[Creative Resources for the Early Childhood Classroom](#) - Judy Herr
2012-02-16

Early childhood educators around the world use this best seller to plan daily curriculum and classroom activities. The book contains 76 different themes ranging from Ants to Zoo Animals, presented in alphabetical order. Content for each theme includes the following sections: Curriculum Flowchart, Theme Goals, Concepts for Children to Learn, Vocabulary, Bulletin Board Ideas, Sample Parent Letter, Arts and Crafts, Cooking, Dramatic Play, Field Trips, Fingerplays/Chants, Group Time, Science, Math, Sensory, Large Motor, Fine Motor, Social Studies, Books, Recordings and Song Titles, and Technology/Multimedia Resources. The updated book sections for each theme include hundreds of new children's literature references with a special emphasis on multicultural selections. In addition, the new Sixth Edition includes a brand new four-color insert on Using the Digital Camera in the Early Childhood Classroom. The text

is accompanied by a companion website that contains important assessment tools, lesson plan forms, rainy day activities, developmental checklists, classroom artifacts, and much more. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

[The Early Childhood Curriculum](#) - Suzanne L. Krogh 2014-02-18
Based on research that demonstrates the powerful advantages of integrating the curriculum while providing inquiry opportunities, The Early Childhood Curriculum shows how to make such an approach work for all children, preschool through the primary grades. The text demonstrates how to confidently teach using inquiry-based methods that address the whole child, while also meeting and exceeding academic standards. Offering a foundation in early childhood theory, philosophy, research, and development, the 2nd edition of this unique textbook helps future teachers, as well as current educators, understand the "why" of

curriculum in early childhood and invests them with the skills they need to move from simply following a script to knowledgeably creating curricula on their own. Since each curricular subject has its own integrity, there is a chapter for each discipline, grounding the reader in the essentials of the subject in order to foster knowledgeable and effective integration. The 2nd edition of *The Early Childhood Curriculum* includes information on the most recent trends in national curriculum standards, particularly in regard to the Common Core State Standards Initiative and the Next Generation Science Standards. Coupled with this information are practical suggestions for meeting standards while still providing young learners with a truly child-centered educational experience. Chapters contain real-life vignettes that demonstrate inquiry and integration in practice. The entire text reflects the philosophy that the use of inquiry to seek and obtain information is one of the most valuable and powerful tools children can acquire along the way to becoming lifelong learners.

A Nannys Day the Professional Way! - Kristin Laubenthal 2012-02-17
A Nanny's Day - The Professional Way! is an ultimate curriculum book designed for the professional early childhood nanny. Naturally; any stay-at-home parent, early childhood teacher, or home child care provider can utilize the ideas in this book. Kristin strongly believes that every professional nanny should have learning experiences intended for the day. This book includes ideas from nine curricular areas - art, cooking, language, math, motor skills, music, science, social studies, and health, safety, and nutrition. The ideas are made to not only teach the children in your care, but are also inexpensive and uncomplicated. She gives lesson plans and activity ideas based upon three concepts: The Nanny's Creative Curriculum, The Nanny's Literacy Curriculum, and The Nanny's Thematic Curriculum. Kristin also gives developmentally appropriate sample schedules for children between the ages of zero to five.

Early Learning Thematic Lesson Plans, Grades PK - 1 - Sherrill B. Flora 2010-06-11

Encourage a love of learning in students in grades PK-1 with *Early Learning Thematic Lesson Plans!* This 160-page resource engages young

learners with 32 weekly themes and more than 600 developmentally appropriate activities. All of the research, planning, and scheduling has already been done. Just open the book, choose a theme, and start teaching! The book includes morning circle activities, a guide to children's literature, and integrated activities. This book supports NCTE, NCTM, NCSS, and NAEYC standards.

Everyday Preschool - Allison McDonald 2021-08-06

Over 100 simple preschool activities that use everyday materials. You don't need to invest a lot of money to teach your child at home. Activities are short, with minimal prep so you can fit some learning into your day. The book is organized into nine categories of learning; literacy, math, science, sensory, art, fine motor, gross motor, social-emotional, and bedtime reading tips. Activities have been created using various state standards for PreK and have tips for making activities easier or harder to fit your child. An Appendix filled with links to free printables, song lyrics, nursery rhymes, my favorite playdough recipe, and more.

[Anti-Bias Curriculum for the Preschool Classroom](#) - YWCA Minneapolis Early Childhood Education Department 2021-04-13

The YWCA Minneapolis Early Childhood Education's anti-biased and play-based curriculum uses practical and real-life experiences to support teacher learning and practice. With thrilling success in 2016, 94% of infants through preschoolers enrolled in this program were on track with age-appropriate development. This curriculum is flexible enough to accommodate state or local standards while remaining open to children's ideas, interests, and questions. The YWCA Minneapolis Early Childhood Education Department has been providing quality education for forty years, delivering a powerful blend of high-quality, full-time early childhood education, direct service and advocacy for children, from infants through ten-year-olds in partnership with their families.

Specifically designed for the preschool teacher! Unique pages for

planning early childhood interest centers.

Sign to Learn - Kirsten Dennis 2005-10-01

A guide for using American Sign Language as a teaching tool for young hearing children.

Early Childhood Curriculum for All Learners - Ann M. Selmi 2014-08-12

Early Childhood Curriculum for All Learners: Integrating Play and Literacy Activities is designed to teach early childhood professionals about the latest research on play and early literacy and then to show them practical methods for adapting this research to everyday classroom practices that will encourage the development of learning skills. The authors link solid, play-based research to specific developmentally appropriate practices. By combining these two areas, the text demonstrates that academic learning and play activities are highly compatible, and that children can and do develop academic skills through play. In addition, the text focuses on socio-dramatic play, a recently acknowledged, essential aspect of child-initiated play interactions. It provides specific strategies that link these interactive behaviors with the early academic skills needed for the initial primary grades. Implementation of the information presented in this book will enable children to experience a richer transition into primary education classrooms.

Eager to Learn - National Research Council 2001-01-22

Clearly babies come into the world remarkably receptive to its wonders. Their alertness to sights, sounds, and even abstract concepts makes them inquisitive explorers and learners every waking minute. Well before formal schooling begins, children's early experiences lay the foundations for their later social behavior, emotional regulation, and literacy. Yet, for a variety of reasons, far too little attention is given to the quality of these crucial years. Outmoded theories, outdated facts, and undersized budgets all play a part in the uneven quality of early childhood programs throughout our country. What will it take to provide better early education and care for our children between the ages of two and five? Eager to Learn explores this crucial question, synthesizing the newest research findings on how young children learn and the impact of

early learning. Key discoveries in how young children learn are reviewed in language accessible to parents as well as educators: findings about the interplay of biology and environment, variations in learning among individuals and children from different social and economic groups, and the importance of health, safety, nutrition and interpersonal warmth to early learning. Perhaps most significant, the book documents how very early in life learning really begins. Valuable conclusions and recommendations are presented in the areas of the teacher-child relationship, the organization and content of curriculum, meeting the needs of those children most at risk of school failure, teacher preparation, assessment of teaching and learning, and more. The book discusses: Evidence for competing theories, models, and approaches in the field and a hard look at some day-to-day practices and activities generally used in preschool. The role of the teacher, the importance of peer interactions, and other relationships in the child's life. Learning needs of minority children, children with disabilities, and other special groups. Approaches to assessing young children's learning for the purposes of policy decisions, diagnosis of educational difficulties, and instructional planning. Preparation and continuing development of teachers. Eager to Learn presents a comprehensive, coherent picture of early childhood learning, along with a clear path toward improving this important stage of life for all children.

Big Questions for Young Minds - Janis Strasser 2017

Weave high-level questions into your teaching practices.

Daily Plan Book for Preschool (2nd Edition) - Inc. Scholastic 2016-03-01

Busy Toddler's Guide to Actual Parenting - Susie Allison 2020-09-22

You don't need to feel alone in parenting. You don't need to feel like you're failing. And you definitely don't need another parenting book filled with theoretical advice about theoretical children. You need actual parenting help from an actual parent. It's time to feel confident in your parenting. Susie Allison, creator of the massive online community Busy Toddler, is a breath of fresh air. With her humor and engaging personality, she helps parents find their footing, shift their perspective on childhood, and laugh at the twists and turns of parenting we all face. (Yes, it's ok that your child licked a shopping cart - they pretty much all do that.) In *Busy Toddler's Guide to Actual Parenting*, Susie gives the achievable advice she's known for around the world, from daily life and #beingtwofine to tantrums and tattling and teaching the ABCs. The book also includes 50+ of her famous activities that have helped thousands of parents make it to nap time-FYI, the popsicle bath is a game-changer. Susie shares real moments raising her three kids as well as her professional knowledge from eight years as a kindergarten and 1st grade teacher. Her simple and doable approach to parenting will leave you feeling so much better! Let Susie give you the actual parenting advice you need.

A to Z Toddler and Preschool Curriculum - Kathy Hutto 2013-08-29

This curriculum is a complete preschool curriculum. The author is a certified educator with over 18 years of teaching experience. She currently serves as Preschool Ministry Coordinator with a church. Each week's lesson plan includes Bible Time, Greeting Circle, Center Time, Circle Time, Story Time, Nap Time, Game Time and Music, and Closing Circle. No additional planning will be necessary to implement the lessons contained in this book. It is set up to cover one letter per week. In addition to the letter of the week, it includes a weekly theme that starts with the letter of the week. The same color, shape, and number are worked on all month long. Each lesson includes activities for teaching

and practicing letter skills, number skills, shapes, and colors. In addition, there is a weekly scripture memory verse (KJV), art projects, and snack ideas. This curriculum begins in August and ends in May. The activity and craft ideas included are very budget friendly. There are Holiday Lessons plans for every major holiday that falls within the school year. This resource contains ready made lesson plans for a 10 month school year. It is perfect for homeschool, Christian Daycare, or Mother's Morning Out.

The Complete Daily Curriculum for Early Childhood - Pamela Byrne Schiller 2011

There's more than one way to be smart! This award-winning curriculum for three- to six-year-olds offers a complete plan for every learning style. Revised and updated, the new edition of this classic bestseller is full of new activities based on the latest research about how children learn. Each activity now includes a Morning Message and Home Connections, and many of the original activities have been updated to include ideas for outdoor play. Full of old favorites and new ideas, the more than 1,200 activities in this curriculum are sure to engage all children. The comprehensive appendix has been updated, and the patterns are now available exclusively online so teachers can easily print them onto any paper at any time! Pam Schiller, PhD, is a highly sought-after speaker who writes regularly for early childhood journals. Pam is the author of five early childhood curriculums, eleven children's books, and more than thirty teacher and parent resource books. Pat Phipps, PhD, is a well-known early childhood consultant who served as the executive director of the California Association for the Education of Young Children (CAEYC) until 2005. She is the past vice president of the National Association for the Education of Young Children (NAEYC).

Starting with Stories - Pamela Byrne Schiller 2006

Featuring one hundred well-loved and easily available children's books, *Starting with Stories* has more than 1,500 activities to actively engage every learning style. This literature-based resource book combines quality children's books, learning centers, and multiple intelligences to give teachers a comprehensive, creative curriculum.

Early Education Curriculum: A Child's Connection to the World - Nancy Beaver 2016-10-05

EARLY EDUCATION CURRICULUM: A CHILD'S CONNECTION TO THE WORLD focuses on the role of observation and assessment in early childhood programming, the process of planning and implementing a curriculum, setting up an inclusive child-centered environment, and the uses of evaluation and documentation for continuous program improvement. Updated with current research and standards, the text continues to present new material on brain research that underlies teaching ideas as well as information on reflective practice, intentional teaching, and using the environment as a teaching tool. The seventh edition includes more material on diversity and diversity strategies, activity plans for different age groups, and more floor plans. New case studies provide examples of how activities planned align with specific standards, and allow students to apply knowledge gained to real-life situations. The book retains its strong applied focus on the how-to's of teaching, with many hands-on teaching tips. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Transforming the Workforce for Children Birth Through Age 8 - National Research Council 2015-07-23

Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. *Transforming the Workforce for Children Birth Through Age 8* explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the

settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. *Transforming the Workforce for Children Birth Through Age 8* offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

Transforming Teaching - Marie Masterson 2021-03

Child-centered lesson planning provides a system to strengthen teaching. Great lesson planning helps teachers to choose a range of strategies that match what children are learning and doing-- from directed mini-lessons to facilitated group activities.

God Made the World & Me - Susan Laurita 2009

It's never too early to start building an appreciation and understanding of our Creator, the Bible, and basic learning skills. Developed by a professional with 30 years' experience in early childhood education, this creation preschool curriculum is a wonderful opportunity to start building a solid faith foundation while children learn about the world around them with lessons children will enthusiastically enjoy. Thirteen comprehensive curriculum lessons combine science, art, physical activities, Bible memorization, and songs, as well as activity suggestions

for younger and older students!

Tools of the Mind - Elena Bodrova 2007

This text is designed for advanced Curriculum, Methods, and Issues courses in Early Childhood Education and Child and Family Studies departments. As the only text of its kind, this book provides in-depth information about Vygotsky's theories, neo-Vygotskians' findings, and concrete explanations and strategies that instruct teachers how to influence student learning and development. Key changes to this edition include a new chapter on dynamic assessment, separate and expanded chapters on developmental accomplishments of infants and toddlers, preschool/kindergarten, and primary grades and o.

Emergent Curriculum in Early Childhood Settings - Susan Stacey
2008-07-01

Helps providers implement proven child-centered curricular practices while meeting early learning standards.

The Complete Daily Curriculum for Early Childhood - Pamela Byrne Schiller 2002

More than 1,200 activities that engage every type of learner by one of Gryphon House's best-selling authors.

Early Childhood Curriculum - Nancy Amanda Branscombe 2013-07-24

Through its unique integration of curriculum and learning principles, *Early Childhood Curriculum: A Constructivist Perspective*, 2nd Edition fosters authentic, developmentally appropriate practice for both preschool and early elementary classrooms. The constructivist format of this book encourages active involvement on the part of readers by asking them to observe, question, reflect, research, and analyze, thus allowing readers to create their own knowledge through their responses and actions. *Early Childhood Curriculum* examines curricular goals such as autonomy, development, and problem solving and links those goals with constructivist principles of learning. It explores ways teachers can create meaningful learning environments and choose curriculum tasks appropriately—in all content areas—that are linked to the learning and development needs of young children. The text provides a wealth of practical detail about implementing constructivist curriculum as the

authors discuss classroom climate and management, room design, play, and cooperative learning, among other topics. The book also includes information about how teachers can meet required mandates and national and state standards in appropriate ways as they plan their curriculum, and examines the early childhood educator's role with community agencies, reform and legal mandates, and public relations. Special Features: • “Curriculum Strategies” highlight models for developing curriculum, including projects, curricular alignment, integration of various subject matter areas, and types of knowledge. • “Constructions” promote problem solving by allowing students to explore, revisit, examine, and learn from first-hand experience. • “Multiple Perspectives from the Field” provide interviews with teachers and other early childhood professionals, offering students a realistic look at the profession from a diverse group of educators. • “Teacher Dialogues” explore a wide range of student concerns, including curriculum, learning environments, assessment, and documentation, representing a collaborative support group for pre-service teachers and readers.

Spotlight on Young Children - Holly Bohart 2018-06-05

The debate surrounding testing and accountability in early childhood education continues, but one thing is universally agreed upon: effective observation and assessment of young children's learning are critical to supporting their development. Educators balance what they know about child development with observation and assessment approaches that both inform and improve the curriculum. This foundational resource for all educators of children from birth through third grade explores What observation and assessment are, why to use them, and how Ways to integrate documentation, observation, and assessment into the daily routine Practices that are culturally and linguistically responsive Ways to engage families in observation and assessment processes How to effectively share children's learning with families, administrators, and others Find inspiration to intentionally develop and implement meaningful, developmentally appropriate observation and assessment practices to build responsive, joyful classrooms.

Jewish Every Day - Maxine Segal Handelman 2000

Written in a warm and understanding tone this guide takes the best in secular early childhood education and applies it to Jewish early childhood education.

Connect4learning - Julie Sarama 2016-02-01

The Complete Resource Book - Pamela Byrne Schiller 1998

A versatile sourcebook for planning classroom activities all year round.

Teach Smarter - Vanessa J. Levin 2021-05-07

Respected author Vanessa Levin, veteran early childhood educator and author of the “Pre-K Pages” blog, breaks down the research

and translates it into realistic, actionable steps you can take to improve your teaching. Features specific examples of teaching techniques and activities that engage students in hands-on, experiential learning during circle time, centers, and small groups. Offers a simple, four-step system for teaching literacy skills, based on the foundational principles of early literacy teaching Demonstrates how to build your confidence in your ability to get 100% of your students ready for kindergarten, long before the end of the school year Understand the problems with traditional literacy teaching and identify gaps in your current teaching practice with this valuable resource.

From Children's Interests to Children's Thinking - Jane Tingle Broderick 2020-06-30

Learn how to connect your curriculum planning to children's interests and thinking. With this book, educators will discover a systematic way for using documentation to design curriculum that emerges from children's inquiries, what they wonder, and what they want to understand. Get strategies for designing a classroom environment at the start of the year to facilitate emergent inquiry curriculum. Each chapter guides teachers to document and reflect on their thinking through each of the five phases of a cycle of inquiry process, including observing, interpreting the meaning of the play they see, and developing questions to engage children.
