*SpongeBob SquarePants and Philosophy* - Joseph J. Foy

2011-08-09

SpongeBob SquarePants and Philosophy introduces fans of SpongeBob SquarePants to some of the great thinkers and questions in philosophy. The essays can be shared by young and old alike, kindling new interest in philosophy and life's big questions. What keeps SpongeBob "reeling in" major audiences on a daily basis is that underneath the

lighthearted and whimsical exterior are the seeds of philosophical discussions about identity and the self, our obligations toward others, benefits and tensions of the individual in community, principles of the marketplace and environmental ethics, and questions of just how exactly Jack Kahuna Laguna can build a fire at the bottom of the ocean. (Okay, so perhaps we don't have an answer for that last one, but maybe if you look into that fire long enough the answer will be revealed.) The book begins with a section exploration of the major characters of the series. For instance, chapter 1 uses the philosophies of Aristotle to demonstrate why SpongeBob, more than any other character in the series, is defined by a life of well-being and flourishing. Chapter two provides an assessment of SpongeBob's best friend, Patrick Star.

Monster, She Wrote - Lisa Kröger 2019-09-17

Meet the women writers who defied convention to craft some of literature's strangest tales, from Frankenstein to The Haunting of Hill House and beyond. Frankenstein was just the beginning: horror stories

and other weird fiction wouldn't exist without the women who created it. From Gothic ghost stories to psychological horror to science fiction, women have been primary architects of speculative literature of all sorts. And their own life stories are as intriguing as their fiction. Everyone knows about Mary Shelley, creator of Frankenstein, who was rumored to keep her late husband's heart in her desk drawer. But have you heard of Margaret "Mad Madge" Cavendish, who wrote a science-fiction epic 150 years earlier (and liked to wear topless gowns to the theater)? If you know the astounding work of Shirley Jackson, whose novel The Haunting of Hill House was reinvented as a Netflix series, then try the psychological hauntings of Violet Paget, who was openly involved in long-term romantic relationships with women in the Victorian era. You'll meet celebrated icons (Ann Radcliffe, V. C. Andrews), forgotten wordsmiths (Eli

Colter, Ruby Jean Jensen), and today's vanguard (Helen Oyeyemi). Curated reading lists point you to their most spine-chilling tales. Part biography, part reader's guide, the engaging write-ups and detailed reading lists will introduce you to more than a hundred authors and over two hundred of their mysterious and spooky novels, novellas, and stories.

Tall Tales - Al Jaffee  
2015-01-06

Tall Tales was an innovative newspaper strip syndicated internationally by the New York Herald Tribune from 1957-1963. Whereas newspaper strips are square, single-panel or multiple-panel horizontal gag cartoons, Al Jaffee, known for the Fold-In in MAD Magazine, once again altered the format of his work to create a vertical strip—the first, and last, in newspaper history. Tall Tales contains the best 120 wordless strips out of over 2,200, scanned from the original files. The book features a new preface by Jaffee and an introduction by Stephen Colbert of The Colbert Report. Wet - Stacy Kestwick  
2015-05-09

Doughnuts were her weakness. If Sadie Mullins hadn't been running on the beach to burn off the calories from her doughnut addiction, she wouldn't have noticed the man

not moving out in the water. Wouldn't have dived in after him. Wouldn't have met West Montgomery. The cocky bastard should have been thankful, grateful even. Of course, he wasn't. That should have been the end of it. Of course, it wasn't. Damn doughnuts.

Unbored - Joshua Glenn  
2013-07-18

Unbored is the book every modern child needs. Brilliantly walking the line between cool and constructive, it's crammed with activities that are not only fun and doable but that also get kids standing on their own two feet. If you're a kid, you can: -- Build a tipi or an igloo -- Learn to knit -- Take stuff apart and fix it -- Find out how to be constructively critical -- Film a stop-action movie or edit your own music -- Do parkour like James Bond -- Make a little house for a mouse from lollipop sticks -- Be independent! Catch a bus solo or cook yourself lunch -- Make a fake exhaust for your bike so it sounds like you're revving up a motorcycle -- Design a board game -- Go

camping (or glamping) -- Plan a road trip -- Get proactive and support the causes you care about -- Develop your taste and decorate your own room -- Make a rocket from a coke bottle -- Play farting games There are gross facts and fascinating stories, reports on what stuff is like (home schooling, working in an office...), Q&As with inspiring grown-ups, extracts from classic novels, lists of useful resources and best ever lists like the top clean rap songs, stop-motion movies or books about rebellion. Just as kids begin to disappear into their screens, here is a book that encourages them to use those tech skills to be creative, try new things and change the world. And it gets parents to join in. Unbored is fully illustrated, easy to use and appealing to young and old, girl and boy. Parents will be comforted by its anti-perfectionist spirit and humour. Kids will just think it's brilliant.

Soaked - Stacy Kestwick  
2016-03-17

Having hope was her weakness. If Sadie Mullins hadn't started to believe in love again, hadn't let herself fall for him, she wouldn't be feeling this way. Wouldn't have her heart breaking. Wouldn't regret meeting West Montgomery. The cocky bastard should have left her alone, let her forget about him. Let her move on with her life. Of course, he didn't. That could have been the end of it. Of course, it wasn't. Damn hope.
