Technology and Testing - Fritz Drasgow 2015-08-20
From early answer sheets filled in with number 2 pencils, to tests administered by mainframe computers, to assessments wholly constructed by computers, it is clear that technology is changing the field of educational and psychological measurement. The numerous and rapid advances have immediate impact on test creators, assessment professionals, and those who implement and analyze assessments. This comprehensive new volume brings together leading experts on the issues posed by technological applications in testing, with chapters on game-based assessment, testing with simulations, video assessment, computerized test development, large-scale test delivery, model choice, validity, and error issues.

Including an overview of existing literature and ground-breaking research, each chapter considers the technological, practical, and ethical considerations of this rapidly-changing area. Ideal for researchers and professionals in testing and assessment, Technology and Testing provides a critical and in-depth look at one of the most pressing topics in educational testing today.

Fashion Marketing - Caroline Le Bon 2014-10-10
Fashion is everywhere! It transcends domains and applies to almost any kind of product (e.g., apparel, cars, digital devices, food, literature, travel, music, house decoration and personal wellness). Fashion greatly influences public interest, media coverage, and product success. The global fashion industry is among the most important in terms of investments, trade, and employment, despite its dependence on unpredictable demand. This book focuses on the fashion apparel and accessories industry in an attempt to help managers answer the following questions: Why and how do fashion products

appeal to consumers, despite their constantly varying attributes? What specific elements and benefits of fashion influence consumers, and how can companies exploit them and gain from these? Which marketing strategies and tactics should companies use to increase fashion products' success while communicating and managing customers' image? How can companies maintain customer loyalty and generate higher profits with fashion products? By undertaking deep analyses of manufacturers and retailers' best practices, interviewing customers and companies, and reviewing recent academic research on fashion marketing, this book answers such questions and thus helps managers leverage the value that fashion adds to products while creating loyal customers in truly competitive fashion markets.

Teaching with Tablets - Helen Caldwell 2015-03-19

The presence of handheld technologies in the classroom isn't enough - you need to know how to use them to enhance teaching and transform learning. As more and more primary schools acquire devices such as iPads and tablets, it is becoming clear that adding them as a classroom resource is not enough. Teachers and trainees need strategies to integrate these into existing learning contexts in a meaningful way. Without this, these fantastic resources lose their value. This book helps teachers to make the most of these devices in the primary classroom. It offers guidance on: how to use tablets to devise meaningful learning activities embed them in genuine curriculum contexts, drawing upon case studies from existing practice It is written for non-specialists and explains technical terms in an accessible, practical way. Each chapter begins with a case study contributed by a teacher using tablets in schools. Real life examples and comments like this give the text a truly practical focus. Check out the book's Pinterest board which includes the apps mentioned in the book as well as a handy infographic for a snapshot guide on starting off your tablet teaching journey. A note from the authors The use of technology in schools continues to evolve rapidly as new devices and tools become available, and the adoption of mobile devices such as iPads and tablets has been a particularly exciting development in recent years. The benefits offered by these technologies, such as their portability,

connectivity, accessibility and range of media, present new challenges and opportunities for teaching and learning. As the take up of tablets gathers pace in our schools there is a need for advice on the best approaches and apps to help achieve successful learning outcomes. Teachers need to find meaningful ways to integrate the devices into their own practice and to evaluate which of the many thousands of educational apps might be appropriate for their pupils. This book considers how iPads and tablets can be used to enhance teaching and learning in primary schools. It is especially relevant in the light of the computing curriculum, which puts a new emphasis on children as makers and creators of digital content. Across other curriculum subjects too, the introduction of mobile devices that can be quickly and reliably accessed has precipitated a shift in practice. For example, they have enabled teachers and children to spontaneously pursue lines of inquiry, to connect, collaborate and publish in many different ways, and to use their digital skills to enhance their exploration of the physical world outside the classroom. With these opportunities in mind, we offer anecdotes from the classroom and examples of how tablets might be embedded within current pedagogy and practice as a natural learning tool. Each chapter combines a practical case study with discussion of related pedagogy, and recommends apps to support a personalised, inclusive and active approach to teaching and learning.

Deciding Where to Live - Melissa G. Ocepek 2020-10-16
Deciding Where to Live: Information Studies on Where to Live in America explores major themes related to where to live in America, not only about the acquisition of a home but also the ways in which where one lives relates to one's cultural identity. It shows how changes in media and information technology are shaping both our housing choices and our understanding of the meaning of personal place. The work is written

using widely accessible language but supported by a strong academic foundation from information studies and other humanities and social science disciplines. Chapters analyze everyday information behavior related to questions about where to live. The eleven major chapters are: Chapter 1: Where to live as an information problem: three contemporary examples Chapter 2: Turning in place: Real estate agents and the move from information custodians to information brokers Chapter 3: The Evolving Residential Real Estate Information Ecosystem: The Rise of Zillow Chapter 4: Privacy, Surveillance, and the "Smart Home" Chapter 5: This Old House, Fixer Upper, and Better Homes & Gardens: The Housing Crisis and Media Sources Chapter 6: A Community Responds to Growth: An Information Story About What Makes for a Good Place to Live." Chapter 7: The Valley Between Us: The meta-hodology of racial segregation in Milwaukee, Wisconsin Chapter 8: Modeling Hope: Boundary Objects and Design Patterns in a Heartland Heterotopia Chapter 9: Home buying in Everyday Life: How Emotion and Time Pressure Shape High Stakes Deciders' Information Behavior Chapter 10: In Search of Home: Examining Information Seeking and Sources That Help African Americans Determine Where to Live Chapter 11: Where to Live in Retirement: A Complex Information Problem While the book is partly about the goal-directed activity of individuals who want to buy a house, and the infrastructure that supports that activity, it is also about personal activities that are either not goal directed or are directed at other goals such as deciding in which geographic location to live, personal entertainment, cultural understanding, or identity formation.

Evaluating Demand-Driven Acquisitions - Laura Costello 2016-10-02
Evaluating Demand-Driven Acquisitions examines recent research in demand-driven

acquisitions in an effort to develop an evaluation framework specific to demand-driven programs. The chapters in this volume focus on the criteria and methods that are used to evaluate the results of demand-driven programs in research. Case studies and pilot programs from all types of libraries—including interlibrary loan to purchase programs, catalog integrated strategies, and evidence-based collection development—help illuminate the current best practices and benchmarks for demand-driven evaluation. This book helps librarians and practitioners evaluate their existing demand-driven programs and make adjustments that could decrease costs or expand existing strategies. It is also suitable for librarians with new or emerging demand-driven programs to use as a framework for developing ongoing assessment programs or evaluating pilot programs. Provides a comprehensive and up-to-date assessment of demand driven acquisitions research Separates research findings by evaluation criteria for ease of use

Serves as a reference for diverse libraries, including academic, public, and corporate libraries Synthesizes the most current research on this increasingly popular library strategy

Constructive Communication in International Teams - iCom Team 2014
