BEST BOOKS OF THE YEAR
BY MARIE CLAIRE AND
BOOKRIOT It started as a text

between two friends. Tarana Burke, founder of the 'me too.' Movement, texted researcher and writer Brené Brown to see if she was free to jump on a call. Brené assumed that Tarana wanted to talk about wallpaper. They had been trading home decorating inspiration boards in their last text conversation so Brené started scrolling to find her latest Pinterest pictures when the phone rang. But it was immediately clear to Brené that the conversation wasn't going to be about wallpaper. Tarana's hello was serious and she hesitated for a bit before saying, "Brené, you know your work affected me so deeply, but as a Black woman, I've sometimes had to feel like I have to contort myself to fit into some of your words. The core of it rings so true for me, but the application has been harder." Brené replied, "I'm so glad we're talking about this. It makes sense to me. Especially in terms of vulnerability. How do you take the armor off in a country where you're not physically or emotionally safe?"

Long pause. "That's why I'm calling," said Tarana. "What do you think about working together on a book about the Black experience with vulnerability and shame resilience?" There was no hesitation. Burke and Brown are the perfect pair to usher in this stark, potent collection of essays on Black shame and healing. Along with the anthology contributors, they create a space to recognize and process the trauma of white supremacy, a space to be vulnerable and affirm the fullness of Black love and Black life.

Being You: A First Conversation About Gender - Megan Madison 2021-08-17
Based on the research that race, gender, consent, and body positivity should be discussed with toddlers on up, this read-aloud board book series offers adults the opportunity to begin important conversations with young children in an informed, safe, and supported way. Developed by experts in the fields of early childhood and activism against

injustice, this topic-driven board book offers clear, concrete language and beautiful imagery that young children can grasp and adults can leverage for further discussion. While young children are avid observers and questioners of their world, adults often shut down or postpone conversations on complicated topics because it's hard to know where to begin. Research shows that talking about issues like race and gender from the age of two not only helps children understand what they see, but also increases self-awareness, self-esteem, and allows them to recognize and confront things that are unfair, like discrimination and prejudice. This second book in the series begins the conversation on gender, with a supportive approach that considers both the child and the adult. Stunning art accompanies the simple and interactive text, and the backmatter offers additional resources and ideas for extending this discussion. [The Western Canon](#) - Harold

The Great Conversation -

Belden C. Lane 2019-05-15

"We are surrounded by a world that talks, but we don't listen. We are part of a community engaged in a vast conversation, but we deny our role in it." In the face of climate change, species loss, and vast environmental destruction, the ability to stand in the flow of the great conversation of all creatures and the earth can feel utterly lost to the human race. But Belden C. Lane suggests that it can and must be recovered, not only for the sake of endangered species and the well-being of at-risk communities, but for the

survival of the world itself. The Great Conversation is Lane's multi-faceted treatise on a spiritually centered environmentalism. At the core is a belief in the power of the natural world to act as teacher. In a series of personal anecdotes, Lane pairs his own experiences in the wild with the writings of saints and sages from a wide range of religious traditions. A night in a Missourian cave brings to mind the Spiritual Exercises of Ignatius of Loyola; the canyons of southern Utah elicit a response from the Chinese philosopher Laozi; 500,000 migrating sandhill cranes rest in Nebraska and evoke the Sufi poet Farid ud-Din Attar. With each chapter, the humility of spiritual masters through the ages melds with the author's encounters with natural teachers to offer guidance for entering once more into a conversation with the world.

The Black Intellectual Tradition - Derrick P. Alridge
2021-08-03

Considering the development and ongoing influence of Black thought from 1900 to the present, people of African descent living in the United States have drawn on homegrown and diasporic minds to create a Black intellectual tradition engaged with ideas on race, racial oppression, and the world. This volume presents essays on the diverse thought behind the fight for racial justice as developed by African American

artists and intellectuals; performers and protest activists; institutions and organizations; and educators and religious leaders. By including both women's and men's perspectives from the U.S. and the Diaspora, the essays explore the full landscape of the Black intellectual tradition. The Wild Longing of the Human Heart - William

Cooney 2015-12-01

The search for happiness has been an enduring quest for us all. The greatest minds from history--Plato, Aristotle, Epicurus, Rousseau, Kant, Mill, Gandhi, Einstein and many others—all confirm that happiness is the one thing we all crave after. The Wild Longing of the Human Heart is divided into two parts. Part one examines the brief history of happiness which has not always meant exactly the same thing to all cultures and individuals, and then moves on to summarize the latest information from the areas of brain science as well as the field of positive psychology. Part two proposes that it is not happiness (in the psycho-physiological sense of something like tranquility) which is the true goal of human

living. Rather, the true goal of the “wild longing” is a meaningful life, guided by the search for truth, beauty and goodness.

How to Think About the Great Ideas - Mortimer Adler 2000-03-01

Time magazine called Mortimer J. Adler a "philosopher for everyman." In this guide to considering the big questions, Adler addresses the topics all men and women ponder in the course of life, such as "What is love?", "How do we decide the right thing to do?", and, "What does it mean to be good?" Drawing on his extensive knowledge of Western literature, history, and philosophy, the author considers what is meant by democracy, law, emotion, language, truth, and other abstract concepts in light of more than two millennia of Western civilization and discourse. Adler's essays offer a remarkable and contemplative distillation of the Great Ideas of Western Thought.

The Conversation - Robert Livingston 2021-02-02
A FINANCIAL TIMES BEST BOOK OF THE YEAR • An essential tool for individuals, organizations, and communities of all sizes to jump-start dialogue on racism and bias and to transform well-

intentioned statements on diversity into concrete actions—from a leading Harvard social psychologist. FINALIST FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD • LONGLISTED FOR THE PORCHLIGHT BUSINESS BOOK AWARD “Livingston has made the important and challenging task of addressing systemic racism within an organization approachable and achievable.”—Alex Timm, co-founder and CEO, Root Insurance Company How can I become part of the solution? In the wake of the social unrest of 2020 and growing calls for racial justice, many business leaders and ordinary citizens are asking that very question. This book provides a compass for all those seeking to begin the work of anti-racism. In *The Conversation*, Robert Livingston addresses three simple but profound questions: What is racism? Why should everyone be more concerned about it? What can we do to eradicate it? For some, the

existence of systemic racism against Black people is hard to accept because it violates the notion that the world is fair and just. But the rigid racial hierarchy created by slavery did not collapse after it was abolished, nor did it end with the civil rights era. Whether it's the composition of a company's leadership team or the composition of one's neighborhood, these racial divides and disparities continue to show up in every facet of society. For Livingston, the difference between a solvable problem and a solved problem is knowledge, investment, and determination. And the goal of making organizations more diverse, equitable, and inclusive is within our capability. Livingston's lifework is showing people how to turn difficult conversations about race into productive instances of real change. For decades he has translated science into practice for numerous organizations, including Airbnb, Deloitte, Microsoft, Under Armour, L'Oreal, and JPMorgan Chase.

In *The Conversation*, Livingston distills this knowledge and experience into an eye-opening immersion in the science of racism and bias. Drawing on examples from pop culture and his own life experience, Livingston, with clarity and wit, explores the root causes of racism, the factors that explain why some people care about it and others do not, and the most promising paths toward profound and sustainable progress, all while inviting readers to challenge their assumptions. Social change requires social exchange. Founded on principles of psychology, sociology, management, and behavioral economics, *The Conversation* is a road map for uprooting entrenched biases and sharing candid, fact-based perspectives on race that will lead to increased awareness, empathy, and action.

The Great Controversy - Ellen G. White 2019-10-09

Empire, the apostasy of the Dark Ages, the shining light of the Reformation, and the worldwide religious awakening of the nineteenth century, this volume traces the conflict into the future, to the Second Coming of Jesus and the glories of the earth made new. In this concluding volume, the author powerfully points out the principles involved in the impending conflict and how each person can stand firmly for God and His truth.

THE BEST BOOKS OF THE YEAR: Elle Frances is a coolheaded and darkly observant young woman, vaguely pursuing a career in writing while studying in Dublin. Her best friend is the beautiful and endlessly self-possessed Bobbi. At a local poetry performance one night, they meet a well-known photographer, and as the girls are then gradually drawn into her world, Frances is reluctantly impressed by the older woman’s sophisticated home and handsome husband, Nick. But however amusing Frances and Nick’s flirtation seems at first, it begins to give way to a strange—and then painful—intimacy. Written with gemlike precision and marked by a sly sense of humor, *Conversations with Friends* is wonderfully alive to the pleasures and dangers of youth, and the messy edges of female friendship.
SHORTLISTED FOR THE INTERNATIONAL DUBLIN LITERARY AWARD “Sharp, funny, thought-provoking . . . a really great portrait of two

young women as they're figuring out how to be adults."—Celeste Ng, *Late Night with Seth Meyers* Podcast "The dialogue is superb, as are the insights about communicating in the age of electronic devices. Rooney has a magical ability to write scenes of such verisimilitude that even when little happens they're suspenseful."—Curtis Sittenfeld, *The Week* "Rooney has the gift of imbuing everyday life with a sense of high stakes . . . a novel of delicious frictions."—New York "A writer of rare confidence, with a lucid, exacting style . . . One wonderful aspect of Rooney's consistently wonderful novel is the fierce clarity with which she examines the self-delusion that so often festers alongside presumed self-knowledge. . . . But Rooney's natural power is as a psychological portraitist. She is acute and sophisticated about the workings of innocence; the protagonist of this novel about growing up has no idea just how much of it

she has left to do."—Alexandra Schwartz, *The New Yorker* "This book. This book. I read it in one day. I hear I'm not alone."—Sarah Jessica Parker (Instagram)

The Unwomanly Face of War - Svetlana Alexievich 2018-04-03

A long-awaited English translation of the groundbreaking oral history of women in World War II across Europe and Russia—from the winner of the Nobel Prize in Literature NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • The Guardian • NPR • The Economist • Milwaukee Journal Sentinel • Kirkus Reviews For more than three decades, Svetlana Alexievich has been the memory and conscience of the twentieth century. When the Swedish Academy awarded her the Nobel Prize, it cited her invention of “a new kind of literary genre,” describing her work as “a history of emotions . . . a history of the soul.” In *The Unwomanly Face of War*, Alexievich chronicles the experiences of the Soviet women who fought on the front lines, on the home front, and in the occupied territories. These women—more than a million in

total—were nurses and doctors, pilots, tank drivers, machine-gunners, and snipers. They battled alongside men, and yet, after the victory, their efforts and sacrifices were forgotten. Alexievich traveled thousands of miles and visited more than a hundred towns to record these women’s stories. Together, this symphony of voices reveals a different aspect of the war—the everyday details of life in combat left out of the official histories. Translated by the renowned Richard Pevear and Larissa Volokhonsky, *The Unwomanly Face of War* is a powerful and poignant account of the central conflict of the twentieth century, a kaleidoscopic portrait of the human side of war. THE WINNER OF THE NOBEL PRIZE IN LITERATURE “for her polyphonic writings, a monument to suffering and courage in our time.” “A landmark.”—Timothy Snyder, author of *On Tyranny: Twenty Lessons from the Twentieth Century* “An astonishing book, harrowing and life-affirming . .

. It deserves the widest possible readership.”—Paula Hawkins, author of *The Girl on the Train* “Alexievich has gained probably the world’s deepest, most eloquent understanding of the post-Soviet condition. . . . [She] has consistently chronicled that which has been intentionally forgotten.”—Masha Gessen, National Book Award-winning author of *The Future Is History*

Who's to Say? - Norman

Melchert 1994-01-01

Arguments are examined, reexamined, challenged, and honed in this lively dialogue on relativism and objectivity. Topics considered include whether truth and goodness are matters determined by individual opinion; whether they are defined by cultures; whether a non-dogmatic form of relativism is viable; whether the objectivity of science escapes relativism; and pragmatism as an alternative to relativism. Designed to present beginning students with an introduction to the main arguments concerning relativism, this provocative dialogue also serves as a model for thinking clearly about philosophical issues.

The Warmth of Other Suns -

Isabel Wilkerson 2011-10-04

NATIONAL BOOK CRITICS

CIRCLE AWARD WINNER •

NEW YORK TIMES

BESTSELLER • In this

beautifully written masterwork,

the Pulitzer Prize-winner and

bestselling author of *Caste*

chronicles one of the great

untold stories of American

history: the decades-long migration of black citizens who fled the South for northern and western cities, in search of a better life. From 1915 to 1970, this exodus of almost six million people changed the face of America. Wilkerson compares this epic migration to the migrations of other peoples in history. She interviewed more than a thousand people, and gained access to new data and official records, to write this definitive and vividly dramatic account of how these American journeys unfolded, altering our cities, our country, and ourselves. With stunning historical detail, Wilkerson tells this story through the lives of three unique individuals: Ida Mae Gladney, who in 1937 left sharecropping and prejudice in Mississippi for Chicago, where she achieved quiet blue-collar success and, in old age, voted for Barack Obama when he ran for an Illinois Senate seat; sharp and quick-tempered George Starling, who in 1945 fled Florida for Harlem, where he endangered his job fighting for civil rights, saw his family

fall, and finally found peace in God; and Robert Foster, who left Louisiana in 1953 to pursue a medical career, the personal physician to Ray Charles as part of a glitteringly successful medical career, which allowed him to purchase a grand home where he often threw exuberant parties. Wilkerson brilliantly captures their first treacherous and exhausting cross-country trips by car and train and their new lives in colonies that grew into ghettos, as well as how they changed these cities with southern food, faith, and culture and improved them with discipline, drive, and hard work. Both a riveting microcosm and a major assessment, *The Warmth of Other Suns* is a bold, remarkable, and riveting work, a superb account of an "unrecognized immigration" within our own land. Through the breadth of its narrative, the beauty of the writing, the depth of its research, and the fullness of the people and lives portrayed herein, this book is destined to become a classic.

Longlist "As we go about our
daily lives, caste is the
wordless usher in a darkened
theater, flashlight cast down in
the aisles, guiding us to our
assigned seats for a
performance. The hierarchy of
caste is not about feelings or
morality. It is about
power—which groups have it
and which do not." In this
brilliant book, Isabel Wilkerson
gives us a masterful portrait of
an unseen phenomenon in
America as she explores,
through an immersive, deeply
researched narrative and
stories about real people, how
America today and throughout
its history has been shaped by
a hidden caste system, a rigid
hierarchy of human rankings.
Beyond race, class, or other

factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their outcasting of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points

forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

The Words That Made Us - Akhil Reed Amar 2021-05-04
A history of the American Constitution's formative decades from a preeminent legal scholar When the US Constitution won popular approval in 1788, it was the

culmination of thirty years of passionate argument over the nature of government. But ratification hardly ended the conversation. For the next half century, ordinary Americans and statesmen alike continued to wrestle with weighty questions in the halls of government and in the pages of newspapers. Should the nation's borders be expanded? Should America allow slavery to spread westward? What rights should Indian nations hold? What was the proper role of the judicial branch? In *The Words that Made Us*, Akhil Reed Amar unites history and law in a vivid narrative of the biggest constitutional questions early Americans confronted, and he expertly assesses the answers they offered. His account of the document's origins and consolidation is a guide for anyone seeking to properly understand America's Constitution today.

[The Conversation That Matters Most](#) - Dewitt Rowe 2010-05-03
In *The Conversation That Matters Most*, DeWitt Rowe

takes his readers on a unique and fascinating journey of self-exploration and discovery. The author not only guides us toward a complete reevaluation of how we view success; he convinces us that the way we define it and pursue it must also be reexamined. How often do we stop and question the assumptions that have defined us? Are we more intelligent than we have been led to believe? Do our idiosyncrasies make us strange...or simply unique? How often do we make a decision based on what's expected of us, rather than on our innate sense of what works? DeWitt delves into areas that are rarely discussed, areas that reward us with a richness of comprehension, awareness, discovery, and wisdom. Every page is a reminder of the control we have over our lives if only we can understand how to use that control in a positive and result-oriented manner. Utilizing this book's guides and lessons, we can be assured of a fuller and more satisfying life.
