approach to develop speaking skills through four discussion types to increase civil public discourse; Employing direct technical instruction that promotes the use of the human voice and body as a speaking and communication instrument; Using Curriculum Mapping to develop formal benchmark assessments for active literacy and new literacy cultivation in every subject and on every level. Each chapter is focused on a specific strategy and includes practical examples so you can easily implement the ideas, no matter what grade level or subject area you teach.

Curriculum - Martin Robinson
2019-09-20

Martin Robinson's Curriculum: Athena versus the machine explores the educational value of a curriculum rooted in the pursuit of wisdom and advocates the enshrinement of such a curriculum as the central concern of an academic institution. Rather than being

seen as a data-driven machine, a school should be viewed as a place that enables children to develop thoughtful perspectives on the world, through which they can pursue wisdom and be free to join in with the ancient and continuing conversation: 'What is it to be human?' Teachers need to be liberated from policy-led prescription in order to design curricula which bring the subjects being studied, rather than the blind pursuit of measurable outcomes, to the foreground of the school's teaching and learning agenda. In *Curriculum*, Martin Robinson explores how this can be achieved. The Machine demands data, order and regulation; Athena is the goddess of philosophy, courage and inspiration. An Athena curriculum celebrates wisdom and skills, and considers why it seeks to transmit the knowledge that it does. In this book, Martin examines how we can construct a curriculum that will allow liberal education to flourish. Anti gimmick and pro wisdom, the principles that he

advocates will make a big difference to teachers' and pupils' lives, and will help to ensure that our young adults are better educated. Suitable for teachers, school leaders and policy makers.

Teaching for Social Justice and Sustainable Development Across the Primary Curriculum
- Anne Marie Kavanagh
2021-03-22

This volume supports educators in integrating meaningful education for social justice and sustainability across a wide range of curricular subjects by drawing on educational theory, innovative pedagogical approaches and creative ideas for teaching and learning. Both practical and theoretical in its approach, it addresses subject areas ranging from mathematics to visual arts to language teaching. Chapters provide subject entry points for teachers seeking to embed social justice and sustainability principles and pedagogies into their work. Transferable across various areas of learning, a range of pedagogical

approaches are exemplified, ranging from inquiry approaches to ethical dilemmas to critical relational pedagogies. Ready-to-use teaching exemplars, activities and resources address issues which are of interest and relevance to children's lives, including gender stereotyping, racism, heterosexism, climate change and species extinction. Practical guidance is provided on how to engage children in dialogue and reflection on these complex issues in a safe and ethical way. This accessible and unique volume is essential reading for student teachers, teachers, educational leaders, teacher educators and anyone interested in inspiring children to work towards creating a more socially just and sustainable world.

Introduction to VRS Interpreting: A Curriculum Guide - VRS Interpreting Institute 2017-08-02

The Introduction to VRS Interpreting curriculum guide provides educators with a valuable tool for teaching interpreting students about work in video relay service (VRS) and video remote interpreting (VRI) settings. While this curriculum is not designed to fully prepare students to work in these settings upon completing the course, the lessons can be a springboard for success in VRS and VRI settings. The curriculum guide also gives you access to a host of online tools, including additional curriculum information, as well as downloadable lesson plans and slideshow presentations. Whether you're an instructor preparing to teach an entire course or looking for just a few lessons, you'll find invaluable information in this curriculum guide. All proceeds from the

sale of this curriculum are donated to non-profit organizations or charities that benefit the Deaf community. Handbook of Research on Future of Work and Education: Implications for Curriculum Delivery and Work Design - Ramlall, Sunil 2021-10-08 Higher education has changed significantly over time. In particular, traditional face-to-face degrees are being revamped in a bid to ensure they stay relevant in the 21st century and are now offered online. The transition for many universities to online learning has been painful—only exacerbated by the COVID-19 pandemic, forcing many in-person students to join their virtual peers and professors to learn new technologies and techniques to educate. Moreover, work has also changed with little doubt as to the impact of digital communication, remote work, and societal change on the nature of work itself. There are arguments to be made for organizations to become more agile, flexible, entrepreneurial,

and creative. As such, work and education are both traversing a path of immense changes, adapting to global trends and consumer preferences. The Handbook of Research on Future of Work and Education: Implications for Curriculum Delivery and Work Design is a comprehensive reference book that analyzes the realities of higher education today, strategies that ensure the success of academic institutions, and factors that lead to student success. In particular, the book addresses essentials of online learning, strategies to ensure the success of online degrees and courses, effective course development practices, key support mechanisms for students, and ensuring student success in online degree programs. Furthermore, the book addresses the future of work, preferences of employees, and how work can be re-designed to create further employee satisfaction, engagement, and increase productivity. In particular, the book covers insights that

ensure that remote employees feel valued, included, and are being provided relevant support to thrive in their roles. Covering topics such as course development, motivating online learners, and virtual environments, this text is essential for academicians, faculty, researchers, and students globally.

CFA Program Curriculum 2017 Level II, Volumes 1 - 6 - CFA Institute 2016-08-01

Master the practical aspects of the CFA Program Curriculum with expert instruction for the 2017 exam. The same official curricula that CFA Program candidates receive with program registration is now publicly available for purchase. CFA Program Curriculum 2017 Level II, Volumes 1-6 provides the complete Level II Curriculum for the 2017 exam, with practical instruction on the Candidate Body of Knowledge (CBOK) and how it is applied, including expert guidance on incorporating concepts into practice. Level II focuses on complex analysis with an emphasis on asset

valuation, and is designed to help you use investment concepts appropriately in situations analysts commonly face. Coverage includes ethical and professional standards, quantitative analysis, economics, financial reporting and analysis, corporate finance, equities, fixed income, derivatives, alternative investments, and portfolio management organized into individual study sessions with clearly defined Learning Outcome Statements. Charts, graphs, figures, diagrams, and financial statements illustrate complex concepts to facilitate retention, and practice questions with answers allow you to gauge your understanding while reinforcing important concepts. While Level I introduced you to basic foundational investment skills, Level II requires more complex techniques and a strong grasp of valuation methods. This set dives deep into practical application, explaining complex topics to help you understand and retain critical concepts and

processes. Incorporate analysis skills into case evaluations Master complex calculations and quantitative techniques Understand the international standards used for valuation and analysis Gauge your skills and understanding against each Learning Outcome Statement CFA Institute promotes the highest standards of ethics, education, and professional excellence among investment professionals. The CFA Program Curriculum guides you through the breadth of knowledge required to uphold these standards. The three levels of the program build on each other. Level I provides foundational knowledge and teaches the use of investment tools; Level II focuses on application of concepts and analysis, particularly in the valuation of assets; and Level III builds toward synthesis across topics with an emphasis on portfolio management.

The Syllabus as Curriculum -

Samuel D. Rocha 2020-07-30

Can the syllabus constitute the curriculum? In this volume, Rocha explores curriculum theory through the lens of the syllabus. By critiquing curriculum studies and the entire field of education, overrun by the social sciences, Rocha provides an integrated vision of philosophy of education and curriculum theory, rooted in the humanities. Through an original reconceptualization, this text draws from a broad range of sources - ranging from Classical Antiquity to the present - offering a rich context for understanding curriculum as a philosophically

salient concept, contained within the syllabus. The *Syllabus as Curriculum* features actual syllabi created and taught by the author in undergraduate and graduate courses at the University of British Columbia, Canada. These curated syllabi work as exemplars and media, supported by pedagogical commentary and context. Inspired by Augustine's *Confessions*, each part of the book culminates in a metaphorical "garden," which serves as a meditation on the syllabus in three senses: correspondence, essay, and outline. An original, powerful, and corrective contribution to the literature on curriculum studies, this work invites teachers and scholars from across the foundations of education, especially philosophy of education, art education, and those invested in curriculum theory, to see their contribution in more direct and integral ways.

Addressing Special Educational Needs and Disability in the Curriculum: History - Richard Harris
2017-04-11

The SEND Code of Practice (2015) has reinforced the requirement that all teachers must meet the needs of all learners. This topical book provides practical, tried and tested strategies and resources that will support teachers in making history lessons accessible and exciting for all pupils, including those with special needs. The authors draw on a wealth of experience to share their understanding of

special educational needs and disabilities and show how the history teacher can reduce or remove any barriers to learning. Offering strategies that are specific to the context of history teaching, this fully revised edition will enable teachers to: Make history education accessible and engaging to pupils of all abilities Create an inclusive classroom environment that responds to the emotional needs of the class and nurtures a culture of learning Develop inclusive practical demonstration and role play techniques to aid conceptual understanding Set assessment objectives Deploy in-class support effectively An invaluable tool for continuing professional development, this text will be essential for teachers (and their teaching assistants) seeking guidance specific to teaching history to all pupils, regardless of their individual needs. This book will also be of interest to SENDCOs, senior management teams and ITT providers. In addition to practical activities

and supporting material contained in the book, there are also free online resources for readers to download and use in the preparation of successful, inclusive lessons for all pupils.

Addressing Special Educational Needs and Disability in the Curriculum: Modern Foreign Languages - John Connor
2017-04-21

The SEND Code of Practice has reinforced the requirement that all teachers must meet the needs of all learners. This book provides practical, tried and tested strategies and resources that will support teachers in making modern foreign languages accessible, challenging and exciting for all pupils, including those with special needs. The author draws on a wealth of experience to share his understanding of how SEND can affect learning and how the MFL teacher can reduce or remove any barriers to learning. Offering strategies that are specific to the context of MFL teaching, this book will enable teachers to: ensure all

pupils are able to participate fully in every lesson; develop pupils' understanding, motivation and enjoyment; adapt content and resources when differentiating materials for pupils with a wide range of learning needs; use formative assessments to measure learning. An invaluable tool for whole-school continuing professional development, this text will be essential for teachers (and their teaching assistants) seeking guidance specific to teaching languages to all pupils, regardless of their individual needs. This book will also be of interest to SENCOs, senior management teams and ITT providers.

Alternatives to Privatizing Public Education and Curriculum - Daniel Ness
2017-03-16

Through conversations in honor of Dale D. Johnson, this book takes a critical view of the monoculture in curriculum and policy that has developed in education with the increase of federal funding and privatization of services for public education, and examines

the shift from public interest and control to private and corporate shareholder hegemony. Most states' educational responsibilities—assessment of constituents, curriculum development, and instructional protocols—are increasingly being outsourced to private enterprises in an effort to reduce state budgets. These enterprises have been given wide access to state resources such as public data from state-sanctioned testing results, field-testing rights to public schools, and financial assistance. Chapter authors challenge this paradigm as well as the model that has set growing premiums on accountability and performance measures. Connecting common impact between the standards movement and the privatization of education, this book lays bare the repercussions of high-stakes accountability coupled with increasing privatization. Winner of The Society of Professors of Education Book Award (2018)

Multicultural Curriculum Transformation in Literacy and Language Arts - Amanda VandeHei-Carter 2021-10-06

This book focuses on multicultural curriculum transformation in literacy and language arts subject areas. The discussion of each area outlines critical considerations for multicultural curriculum transformation for the area by grade level and then by eight organizing tools, including content standards, relationships with and among students and their families, and evaluation of student learning and teaching effectiveness. The volume is designed to speak with PK-12 teachers as colleagues in the multicultural curriculum transformation work. Readers are exposed to “things to think about,” but also given curricular examples to work with or from in going about the actual, concrete work of curriculum change. Each chapter highlights examples of leaders that have made positive change in their schools, and provides key actionable strategies that can be implemented at a pace

that is sustainable and tailored to fit your needs. You will discover a deeper understanding of the critical importance of your role in: Elevating the student's experience Building a strong school culture Creating small ways to make big impacts with families Advocating a clear message with community partners and legislative leaders Creating time for self-care Filled with practical examples, tools, and strategies, Unconventional Leadership is a resource school leaders can pick up today and implement tomorrow.

Critical Reading Across the Curriculum - Robert DiYanni
2017-02-08

Powerful strategies, tools, and techniques for educators teaching students critical reading skills in the humanities. Every educator understands the importance of teaching students how to read critically. Even the best teachers, however, find it challenging to translate their own learned critical reading practices into explicit

strategies for their students. *Critical Reading Across the Curriculum: Humanities, Volume 1* presents exceptional insight into what educators require to facilitate critical and creative thinking skills. Written by scholar-educators from across the humanities, each of the thirteen essays in this volume describes strategies educators have successfully executed to develop critical reading skills in students studying the humanities. These include ways to help students: focus actively re-read and reflect, to re-think, and re-consider understand the close relationship between reading and writing become cognizant of the critical importance of context in critical reading and of making contextual connections learn to ask the right questions in critical reading and reasoning appreciate reading as dialogue, debate, and engaged conversation In addition, teachers will find an abundance of innovative exercises and activities encouraging students to

practice their critical reading skills. These can easily be adapted for and applied across many disciplines and course curricula in the humanities. The lifelong benefits of strong critical reading skills are undeniable. Students with properly developed critical reading skills are confident learners with an enriched understanding of the world around them. They advance academically and are prepared for college success. This book arms educators (librarians, high school teachers, university lecturers, and beyond) with the tools to teach a most paramount lesson.

Curriculum Development and Online Instruction for the 21st Century - Fudge,

Tamara Phillips 2021-06-25

The world of education has undergone major changes within the last year that have pushed online instruction to the forefront of learning. Thanks to the COVID-19 pandemic, online learning has become paramount to the continued and uninterrupted teaching of students and has

forced students and teachers alike to adjust to an online learning environment. Though some have already returned to the traditional classroom, or plan to very soon, others have begun to appreciate the value of online education - initiatives that had previously been discussed but never acted upon as they have been in the past year. With plenty of positive and negative aspects, online learning is a complex issue with numerous factors to consider. It is an issue that must be studied and examined in order to improve in the future. Curriculum Development and Online Instruction for the 21st Century examines the issues and difficulties of online teaching and learning, as well as potential solutions and best practices. This book includes an examination on the value of teaching fully via the internet as well as the challenges inherent in the training of teachers to teach in online environments. While addressing key elements of remote learning, such as

keeping student data safe, as well as methods in which to engage students, this book covers topics that include assessment tools, teaching deaf students, web technology, and standardized curricula. Ideal for K-12 teachers, college faculty, curriculum developers, instructional designers, educational software developers, administrators, academicians, researchers, and students, this book provides a thorough overview of online education and the benefits and issues that accompany it.

Hub and interdisciplinary project-based approach; remote synchronous delivery (RSD) and blended learning approaches used in Yorkville University's Bachelor of Interior Design, General Studies, and Business programs; University of California's strategies for making resources affordable to students; resilient online assessment measures recommended from Qatar University; strategies in teacher education from the University of Toronto/OISE to develop equity in the classroom; simulation use in health care education; gamification strategies; innovations in online second language learning and software for new Canadian immigrants and refugees; effective RSD and online delivery of directing and acting courses by the Toronto Film School, Canada; academic literacy teaching in Colombia; inventive international programs between Japan and Taiwan, Japan and the USA, and Italy and the USA; and, imaginative

teaching and assessment methods developed for online Kindergarten - Post-Secondary learners and teachers. Authors share unique global perspectives from a network of educators and researchers from more than thirty locations, schools, and post-secondary institutions worldwide. Educators, administrators, policymakers, and instructional designers will draw insights and guidelines from this text to sustain education during and beyond the COVID-19 era.

Addressing Special Educational Needs and Disability in the Curriculum:

Art - Kim Earle 2017-09-06

The SEND Code of Practice (2015) reinforced the requirement that all teachers must meet the needs of all learners. This topical book provides practical, tried and tested strategies and resources that will support teachers in making art lessons accessible and interesting for all pupils, including those with special needs. The authors draw on a wealth of experience to share

their understanding of special educational needs and disabilities and show how the art teacher can reduce or remove any barriers to learning. Offering strategies that are specific to the context of art teaching, this book will enable teachers to: develop students' understanding, appreciation and enjoyment of art and design; advance students' sense of enquiry about visual and tactile experiences; help pupils to realise their creative intentions, through the development of technical competence and manipulative skills; provide opportunities for personal and imaginative enquiry; sample a variety of art and design projects to use in their own lessons; plan the classroom layout and display to enhance learning; successfully train, and fully use the support of, their teaching assistants. An invaluable tool for continuing professional development, this text will be essential for secondary art teachers (and their teaching assistants) seeking guidance specific to

teaching art to all pupils, regardless of their individual needs. The book will also be of interest to secondary SENCOs, senior management teams and ITT providers. Full of practical ideas and inspiration, and supported by free online resources, this is an essential tool for art teachers and teaching assistants and will help to deliver successful, inclusive lessons for all pupils.

The Palgrave Handbook of Education Law for Schools - Karen Trimmer 2018-06-30

This Handbook examines the essential nature of the law within an educational context and asks why there is not greater preparation for this aspect of a teacher's role. Principals and teachers across the world now work in increasingly uncertain and challenging environments involving complex legislative frameworks, with their roles and responsibilities constantly changing to meet these demands: thus, it is imperative that educators adapt and acquire new skills relating to child protection and criminal

law. On a daily basis, teachers and practitioners are being challenged to critically examine and evaluate the legal rights and obligations of various stakeholders, including students, parents, educators and administrators. However, if these skills are not developed, the implications will be significant: particularly so if principals are deterred from pursuing innovative education strategies due to potential litigation risks. Consequently, the chapters will empower principals and teachers in the management of these concerns. This wide-ranging handbook, including case studies from around the world, will be of interest and value to both scholars of education law and practitioners.

HCI International 2020 - Late Breaking Posters -

Constantine Stephanidis
2020-11-07

This book constitutes the poster papers presented during the 22nd International Conference on Human-Computer Interaction, HCII 2020, which was held in July

2020. The conference was planned to take place in Copenhagen, Denmark, but had to change to a virtual conference mode due to the COVID-19 pandemic. From a total of 6326 submissions, a total of 1439 papers and 238 posters have been accepted for publication in the HCII 2020 proceedings before the conference took place. In addition, a total of 333 papers and 144 posters are included in the volumes of the proceedings published after the conference as “Late Breaking Work” (papers and posters). These contributions address the latest research and development efforts in the field and highlight the human aspects of design and use of computing systems. The 62 papers presented in this volume are organized in topical sections as follows: HCI theory, methods and tools; mobile and multimodal interaction; interacting with data, information and knowledge; interaction and intelligence; user experience, emotions and psychophysiological

computing.

Populism and Higher Education Curriculum Development:

Problem Based Learning as a Mitigating Response - Romeo V. Turcan 2020-11-21

Against a background of increasing inequality and a rising tide of nationalism and populism, this book raises concerns that curriculum is being shaped by powerful non-academic, non-accountable forces and that populism - and its manifestations - represent a grave challenge to learning. It explores the extent to which curriculum and learning methods in higher education

should respond to this challenge. Using problem based learning as a case study it draws on crossdisciplinary studies to examine how regional, national and organizational perspectives emphasize different aspects of PBL. It questions whether PBL provides an effective response to external influences and a 'populist' higher education agenda. In conclusion the book poses an uncomfortable question whether graduates reflect the external forces shaping curriculum and hence may be as vulnerable to populist rhetoric as non-graduates precisely because the curriculum and learning methods do not engage with the challenges. This book will appeal to scholars of problem based learning, as well as populism and the role of higher education in society.

Curriculum and the Generation of Utopia - João M. Paraskeva 2020-07-01

As a follow-up to *Towards a Just Curriculum Theory and Curriculum Epistemicide*, this volume illuminates the

challenges and contradictions which have prevented critical curriculum theory from establishing itself as an alternative to dominant Western Eurocentric epistemologies. *Curriculum and the Generation of Utopia* re-visits the work of leading progressive theorists and draws on a complex range of epistemological perspectives from the Middle East, Africa, Southern Europe, and Latin America. Paraskeva illustrates how counter-dominant narratives have been suppressed by neoliberal dynamics through an exploration of key issues including: itinerant curriculum theory, globalization and internationalization, as well as utopianism. Foregrounding critical curriculum theory as a vector of de-colonization and de-centralization, the text puts forth Itinerant Curriculum Theory (ITC) as an alternative form of anti-colonial, theoretical engagement. This work forms an important addition to the literature surrounding critical curriculum

theory. It will be of interest to post-graduate scholars, researchers and academics in the fields of curriculum studies, curriculum theory, and critical educational research.

The Role of Language Teacher Associations in Professional Development -

Aymen Elsheikh 2018-11-30
Providing a timely and much-needed resource on LTAs, the book helps readers recognize the importance and nature of teachers' professional development, while also contributing to the process of educational change. In order to achieve a suitable level of educational and policy change, a research base for LTAs is called for. This book represents a step in the right direction,

introducing readers to essential research on the central role of LTAs in language teachers' development. Although pre-service and in-service education programs, to be found at government and/or private institutions, are of great value, it is impossible to prepare teachers for all the challenges they will face throughout their careers. In response, many professional associations also provide a wide range of professional development activities for their teacher members. The book will be of interest to language teachers, graduate students, teacher educators and researchers, educational leaders and policymakers, as well as teacher associations.
