My First Hundred Years in Hollywood - Jack L. Warner 2017-04-20

On August 5, 1958, Jack Warner spent six hours playing baccarat, taking \$4,000 from the tables at Cannes before stepping out into the night. He drove home along a winding road in a sporty little Alfa-Romeo, and was negotiating a tricky turn when a truck leapt in front of him. The Alfa was destroyed, but Warner was saved—thrown out the door to land forty feet from the burning car. Around the world, the newspapers told of the death of the king of Hollywood. But Warner wasn't finished yet. One of the true legends of the movie business, Warner had wielded absolute power over his studio since the silent era. He produced *Casablanca* and *The Jazz Singer*; he feuded with Errol Flynn, and gave the green light to *What Ever Happened to Baby Jane?* starring Joan Crawford and Bette Davis. As the studio system crumbled, Warner's control remained unquestioned, and in this engaging autobiography, he shows the man behind the crown. Jack L. Warner is portrayed by Stanley Tucci in the Ryan Murphy TV series *Feud*.

An Occurrence at Owl Creek (Annotated) - Ambrose Bierce 2021-03-30

Differentiated book- It has a historical context with research of the time- This book contains a historical context, where past events or the study and narration of these events are examined. The historical context refers to the circumstances and incidents surrounding an event. This context is formed by everything that, in some way, influences the event when it happens. A fact is always tied to its time: that is, to its characteristics. Therefore, when analyzing events that took place tens, hundreds or thousands of years ago, it is essential to know the historical context to understand them. Otherwise, we would be analyzing and judging what happened in a totally different era with a current perspective.

The Red Tree - Shaun Tan 2010

Self-talk in Sport - Alexander T. Latinjak 2020-04-09

Athletes are naturally exposed to significant psychological challenges in sports, but do not wait helplessly for the assistance of sports psychologists or trainers. Instead, they practise one form or another of self-regulation. *Self-talk in Sport* explores one such self-regulatory strategy: self-talk, the inner voice that accompanies every human being throughout their lives. Over time, research has revealed many secrets of self-talk in sport, though many others remain unveiled. This book offers you the opportunity to discover the multiple identities of our self-talk, how the "inner coach" serves as a rational counterpart to the irrational self, and what we need to do to develop our inner voice to reach its maximum self-regulatory potential. There is a general need for concrete interventions in sport, exercise, and performance psychology. In addition, the autonomous functioning of people is a central aim of psychological interventions that align with positive psychology and focus on people's strengths rather than weaknesses. In this volume, researchers and applied practitioners are shown how they can use self-talk interventions to strengthen people's rational self-regulation in order to deal with a variety of situations that apply to both sport and other exercise and performance contexts. Since self-talk is a tangible result of cognitive processes and inner experiences that researchers and applied practitioners can barely access, *Self-talk in Sport* is a tool for sports psychologists to understand and interact with hidden parts within athletes that have a major impact on sport and exercise experiences and performance. A book demonstrating the diverse - both rational and irrational identities - of self-talk, as well as specific interventions to change the inner dialogue of athletes, is a fundamental piece in the education of sport scientists.

Drawing - Francis D. K. Ching 1989-09-15

"Drawing relies on a clear vision. It also requires thought which, in turn, builds understanding. Drawing cannot be detached from seeing and thinking about the fundamental nature of the subject matter being represented. The knowledge and understanding gained through drawing from life directly enhances our ability to draw from the imagination. Just as thought can be put into words, ideas can be made visible in a drawing to promote visual thinking and further stimulate the imagination. Once what is seen or imagined is made visible in a drawing, the image takes on a life of its own and communicates graphically. However eloquently or crudely, all drawings, speak to the eye." From the Preface . Francis D.K. Ching

The Horse and Jockey from Artemision - Seán Hemingway

2004-07-08

In 1928, and again in 1937, parts of a large-scale bronze horse and nearly complete jockey were recovered from the sea off Cape Artemision in Greece, where they had gone down in a shipwreck. These original Hellenistic sculptures, known together as the "Horse and Jockey Group from Artemision," are among the very few surviving bronze sculptures from antiquity. Seán Hemingway has been allowed by the National Museum in Athens to investigate the horse and jockey statuary group as

no one ever has before, and in this book, combining archaeological and art historical methods of investigation, he provides the first in-depth study of this rare and beautiful monument. New technical analyses of the statues by Helen Andreopoulou-Mangou form an appendix to the volume. Hemingway begins with an introduction to Hellenistic bronze statuary and what we know about this extraordinary class of ancient sculpture. He then recounts with riveting detail the discovery and painstaking restoration of the statue group, describing the technique of its creation and carefully reviewing scholarly knowledge and speculation about it. He also provides a valuable compendium of what is known about ancient Greek horse racing, the most prestigious and splendid of all Greek sports. After a full consideration of all the available evidence, he speculates further about the work's original meaning and function. His study provides a glimpse of the excellence achieved by Hellenistic bronze sculptors, and it will become the definitive resource on this unique sculpture from ancient Greece.

Just Drawings - Wagner Anarca "Papis" 2013-05-10

My buddy Wagner is a nice friend... He loves so much to draw and sometimes even forget that I'm just there waiting for us to play together ... Sometimes whenever he stares at me, I think that he will throw a ball for me to grab in the air and show-off for him. But then he looks back and go for his notebook, and stares back at me like a child scribbling ... Sometimes he talks to me with in a very strange and weird voice; I fell a little afraid of the way he does that. There are times I do not understand why after he wets me and he seem to regret it because he immediately dry me up with a nice smelling towel. He taught me many things of his little world like sit, stop, dance, run , pee in right places and to play ball - that I enjoy so much ! I can state here that he really loves his drawings much more than me because he is always there playing with his notebook....
