

# The First Casualty The Untold Story Of The Falklands War Paperback

This is likewise one of the factors by obtaining the soft documents of this **the first casualty the untold story of the falklands war paperback** by online. You might not require more become old to spend to go to the book commencement as with ease as search for them. In some cases, you likewise reach not discover the revelation the first casualty the untold story of the falklands war paperback that you are looking for. It will utterly squander the time.

However below, in the manner of you visit this web page, it will be as a result no question easy to acquire as skillfully as download lead the first casualty the untold story of the falklands war paperback

It will not tolerate many become old as we notify before. You can pull off it even though measure something else at home and even in your workplace. so easy! So, are you question? Just exercise just what we provide under as without difficulty as review **the first casualty the untold story of the falklands war paperback** what you later to read!

War Before Civilization - Lawrence H. Keeley 1997-12-18

The myth of the peace-loving "noble savage" is persistent and pernicious. Indeed, for the last fifty years, most popular and scholarly works have agreed that prehistoric warfare was rare, harmless, unimportant, and, like smallpox, a disease of civilized societies alone. Prehistoric warfare, according to this view, was little more than a ritualized game, where casualties were limited and the effects of aggression relatively mild. Lawrence Keeley's groundbreaking *War Before Civilization* offers a devastating rebuttal to such comfortable myths and debunks the notion that warfare was introduced to primitive societies through contact with civilization (an idea he denounces as "the pacification of the past"). Building on much fascinating archeological and historical research and offering an astute comparison of warfare in civilized and prehistoric societies, from modern European states to the Plains Indians of North America, *War Before Civilization* convincingly demonstrates that

prehistoric warfare was in fact more deadly, more frequent, and more ruthless than modern war. To support this point, Keeley provides a wide-ranging look at warfare and brutality in the prehistoric world. He reveals, for instance, that prehistorical tactics favoring raids and ambushes, as opposed to formal battles, often yielded a high death-rate; that adult males falling into the hands of their enemies were almost universally killed; and that surprise raids seldom spared even women and children. Keeley cites evidence of ancient massacres in many areas of the world, including the discovery in South Dakota of a prehistoric mass grave containing the remains of over 500 scalped and mutilated men, women, and children (a slaughter that took place a century and a half before the arrival of Columbus). In addition, Keeley surveys the prevalence of looting, destruction, and trophy-taking in all kinds of warfare and again finds little moral distinction between ancient warriors and civilized armies. Finally, and perhaps most controversially, he

examines the evidence of cannibalism among some preliterate peoples. Keeley is a seasoned writer and his book is packed with vivid, eye-opening details (for instance, that the homicide rate of prehistoric Illinois villagers may have exceeded that of the modern United States by some 70 times). But he also goes beyond grisly facts to address the larger moral and philosophical issues raised by his work. What are the causes of war? Are human beings inherently violent? How can we ensure peace in our own time? Challenging some of our most dearly held beliefs, Keeley's conclusions are bound to stir controversy.

**First Platoon** - Annie Jacobsen 2022-01-25

A powerful story of war in our time, of love of country, the experience of tragedy, and a platoon at the center of it all. This is a story that starts off close and goes very big. The initial part of the story might sound familiar at first: it is about a platoon of mostly nineteen-year-old boys sent to Afghanistan, and an experience that ends abruptly in catastrophe. Their part of the story folds into the next: inexorably linked to those soldiers and never comprehensively reported before is the U.S. Department of Defense's quest to build the world's most powerful biometrics database, with the ability to identify, monitor, catalog, and police people all over the world. First Platoon is an American saga that illuminates a transformation of society made possible by this new technology. Part war story, part legal drama, it is about identity in the age of identification. About humanity—physical bravery, trauma, PTSD, a yearning to do right and good—in the age of biometrics, which reduce people to iris scans, fingerprint scans, voice patterning, detection by odor, gait, and more. And about the power of point of view in a burgeoning surveillance state. Based on hundreds of formerly classified documents, FOIA requests, and exclusive interviews, First Platoon is an investigative exposé by a master chronicler of government secrets. First Platoon reveals a post-9/11 Pentagon whose identification machines have grown more capable than the humans who must make sense of them. A Pentagon so powerful it can cover up its own internal mistakes in pursuit of endless wars. And a people at its mercy, in its last moments before a fundamental change so complete it might be impossible to take back.

The Afghanistan Papers - Craig Whitlock 2021-08-31

A Washington Post Best Book of 2021 The #1 New York Times bestselling investigative story of how three successive presidents and their military commanders deceived the public year after year about America's longest war, foreshadowing the Taliban's recapture of Afghanistan, by Washington Post reporter and three-time Pulitzer Prize finalist Craig Whitlock. Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear: defeat al-Qaeda and prevent a repeat of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials lost sight of their original objectives. Distracted by the war in Iraq, the US military become mired in an unwinnable guerrilla conflict in a country it did not understand. But no president wanted to admit failure, especially in a war that began as a just cause. Instead, the Bush, Obama, and Trump administrations sent more and more troops to Afghanistan and repeatedly said they were making progress, even though they knew there was no realistic prospect for an outright victory. Just as the Pentagon Papers changed the public's understanding of Vietnam, The Afghanistan Papers contains "fast-paced and vivid" (The New York Times Book Review) revelation after revelation from people who played a direct role in the war from leaders in the White House and the Pentagon to soldiers and aid workers on the front lines. In unvarnished language, they admit that the US government's strategies were a mess, that the nation-building project was a colossal failure, and that drugs and corruption gained a stranglehold over their allies in the Afghan government. All told, the account is based on interviews with more than 1,000 people who knew that the US government was presenting a distorted, and sometimes entirely fabricated, version of the facts on the ground. Documents unearthed by The Washington Post reveal that President Bush didn't know the name of his Afghanistan war commander—and didn't want to meet with him. Secretary of Defense Donald Rumsfeld admitted that he had "no visibility into who the bad guys are." His successor, Robert Gates, said: "We didn't know jack shit

about al-Qaeda." The Afghanistan Papers is a "searing indictment of the deceit, blunders, and hubris of senior military and civilian officials" (Tom Bowman, NRP Pentagon Correspondent) that will supercharge a long-overdue reckoning over what went wrong and forever change the way the conflict is remembered.

**The First Casualty** - Ricky Phillips 2018-03-20

April 2nd 1982 - the day that the Falklands War erupted. Just sixty Royal Marines stood in the way of an armada of thousands, 8,000 miles from home and with no support. The story that followed was one of a shameful defeat and ignominious surrender. A story which has lasted for 35 years. Now, with first-hand accounts from the Royal Marines themselves, from the Argentine Marines who fought against them and from the people of Stanley who watched the battle rage on their very doorsteps, a new history has emerged. It is the story of an epic and heroic defence on a scale with Rorke's Drift; a story which neither the British nor the Argentine governments wanted told. It is a battle denied; the battle of Stanley, a battle which - we are told - never happened. The second edition has updated stories, more information and is an even more dramatic read!

**First Casualty** - Toby Harnden 2022-09-06

"Masterful, complex, and heartfelt, from the deeply personal to the critically strategic. Captures many lessons on many levels." --Ambassador Hank Crumpton, former senior CIA officer An award winning journalist reveals the dramatic true story of the CIA's Team Alpha, the first Americans to be dropped behind enemy lines in Afghanistan after 9/11. America is reeling; Al-Qaeda has struck and thousands are dead. The country scrambles to respond, but the Pentagon has no plan for Afghanistan--where Osama bin Laden masterminded the attack and is protected by the Taliban. Instead, the CIA steps forward to spearhead the war. Eight CIA officers are dropped into the mountains of northern Afghanistan on October 17, 2001. They are Team Alpha, an eclectic band of linguists, tribal experts, and elite warriors: the first Americans to operate inside Taliban territory. Their covert mission is to track down Al-Qaeda and stop the terrorists from infiltrating the United States again.

First Casualty places you with Team Alpha as the CIA rides into battle on horseback alongside the warlord Abdul Rashid Dostum. In Washington, DC, few trust that the CIA men, the Green Berets, and the Americans' outnumbered Afghan allies can prevail before winter sets in. On the ground, Team Alpha is undeterred. The Taliban is routed but hatches a plot with Al-Qaeda to hit back. Hundreds of suicidal fighters, many hiding weapons, fake a surrender and are transported to Qala-i Jangi--the "Fort of War." Team Alpha's Mike Spann, an ex-Marine, and David Tyson, a polyglot former Central Asian studies academic, seize America's initial opportunity to extract intelligence from men trained by bin Laden--among them a young Muslim convert from California. The prisoners revolt and one CIA officer falls--the first casualty in America's longest war, which will last two decades. The other CIA man shoots dead the Al-Qaeda jihadists attacking his comrade. To survive, he must fight his way out against overwhelming odds. Award-winning author Toby Harnden gained unprecedented access to all living Team Alpha members and every level of the CIA. Superbly researched, First Casualty draws on extensive interviews, secret documents, and deep reporting inside Afghanistan. As gripping as any adventure novel, yet intimate and profoundly moving, it tells how America found a winning strategy only to abandon it. Harnden reveals that the lessons of early victory and the haunting foretelling it contained--unreliable allies, ethnic rivalries, suicide attacks, and errant US bombs--were ignored, tragically fueling a twenty-year conflict.

**The Mission, The Men, and Me** - Pete Blaber 2010-09-07

"A book about the complexities of combat that's just as applicable for dealing with the complexities of business and our personal lives."—Kevin Sharer, chairman and CEO, Amgen As a commander of Delta Force—the most elite counter—terrorist organization in the world—Pete Blaber took part in some of the most dangerous, controversial, and significant military and political events of our time. Now he takes his intimate knowledge of warfare—and the heart, mind, and spirit it takes to win—and moves his focus from the combat zone to civilian life. In this book, you will learn the same lessons he learned, while experiencing

what the life of a Delta Force Operator is like—from the extreme physical and psychological training to the darkest of shadow ops all around the world. From each mission, Pete Blaber has taken a life lesson back with him. You will learn these enlightening lessons as you gain insights into never-before-revealed missions executed around the globe. And when the smoke clears, you will emerge wiser, more capable, and better prepared to succeed in life than you ever thought possible.

First Casualty - Toby Harnden 2021-09-07

An award-winning journalist reveals the dramatic true story of the CIA's Team Alpha, the first Americans to be dropped behind enemy lines in Afghanistan after 9/11. **Shattered Sword** - Jonathan Parshall 2011

Many consider the Battle of Midway to have turned the tide of the Pacific War. It is without question one of the most famous battles in history. Now, for the first time since Gordon W. Prange's bestselling "Miracle at Midway," Jonathan Parshall and Anthony Tully offer a new interpretation of this great naval engagement. Unlike previous accounts, "Shattered Sword" makes extensive use of Japanese primary sources. It also corrects the many errors of Mitsuo Fuchida's "Midway: The Battle That Doomed Japan," an uncritical reliance upon which has tainted every previous Western account. It thus forces a major, potentially controversial reevaluation of the great battle. The authors examine the battle in detail and effortlessly place it within the context of the Imperial Navy's doctrine and technology. With a foreword by leading WWII naval historian John Lundstrom, "Shattered Sword" will become an indispensable part of any military buff's library. Winner of the 2005 John Lyman Book Award for the "Best Book in U.S. Naval History" and cited by "Proceedings" as one of its "Notable Naval Books" for 2005."

The CIA War in Kurdistan - Sam Faddis 2020-03-31

"A valuable history [and] a stark warning to Washington policy and strategy makers." —James Stejskal, former US Army Special Forces and CIA officer In 2002, Sam Faddis was named to head a CIA team that would enter Iraq to facilitate the deployment of follow-on conventional military forces numbering over 40,000 American soldiers. This force,

built around the 4th Infantry Division, would, in partnership with Kurdish forces and with the assistance of Turkey, engage Saddam's army in the North as part of a coming invasion. Faddis expected to be on the ground in Iraq within weeks, the entire campaign likely to be over by summer. Over the course of the next year, virtually every aspect of that plan for the conduct of the war in northern Iraq fell apart. The 4th Infantry Division never arrived, nor did any other conventional forces in substantial number. The Turks not only refused to provide support, they worked overtime to prevent the United States from achieving success. And an Arab army that was to assist US forces fell apart before it ever made it to the field. Alone, hopelessly outnumbered, short on supplies, and threatened by Iraqi assassination teams and Islamic extremists, Faddis's team, working with Kurdish peshmerga, miraculously paved the way for a brilliant and largely bloodless victory in the North and the fall of Saddam's Iraq. That victory, handed over to Washington and the Department of Defense on a silver platter, was then squandered. The decisions that followed would lead to catastrophic consequences that continue to this day. This is the story of the brave and effective team of men and women who overcame massive odds to help end the nightmare of Saddam's rule. It is also the story of how incompetence, bureaucracy, and ignorance threw that success away and condemned Iraq and the surrounding region to chaos

*Dead Men Risen* - Toby Harnden 2014-11-17

*Dead Men Risen*, winner of the prestigious Orwell Prize for Books, is the epic story of a beleaguered British battle group fighting desperately to prevent the Taliban from seizing Afghanistan's Helmand province just as the U.S. Marines arrive to take over. Bestselling author Toby Harnden describes how men from the coal mining valleys and slate quarry villages of Wales found themselves in the most intense combat faced by British troops for a generation. Underequipped and overstretched, the fighting prowess of the Welsh Guards in the killing fields of Sangin and Nawa awed the U.S. Marines. NATO commander General Stanley McChrystal, who was awaiting a response to his urgent request to President Barack Obama for more troops, hailed their "burn-in-your-gut passion." Harnden

was on the ground with the Welsh Guards in Helmand in 2009. He gained access to a trove of secret military documents and conducted nearly three hundred interviews in Afghanistan, England, Wales, and the United States to produce this timeless and profound account of men at war. Commanding the Welsh Guards was Lieutenant Colonel Rupert Thorneloe, a passionate believer in the justness of the war who was dismayed by the military and political incompetence surrounding it. In chilling detail, Harnden reveals how and why Thorneloe—the first British battalion commander to die in action since the 1982 Falklands War—was killed by an IED during Operation Panther's Claw. By the time the fighting was over, almost no rank had been spared. From the searing heat of the poppy fields and the mud compounds of Helmand to the dreaded knock on the door back home, the reader is transported there. Harnden weaves the experiences of the soldiers, their historical forbears and the flawed NATO strategy into a masterly narrative. No other book about modern conflict succeeds on so many levels. *Dead Men Risen* is essential for anyone who wants to understand the reality of the Afghan war for the U.S and its allies.

*Honourable Warriors* - Richard Streatfeild 2014-04-30

In 2009 Major Richard Streatfeild and his men fought for six months against the Taliban in Sangin, northern Helmand. They were engaged in over 800 fire-fights. They were the target of more than 200 improvised explosive devices. Ten men in his company were killed, 50 were wounded. This is their story and it is the story, from the front line, of Western intervention in Afghanistan. His graphic personal account gives an inside view of the physical, psychological and political battle to come to terms with severe casualties and the stress of battle while seeking the support of the local population. It is also an account of strategy being turned into action - of the essential interplay of the personal and professional in the most testing of circumstances. He describes the day-to-day operations, and he provides a fascinating record of the Taliban's guerrilla tactics and the British response to them. His narrative gives a direct insight into the experiences of soldiers who had to face down their fear throughout a prolonged tour of duty on the Afghan battlefield. His

narrative is essential reading for anyone who cares to understand the nature of the war in Afghanistan and how the odds are stacked against the army's success. For the British intervention in Helmand is a microcosm of the Nato-led mission launched against the Taliban and al Qaeda. As seen in The Daily Mail, The Guardian, The Mail on Sunday, Sussex Express and The Argus, Featured on BBC Radio 4 'The Today' programme and on BBC South East Television

*First Casualty* - Toby Harnden 2022-05-12

The story of the six-day battle that began the War in Afghanistan and how it set the scene for twenty years of conflict.

*Broken By War* - Anthony Lock 2019-03-16

Broken By War is a true story of my life which saw me grow up in a broken home with nothing but the sheer willingness to make something of my life. I lost my brother at a young age, who was just two years younger than me. After his death I suffered at the hands of bullies who laughed and taunted me over his death. I hated my life and the people around me. I wanted out of my city to build a new life with a fresh start but the death of my brother and the impact it had on me, caused me to fail my education. How could I leave the city I hated now? I joined the Armed Forces at the age of 17 and served almost 12 years in a career that saw me lose nine friends. I was blown up twice and after the first IED I continued to lead by example on the frontline unknowingly suffering from a broken neck and surviving on just pain killers. The second IED just over a month later almost killed me, I died in the air above Helmond Province onboard a Military Helicopter and became the first British Soldier serving in Afghanistan to be surgically operated on whilst in the air. I suffered serious life changing injuries which has also left me suffering with Post Traumatic Stress Disorder and severe depression. I wrote the book because I became so fed up with my pain and depression made worse by the lack of help and support that I hated waking up every morning and breathing the air. 2018 saw a large rise in Veteran PTSD related suicides - which has continued to spiral into 2019 and I could have been another. The book will take you on a journey through my eyes and show you what it's like to be Broken By War. The

book is a powerful read and will take you on a ride full of emotion - from laughter to tears - as you read about friendship, leadership, survival and recovery. It's not about blame or regret - it's about CHANGE. About the Author Anthony witnessed a number of traumatic events in his life as well as suffering life changing injuries. Anthony openly suffers with Post Traumatic Stress Disorder and his book is helping Veterans to reach out. With his own lack of support from the Government, the Military, The Charity's and his own city, Anthony is now devoted to spreading the Awareness of his own failings to help others now in his shoes. Follow Anthony on twitter @Broken\_By\_War

**A Speck in the Sea** - John Aldridge 2017-05-23

Soon to be a major motion picture! Now in Paperback: The harrowing adventure-at-sea memoir ("Terrific."-Daniel James Brown) recounting the 2013 search-and-rescue mission for lost Montauk fisherman John Aldridge. 5:14 a.m. I am floating in the middle of the night, and nobody in the world even knows I am missing. Nobody is looking for me. You can't get more alone than that. You can't be more lost. I've got too many people who love me. There's no way I'm dying like this. In the dead of night on July 24, 2013, John Aldridge was thrown off the back of the Anna Mary while his fishing partner, Anthony Sosinski, slept below. As desperate hours ticked by, Sosinski, the families, the local fishing community, and the U.S. Coast Guard in three states mobilized in an unprecedented search effort that culminated in a rare and exhilarating success. A tale of survival, perseverance, and community, A Speck in the Sea tells of one man's struggle to survive as friends and strangers work to bring him home. Aldridge's wrenching first-person account intertwines with the narrative of the massive, constantly evolving rescue operation designed to save him.

*The Last Warlord* - Brian Glyn Williams 2013-09-01

The Last Warlord tells the story of the brotherhood forged in the mountains of Afghanistan between elite American Green Berets and Dostum that is told in the movie 12 Strong: The Declassified True Story of the Horsesoldiers The Last Warlord tells the spellbinding story of the legendary Afghan warlord Abdul Rashid Dostum, a larger-than-life figure

who guided US Special Forces to victory over the Taliban after 9/11. Having gained unprecedented access to General Dostum and his family and subcommanders, as well as local chieftains, mullahs, elders, Taliban prisoners, and women's rights activists, scholar Brian Glyn Williams paints a fascinating portrait of this Northern Alliance Uzbek commander who has been shrouded in mystery and contradicting hearsay. In contrast to sensational media accounts that have mythologized the "bear of a man with a gruff laugh" who "some Uzbeks swear, has on occasion frightened people to death," Williams carefully chronicles Dostum's rise from peasant villager to Uzbek leader and skilled strategist who has fought a long and bitter war against the Taliban and Al Qaeda fanatics that have sought to repress his people. Also revealed is Dostum's surprising history as a defender of women's rights and religious moderation. In riveting detail *The Last Warlord* spotlights the crucial Afghan contribution to Operation Enduring Freedom: how the CIA contacted the mysterious warrior Dostum to help US Special Forces wage a covert war in the mountains of Afghanistan, how respect and even friendship quickly grew between the Afghan and American fighting men, and how Dostum led his nomadic people charging into war the same way his ancestors had—on horseback. The result was one of the most decisive campaigns in the entire war on terror. *The Last Warlord* shows that, far from serving as an exotic backdrop for American heroics, it was these horse-mounted descendants of the Mongol warrior Genghis Khan that allowed the American military to overthrow the Taliban regime in a matter of weeks.

[Truth is the First Casualty](#) - Joseph C. Goulden 1969

*First Casualty* - Toby Harnden 2021-08-19

Bestselling and Orwell Prize-winning author Toby Harnden tells the gripping and incredible story of the six-day battle that began the War in Afghanistan and how it set the scene for twenty years of conflict. On the 11th of September 2001, the World Trade Center in New York was attacked. In the aftermath, the US declared a 'War on Terror' and within two months had sent troops to Afghanistan, which was suspected of

harbouring al-Qaeda operatives. In late November, coalition forces were stationed in the ancient fort of Qala-i-Janghi, assisting the CIA in interrogations of al-Qaeda suspects, when hundreds of men from the surrounding areas surrendered to the soldiers. The soldiers had respected local customs of respect by not searching them, but what they did not know was that the prisoners were armed and determined to send a message to the invading forces. What ensued was six days of fighting that would prove to be one of the bloodiest of the War, a ferocious fight for survival in a dusty outpost facing a fearless enemy, and a death that would never be forgotten. In the first ever account of a battle that came to define the occupation in Afghanistan, war reporter Toby Harnden tells the gripping story of what happened in those fateful days and explains how it would lead to two decades of war and the terrorism-plagued world we have today.

**The First Casualty** - Ben Elton 2012-11-08

'A work of formidable imaginative scope' Daily Telegraph The first casualty when war comes is truth . . . Flanders, June 1917: a British officer and celebrated poet, is shot dead. , He is killed not by German fire, but while recuperating from shell shock well behind the lines. A young English soldier is arrested and, although he protests his innocence, charged with his murder. Douglas Kingsley is a conscientious objector, previously a detective with the London police, now imprisoned for his beliefs. He is released and sent to France in order to secure a conviction. Forced to conduct his investigations amidst the hell of The Third Battle of Ypres, Kingsley soon discovers that both the evidence and the witnesses he needs are quite literally disappearing into the mud that surrounds him. Ben Elton's tenth novel is a gut-wrenching historical drama which explores some fundamental questions: What is murder? What is justice in the face of unimaginable daily slaughter? And where is the honour in saving a man from the gallows if he is only to be returned to die in a suicidal battle?

[Horse Soldiers](#) - D. Stanton 2014-01-06

A Simon & Schuster eBook. Simon & Schuster has a great book for every reader.

**Eagle Down** - Jessica Donati 2021-01-19

A Wall Street Journal national security reporter takes readers into the lives of frontline U.S. special operations troops fighting to keep the Taliban and Islamic State from overthrowing the U.S.-backed government in the final years of the war in Afghanistan. A FINANCIAL TIMES BEST BOOK OF THE YEAR “Powerful, important, and searing.” —General David Petraeus, U.S. Army (ret.), former commander, U.S. Central Command, former CIA director In 2015, the White House claimed triumphantly that “the longest war in American history” was over. But for some, it was just the beginning of a new war, fought by Special Operations Forces, with limited resources, little governmental oversight, and contradictory orders. With big picture insight and on-the-ground grit, Jessica Donati shares the stories of the impossible choices these soldiers must make. After the fall of a major city to the Taliban that year, Hutch, a battle-worn Green Beret on his fifth combat tour was ordered on a secret mission to recapture it and inadvertently called in an airstrike on a Doctors Without Borders hospital, killing dozens. Caleb stepped on a bomb during a mission in notorious Sangin. Andy was trapped with his team during a raid with a crashed Black Hawk and no air support. Through successive policy directives under the Obama and Trump administrations, America came to rely almost entirely on US Special Forces, and without a long-term plan, failed to stabilize Afghanistan, undermining US interests both at home and abroad. Eagle Down is a riveting account of the heroism, sacrifice, and tragedy experienced by those that fought America’s longest war.

**Not a Good Day to Die** - Sean Naylor 2005-03-01

Award-winning combat journalist Sean Naylor reveals a firsthand account of the largest battle fought by American military forces in Afghanistan in an attempt to destroy al-Qaeda and Taliban forces. At dawn on March 2, 2002, America's first major battle of the 21st century began. Over 200 soldiers of the 101st Airborne and 10th Mountain Division flew into Afghanistan's Shah-i-Kot Valley—and into the mouth of a buzz saw. They were about to pay a bloody price for strategic, high-level miscalculations that underestimated the enemy's strength and

willingness to fight. Naylor, an eyewitness to the battle, details the failures of military intelligence and planning, while vividly portraying the astonishing heroism of these young, untested US soldiers. Denied the extra support with which they trained, these troops nevertheless proved their worth in brutal combat and prevented an American military disaster.

**Leave No Man Behind** - Tony Brooks 2021-08-10

A story of courage, perseverance, and patriotism behind the 75th Ranger Regiment's rescue mission following one of the deadliest Special Ops incidents in Afghanistan—a grueling search for twelve Navy SEAL casualties and eight downed Night Stalkers . . . but just one lone survivor On June 28th, 2005, a four-man Navy SEAL reconnaissance team under Operation Red Wings was ambushed in northeastern Afghanistan—as depicted in the book and film Lone Survivor. A quick reaction force was dispatched. Turbine 33, carrying eight Navy SEALs and eight members of the 160th Special Operations Aviation Regiment, was struck by a rocket propelled grenade—careening the dual rotor Chinook toward the rugged peak of Sawtalo Sar. The result was the single deadliest incident in Special Operations history at the time. Commanders called on the largest element of US Special Forces, the 75th Ranger Regiment. The rescue mission: Operation Red Wings II. Author Tony Brooks gives a first-hand account of the daring recovery of Turbine 33 and the subsequent search for the remaining compromised Navy SEAL recon team—one of whom was Marcus Luttrell, the lone survivor. The Rangers were up against lack of intel, treacherous terrain, violent weather, and an enemy that was raised to fight. Tony Brooks lived—and many of his fellow Rangers died—by the axiom, “Leave No Man Behind.” He is the first to tell the story other books and films have omitted, one of overcoming overwhelming odds to accomplish a mission: to bring every American soldier home.

**The First Casualty** - Ricky D. Phillips 2019-04

**Jawbreaker** - Gary Berntsen 2006-10-24

The Book the CIA Doesn't Want You to Read Gary Berntsen, the CIA's

key commander coordinating the fight against the Taliban forces around Kabul, comes out from under cover for the first time to describe his no-holds-barred pursuit—and cornering—of Osama bin Laden, and the reason the terrorist leader escaped American retribution. As disturbingly eye-opening as it is adrenaline-charged, *Jawbreaker* races from CIA war rooms to diplomatic offices to mountaintop redoubts to paint a vivid portrait of a new kind of warfare, showing what can and should be done to deal a death blow to freedom's enemies.

*On War* - Carl von Clausewitz 1908

**The Great Influenza** - John M. Barry 2005-10-04

#1 New York Times bestseller "Barry will teach you almost everything you need to know about one of the deadliest outbreaks in human history."—Bill Gates "Monumental... an authoritative and disturbing morality tale."—Chicago Tribune The strongest weapon against pandemic is the truth. Read why in the definitive account of the 1918 Flu Epidemic. Magisterial in its breadth of perspective and depth of research, *The Great Influenza* provides us with a precise and sobering model as we confront the epidemics looming on our own horizon. As Barry concludes, "The final lesson of 1918, a simple one yet one most difficult to execute, is that...those in authority must retain the public's trust. The way to do that is to distort nothing, to put the best face on nothing, to try to manipulate no one. Lincoln said that first, and best. A leader must make whatever horror exists concrete. Only then will people be able to break it apart." At the height of World War I, history's most lethal influenza virus erupted in an army camp in Kansas, moved east with American troops, then exploded, killing as many as 100 million people worldwide. It killed more people in twenty-four months than AIDS killed in twenty-four years, more in a year than the Black Death killed in a century. But this was not the Middle Ages, and 1918 marked the first collision of science and epidemic disease.

**All Secure** - Tom Satterly 2019-11-05

One of the most highly regarded Tier One Delta Force operators in American military history shares his war stories and personal battle with

PTSD. As a senior non-commissioned officer of Delta Force, the most elite and secretive special operations unit in the U.S. military, Command Sergeant Major Tom Satterly fought some of this country's most fearsome enemies. Over the course of twenty years and thousands of missions, he's fought desperately for his life, rescued hostages, killed and captured terrorist leaders, and seen his friends maimed and killed around him. *All Secure* is in part Tom's journey into a world so dark and dangerous that most Americans can't contemplate its existence. It recounts what it is like to be on the front lines with one of America's most highly trained warriors. As action-packed as any fiction thriller, *All Secure* is an insider's view of "The Unit." Tom is a legend even among other Tier One special operators. Yet the enemy that cost him three marriages, and ruined his health physically and psychologically, existed in his brain. It nearly led him to kill himself in 2014; but for the lifeline thrown to him by an extraordinary woman it might have ended there. Instead, they took on Satterly's most important mission-saving the lives of his brothers and sisters in arms who are killing themselves at a rate of more than twenty a day. Told through Satterly's firsthand experiences, it also weaves in the reasons-the bloodshed, the deaths, the intense moments of sheer terror, the survivor's guilt, depression, and substance abuse-for his career-long battle against the most insidious enemy of all: Post Traumatic Stress. With the help of his wife, he learned that by admitting his weaknesses and faults he sets an example for other combat veterans struggling to come home.

**War is a Racket** - Smedley Butler 2018-01-19

*War Is a Racket* is a speech and a 1935 short book, by Smedley D. Butler, a retired United States Marine Corps Major General and two-time Medal of Honor recipient. Based on his career military experience, Butler frankly discusses how business interests commercially benefit (including war profiteering) from warfare. He had been appointed commanding officer of the Gendarmerie during the United States occupation of Haiti, which lasted from 1915 to 1934.

**South Sudan** - Hilde F. Johnson 2016-06-09

In July 2011, South Sudan was granted independence and became the

world's newest country. Yet just two-and-a-half years after this momentous decision, the country was in the grips of renewed civil war and political strife. Hilde F. Johnson served as Special Representative of the Secretary-General and Head of the United Nations Mission in the Republic of South Sudan from July 2011 until July 2014 and, as such, she was witness to the many challenges which the country faced as it struggled to adjust to its new autonomous state. In this book, she provides an unparalleled insider's account of South Sudan's descent from the ecstatic celebrations of July 2011 to the outbreak of the disastrous conflict in December 2013 and the early, bloody phase of the fighting. Johnson's frequent personal and private contacts at the highest levels of government, accompanied by her deep knowledge of the country and its history, make this a unique eyewitness account of the turbulent first three years of the world's newest - and yet most fragile - country.

**Bandit Country** - Toby Harnden 2010-03-10

South Armagh was first described as "Bandit Country" by Merlyn Rees when he was Northern Ireland's Secretary of State, and for nearly three decades it has been the most dangerous posting in the world for soldiers. Toby Harnden has stripped away the myth and propaganda associated with South Armagh to produce one of the most compelling and important books of the subject. Drawing on secret documents and interviews in South Armagh's recent history, he tells the inside story of how the IRA came close to bringing the British state to its knees. For the first time, the identities of the men behind the South Quay and Manchester bombings are revealed. Packed with new information, *Bandit Country* penetrates the IRA and the security forces in South Armagh.

*The Recruiter* - Douglas London 2021-09-28

This revealing memoir from a 34-year veteran of the CIA who worked as a case officer and recruiter of foreign agents before and after 9/11 provides an invaluable perspective on the state of modern spy craft, how the CIA has developed, and how it must continue to evolve. If you've ever wondered what it's like to be a modern-day spy, Douglas London is here to explain. London's overseas work involved spotting and identifying targets, building relationships over weeks or months, and then pitching

them to work for the CIA—all the while maintaining various identities, a day job, and a very real wife and kids at home. *The Recruiter: Spying and the Lost Art of American Intelligence* captures the best stories from London's life as a spy, his insights into the challenges and failures of intelligence work, and the complicated relationships he developed with agents and colleagues. In the end, London presents a highly readable insider's tale about the state of espionage, a warning about the decline of American intelligence since 9/11 and Iraq, and what can be done to recover.

*The Outpost* - Jake Tapper 2012-11-13

The basis of the film starring Orlando Bloom and Scott Eastwood, *The Outpost* is the heartbreaking and inspiring story of one of America's deadliest battles during the war in Afghanistan, acclaimed by critics everywhere as a classic. At 5:58 AM on October 3rd, 2009, Combat Outpost Keating, located in frighteningly vulnerable terrain in Afghanistan just 14 miles from the Pakistani border, was viciously attacked. Though the 53 Americans there prevailed against nearly 400 Taliban fighters, their casualties made it the deadliest fight of the war for the U.S. that year. Four months after the battle, a Pentagon review revealed that there was no reason for the troops at Keating to have been there in the first place. In *The Outpost*, Jake Tapper gives us the powerful saga of COP Keating, from its establishment to eventual destruction, introducing us to an unforgettable cast of soldiers and their families, and to a place and war that has remained profoundly distant to most Americans. A runaway bestseller, it makes a savage war real, and American courage manifest. "The *Outpost* is a mind-boggling, all-too-true story of heroism, hubris, failed strategy, and heartbreaking sacrifice. If you want to understand how the war in Afghanistan went off the rails, you need to read this book." -- Jon Krakauer

**The Jakarta Method** - Vincent Bevins 2020-05-19

NAMED ONE OF THE BEST BOOKS OF 2020 BY NPR, THE FINANCIAL TIMES, AND GQ The hidden story of the wanton slaughter -- in Indonesia, Latin America, and around the world -- backed by the United States. In 1965, the U.S. government helped the Indonesian military kill

approximately one million innocent civilians. This was one of the most important turning points of the twentieth century, eliminating the largest communist party outside China and the Soviet Union and inspiring copycat terror programs in faraway countries like Brazil and Chile. But these events remain widely overlooked, precisely because the CIA's secret interventions were so successful. In this bold and comprehensive new history, Vincent Bevins builds on his incisive reporting for the Washington Post, using recently declassified documents, archival research and eye-witness testimony collected across twelve countries to reveal a shocking legacy that spans the globe. For decades, it's been believed that parts of the developing world passed peacefully into the U.S.-led capitalist system. The Jakarta Method demonstrates that the brutal extermination of unarmed leftists was a fundamental part of Washington's final triumph in the Cold War.

*First Casualty* - Mike Moscoe 2013-02-26

FOUR SOLDIERS. ONE WAR. Asteroid miner Mary Rodrigo and freighter owner Mattim Abeeb are green draftees of the Society of Humanity, forced to fight for Earth—a planet they've never even seen. Major Ray Longknife and his lover, Senior Pilot Rita Nuu, are career soldiers, invested with the cause of the Unity Party—and its ambitious new president. These four soldiers on opposing sides of the battle are about to discover the true nature of this terrible war: a quest for profit—from the high command of both sides. What they will risk is nothing less than their lives. For although truth may be the first casualty of war, it's not going to be the last...

**Mass Casualties** - Michael Anthony 2009-09-18

From the Introduction: "Look around," the drill sergeant said. "In a few years, or even a few months, several of you will be dead. Some of you will be severely wounded or so badly mutilated that your own mother can't stand the sight of you. And for the real unlucky ones, you will come home so emotionally disfigured that you wish you had died over there." It was Week 7 of Basic Training . . . 18 years old and I was preparing myself to die. They say the Army makes a man out of you - but for 18-year-old SPC Michael Anthony, that fabled rite of passage proved a very dark journey.

After soliciting his parents' approval to enlist at only 17, Anthony began his journey with an unshakeable faith in the military born of his family's long tradition of service. But when thrust into a medical unit of misfits as lost as he was, SPC Anthony not only witnessed the unspeakable horror of war—but the undeniable misconduct of the military—firsthand. Everything he ever believed in dissolved, forcing Anthony to rethink his loyalties, and ultimately risk his career—and his freedom—to challenge the military he had so firmly believed in. This searing memoir chronicles the iconic experiences that changed one young soldier forever. A seasoned veteran before the age of twenty-one, he faced the truth about the war - and himself - in this shocking and unprecedented eyewitness account.

*The Rise and Fall of Osama bin Laden* - Peter L. Bergen 2021-08-03

The world's leading expert on Osama bin Laden delivers for the first time the "riveting" (The New York Times) definitive biography of a man who set the course of American foreign policy for the 21st century and whose ideological heirs we continue to battle today. In *The Rise and Fall of Osama bin Laden*, Peter Bergen provides the first reevaluation of the man responsible for precipitating America's long war with al-Qaeda and its decedents, capturing bin Laden in all the dimensions of his life: as a family man, as a zealot, as a battlefield commander, as a terrorist leader, and as a fugitive. The book sheds light on his many contradictions: he was the son of a billionaire yet insisted his family live like paupers. He adored his wives and children, depending on his two wives, both of whom had PhDs, to make critical strategic decisions. Yet, he also brought ruin to his family. He was fanatically religious but willing to kill thousands of civilians in the name of Islam. He inspired deep loyalty, yet, in the end, his bodyguards turned against him. And while he inflicted the most lethal act of mass murder in United States history, he failed to achieve any of his strategic goals. In his final years, the lasting image we have of bin Laden is of an aging man with a graying beard watching old footage of himself, just as another dad flipping through the channels with his remote. In the end, bin Laden died in a squalid suburban compound, far from the front lines of his holy war. And yet, despite that unheroic

denouement, his ideology lives on. Thanks to exclusive interviews with family members and associates, and documents unearthed only recently, Bergen's "comprehensive, authoritative, and compelling" (H.R. McMaster, author of *Dereliction of Duty* and *Battlefields: The Fight to Defend the Free World*) portrait of Osama bin Laden reveals for the first time who he really was and why he continues to inspire a new generation of jihadists.

*Last Call at the Hotel Imperial* - Deborah Cohen 2022-03-15

NEW YORK TIMES EDITORS' CHOICE • A prize-winning historian's "effervescent" (The New Yorker) account of a close-knit band of wildly famous American reporters who, in the run-up to World War II, took on dictators and rewrote the rules of modern journalism "High-speed, four-lane storytelling . . . Cohen's all-action narrative bursts with colour and incident."—Financial Times ONE OF THE BEST BOOKS OF THE YEAR: The New Yorker They were an astonishing group: glamorous, gutsy, and irreverent to the bone. As cub reporters in the 1920s, they roamed across a war-ravaged world, sometimes perched atop mules on wooden saddles, sometimes gliding through countries in the splendor of a first-class sleeper car. While empires collapsed and fledgling democracies faltered, they chased deposed empresses, international financiers, and Balkan gun-runners, and then knocked back doubles late into the night. *Last Call at the Hotel Imperial* is the extraordinary story of John Gunther, H. R. Knickerbocker, Vincent Sheean, and Dorothy Thompson. In those tumultuous years, they landed exclusive interviews with Hitler and Mussolini, Nehru and Gandhi, and helped shape what Americans knew about the world. Alongside these backstage glimpses into the halls of power, they left another equally incredible set of records. Living in the heady afterglow of Freud, they subjected themselves to frank, critical scrutiny and argued about love, war, sex, death, and everything in between. Plunged into successive global crises, Gunther, Knickerbocker, Sheean, and Thompson could no longer separate themselves from the turmoil that surrounded them. To tell that story, they broke long-standing taboos. From their circle came not just the first modern account of illness in Gunther's *Death Be Not Proud*—a memoir about his son's

death from cancer—but the first no-holds-barred chronicle of a marriage: Sheean's Dorothy and Red, about Thompson's fractious relationship with Sinclair Lewis. Told with the immediacy of a conversation overheard, this revelatory book captures how the global upheavals of the twentieth century felt up close.

**Under Fire: The Untold Story of the Attack in Benghazi** - Fred Burton 2013-09-03

The New York Times bestselling inside account of the attack against the U.S. diplomatic and intelligence outposts in Benghazi, Libya On the night of September 11, 2012, the American diplomatic mission at Benghazi, Libya, came under ferocious attack by a heavily armed group of Islamic terrorists. The prolonged firefight, and the attack hours later on a nearby CIA outpost, resulted in the deaths of four Americans, including the American ambassador to Libya, Christopher Stevens, the Information Officer, Sean Smith, and two former Navy SEALs, Tyrone Woods and Glen Doherty, working for the Central Intelligence Agency. After the fall of Qaddafi, Benghazi was transformed into a hotbed of fundamentalist fervor and a den of spies for the northern half of the African continent. Moreover, it became the center of gravity for terrorist groups strategically situated in the violent whirlwinds of the Arab Spring. On the eleventh anniversary of the 9/11 attacks against the United States, a group of heavily armed Islamic terrorists had their sights set on the U.S. diplomatic and intelligence presence in the city. Based on the exclusive cooperation of eyewitnesses and confidential sources within the intelligence, diplomatic, and military communities, Fred Burton and Samuel M. Katz reveal for the first time the terrifying twelve-hour ordeal confronted by Ambassador Christopher Stevens, Sean Smith, his Diplomatic Security (DS) contingent, and the CIA security specialists who raced to rescue them. More than just the minute-by-minute narrative of a desperate last stand in the midst of an anarchic rebellion, *Under Fire* is an inspiring testament to the bravery and selflessness of the men and women who put their country first while serving in one of the most dangerous regions in the world.

**Johnny Got His Gun** - Dalton Trumbo 2013-11-15

The Searing Portrayal Of War That Has Stunned And Galvanized Generations Of Readers An immediate bestseller upon its original publication in 1939, Dalton Trumbo's stark, profoundly troubling masterpiece about the horrors of World War I brilliantly crystallized the uncompromising brutality of war and became the most influential protest novel of the Vietnam era. Johnny Got His Gun is an undisputed classic of antiwar literature that's as timely as ever. "A terrifying book, of an extraordinary emotional intensity."--The Washington Post "Powerful. . . an eye-opener." --Michael Moore "Mr. Trumbo sets this story down almost without pause or punctuation and with a fury amounting to eloquence."--The New York Times "A book that can never be forgotten by anyone who reads it."--Saturday Review

Operation Enduring Freedom - Tim Ripley 2012-03-19

The first six months of the war in Afghanistan were incredibly confused. Few journalists or civilians had access to the main events and the result

was the creation of many urban myths that persist to this day. This book reveals the truth behind Operation Enduring Freedom, its objectives, successes, failures and consequences. Tim Ripley has discovered what actually happened in the first six months of this US-led intervention. He reveals the clandestine US and UK reconnaissance efforts before hostilities commenced on 7 October 2001, secret US UAV and drone operations, RAF Canberra and U-2 spy flights and details of initial combat between Taliban and Northern Alliance ground forces. This is a definitive account of the first six months of the military campaign in Afghanistan that saw the initial air and special drive to unseat the Taliban regime, the launching of search and destroy operations to hunt down Osama bin Laden's Al Qaeda organization and the setting up of President Hamid Karzai's government in Kabul. These events were the catalyst for the subsequent and continuing war in that far-off troubled land.
