The Love of David and Jonathan - James E. Harding 2016-04-08

Were David and Jonathan 'gay' lovers? This very modern question lies behind the recent explosion of studies of the David and Jonathan narrative. Interpreters differ in their assessment of whether 1 and 2 Samuel offer a positive portrayal of a homosexual relationship. Beneath the conflict of interpretations lies an ambiguous biblical text which has drawn generations of readers - from the redactors of the Hebrew text and the early translators to modern biblical scholars - to the task of resolving its possible meanings. What has not yet been fully explored is the place of David and Jonathan in the evolution of modern, Western understandings of same-sex relationships, in particular how the story of their relationship was read alongside classical narratives, such as those of Achilles and Patroclus, or Orestes and Pylades. The Love of David and Jonathan explores this context in detail to argue that the story of David and Jonathan was part of the process by which the modern idea of homosexuality itself emerged.

The Erotic Thriller in Contemporary Cinema - Linda Ruth Williams 2005

This bold and original book examines in detail a relatively new genre of film--the erotic thriller. Linda Ruth Williams traces the genre's exploitation of pornography and noir, discusses mainstream stars (including Michael Douglas and Sharon Stone) as well as genre-branded direct-to-video stars, charts the work of key producers and directors, and considers home videos as a distinct form of viewing pleasure. She maps the history of the genre, analyzing hundreds of movies from blockbusters such as Basic Instinct, Fatal Attraction, and In the Cut to straight-to-video film titles such as Carnal Crimes, Sins of Desire, and Night Eyes. Williams's witty and illuminating readings tell the story of this sensational genre and contribute to the analysis of mainstream screen sex--and its censorship--at the beginning of the 21st century. She shows that as the erotic thriller plays out the sexual fantasies of contemporary America, it also provides a vehicle for marketing those fantasies globally.

China and EU Antitrust Review of Refusal to License IPR - Dr. Tiancheng Jiang 2015

Striking a proper balance between unilateral exercise of intellectual property rights on the one hand and competition rules on the other hand is not an easy exercise. The right owners' unilateral behaviour of refusal to license is one such delicate issue, particularly for China, considering that it has not been clarified within existing competition rules how to assess a right owner's specific unilateral practices. In a series of cases, the EU courts have established the exceptional circumstances in which the right owners' refusal conduct might be considered as an infringement of EU competition rules. In general, Chinese competition law has been modelled after the EU competition rules. This book firstly examines the EU approaches on dominant undertakings' refusal to license intellectual property rights and the follow-on pricing issue, and then explores to what extent the EU model could contribute to China's anti-monopoly practice.

Stephen J. Cannell Television Productions - Jon Abbott 2009-09-12

The face of 1980s television was shaped by a man who stayed behind the scenes. Stephen Cannell's reluctant white knights—put-upon private eye James Rockford, World War II fly-boys the Black Sheep Squadron, hapless superhero Ralph Hinckley, fugitive mercenaries the A-Team, and maverick cop Hunter—traversed the television landscape from the 1970s to the 1990s. Cannell changed the face of the action-adventure genre, updating the crime-show format with a hybrid of rebellious morality, juvenile wit, intelligent sarcasm, and radical conservatism. This book discusses in detail the programs of the writer-producer and lists every episode of his award-winning productions from the early 1970s to the early '90s. The book features publicity photos and descriptions of unsold pilots.

John Derek - Michelangelo Capua 2020-03-20

Actor and director John Derek was born in Hollywood, where his striking good looks helped get him a contract with David O' Selznick. Derek's career took off after Humphrey Bogart made him his costar in the cultish noir Knock at Any Doors. Derek appeared in such Academy Award-nominated films as All the King's Men, Run for Cover, The Ten Commandments and Exodus, and worked with directors like Nicholas Ray, Cecil B. DeMille, Otto Preminger and others. He was a competent, dedicated performer even in his last, trivial roles. In the 1960s, his career in decline, he began directing his own films. Although critics panned the string of movies he made starring his three wives--Ursula Andress, Linda Evans and Bo Derek--some were box-office hits, like Tarzan, the Ape Man. Intellectual Property and Competition Law - Peter Chrocziel 2016-05-15

Inevitably, every marketed product or service can always be located at the intersection of intellectual property law and competition law, a nexus rife with potential problems throughout the 'life' of an intellectual property (IP) right. This important book is the first to focus in depth on this intersection in the European context, masterfully elucidating the consequences for IP rights owners from the right's inception to its transfer, sale, or demise. The authors describes and analyses the following topics and more in detail:

- characteristics, purpose and theoretical justifications of IP rights;
- obtaining, maintaining, and exploiting an IP right;
- effects of provisions of European competition law regarding cartels, block exemptions, abuse of dominant position, free movement of goods, and merger control;
- competition between originator companies and generic companies;
- licensing, especially the problem of refusal to grant a license; and
- enforcement of an IP right.

The book analyses all major cases affecting aspects of the intersection, supported by an examination of the historical background and political influence concerning the two areas of European law. There are also special chapters on the prominent and influential national legal systems of Germany, the United States, China, The Netherlands, and the United Kingdom. An annex provides texts of the major antitrust regulations dealing with European IP rights. As a 'biography' of IP rights focusing on areas of entanglement with European competition law, this book is without peer. Its clear-sighted view of the status quo and emerging trends in the two fields will be of immeasurable value to practitioners, policymakers, and academics dealing with issues at the intersection of intellectual property law and competition law in Europe and elsewhere.

Violence on Television - Barrie Gunter 2003-01-30

Concern about violence on television has been publicly debated for the past 50 years. TV violence has repeatedly been identified as a significant causal agent in relation to the prevalence of crime and violence in society. Critics have accused the medium of presenting excessive quantities of violence, to the point where it is virtually impossible for viewers to avoid it. This book presents the findings of the largest British study of violence on TV ever undertaken, funded by the broadcasting industry. The study was carried out at the same time as similar industry-sponsored research was being conducted in the United States, and one chapter compares findings from Britain and the U.S.A. The book concludes that it is misleading to accuse all broadcasters of presenting excessive quantities of violence in their schedules. This does not deny that problematic portrayals were found. But the most gory, horrific and graphic scenes of violence were generally contained within broadcasts available on a subscription basis or in programs shown at times when few children were expected to be watching. This factual analysis proves that broadcasters were meeting their obligations under their national regulatory codes of practice.

Lewis and Stempel's Ultimate TV Guide - Jon E. Lewis 1999

It's a TV jungle out there. Five terrestrial channels, 20 more on satellite/cable, more if you have the technology. What you need is a guide through the tangled forbidding forest of multi-channel, non-stop, viewer-hungry TV. And here it is. At the flick of a page, look up the programme, read a critical overview, peruse the cast. You can, for greater viewing safety, cross-reference artists and behind-camera crew (credits include producers, directors, writers) and checkout their back catalogue. Then amaze the rest of the sofa with your erudition, before dazzling them with your grasp of totally useless trivia. So, what's included and what's not? Chronologically, the Ultimate TV Guide spans 1946 - the oldest programme is Muffin The Mule - to the present, from the age of black and white nostalgia to the hi-tech high-definition

present. There's no news, no documentaries (apologies, no space). All forms of TV fiction are covered - crime, westerns, sci-fi, soaps, comedy, adventure, horror along with children's TV and light entertainment (quizzes, games shows). Of these the authors have collected the classics, the innovators, the lost treasures, the obscure objects of cult desire, the hits - the shows in short, of screen note. Even if it's only because, like the BBC's sand-and-sangria melodrama Eldorado, they were such total turkeys. And, why not, they've also put in a few because they like 'em, and so should you. (The sci-fi 'Japanimation' The Guyver comes to mind). All have been broadcast in the UK. Completely updated.
