The Unknown Eastern Front - Rolf-Dieter Müller 2014-03-27

When Hitler launched Operation Barbarossa with his attack on the Soviet Union in June 1941, the Wehrmacht deployed 600,000 troops to the Eastern Front. Their numbers were later swelled by a range of foreign volunteers so that, at the height of World War II, astonishingly one in three men fighting for the Germans in the East was not a native German. Hitler's declaration of the 'struggle against Bolshevism' reverberated throughout all of Europe - among convinced fascists as well as among non-Russian eastern Europeans seeking to regain their independence from the USSR. Many of these volunteers subsequently became involved in the atrocities of the Wehrmacht and the SS. Vilified by Hitler for their supposed failures, condemned and forgotten by their homelands for treason and collaboration, their involvement in the war has been largely ignored or swept aside by historians. Rolf-Dieter Müller here offers a fascinating new perspective on a little-known aspect of World War II.

Darkness at Noon - Arthur Koestler 2009-11-24

Originally published in 1941, Arthur Koestler's modern masterpiece, *Darkness At Noon*, is a powerful and haunting portrait of a Communist revolutionary caught in the vicious fray of the Moscow show trials of the late 1930s. During Stalin's purges, Nicholas Rubashov, an aging revolutionary, is imprisoned and psychologically tortured by the party he has devoted his life to. Under mounting pressure to confess to crimes he

did not commit, Rubashov relives a career that embodies the ironies and betrayals of a revolutionary dictatorship that believes it is an instrument of liberation. A seminal work of twentieth-century literature, *Darkness At Noon* is a penetrating exploration of the moral danger inherent in a system that is willing to enforce its beliefs by any means necessary.

The Napoleon of Notting Hill - Gilbert Keith Chesterton 1904

Chesterton's first novel is set in London in 1984, eighty years in the future, where political indifference has swept over the land, and a new King jokingly decrees a revival of medieval heraldry throughout London. The ruse is taken seriously by the title character, Adam Wayne, who aims to fight to the finish to defend Notting Hill. At once humorous and absorbing, it is a fine example of Chesterton's first-rate storytelling.

Custody of the Eyes - Diamela Eltit 2005

A victimized woman victimizes by identical means: alienating surveillance, of her son and herself.

Reinventing Data Protection? - Serge Gutwirth 2009-05-24

data. Furthermore, the European Union established clear basic principles for the collection, storage and use of personal data by governments, businesses and other organizations or individuals in Directive 95/46/EC and Directive 2002/58/EC on Privacy and Electronic communications. Nonetheless, the twenty-first century citizen - utilizing the full potential of what ICT-technology has to offer - seems to develop a

digital persona that becomes increasingly part of his individual social identity. From this perspective, control over personal information is control over an aspect of the identity one projects in the world. The right to privacy is the freedom from unreasonable constraints on one's own identity.

Transaction data—both traffic and location data—deserve our particular attention. As we make phone calls, send e-mails or SMS messages, data trails are generated within public networks that we use for these communications. While traffic data are necessary for the provision of communication services, they are also very sensitive data. They can give a complete picture of a person's contacts, habits, interests, activities and whereabouts. Location data, especially if very precise, can be used for the provision of services such as route guidance, location of stolen or missing property, tourist information, etc. In case of emergency, they can be helpful in dispatching assistance and rescue teams to the location of a person in distress. However, processing location data in mobile communication networks also creates the possibility of permanent surveillance.

Journalism After September 11 - Barbie Zelizer 2011-04-22

Praise for the first edition: This collection of essays comes mainly from academics but nobody should bridle at theorists lecturing practitioners. They properly challenge the way September 11th was reported - in a way that's both an endorsement of the role of the media and a wake-up call on its failures . . . anyone interested in our trade should read it.' - Roger Mosey, Ariel 'A thoughtful and engaging examination of the effects of 9/11 on the field of journalism. Its unique aim is to discuss the impact of the attack as a personal trauma and its current and future effects on journalism and the reporting of the news. . . highly recommended.' - Library Journal Journalism After September 11 examines how the traumatic attacks of that day continue to transform the nature of journalism, particularly in the United States and Britain. Familiar notions of what it means to be a journalist, how best to practice journalism, and what the public can reasonably expect of journalists in the name of democracy, were shaken to their foundations. Ten years on, however,

new questions arise regarding the lasting implications of that tragic day and its aftermath. Bringing together an internationally respected collection of scholars and media commentators, Journalism After September 11 addresses topics such as: journalism and public life at a time of crisis; broadsheet and tabloid newspaper coverage of the attacks; the role of sources in shaping the news; reporting by global news media such as CNN; Western representations of Islam; current affairs broadcasting; news photography and trauma; the emotional well-being of reporters; online journalism; as well as a host of pertinent issues around news, democracy and citizenship. This second edition includes four new chapters - examining Arabic newspaper reporting of the attacks, the perceptions of television audiences, national magazine coverage of the ensuing crisis, and the media politics of 'othering' - as well as revised chapters from the first edition and an updated Introduction by the co-editors. A foreword is provided by Victor Navasky and an afterword by Phillip Knightley.

The Private Life of Helen of Troy - John Erskine 1925

The Hero - Baltasar Gracián y Morales 1726

Futurism - Lawrence S. Rainey 2009

In 1909, F.T. Marinetti published his incendiary Futurist Manifesto, proclaiming, "We stand on the last promontory of the centuries!!" and "There, on the earth, the earliest dawn!" Intent on delivering Italy from "its fetid cancer of professors, archaeologists, tour guides, and antiquarians," the Futurists imagined that art, architecture, literature, and music would function like a machine, transforming the world rather than merely reflecting it. But within a decade, Futurism's utopian ambitions were being wedded to Fascist politics, an alliance that would tragically mar its reputation in the century to follow. Published to

coincide with the 100th anniversary of the founding of Futurism, this is the most complete anthology of Futurist manifestos, poems, plays, and images ever to be published in English, spanning from 1909 to 1944. Now, amidst another era of unprecedented technological change and cultural crisis, is a pivotal moment to reevaluate Futurism and its haunting legacy for Western civilization.

The Bottom of the Sky - Rodrigo Fresán 2018

An homage to American science fiction films and novels, *The Bottom of the Sky* is the story of two boys, a disturbingly beautiful girl, and their joint love for other planets. Their friendship is formed during the heyday of sci-fi writing, a time defined by almost cult-like literary groups and pulp covers awash in gaudy alien landscapes. But time has passed, and the three members of *The Faraways* have drifted apart. The future they once dreamed of is now happening, but interstellar travel to Urkh 24 has been replaced with 9/11, the Gulf War, and a mysterious 'incident' at the centre of it all.

Daughter of the River - Ying Hong 1998

A Chinese woman shares her family's often traumatic experience in Communist China, from her birth during the Great Famine of the early 1960s through the horrors of the Cultural Revolution and the massacre at Tiananmen Square. Reprint.

Cave, City, and Eagle's Nest - David Carrasco 2007

The culmination of recent restoration and analysis, these richly illustrated essays examine the history and meaning of one of Mesoamerica's surviving documents dating from the 1540s.

We - Yevgeny Zamyatin 2022-02-04

An inspiration for George Orwell's 1984 and a precursor to the work of Philip K. Dick, Ayn Rand (*Anthem*), and Stanislaw Lem, *We* is a classic of dystopian science fiction ripe for rediscovery. Written in 1921 by the Russian revolutionary Yevgeny Zamyatin, this story of the thirtieth century is set in the One State, a society where all live for the collective good and individual freedom does not exist. Although fiction, it is a story informed by the war communism of the Soviet Union, and was of course completely banned in Russia. But the collectivism is of a recognizable

type, one that threatens every society in all times. To come to understand its features and markings is the benefit of the dystopian genre. The reality that dawns on the reader is that this seeming fiction is all-too real in our times. The novel takes the form of the diary of state mathematician D-503, who, to his shock, experiences the most disruptive emotion imaginable: love for another human being. At once satirical and sobering, *We* speaks to all who have suffered under repression of their personal, economic, and cultural freedom. "One of the greatest novels of the twentieth century." -Irving Howe.

Journey Through Utopia - Taylor & Francis Group 2021-10-10

Good Children of the Flower - Hong Ying 2016-08-09

Decades after successful Chinese writer Hong Ying escaped the slums of her childhood, she discovers that time and distance cannot protect her from the past. When word of her mother's imminent death reaches Hong Ying in London, she races home to Chongqing only to find she's too late. While she tries to come to terms with her estranged mother's passing, she must navigate her family's delicate social structure and their long-held silence. Soon Hong Ying starts to ask unwelcome questions, and as old secrets are exposed, she must face not only what is revealed but also her own choices in love and marriage during the many years of her absence. In this bittersweet memoir, internationally bestselling author Hong Ying explores trauma, forgiveness, and truth and attempts to reconcile her painful memories with the beautiful life she hopes to create."

China and Europe - Adolf Reichwein 1925

Turing's Delirium - Edmundo Paz Soldán 2007-06-01

Set in a near-future Bolivia, this "hybrid of cyberpunk and political thrillers [is] sleek, brisk, and clever" (*Entertainment Weekly*). Set against a backdrop of advancing globalization, this award-winning, "fast-paced" literary thriller puts a cutting-edge digital spin on the age-old fight between the oppressed and the oppressor (*The Miami Herald*). The South American town of Río Fugitivo is on the verge of a social revolution—not

a revolution of strikes and street riots, but a war waged electronically, in which computer viruses are the weapons and hackers the revolutionaries. In this war of information, the lives of a variety of characters become entangled: Kandinsky, the mythic leader of a group of hackers fighting the government and transnational companies; Albert, the founder of the Black Chamber, a state security firm charged with deciphering the secret codes used in the information war; and Miguel "Turing" Sáenz, the Black Chamber's most famous codebreaker, who begins to suspect his work is not as innocent as he once supposed. All converge to create a "propulsive" novel about personal responsibility and complicity in a world defined by the ever-increasing gulfs between the global and the local, government and society, the virtual and the real (Publishers Weekly, starred review). Turing's *Delirium* "combines the excitement of a political thriller with the intellectual ambition of a literary novel" (San Francisco Chronicle). "If William Gibson were a Bolivian, this might be the kind of novel he'd be writing." —Chicago Tribune

The Flamethrowers - Roberto Arlt 2018-06-26

Down and Out in Paris and London - George Orwell 2021-01-07

This new edition of Orwell's 1933 text comes with an authoritative introduction, explanatory notes, and a select bibliography to help first-time readers situate the novel in its contexts and offer a fresh new re-evaluation of the work to returning readers.

Animal Farm - George Orwell 1990

George Orwell's famous satire of the Soviet Union, in which "all animals are equal but some animals are more equal than others."

Erewhon - Samuel Butler 2019-06-14

Erewhon is a novel by Samuel Butler. The title is also the name of a country, supposedly discovered by the protagonist. In the novel, it is not revealed where *Erewhon* is, but it is clear that it is a fictional country. Butler meant the title to be read as the word *Nowhere* backwards, even though the letters "h" and "w" are transposed, therefore *Erewhon* is an anagram of *nowhere*. The book is a satire on Victorian society. The

greater part of the book consists of a description of *Erewhon*. The nature of this nation is intended to be ambiguous. At first glance, *Erewhon* appears to be a Utopia, yet it soon becomes clear that this is far from the case. Yet for all the failings of *Erewhon*, it is also clearly not a dystopia, such as that depicted in George Orwell's *Nineteen Eighty-Four*. As a satirical utopia, *Erewhon* has sometimes been compared to *Gulliver's Travels* (1726), a classic novel by Jonathan Swift; the image of Utopia in this latter case also bears strong parallels with the self-view of the British Empire at the time. It can also be compared to William Morris' novel *News from Nowhere*. *Erewhon* satirizes various aspects of Victorian society, including criminal punishment, religion and anthropocentrism. For example, according to *Erewhonian* law, offenders are treated as if they were ill whilst ill people are looked upon as criminals. Another feature of *Erewhon* is the absence of machines; this is due to the widely shared perception by the *Erewhonians* that they are potentially dangerous. This last aspect of *Erewhon* reveals the influence of Charles Darwin's evolution theory.

The Road to Wigan Pier - George Orwell 2021-01-07

The Road to Wigan Pier is Orwell's 1937 study of poverty and working-class life in northern England.

[The Global Competitiveness Report 2002-2003](#) - World Economic Forum 2003-03-27

The annual Global Competitiveness Report is widely recognized as the world's leading cross-country comparison of data and information relating to economic competitiveness and growth. Over the years, the Report has become the most authoritative and comprehensive assessment of the comparative strengths and weaknesses of national economies throughout the world. The World Economic Forum continues its tradition of excellence with *The Global Competitiveness Report 2002-2003*, which provides the most updated and recent data, rankings and analysis of 75 industrialized and emerging economies and the latest thinking and research from prominent academics and international

institution leaders on global competitiveness. This year's report begins by presenting the widely quoted global competitive index that really comprises two indices—one for growth and one for productivity. It then provides global and regional analyses, with examinations of the competitive landscapes of Africa., Asia, Central and Eastern Europe and Latin America. Essays on a wide range of special topics follow, including national innovative capacity, governance, foreign direct investment, and trade performance. The Report concludes with detailed country profiles, data presentation and an exhaustive survey of senior business executives that touches on business conditions, infrastructure, the character of the regulatory regime, the quality of government, organized labor, corruption and tax evasion. The Global Competitiveness Report 2002-2003 provides essential information for business leaders, government decision-makers and for academics to examine the critical challenges facing a multitude of the world's economies.

The Life and Work of Harold Pinter - Michael Billington 1997

A biography of the playwright Harold Pinter and a study of his work as writer, actor and director. His political beliefs are viewed from the perspective of his life, which he began as an only child in Hackney, where he was one of a group of youths delighting in intellectual wordplay and badinage.

Imagining Urban Futures - Carl Abbott 2016-09-13

Carl Abbott, who has taught urban studies and urban planning in five decades, brings together urban studies and literary studies to examine how fictional cities in work by authors as different as E. M. Forster, Isaac Asimov, Kim Stanley Robinson, and China Miéville might help us to envision an urban future that is viable and resilient. *Imagining Urban Futures* is a remarkable treatise on what is best and strongest in urban theory and practice today, as refracted and intensely imagined in science

fiction. As the human population grows, we can envision an increasingly urban society. Shifting weather patterns, rising sea levels, reduced access to resources, and a host of other issues will radically impact urban environments, while technology holds out the dream of cities beyond Earth. Abbott delivers a compelling critical discussion of science fiction cities found in literary works, television programs, and films of many eras from *Metropolis* to *Blade Runner* and *Soylent Green* to *The Hunger Games*, among many others.

Computers, Surveillance, and Privacy - David Lyon 1996

Computers, Surveillance, and Privacy was first published in 1996. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. From computer networks to grocery store checkout scanners, it is easier and easier for governments, employers, advertisers, and individuals to gather detailed and sophisticated information about each of us. In this important new collection, the authors question the impact of these new technologies of surveillance on our privacy and our culture. Although surveillance—literally some people "watching over" others—is as old as social relationships themselves, with the advent of the computer age this phenomenon has acquired new and distinctive meanings. Technological advances have made it possible for surveillance to become increasingly global and integrated—both commercial and government-related personal data flows more frequently across national boundaries, and the flow between private and public sectors has increased as well. Addressing issues of the global integration of surveillance, social control, new information technologies, privacy violation and protection, and workplace surveillance, the contributors to *Computers, Surveillance, and Privacy* grapple with the ramifications of these concerns for society today. Timely and provocative, this collection will be of vital interest to anyone concerned with resistance to social control and incursions into privacy. Contributors: Jonathan P. Allen, Colin J. Bennett, Simon G. Davies, Oscar H. Gandy Jr., Calvin C. Gotlieb, Rob Kling, Gary T. Marx, Abbe Mowshowitz, Judith A. Perrolle, Mark Poster, Priscilla M. Regan,

James B. Rule. David Lyon is professor of sociology at Queen's University, Canada. His previous books include *The Electronic Eye: The Rise of Surveillance Society* (Minnesota, 1994). Elia Zureik is also professor of sociology at Queen's University, Canada, and coedited (with Dianne Hartling) *The Social Context of the New Information and Communication Technologies* (1987).

The Last Resort - Carmen Posadas 2006

Depressed over the death of his mother and feeling that there is nothing left to live for, Rafael Molinet, an elderly, introverted Spaniard living in London, makes plans for his suicide, but his plans take a backseat when he becomes involved in the investigation into the murder of a Madrid playboy at a lavish Moroccan resort. By the author of *Little Indiscretions*. Reprint. 20,000 first printing.

Mechanical Sound - Karin Bijsterveld 2008

Tracing efforts to control unwanted sound--the noise of industry, city traffic, gramophones and radios, and aircraft--from the late nineteenth to the late twentieth century.

Brave New World - Aldous Huxley 2011-07-01

Ranked as one of the 100 best English-language novels of the 20th century by the Modern Library, *Brave New World* is one of the first truly dystopian novels. The title's fantastic world is derived from Huxley's understanding of history and current events—including the aftermath of the Russian Revolution and World War I—and its depiction of the conflict between progress and the human spirit still resonates today.

[Cinema and Soviet Society from the Revolution to the Death of Stalin](#) - Peter Kenez

In this updated edition of his classic text, Kenez covers the roots of Soviet cinema in the film heritage of pre-Revolutionary Russia, tracing the changes generated by the Revolution of 1917.

Homage to Catalonia - George Orwell 2021-03-09

Homage to Catalonia is a bracing personal account of George Orwell's time fighting for the Republican army in the Spanish Civil War. Part of the Macmillan Collector's Library; a series of stunning, clothbound, pocket sized classics with gold foiled edges and ribbon markers. These

beautiful books make perfect gifts or a treat for any book lover. This edition is introduced by Helen Graham, a leading historian on the Spanish Civil War. George Orwell came to Spain in 1936 as a journalist, intending to report on the civil war. But on arrival in Barcelona he witnessed a revolution against the Spanish bourgeois in full swing - with the working class in the saddle - and almost immediately he joined the Republican militia to fight for this worthy cause. In *Homage to Catalonia* Orwell retells his experience of the Spanish Civil War with brutal honesty, from the painful stasis of the front line to the mania of street fighting, and from the tension of being in hiding to the relief of coming home to England. A unique first-hand account of war, it is also critical in our understanding of Orwell's political passions.

Harold Pinter's Politics - Charles Grimes 2005

Harold Pinter's Politics examines the expression of Pinter's political beliefs across every aspect and era of his artistic career. The fierce political stances of this important dramatist have been embodied in plays, screenplays, and his career as a theatrical director. Traditionally associated with absurdism, minimalism, and the dramatization of uncertainty, Pinter's name is now a byword for anti-authoritarian and anti-American politics. This transition has been in evidence from the earliest phases of his writing; all of Pinter's work emerges from his political views. His uniqueness as a political artist is that he is pessimistic about changing his audience or making it see its complicity in the horrors of the modern world. These horrors are dramatized through images of torture and oppression culminating in moments of silence that index the full extent of the destruction unleashed by the forces of power against dissidence.

[Nineteen Eighty-Four](#) - George Orwell 2021-01-09

"*Nineteen Eighty-Four: A Novel*", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "*Nineteen Eighty-Four*" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society.

Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

Media Representations of September 11 - Steven M. Chermak 2003

The terrorist attacks on September 11th were unique and unprecedented in many ways, but the day will stand in our memories particularly because of our ability to watch the spectacle unfold. Each contributor to this volume offers a fresh, engaging perspective on how the media transformed the 9/11 crisis into an ideological tour de force, examining

why certain readings of these events were preferred, and discussing the significance of those preferred meanings.

Worlds in Collision - Ken Booth 2002-06-11

Bringing together an outstanding group of thinkers, *Worlds in Collision* is the essential book for understanding the debate about the future of global order in the wake of international terrorism and the war in Afghanistan. For years to come, if not decades, the 'war on terrorism' will be the defining paradigm in the struggle for global order. When the victim of such horrific terror attacks happens to be the world's only superpower, the agenda is set for the future global order. This book, offering a comprehensive and provocative collection of viewpoints from leading intellectuals from a number of countries, will help readers understand the ways in which our worlds collided on September 11, 2001. Not only does it comprehensively address the first phase of the war against international terrorism, the book also looks at the wider regional and global ramifications. *Worlds in Collision* is ultimately about more than the war on terrorism, it concerns itself with the possibilities for re-shaping global order on the basis of new kinds of politics.

The History of the Russian Revolution - Leon Trotsky 1980-01-01

The social, economic, and political dynamics of the first socialist revolution as explained by one of the principal leaders of this victorious struggle that changed the course of history in the twentieth century.
