### **The Arab of the Future 2 -**

Riad Sattouf 2016-09-20

The highly anticipated continuation of Riad Sattouf's internationally acclaimed, #1 French bestseller, which was hailed by The New York Times as "a disquieting yet essential read" In The Arab of the Future: Volume 1, cartoonist Riad Sattouf tells of the first years of his childhood as his family shuttles back and forth between France and the Middle East. In Libya and Syria, young Riad is exposed to the dismal reality of a life where food is scarce, children kill dogs for sport, and his cousins, virulently anti-Semitic and convinced he is Jewish because of his blond hair, lurk around every corner waiting to beat him up. In Volume 2, Riad, now settled in his father's hometown of Homs, gets to go to school, where he dedicates

himself to becoming a true Syrian in the country of the dictator Hafez Al-Assad. Told simply yet with devastating effect, Riad's story takes in the sweep of politics, religion, and poverty, but is steered by acutely observed small moments: the daily sadism of his schoolteacher, the lure of the black market, with its menu of shame and subsistence, and the obsequiousness of his father in the company of those close to the regime. As his family strains to fit in, one chilling, barbaric act drives the Sattoufs to make the most dramatic of changes. Darkly funny and piercingly direct, The Arab of the Future, Volume 2 once again reveals the inner workings of a tormented country and a tormented family, delivered through Riad Sattouf's dazzlingly original talent.

**Arabs** - Tim Mackintosh-Smith  
2019-04-30

A riveting, comprehensive history of the Arab peoples and tribes that explores the role of language as a cultural touchstone This kaleidoscopic

book covers almost 3,000 years of Arab history and shines a light on the footloose Arab peoples and tribes who conquered lands and disseminated their language and culture over vast distances. Tracing this process to the origins of the Arabic language, rather than the advent of Islam, Tim Mackintosh-Smith begins his narrative more than a thousand years before Muhammad and focuses on how Arabic, both spoken and written, has functioned as a vital source of shared cultural identity over the millennia. Mackintosh-Smith reveals how linguistic developments--from pre-Islamic poetry to the growth of script, Muhammad's use of writing, and the later problems of printing Arabic--have helped and hindered the progress of Arab history, and investigates how, even in today's politically fractured post-Arab Spring environment, Arabic itself is still a source of unity and disunity.

*How Does It Feel to Be a Problem?* - Moustafa Bayoumi

2009-07-28

"Bayoumi offers a revealing portrait of life for people who are often scrutinized but seldom heard from." —Booklist (starred review) "Wholly intelligent and sensitively-drawn, *How Does It Feel to Be a Problem?* is an important investigation into the hearts and minds of young Arab-Americans. This significant and eminently readable work breaks through preconceptions and delivers a fresh take on a unique and vital community. Moustafa Bayoumi's voice is refreshingly frank, personable, and true." —Diana Abu-Jaber, author of *Origin, Crescent, and The Language of Baklava* An eye-opening look at how young Arab- and Muslim-Americans are forging lives for themselves in a country that often mistakes them for the enemy. Just over a century ago, W.E.B. Du Bois posed a probing question in his classic *The Souls of Black Folk*: How does it feel to be a problem? Now, Moustafa Bayoumi asks the same about America's new "problem"-Arab- and Muslim-

Americans. Bayoumi takes readers into the lives of seven twenty-somethings living in Brooklyn, home to the largest Arab-American population in the United States. He moves beyond stereotypes and clichés to reveal their often unseen struggles, from being subjected to government surveillance to the indignities of workplace discrimination. Through it all, these young men and women persevere through triumphs and setbacks as they help weave the tapestry of a new society that is, at its heart, purely American.

*Cities of Salt* - 'Abd al-Raḥmān Munīf 1988

Spell-binding evocation of Bedouin life in the 1930s when oil is discovered by Americans in an unnamed Persian Gulf kingdom.

**Handbook of Healthcare in the Arab World** - Ismail Laher 2021-08-11

This handbook examines health and medical care in the Arab world from a systems biology approach. It features comprehensive coverage that includes details of key social,

environmental, and cultural determinants. In addition, the contributors also investigate the developed infrastructure that manages and delivers health care and medical solutions throughout the region. More than 25 sections consider all aspects of health, from cancer to hormone replacement therapy, from the use of medications to vitamin deficiency in emergency medical care. Chapters highlight essential areas in the wellbeing and care of this population. These topics include women's health care, displaced and refugee women's health needs, childhood health, social and environmental causes of disease, health systems and health management, and a wide range of diseases of various body systems. This resource also explores issues related to access and barriers to health delivery throughout the region. Health in the Arab world is complex and rapidly changing. The health burden in the region is distributed unevenly based on gender,

location, as well as other factors. In addition, crises such as armed conflicts and an expanding migrant population place additional stress on systems and providers at all levels. This timely resource will help readers better understand all these major issues and more. It will serve as an ideal guide for researchers in various biological disciplines, public health, and regulatory agencies.

*The Foundations of the Arab State* - Ghassan Salame

2013-10-18

The Foundations of the Arab State deals with the conceptual, historical, and cultural environment in which the contemporary Arab state system was established and has evolved. With contributions from established scholars in the field, this volume addresses the major issues posed by the emergence of contemporary Arab states, by their consolidation, the role played by foreign powers in their creation, and their future within the region.

Monsoon - Robert D. Kaplan

2011-09-13

On the world maps common in America, the Western Hemisphere lies front and center, while the Indian Ocean region all but disappears. This convention reveals the geopolitical focus of the now-departed twentieth century, but in the twenty-first century that focus will fundamentally change. In this pivotal examination of the countries known as “Monsoon Asia”—which include India, Pakistan, China, Indonesia, Burma, Oman, Sri Lanka, Bangladesh, and Tanzania—bestselling author Robert D. Kaplan shows how crucial this dynamic area has become to American power. It is here that the fight for democracy, energy independence, and religious freedom will be lost or won, and it is here that American foreign policy must concentrate if the United States is to remain relevant in an ever-changing world. From the Horn of Africa to the Indonesian archipelago and beyond, Kaplan exposes the

effects of population growth, climate change, and extremist politics on this unstable region, demonstrating why Americans can no longer afford to ignore this important area of the world.

[An Inspiration to All Who Enter](#)

- Kathryn James 2013-10-22

In celebration of the fiftieth anniversary of Yale University's Beinecke Library, one of the world's great bibliographic treasure houses, comes this sumptuously illustrated volume of fifty of the Library's most prized rare books and manuscripts. Selected by the Library's curators and accompanied by insightful and accessible texts, the featured works range from recently acquired items from living authors and poets to some of the most famous, rare, and notorious books in history. Among these works are the original map of the Lewis and Clark expedition, James Joyce's proof sheets to Anna Livia Plurabelle, a song printed on papyrus from the second-century Roman Empire, the Voynich manuscript, a poem-

painting by Susan Howe, Langston Hughes's Montage of a Dream Deferred in original manuscript form, and many others.

**Esther's Notebooks** - Riad Sattouf 2023-01-24

From the author of *The Arab of the Future*, comes the first book in a bestselling series of graphic novels that follow the hilarious, heartbreaking, and all painfully true life of a real girl growing up in Paris. Every week, the comic book artist Riad Sattouf has a chat with his friend's 10-year old daughter, Esther. She tells him about her life, her family, her school, her friends, her hopes, her dreams and her fears. And then he creates a one-page comic strip based on what she says. This book is a collection of 156 of those strips, comprising the first three volumes as they appeared in Europe, spanning Esther's life from age 10 to 12. As *The Guardian* noted: "Each page of *Esther's Notebooks* is self-contained—there's usually a neat punchline—but read them all, and you come to see that Sattouf has drawn a

portrait of a generation: their hopes, dreams and cultural references; the way that their personalities, backgrounds—many of the children portrayed have parents who are immigrants—and preconceived ideas about sexuality begin to play out even before they've begun secondary school. The result is a bit like a cartoon version of Michael Apted's landmark TV series, *Up*. These funny, well-observed comics are fantastically daring."

*The Arab of the Future 4* - Riad Sattouf 2019-11-05

The penultimate installment in the bestselling French graphic memoir series—hailed as “exquisitely illustrated” and “irresistible”—covering the years of Riad Sattouf's adolescence, from 1987-1992. In the fourth volume of *The Arab of the Future*, little Riad has grown into a teenager. In the previous books, his childhood was complicated by the pull of his two cultures—French and Syrian—and his parents' deteriorating relationship. Now

his father, Adbel-Razak, has left to take a job in Saudi Arabia, and after making a pilgrimage to Mecca, turns increasingly towards religion. But after following him from place to place and living for years under the harsh conditions of his impoverished village, Riad's mother Clementine has had enough. Refusing to live in a country where women have no rights, she returns with her children to live in France with her own mother... until Abdel-Razak shows up unexpectedly to drag the family on yet another journey. As the series builds to a climax, we see Riad struggle with problems both universal (bullies at school) and specific (his mother's sudden illness, the judgment of his religious relatives). And as Abdel-Razak returns again to the same fantastical dreams he pursued in previous books, we see him become more and more unhinged, until ultimately he crosses the line from idealism to fanaticism, leading to a dramatic breaking point. Full of the same gripping

storytelling and lush visual style for which Sattouf's previous works have won numerous awards, *The Arab of the Future 4* continues the saga of the Sattouf family and their peripatetic life in France and the Middle East.

### **Brothers of the Gun** -

Marwan Hisham 2018-05-15  
A bracingly immediate memoir by a young man coming of age during the Syrian war, an intimate lens on the century's bloodiest conflict, and a profound meditation on kinship, home, and freedom. A NEW YORK TIMES NOTABLE BOOK • LONGLISTED FOR THE NATIONAL BOOK AWARD • "This powerful memoir, illuminated with Molly Crabapple's extraordinary art, provides a rare lens through which we can see a region in deadly conflict."—Bryan Stevenson, author of *Just Mercy* In 2011, Marwan

Hisham and his two friends—fellow working-class college students Nael and Tareq—joined the first protests of the Arab Spring in Syria, in response to a recent massacre. Arm-in-arm they marched, poured Coca-Cola into one another's eyes to blunt the effects of tear gas, ran from the security forces, and cursed the country's president, Bashar al-Assad. It was ecstasy. A long-bottled revolution was finally erupting, and freedom from a brutal dictator seemed, at last, imminent. Five years later, the three young friends were scattered: one now an Islamist revolutionary, another dead at the hands of government soldiers, and the last, Marwan, now a journalist in Turkish exile, trying to find a way back to a homeland reduced to rubble. Marwan was there to witness and document firsthand the Syrian war, from its inception to the present. He watched from the rooftops as regime warplanes bombed soldiers; as revolutionary activist groups, for a few dreamy days, spray-painted

hope on Raqqa; as his friends died or threw in their lot with Islamist fighters. He became a journalist by courageously tweeting out news from a city under siege by ISIS, the Russians, and the Americans all at once. He saw the country that ran through his veins—the country that held his hopes, dreams, and fears—be destroyed in front of him, and eventually joined the relentless stream of refugees risking their lives to escape. Illustrated with more than eighty ink drawings by Molly Crabapple that bring to life the beauty and chaos, *Brothers of the Gun* offers a ground-level reflection on the Syrian revolution—and how it bled into international catastrophe and global war. This is a story of pragmatism and idealism, impossible violence and repression, and, even in the midst of war, profound acts of courage, creativity, and hope. “A book of startling emotional power and intellectual depth.”—Pankaj Mishra, author of *Age of Anger* and *From the Ruins of Empire* “A revelatory and necessary

read on one of the most destructive wars of our time.”—Angela Davis  
*Getting to Pluralism* - Marina Ottaway 2012-11  
Pluralism in the Arab world has not yet matured into functional democratic politics. While ruling establishments, Islamist movements, and secular parties have introduced a much greater degree of pluralism into Arab societies, the imbalance of power and interdependence among these actors limits both the degree of political diversity and its effectiveness at bringing about reforms. The Arab world is likely to grapple with political apathy, low voter turnout, dwindling membership in registered parties, and shrinking constituencies for the foreseeable future. Even the Islamists, who demonstrated great ability to organize and gain followers in the past, have begun showing signs of decreasing popularity. *Getting to Pluralism: Political Actors in the Arab World* explores the balance of power between the disparate political forces of the

Arab world. The essays in this volume examine the characteristics of the major political actors in great detail and assess the weaknesses of the secular parties. They also illustrate the complexities of Islamist participation in the political processes of several Arab countries—pointing out both similarities and differences. Finally, the authors evaluate how incumbent Arab regimes have been able to maintain their grip on power in spite of their claims that they support political and social reform.

**Provoke** - Geoff Tuff  
2021-09-16

Explore a new and effective method for seizing opportunity in the face of uncertainty In *Provoke: How Leaders Shape the Future by Overcoming Fatal Human Flaws*, renowned strategy consultants and best-selling authors Geoff Tuff and Steven Goldbach deliver an insightful exploration of how people tend to act tentatively in the face of uncertainty and provide the tools we need to do things differently. Tuff and

Goldbach offer up a compelling argument for the proposition that taking a "wait and see" approach is the exact opposite of what helps visionary leaders change the world. Drawing on principles from business and behavioral economics, the book shows readers from all walks of life how to provoke action as a mechanism to advance. In this book you'll discover: An overview of the assortment of cognitive biases which tend to restrain and distort leadership decision making in the face of uncertainty How to recognize the 'phase change' that occurs when an uncertainty resolves from being a question of "if" to being a matter of "when" Five different models of provocation which can be used alone or in combination to anticipate, drive through and exit that phase change in a way that creates the future you desire How true "provocateurs" shake the foundations of their industries, firms, sectors, and governments by overcoming their need for certainty before action Perfect for leaders or aspiring leaders in all walks of

life where uncertainty abounds—which is to say, almost everywhere —Provoke will become your go-to guide to overcoming those natural human instincts that keep us frozen in place and prevent us from seizing our opportunities.

*The Arab Winter* - Noah Feldman 2021-08-03

The Arab Spring promised to end dictatorship and bring self-government to people across the Middle East. Yet everywhere except Tunisia it led to either renewed dictatorship, civil war, extremist terror, or all three. In *The Arab Winter*, Noah Feldman argues that the Arab Spring was nevertheless not an unmitigated failure, much less an inevitable one. Rather, it was a noble, tragic series of events in which, for the first time in recent Middle Eastern history, Arabic-speaking peoples took free, collective political action as they sought to achieve self-determination.

**I Was Their American Dream** - Malaka Gharib  
2019-04-30

"A portrait of growing up in America, and a portrait of

family, that pulls off the feat of being both intimately specific and deeply universal at the same time. I adored this book.”—Jonny Sun “[A] high-spirited graphical memoir . . . Gharib’s wisdom about the power and limits of racial identity is evident in the way she draws.”—NPR WINNER OF THE ARAB AMERICAN BOOK AWARD • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • The New York Public Library • Kirkus Reviews I Was Their American Dream is at once a coming-of-age story and a reminder of the thousands of immigrants who come to America in search for a better life for themselves and their children. The daughter of parents with unfulfilled dreams themselves, Malaka navigated her childhood chasing her parents’ ideals, learning to code-switch between her family’s Filipino and Egyptian customs, adapting to white culture to fit in, crushing on skater boys, and trying to understand the tension between holding onto cultural values and trying to be an all-

American kid. Malaka Gharib’s triumphant graphic memoir brings to life her teenage antics and illuminates earnest questions about identity and culture, while providing thoughtful insight into the lives of modern immigrants and the generation of millennial children they raised. Malaka’s story is a heartfelt tribute to the American immigrants who have invested their future in the promise of the American dream. Praise for I Was Their American Dream “In this time when immigration is such a hot topic, Malaka Gharib puts an engaging human face on the issue. . . . The push and pull first-generation kids feel is portrayed with humor and love, especially humor. . . . Gharib pokes fun at all of the cultures she lives in, able to see each of them with an outsider’s wry eye, while appreciating them with an insider’s close experience. . . . The question of ‘What are you?’ has never been answered with so much charm.”—Marissa Moss, New York Journal of Books “Forthright and funny, Gharib

fiercely claims her own American dream.”—Booklist “Thoughtful and relatable, this touching account should be shared across generations.”—Library Journal “This charming graphic memoir riffs on the joys and challenges of developing a unique ethnic identity.”— Publishers Weekly

When We Were Arabs - Massoud Hayoun 2019-06-25

The stunning debut of a brilliant nonfiction writer whose vivid account of his grandparents’ lives in Egypt, Tunisia, Palestine, and Los Angeles reclaims his family’s Jewish Arab identity There was a time when being an “Arab” didn’t mean you were necessarily Muslim. It was a time when Oscar Hayoun, a Jewish Arab, strode along the Nile in a fashionable suit, long before he and his father arrived at the port of Haifa to join the Zionist state only to find themselves hosed down with DDT and then left unemployed on the margins of society. In that time, Arabness was a mark of cosmopolitanism, of

intellectualism. Today, in the age of the Likud and ISIS, Oscar’s son, the Jewish Arab journalist Massoud Hayoun whom Oscar raised in Los Angeles, finds his voice by telling his family’s story. To reclaim a worldly, nuanced Arab identity is, for Hayoun, part of the larger project to recall a time before ethnic identity was mangled for political ends. It is also a journey deep into a lost age of sophisticated innocence in the Arab world; an age that is now nearly lost. When We Were Arabs showcases the gorgeous prose of the Eppy Award-winning writer Massoud Hayoun, bringing the worlds of his grandparents alive, vividly shattering our contemporary understanding of what makes an Arab, what makes a Jew, and how we draw the lines over which we do battle.

**Armies of Sand** - Kenneth Michael Pollack 2019

Armies of Sand asks, 'why have Arab militaries fought so poorly in the modern era?' It examines the performance of over two-dozen Arab militaries from

1948 to 2017, and compares them to a half-dozen non-Arab militaries, to conclude that politics, economics, and culture all contributed to the past weakness of Arab armies.

**The Arab Winter** - Stephen J. King 2020-02-13

Compares experiences of the Arab Spring for a comprehensive account of how nations handled the challenge of democratic consolidation.

*The Arab of the Future 2* - Riad Sattouf 2016-09-22

The highly anticipated continuation of Riad Sattoufs internationally acclaimed, #1 French bestseller, which was hailed by the New York Times as a disquieting yet essential read in the Arab of the Future: Volume 1, cartoonist Riad Sattouf tells of the first years of his childhood as his family shuttles back and forth between France and the Middle East. **How Capitalism Failed the**

**Arab World** - Richard Javad Heydarian 2014-02-13  
Economic liberalization has failed in the Arab world. Instead of ushering in economic dynamism and precipitating democratic reform, it has over the last three decades resulted in greater poverty, rising income inequality and sky-rocketing rates of youth unemployment. In *How Capitalism Failed the Arab World*, Richard Javad Heydarian shows how years of economic mismanagement, political autocracy and corruption have encouraged people to revolt, and how the initial optimism of the uprisings is now giving way to bitter power struggles, increasing uncertainty and continued economic stagnation. A unique and provocative analysis of some of the key social and political events of the last decade.

*The Future Earth* - Eric Holthaus 2020-06-30  
The first hopeful book about climate change, *The Future Earth* shows readers how to reverse the short- and long-

term effects of climate change over the next three decades. The basics of climate science are easy. We know it is entirely human-caused. Which means its solutions will be similarly human-led. In *The Future Earth*, leading climate change advocate and weather-related journalist Eric Holthaus (“the Rebel Nerd of Meteorology”—*Rolling Stone*) offers a radical vision of our future, specifically how to reverse the short- and long-term effects of climate change over the next three decades. Anchored by world-class reporting, interviews with futurists, climatologists, biologists, economists, and climate change activists, it shows what the world could look like if we implemented radical solutions on the scale of the crises we face. What could happen if we reduced carbon emissions by 50 percent in the next decade? What could living in a city look like in 2030? How could the world operate in 2040, if the proposed Green New Deal created a 100 percent net carbon-free

economy in the United States? This is the book for anyone who feels overwhelmed by the current state of our environment. Hopeful and prophetic, *The Future Earth* invites us to imagine how we can reverse the effects of climate change in our own lifetime and encourages us to enter a deeper relationship with the earth as conscientious stewards and to re-affirm our commitment to one another in our shared humanity.

### **The Battle for the Arab**

**Spring** - Lin Noueihed

2012-03-16

This “lucidly written” account of the 2011 wave of revolutions “includes a wealth of astute analysis on the politics of the region, from Morocco to Oman” (Paul Hockenos, *The National*). Sparked by the protest of a single vegetable seller in Tunisia, the flame of revolutionary passion swept across the Arab world in what has come to be called the Arab Spring of 2011. Millions took to the streets in revolt. The governments of Tunisia, Egypt, and Libya fell, other regimes

remain embattled, and no corner of the region has escaped unchanged. Here, Middle East experts Lin Noueihed and Alex Warren explain the economic and political roots of the Arab Spring and assess the road ahead. Through research, interviews, and a wealth of firsthand experience, the authors explain the unique obstacles each country faces in maintaining stability. They analyze the challenges many Arab nations face in building democratic institutions, finding consensus on political Islam, overcoming tribal divides, and satisfying an insatiable demand for jobs. In an era of change and uncertainty, this insightful guide provides the first clear glimpse of the post-revolutionary future the Arab Spring set in motion.

**Book Of Sands** - Karim Alrawi  
2015-09-01

A powerful, lyrical novel of the endurance of love, set amid the upheaval of the Arab Spring and the brutal repression of a totalitarian regime Tarek, a young father, watches as the city he lives in is mired in protests, hemmed in by barricades and strangely inundated by great flocks of birds. Facing the threat of police arrest, he flees with his nine-year-old daughter, Neda. He is forced to leave behind his pregnant wife, Mona, under the watchful eye of Omar, her deeply troubled and religious brother. Compounding the difficulties of these times, babies refuse to be born and mothers stop giving birth. As Tarek and Nada journey through villages razed by conflict toward a mountain refuge, they meet with

travellers from Tarek's past and his time as a political prisoner. The reunion reveals secrets that Tarek must come to terms with for his own and Neda's sake. Ultimately, he must decide where this journey will take them and if he will ever be able to return home again. In the tradition of Salman Rushdie's *Midnight's Children* and Orhan Pamuk's *Snow*, debut novelist Karim Alrawi deftly weaves an atmospheric, multi-layered story of intimate lives, informed by recent events and heightened by touches of magic realism, set against the wider canvas of historic events.

[The Death of the Nation and the Future of the Arab Revolution](#) - Vijay Prashad  
2016-09-13

This fast-paced and timely book from Vijay Prashad is the best critical primer to the Middle East conflicts today, from Syria and Saudi Arabia to the chaos in Turkey. Mixing thrilling anecdotes from street-level reporting that give readers a sense of what is at stake with a bird's-eye view of the

geopolitics of the region and the globe, Prashad guides us through the dramatic changes in players, politics, and economics in the Middle East over the last five years. “The Arab Spring was defeated neither in the byways of Tahrir Square nor in the souk of Aleppo,” he explains. “It was defeated roundly in the palaces of Riyadh and Ankara as well as in Washington, DC and Paris.” The heart of this book explores the turmoil in Iraq, Syria, and Lebanon—countries where ISIS emerged and is thriving. It is here that the story of the region rests. What would a post-ISIS Middle East look like? Who will listen to the grievances of the people? Can there be another future for the region that is not the return of the security state or the continuation of monarchies? Placing developments in the Middle East in the broader context of revolutionary history, *The Death of the Nation* tackles these critical questions.

**The Future of Reputation -**  
Daniel J. Solove 2007-01-01

Teeming with chatrooms, online discussion groups, and blogs, the Internet offers previously unimagined opportunities for personal expression and communication. But there's a dark side to the story. A trail of information fragments about us is forever preserved on the Internet, instantly available in a Google search. A permanent chronicle of our private lives--often of dubious reliability and sometimes totally false--will follow us wherever we go, accessible to friends, strangers, dates, employers, neighbors, relatives, and anyone else who cares to look. This engrossing book, brimming with amazing examples of gossip, slander, and rumor on the Internet, explores the profound implications of the online collision between free speech and privacy. Daniel Solove, an authority on information privacy law, offers a fascinating account of how the Internet is transforming gossip, the way we shame others, and our ability to protect our own

reputations. Focusing on blogs, Internet communities, cybermobs, and other current trends, he shows that, ironically, the unconstrained flow of information on the Internet may impede opportunities for self-development and freedom. Long-standing notions of privacy need review, the author contends: unless we establish a balance between privacy and free speech, we may discover that the freedom of the Internet makes us less free.

*A Game for Swallows* - Zeina Abirached 2012-09-01

When Zeina was born, the civil war in Lebanon had been going on for six years, so it's just a normal part of life for her and her parents and her little brother. The city of Beirut is cut in two, separated by bricks and sandbags and threatened by snipers and shelling. East Beirut is for Christians, and West Beirut is for Muslims. When Zeina's parents don't return one afternoon from a visit to the other half of the city, and the bombing grows

ever closer, the neighbors in her apartment house create a world indoors for Zeina and her brother where it's comfy and safe, where they can share cooking lessons and games and gossip. Together they try to make it through a dramatic day in the one place they hoped they would always be safehome. Zeina Abirached, born into a Lebanese Christian family in 1981, has collected her childhood recollections of Beirut in a warm story about the strength of family and community.

*The Arab Awakening* - Kenneth

M. Pollack 2011-10-01  
Even the most seasoned Middle East observers were taken aback by the events of early 2011. Protests born of oppression and socioeconomic frustration erupted throughout the streets; public unrest provoked violent police backlash; long-established dictatorships fell. How did this all happen? What might the future look like, and what are the likely ramifications for the United States and the rest of the world? In *The Arab Awakening*, experts from the Brookings Institution tackle such questions to make sense of this tumultuous region that remains at the heart of U.S. national interests. The first portion of *The Arab Awakening* offers broad lessons by analyzing key aspects of the Mideast turmoil, such as public opinion trends within the "Arab Street"; the role of social media and technology; socioeconomic and demographic conditions; the influence of Islamists; and the impact of the new political order on the Arab-Israeli peace process. The next section looks

at the countries themselves, finding commonalities and grouping them according to the political evolutions that have (or have not) occurred in each country. The section offers insight into the current situation, and possible trajectory of each group of countries, followed by individual nation studies. *The Arab Awakening* brings the full resources of Brookings to bear on making sense of what may turn out to be the most significant geopolitical movement of this generation. It is essential reading for anyone looking to understand these developments and their consequences.

**The World Community and the Arab Spring** - Cenap Çakmak 2018-07-26

This edited volume offers an understanding of how the international community, as a collection of significant actors including major states and intergovernmental institutions, has responded to the important political and social development of the Arab Spring. Contributors analyze

the response by international organizations (UN, EU, NATO), big powers (US, Russia, China, UK), regional powers (Turkey, Iran, Israel, Saudi Arabia) and small powers (Kuwait, Qatar). The book thus makes a sound contribution to the existing literature on the Arab Spring in form of foreign policy analysis and provides an overview of the current shape and outlook of global politics.

*Military Responses to the Arab Uprisings and the Future of Civil-Military Relations in the Middle East* - William C. Taylor  
2014-08-07

Arab military responses to the popular uprisings across the Middle East and North Africa in 2011 differed notably from one another. Despite numerous economic, social, and political similarities among countries, Arab militaries have fractured, remained unified, staunchly supported the regime, boldly stood with the protesters, or remained neutral. This book examines the decision-making calculus of Arab militaries in times of social unrest and reveals why the sale of military

equipment to Arab militaries and the Western education of their officers have an inconsequential impact on their domestic behavior. Instead, Arab militaries are clearly driven by domestic restraints and institutional interests. Indeed, the recent spate of social uprisings across the region signals the onset of a new era of civil-military relations in the Arab world.

Riad Sattouf 2018-11-13

After having followed her husband to Libya and then to Syria, Riad's mother can't take any more of village life in Ter Maaleh: she wants to go back to France. Young Riad sees his father torn between his wife's aspirations and the weight of family traditions... The Arab of the Future tells the story of Riad Sattouf's childhood in the Middle East. The first volume covers the period from 1978 to 1984: from birth to the age of six, little Riad is shuttled

between Libya, Brittany and Syria. The second volume tells the story of his first year of school in Syria (1984-1985). This third volume sees him between the ages of six and nine, the time he becomes aware of the society he is growing up in. Can you celebrate Christmas in Ter Maaleh? Were there video clubs in Homs? How do children of eight fast for Ramadan? Was Conan the Barbarian circumcised? Were Breton villagers kinder to their animals than their Syrian counterparts? How far will Riad go to please his father? And how far will his father go to become an important man in the Syria of Hafez Al-Assad?
