Esta produção literária é uma contribuição do dedicado trabalho de mestrandos e doutorandos do Programa em Gerontologia Biomédica da Escola de Medicina da PUCRS. A obra aborda, de uma maneira simples, temas que poderão contribuir para um envelhecimento bem-sucedido. Baseada em informações

teóricas e práticas, engloba promoção de saúde, prevenção de doenças e tratamento de condições clínicas. Como retardar o envelhecimento, acessibilidade para idosos, intervenções nutricionais, meditação, música e memória, sexualidade, acidente vascular cerebral, obesidade, cuidados com os pés diabéticos, prevenção do câncer ginecológico, incontinência urinária, inflamação e envelhecimento, a importância

da avaliação das forças das mãos, discopatia degenerativa, delirium e cuidados paliativos são alguns dos artigos escritos por estes profissionais que têm como principal objetivo auxiliá-los a envelhecer com mais qualidade. Boa leitura!

Bonney's Gynaecological

Surgery - Tito Lopes

2018-09-04

Surgery is a core element of the clinical practice of gynaecology. Bonney's Gynaecological Surgery has been a firm favourite for gynaecological surgical practice since 1911. Specifically tailored for trainees in obstetrics and gynaecology, the text focuses on the most commonly performed procedures. The 12th edition will include a colour photo section. With greater emphasis on fundamental clinical skills and major updates on laparoscopic and robotic surgery, this classic text will be brought right up to date for the current trainee or junior consultant physician. Each chapter follows a consistent plan, guiding the

reader through each procedure from anatomy and indications to post-op considerations and complications. The text is also accompanied by surgical illustrations of unparalleled quality, ensuring that this volume will remain a valuable resource for all clinicians specializing in gynaecological surgery.

Atlas of Fetal Ultrasound -

Victor Bunduki 2017-11-25

The present book is an illustrated guide on fetal medicine, including a wealth of normal and pathological/malformations ultrasound images, throughout the whole pregnancy. Thus, the book intends to fill two gaps in once: The lack of a material discussing the basic principles of fetal ultrasound, which are the basement for a more efficient learning in fetal medicine. . The need for a thorough approach in fetal medicine, presenting both normal and pathological imaging, allowing a detailed evaluation of clinical conditions of importance in prenatal care and follow up. Manual de oncologia liccan -

João Carlos Simões 2021-09-01

Este livro, o Manual de Oncologia LICCAN (Liga Curitibana de Cancerologia), reflete o empenho dos acadêmicos em concretizar o sonho de atuar cada vez mais unidos e representar a conquista das atividades didáticas da Liga mesmo em tempos sombrios e de pouca afetividade da pandemia da COVID-19. Os capítulos foram estruturados de forma didática e são de autoria dos acadêmicos atuantes e selecionados pela Liga, e todos dedicados ao estudo da Oncologia nas dependências da Faculdade Evangélica Mackenzie do Paraná (FEMPAR) e do Hospital Universitário Evangélico Mackenzie (HUEM). Fiz, como

editor principal e fundador da LICCAN, as revisões sistemáticas e atualizações do material, para que o livro possa contribuir com o estudo e prática da Oncologia. Os capítulos são dispostos nos pilares da Oncologia – assim ensinado na disciplina de Oncologia: epidemiologia, atualizada em 2021, fatores de risco, diagnóstico, estadiamento realizado pela oitava edição do AJCC/TNM, tratamento sintetizado mas atualizado, e prognóstico.

Meus sinceros agradecimentos à acolhida pela editora CRV e a todos aqueles que contribuíram com este trabalho exemplar.

Comprehensive Cervical Cancer Control - World Health Organization 2006

Most women who die from cervical cancer, particularly in developing countries, are in the prime of their life. They may be raising children, caring for their family, and contributing to the social and economic life of their town or village. Their death is both a personal tragedy, and a sad and unnecessary loss to their family and their community.

Unnecessary, because there is

compelling evidence, as this Guide makes clear, that cervical cancer is one of the most preventable and treatable forms of cancer, as long as it is detected early and managed effectively. Unfortunately, the majority of women in developing countries still do not have access to cervical cancer prevention programmes. The consequence is that, often, cervical cancer is not detected until it is too late to be cured. An urgent effort is required if this situation is to be corrected. This Guide is intended to help those responsible for providing services aimed at reducing the burden posed by cervical cancer for women, communities and health systems. It focuses on the knowledge and skills needed by health care providers, at different levels of care.

Infertility in Women with Polycystic Ovary Syndrome -

clear evidence-based guidance on its treatment. The book opens by discussing anovulation, oocyte quality, and the endometrium in women with PCOS, infertility and subfertility cofactors, and the impact of PCOS phenotypes on fertility. All aspects of management are then thoroughly addressed. The available medical treatments for PCOS-related infertility - including antiestrogens, aromatase inhibitors, insulin-sensitizing drugs, and gonadotropins - are reviewed, and other potential therapeutic approaches, such as acupuncture and laparoscopic ovarian drilling, are assessed. Careful attention is also devoted to the role of lifestyle interventions. The use of controlled ovarian stimulation in infertile PCOS patients undergoing intrauterine insemination or in vitro fertilization is examined in detail, as are the benefits of in vitro maturation of oocytes. This book will be of value to all who are involved in the care of women with PCOS and related

infertility issues.

Biosocialities, Genetics and the Social Sciences - Sahra Gibbon
2007-07-20

Biosocialities, Genetics and the Social Sciences explores the social, cultural and economic transformations that result from innovations in genomic knowledge and technology. This pioneering collection uses Paul Rabinow's concept of biosociality to chart the shifts in social relations and ideas about nature, biology and identity brought about by developments in biomedicine. Based on new empirical research, it contains chapters on genomic research into embryonic stem cell therapy, breast cancer, autism, Parkinson's and IVF treatment, as well as on the expectations and education surrounding genomic research. It covers four main themes: novel modes of identity and identification, such as genetic citizenship the role of institutions, ranging from disease advocacy organizations and voluntary organizations to the state the production of biological

knowledge, novel life-forms, and technologies the generation of wealth and commercial interests in biology. Including an afterword by Paul Rabinow and case studies on the UK, US, Canada, Germany, India and Israel, this book is key reading for students and researchers of the new genetics and the social sciences - particularly medical sociologists, medical anthropologists and those involved with science and technology studies.

Diagnosis of Fetal

Abnormalities - G. Pilu

1999-06-15

Ultrasound is the main diagnostic tool in the prenatal detection of congenital abnormalities. The Fetal Medicine Foundation has recognized the importance of this tool by setting up a program of training and certification to help establish high standards of scanning on an international scale.

Diagnosis of Fetal

Abnormalities: The 18-23-Week Scan provides the basis of learning for the theoretical

component of this program.

The book is a complete, authoritative clinician's textbook on using ultrasound in the prenatal detection of congenital abnormalities. It summarizes the prevalence, etiology, prenatal sonographic features and prognosis for both common and rare fetal abnormalities.

Populações negligenciadas: um desafio no cuidado em saúde - Ana Carolina

Fensterseifer 2022-08-22

A Acta Médica dos formandos da Escola de Medicina da PUCRS simboliza o encerramento do ciclo acadêmico. Nesse sentido, a fim de se contemplar um

assunto que é discutido desde o primeiro dia da faculdade, mas que, paradoxalmente, não é discutido o suficiente, a ATM 2021 optou por abordar um tema de extrema importância: a saúde das populações vulneráveis. Para atuar em uma área como a medicina, em que a relação médico-paciente é a chave fundamental para um bom desfecho, é imprescindível o conhecimento das particularidades de cada pessoa e a adoção de estratégias customizadas. Dessa forma, o presente livro irá discorrer sobre algumas das várias populações negligenciadas, podendo servir como uma espécie de guia para um aperfeiçoamento do atendimento dessa complexa sociedade.

Tópicos Especiais em Ciências da Saúde: teoria, métodos e práticas 5 - 2022-05-31

Apresentar um livro é sempre uma responsabilidade e muito desafiador, principalmente por nele conter tanto de cada autor, de cada pesquisa, suas aspirações, suas expectativas, seus achados e o mais importante de tudo a disseminação do conhecimento produzido cientificamente. Nesta coletânea de Tópicos Especiais em Ciências da Saúde: teoria, métodos e

práticas 5, abrange diversas áreas da saúde, refletindo a percepção de vários autores. Portanto, a organização deste livro é resultado dos estudos desenvolvidos por diversos pesquisadores e que tem como finalidade ampliar o conhecimento aplicado à área de saúde evidenciando o quanto presente ela se encontra em diversos contextos organizacionais e profissionais, em busca da disseminação do conhecimento e do aprimoramento das competências profissionais e acadêmicas. Este volume traz quarenta e um (41) capítulos com as mais diversas temáticas e discussões, as quais mostram cada vez mais a necessidade de pesquisas voltadas para área da saúde. Os estudos abordam discussões como: câncer de próstata na terceira idade; hipodermóclise; câncer de colo do útero; Delirium; saúde mental; setor biofarmacêutico; plantas úteis à saúde; compostos bioativos vegetais; atenção farmacêutica; o uso indiscriminado de antibióticos; tratamento de IST's;

homossexualidade; mulher no climatério; parto vaginal; serviço público de saúde; trauma cranioencefálico; microbiota intestinal e a colite ulcerativa; atendimento humanizado; acompanhamento de pacientes indígenas portadores de hipertensão arterial sistêmica; combate a hipoxia em pacientes com Covid-19; câncer de colo do útero; doação de órgãos; nutrientes no cuidado da depressão; Aldeia da psicologia; pré-natal em pacientes atendidas na rede pública; Toxicidade dos parabens em produtos cosméticos; implementação da lei do medicamento genérico no mercado farmacêutico brasileiro; violência doméstica contra a mulher; diagnóstico precoce e o papel do enfermeiro na assistência à criança autista; exame preventivo de colo uterino; produtos de degradação de dipirona injetável; Infecções comunitárias do trato urinário em idosos; influência da alimentação e o padrão do sono infantil; acidentes domésticos

prevalentes na pessoa idosa; violência sexual incestuosa contra a criança; imagem corporal de mulheres; prevenção de lesões por pressão; desenvolvimento farmacotécnico; incidência do consumo de álcool e tabaco entre universitários; violência obstétrica e por fim, um estudo sobre o aspecto psicológico do paciente terminal e a trajetória da Diásaase. Por esta breve apresentação percebe-se o quão diverso, profícuo e interessante são os artigos trazidos para este volume, aproveito o ensejo para parabenizar os autores aos quais se dispuseram a compartilhar todo conhecimento científico produzido. Espero que de uma maneira ou de outra os leitores que tiverem a possibilidade de ler este volume, tenham a mesma satisfação que senti ao ler cada capítulo. Boa leitura!

COVID-19: Vaccine Distribution, Supply and Allocations - JAMES K. FARR
2021-03-17

Multiple federal agencies, through Operation Warp Speed, continue to support the development and manufacturing of vaccines and therapeutics to prevent and treat COVID-19. As of January 2021, two of the six vaccines supported by Operation Warp Speed have been authorized for emergency use, and vaccine distribution and administration have begun. Effective coordination and communication among federal agencies, commercial partners, jurisdictions, and providers is critical to successfully deploying COVID-19 vaccines and managing public expectations, especially because the initial supply of vaccine has been limited.

Improving Palliative Care for Cancer - National Research Council 2001-10-19

In our society's aggressive pursuit of cures for cancer, we have neglected symptom control and comfort care. Less than one percent of the National Cancer Institute's budget is spent on any aspect of palliative care research or education, despite the half million people who die of cancer each year and the larger number living with cancer and its symptoms. Improving Palliative Care for Cancer examines the barriers—scientific, policy, and social—that keep those in need from getting good palliative care. It goes on to recommend public- and

private-sector actions that would lead to the development of more effective palliative interventions; better information about currently used interventions; and greater knowledge about, and access to, palliative care for all those with cancer who would benefit from it.

Endometriosis in

Adolescents - Ceana H.

Nezhat 2020-11-13

Adolescent endometriosis is a
previously overlooked disease
in children, the true prevalence
of which is still unknown but
has been estimated between
19-73%. There are numerous
initial challenges faced by
adolescents suffering from
delayed or undiagnosed

endometriosis apart from
experiencing chronic pain,
such as: school/work
absenteeism, false
diagnoses/treatments,
erroneous physician referrals,
unnecessary radiological
studies, radiation exposure,
and emergency room visits as
well as early exposure to
narcotic pain medications and
subsequent drug tolerance,
resistance or even addiction.
This text presents a clear
history of physician and patient
understanding and awareness
of endometriosis in
adolescents. It lays the
groundwork for this condition
with background information
on endometriosis in general
followed by a more focused
look at endometriosis in
adolescents. Leading experts in
the field provide chapters on
the different locations where
endometriotic lesions can
present in adolescents as well
as identified risk factors and
concomitant diseases of which
it is important to be aware. In

Chesley's Hypertensive Disorders in Pregnancy -

Robert N. Taylor 2014-08-28

Chesley's Hypertensive Disorders in Pregnancy continues its tradition as one of the beacons to guide the field of preeclampsia research, recognized for its uniqueness and utility. Hypertensive disorders remain one the major causes of maternal and fetal morbidity and death. It is also a leading cause of preterm birth now known to be a risk factor in remote cardiovascular disease. Despite this the

hypertensive disorders remain marginally studied and management is often controversial. The fourth edition of Chesley's Hypertensive Disorders in Pregnancy focuses on prediction, prevention, and management for clinicians, and is an essential reference text for clinical and basic investigators alike. Differing from other texts devoted to preeclampsia, it covers the whole gamut of high blood pressure, and not just preeclampsia. Features new chapters focusing on recent discoveries in areas such as fetal programming, genomics/proteomics, and angiogenesis Includes extensive updates to chapters on epidemiology, etiological considerations, pathophysiology, prediction, prevention, and management Discusses the emerging roles of metabolic syndrome and obesity and the increasing incidence of preeclampsia Each section overseen by one of the editors; each chapter co-authored by one of the editors,

Direito De Família Em Perspectiva Interdisciplinar -

Fabrizio Boeckel 2013-08-12
O objetivo principal deste livro é desenvolver uma visão mais ampla do Direito de Família, deixando de lado assuntos e enfoques já exaustivamente trabalhados para apresentar novos olhares para aspectos atuais relacionados à família. Como na obra anterior, Direito sucessório, foi adotada uma perspectiva na qual o Direito de Família pudesse ser verdadeiramente relacionado a outros campos do ordenamento jurídico, tais como bioética, nanotecnologia e bullying, sem que isso afetasse o exame de sua essência. A intenção é provocar o debate, despertar novas ideias e convocar o operador do direito a abrir sua visão para matérias relacionadas à família, que

muitas vezes não foram abordadas no Livro IV do Código Civil de 2002. Até por isso se escolheu uma perspectiva interdisciplinar, convidando professores das mais variadas áreas do Direito, alguns associados a profissionais da Psicologia para analisar, por exemplo, não só os aspectos jurídicos da alienação parental, mas também os psicológicos.

ambulatorial - Lúcio Sarubbi
Fillmann 2022-08-22

O consultório médico é o principal ponto de confluência entre o profissional de saúde e o indivíduo que busca assistência. É nesse ambiente simples que o primeiro contato se estabelece. Nesse primeiro encontro, definimos a abordagem diagnóstica, sendo planejado, e muitas vezes inteiramente realizado, o tratamento médico necessário. A prática assistencial ambulatorial é a base da construção de uma medicina eficiente e humanizada. É no ambiente extra-hospitalar que a maioria das pessoas serão atendidas. Refletindo a importância desse cenário, reunimos especialistas de diversas áreas de atuação e

elaboramos textos de fácil compreensão para estudantes e jovens médicos recém-formados que buscam diretrizes atualizadas sobre temas relevantes e que facilitem e promovam uma assistência médica ambulatorial de qualidade. *Modern Colposcopy Textbook and Atlas* - American Society for Colposcopy and Cervical Pathology 2011-12-28
The first two editions of this book were published by the American Society for Colposcopy and Cervical Pathology (ASCCP). This product is considered the standard of colposcopy and has the reputation of being the best selling educational teaching module for the physician, resident, or advanced practice clinician who wishes to bridge the gap between the obvious need for increased early detection of cervical, vaginal, and vulvar disease and the intensive education required for colposcopy. The purpose of the society and the book is to provide education about the lower genital tract through the
