The Witness of the Spirit. a Sermon Preached Before the University of Oxford. by Thomas Randolph. - THOMAS. RANDOLPH 2018-04-21

The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. The Age of Enlightenment profoundly enriched religious and philosophical understanding and continues to influence present-day thinking. Works collected here include masterpieces by David Hume, Immanuel Kant, and Jean-Jacques

Rousseau, as well as religious sermons and moral debates on the issues of the day, such as the slave trade. The Age of Reason saw conflict between Protestantism and Catholicism transformed into one between faith and logic -- a debate that continues in the twenty-first century.

Here, the editors present 40 prose texts (excerpts or full) in the original over thirty-four lessons, organized by genre into eight units. The sequence of these units reflects the successive emergence of eight major prose genres, while the lessons in each unit showcase that genre's prominent achievements through different historical periods. Readers of this book will gain exposure to the rich legacy of Chinese prose, with additional insight that comes from approaching texts in their original language. Comprehension and appreciation of selected texts is aided by notes on their historical and cultural contexts as well as by commentaries on their unique artistic features. These literary commentaries are provided by twelve contributors, all experts on individual prose genres. Famous, oft-quoted idioms and remarks are highlighted by shading and should be learned by heart"--

Recollections of Caulaincourt, Duke of Vicenza - Armand-Augustin-Louis Caulaincourt 2016-06-09

A great Napoleonic soldier's life-two volumes complete in one special edition Armand Caulaincourt was a principal figure of the Napoleonic epoch. Born in 1773, he was serving in the army of France at the age of 15. By 1801, he had been swept up by the tide of French revolution and politics, had risen in rank, been reduced to common soldier, risen again to colonel and twice suffered wounds in his thirteen campaigns. Becoming an aide to Napoleon, Caulaincourt's fortunes prospered during the imperial period and led to his becoming Duke of Vicenza in 1808. He strongly advised Napoleon not to invade Russia, but was ignored. He served during the Russian Campaign as Grand Ecuyer to the emperor being present at Borodino and upon the retreat from Moscow until Napoleon left the doomed army. Caulaincourt accompanied Napoleon on his return to France, becoming Grand Marshal of the Palace following the death of Duroc. The remainder of his career was spent engaged in diplomacy for which he had a considerable talent, particularly impressing Tsar Alexander I who subsequently used his influence to save Caulaincourt from arrest and execution following the Hundred Days. This good value Leonaur edition of the life of this outstanding man, contains the complete text of both volumes as they were originally published. Leonaur editions are newly typeset and are not facsimiles; each title is available in softcover and hardback with dustjacket; our hardbacks are cloth bound and feature gold foil lettering on their spines and fabric head and tail bands.
