**Summary of Ken McElroy's *The ABCs of Real Estate Investing*** - Everest Media, 2022-05-26T22:59:00Z

Please note: This is a companion version & not the original book. Sample Book Insights: #1 Every business and every industry has people who seem to drip with success. They seem to know all the right people, make all the right decisions, and be in all the right places at the right time. But these successes are not the result of magic or luck. They are the result of hard work and preparation. #2 All you need to invest in real estate is a good deal that makes sense and solid financials. You don't need hundreds of thousands of dollars in the bank to invest in real estate, and you don't need millions. All you need is a good deal that makes sense. #3 There are thousands of people interested in investing in real estate, particularly when other investment vehicles, such as the stock market and bonds, are declining. Just look around at a Rich Dad Seminar. #4 While buying a \$2 million house may seem like a big leap, it is not as risky as it seems. When you buy a house or a condo and rent it out, appreciation of the property depends on the appreciation of the neighborhood. However, when you buy and manage commercial properties, such as apartment buildings, appreciation is based on the cash flow of the property itself.

This book will tackle that skepticism head on... and give you confidence and a path to financial freedom. **THIS BOOK WILL TEACH YOU HOW TO:** - Secure your

Many people have million-dollar ideas. They're confident that their new product or service or innovation will make them rich and that all their dreams will come true. The problem is: Most people don't know how to turn their million-dollar idea into millions of dollars. According to many social scientists, the most important thing in life is a person's social and professional network. In other words, the people around us--our associates, our team, our friends. The people we surround ourselves with--and the people we go to for advice and guidance--can mean the difference between success and failure. And as he taught in Rich Dad Poor Dad, if the people around you have a poor person's mindset, it's likely that you'll be, or stay, poor. Your team, in life and in business, will determine if your million-dollar idea will give you a million-dollar payday. In *More Important Than Money*, Robert teams up with his most trusted Advisors who contribute not only chapters on the strengths and talents they bring to the team, but offer

candid and insightful individual Profiles and excerpts from each of the 14 Rich Dad Advisor Series books. Readers will meet all of Robert's Rich Dad Advisors and learn why they are among his most valuable assets.

This does not happen by chance or by the simple accumulation of talent. The Code is the core ingredient to creating winning organizations. The book is a step-by-step guide for any individual, group or company to actually create a Code of Honor specific to their team. The Rich Dad Poor Dad Advisor series was designed as a "how-to" series to empower individuals to succeed in the world of business and finance.
