Subfloor Pits and the Archaeology of Slavery in Colonial Virginia - Patricia Samford 2007-12-16

Investigates the development of hypotheses about how West African, possibly Igbo, cultural traditions were maintained and transformed in the Virginia Chesapeake Enslaved Africans and their descendants comprised a significant portion of colonial Virginia populations, with most living on rural slave quarters adjacent to the agricultural fields in which they labored. Archaeological excavations into these home sites have provided unique windows into the daily lifeways and culture of these early inhabitants. A common characteristic of Virginia slave quarters is the presence of subfloor pits beneath the houses. The most common explanations of the functions of these pits are as storage places for personal belongings or root vegetables, and some contextual and ethnohistoric data suggest they may have served as West Africa-style shrines. Through excavations of 103 subfloor pits dating from the 17th through mid-19th centuries, Samford reveals a wealth of data including shape, location, surface area, and depth, as well as contents and patterns of related feature placement. Archaeology reveals the material circumstances of slaves' lives, which in turn opens the door to illuminating other aspects of life: spirituality, symbolic meanings assigned to material goods, social life, individual and group agency, and acts of resistance and accommodation. Analysis of the artifact assemblages allows the development of hypotheses about how West African, possibly Igbo, cultural traditions were maintained and transformed in the Virginia Chesapeake.

Religion, Community, and Slavery on the Colonial Southern Frontier - James Van Horn Melton 2015-06-04

This book tells the story of Ebenezer, a frontier community in colonial Georgia founded by a mountain community fleeing religious persecution in its native Salzburg. This study traces the lives of the settlers from the alpine world they left behind to their struggle for survival on the southern frontier of British America. Exploring their encounters with African and indigenous peoples with whom they had had no previous contact, this book examines their initial opposition to slavery and why they ultimately embraced it. Transatlantic in scope, this study will interest readers of European and American history alike.

Geographical Inquiry and American Historical Problems - Carville Earle 1992

Geography's mission is to comprehend changes on the earth's surface, and toward that end, geographers ponder the interactive effects of nature and culture within specific locations and times. This entails connecting human actions (historical events) with their immediate environs (ecological inquiry) and specific coordinates of place and region (locational inquiry). Most of the essays in this volume employ the variant of ecological inquiry the author calls the staple approach, focusing on primary production (agriculture, forestry, fishing) and its societal ramifications. Locational inquiry queries the spatial distribution of

historical events: Why was mortality in early Virginia highest in a small zone along the James River? Why did cities flourish in early Pennsylvania, Massachusetts, and Carolina and not elsewhere along the Atlantic seaboard? Why was Boston the vanguard of the American Revolution?

The Colonial Riley Families of the Tidewater Frontier (1635-1999) - Robert Shean Riley 2014-08-25

The earliest known Riley immigrants to the Chesapeake Bay Area were the three brothers - Garrett, Miles, and Thomas - arriving in Northern Virginia in 1635. Many of the oldest, surviving Riley Colonial Records and Land Grants of Maryland and Virginia, which are dated late 1600s and early 1700s, pertain to these immigrants and descendents. Many early Colonial Rileys used Christian names taken from the Bible, such as Samuel, Pharoah, Jeremiah, and Eliphaz. Moreover, early Rileys in Colonial America passed down many traditional given names used by O'Reillys (Anglicised as Reyley or Riley) in Ireland, such as Brian (Briain), Farrell (Ferghail), Hugh (Aodh), John (Seaán), and Miles (Maolmordha). And, in Colonial days, many Rileys of the Tidewater Frontier were related and moved in and out of the Colonies now known as Maryland and Virginia. In addition to three Rileys mentioned by name above, there were other Riley immigrants who came to Maryland and Virginia in the late 1600s and early 1700s. In this book, the writer discusses all known individuals of early generations of eight different Riley lines from the time of arrival of their immigrants to approximately 1850. By 1850, all of these Riley lines had multiplied so greatly that tracing their descendents to those living today is almost an impossible task. From 1850 to the present day, the writer discusses only his own branch of Rileys. Prior to this publication, such a comprehensive analysis of the early Riley families of Colonial Maryland and Virginia did not exist. **Places from the Past** - Clare Lise Cavicchi 2001

Carnegie's Maid - Marie Benedict 2018-01-16

The USA Today Bestseller From the author of *The Other Einstein* comes the mesmerizing tale of what kind of woman could have inspired an American dynasty. Clara Kelley is not who they think she is. She's not the experienced Irish maid who was hired to work in one of Pittsburgh's grandest households. She's a poor farmer's daughter with nowhere to go and nothing in her pockets. But the other woman with the same name has vanished, and pretending to be her just might get Clara some money to send back home. If she can keep up the ruse, that is. Serving as a lady's maid in the household of Andrew Carnegie requires skills she doesn't have, answering to an icy mistress who rules her sons and her domain with an iron fist. What Clara does have is a resolve as strong as the steel Pittsburgh is becoming famous for, coupled with an uncanny

understanding of business, and Andrew begins to rely on her. But Clara can't let her guard down, not even when Andrew becomes something more than an employer. Revealing her past might ruin her future — and her family's. With captivating insight and heart, Carnegie's Maid tells the story of one brilliant woman who may have spurred Andrew Carnegie's transformation from ruthless industrialist into the world's first true philanthropist.

Free African Americans of Maryland and Delaware - Paul Heinegg 2000

Heinegg compiles individual family histories into an account of the communities as a whole in the two states. He points out that most free African Americans were descended from white women who had mixed-race children by African American men, and that a number of marriages had occurred between white women and slaves by 1664 when Maryland passed a law that made the wives and their mixed-race children slaves for life. The arrangement is alphabetical by family name. c. Book News Inc.

Tobacco and Slaves - Allan Kulikoff 2012-12-01

Tobacco and Slaves is a major reinterpretation of the economic and political transformation of Chesapeake society from 1680 to 1800. Building upon massive archival research in Maryland and Virginia, Allan Kulikoff provides the most comprehensive study to date of changing social relations--among both blacks and whites--in the eighteenth-century South. He links his arguments about class, gender, and race to the later social history of the South and to larger patterns of American development. Allan Kulikoff is professor of history at Northern Illinois University and author of *The Agrarian Origins of American Capitalism*. [Archeological Research Series](#) - 1951

Race, Politics, and Irish America - Mary M. Burke 2022-11-10

Figures from the Scots-Irish Andrew Jackson to the Caribbean-Irish

Rihanna, as well as literature, film, caricature, and beauty discourse, convey how the Irish racially transformed multiple times: in the slave-holding Caribbean, on America's frontiers and antebellum plantations, and along its eastern seaboard. This cultural history of race and centuries of Irishness in the Americas examines the forcibly transported Irish, the eighteenth-century Presbyterian Ulster-Scots, and post-1845 Famine immigrants. Their racial transformations are indicated by the designations they acquired in the Americas: 'Redlegs,' 'Scots-Irish,' and 'black Irish.' In literature by Fitzgerald, O'Neill, Mitchell, Glasgow, and Yerby (an African-American author of Scots-Irish heritage), the Irish are both colluders and victims within America's racial structure. Depictions range from Irish encounters with Native and African Americans to competition within America's immigrant hierarchy between 'Saxon' Scots-Irish and 'Celtic' Irish Catholic. Irish-connected presidents feature, but attention to queer and multiracial authors, public women, beauty professionals, and performers complicates the 'Irish whitening' narrative. Thus, 'Irish Princess' Grace Kelly's globally-broadcast ascent to royalty paves the way for 'America's royals,' the Kennedys. The presidencies of the Scots-Irish Jackson and Catholic-Irish Kennedy signalled their respective cohorts' assimilation. Since Gothic literature particularly expresses the complicity that attaining power ('whiteness') entails, subgenres named 'Scots-Irish Gothic' and 'Kennedy Gothic' are identified: in Gothic by Brown, Poe, James, Faulkner, and Welty, the violence of the colonial Irish motherland is visited upon marginalized Americans, including, sometimes, other Irish groupings. History is Gothic in Irish-American narrative because the undead Irish past replays within America's contexts of race.

Revolutionary Economies - Thomas W. Cuddy 2008-09-11

Revolutionary Economies explores the roots of American capitalism through the archaeology and history of the Chesapeake Bay region. Thomas W. Cuddy looks at the archaeological evidence concerning revolutionary-period bakeries and bakers (some of whom had been students of Adam Smith in Scotland) in Annapolis, Maryland and Alexandria, Virginia to examine the development of local production systems that characterized these important early American urban centers. Revolutionary Economies charts the stages of production from household manufacturing to larger workshops to mechanized factories and opens a window on the country's economic history. The volume's blend of archaeology, history, and economics makes it a prototypical study in historical archaeology.

From Slave Ship to Harvard - James H. Johnston 2012-05-14

"Part historical narrative, part genealogical detective work," this is the true story of an African American family in Maryland over six generations (Library Journal). Using diaries, court records, legal documents, books, paintings, photographs, and oral histories, *From Slave Ship to Harvard* traces a family—from the colonial period and the American Revolution through the Civil War to Harvard and finally today—forming a unique narrative of black struggle and achievement. Yarrow Mamout was an educated Muslim from Guinea, brought to Maryland on the slave ship *Elijah*. When he gained his freedom forty-four years later, he'd become so well known in the Georgetown section of Washington, DC, that he attracted the attention of the eminent portrait painter Charles Willson Peale, who captured Yarrow's visage in the painting on the cover of this book. Yarrow's immediate relatives—his sister, niece, wife, and son—were notable in their own right. His son married into the neighboring Turner family, and the farm community in western Maryland called Yarrowsburg was named for Yarrow Mamout's daughter-in-law, Mary "Polly" Turner Yarrow. The Turner line ultimately produced Robert Turner Ford, who graduated from Harvard University in 1927. Just as Peale painted the portrait of Yarrow, James H. Johnston's new book puts a face on slavery and paints the history of race in Maryland, where relationships between blacks and whites were far more complex than many realize. As this one family's experience shows, individuals of both races repeatedly stepped forward to lessen divisions, and to move America toward the diverse society of today.

Minesweeper (Special Forces, Book 2) - Chris Lynch 2019-12-03

"All the sizzle, chaos, noise and scariness of war is clay in the hands of ace storyteller Lynch." -- Kirkus Reviews for the World War II series

Discover the secret missions behind America's greatest conflicts. Fergus Frew thought he knew what to expect when he signed up with the Navy's demolitions team. But as the Korean War rages on, Fergus and his fellow divers -- AKA "frogmen" -- are tasked with more than just scouting mudflats. Soon they're planting mines. And sabotaging tunnels, bridges... and even fishing nets. Strangest of all, it falls to Fergus to transport a spy into the country -- and that means traveling far from Navy-controlled waters. But frogmen are amphibious. And Fergus may not realize it, but he's in a position to change the way the whole world thinks about combat. National Book Award finalist Chris Lynch continues his explosive fiction series based on the real-life, top-secret history of US black ops and today's heroic Navy SEALs.
